On or about the 13th day of October, 1841, I was ta-On or about the 13th day of October, 1541, I was taken with a violent pain in the side, near the liver, which continued for about five days, and was followed by the breaking of an ulcer, or abscess, inwardly, which relieved the pain a litle, but caused me to throw up a great quantity of offensive matter, and also much blood. Being greatly alarmed at this, I applied to a physician, but he said he thought he could do but little for me, except give me sôme Mercury Pills, which I refused to take, feeling satisfied that they could do me no good many other remedies were then procured by my wife and friends, but none did me any good—and the discharge of blood and corruption still continued every few days, and at last became so offensive, that I could scarcely breathe. I was also seized with a violent Cough, which at times caused me to raise much more scarcely breathe. I was also seized with a violent Cough, which at times caused me to raise much more blood than I had done before—and my disease continued in this, way, still growing worse, until February, when all hope of my recovery was given up, and my friends all thought I would die of a salloping Consumption. At this moment, when my life was apparently drawing near its close, I heard of Dr. Wistar's Balsam of Wild Cherry, and got a bottle, which relieved me immediately, and, by the use of only three bottles of this medicine. all my pains were removed—my cough and spitting of blood and corruption entirely stopped, and in a few weeks my health was so far restored, as to enable me to work at my trade, (which is a carpenter,) and up to this time, I have enjoyed good health.

If HELEN HAD WORN A WIG, Would If Iffles HAD WORN A WIB, WOuld Menclaus ever have married her, would Pavis ever have made love to her, would Rector ever have been slain by Achilles, or Froy burned? Any debating society would unanimously decide these questions in the negative.—Pavis fell in love with Helen partly on account of her eyes, but chiefly on account of her luxuriant hair, while she was equally smitten with, what Homer call his 'hyacinthian curls.' Had both their heads been shaved, that material tenderness would have every acted in half their mutual tenderness would have evaporated in half an hour. Think of that young gentlemen, whose hair ar hour. Think of that young gentlemen, whose hair is getting more and more sparse every day—think of that young ladies, upon whose caputs the hairs are getting, tike Angel's visits, few and far between. Love impers among your tresses, while the shelter remains. He plays at bo-prop through your carls, and as he darts from cowert to covert, shoots his arrows on every side; but when they are gone, he makes his exit. Shall we tell you a charm to bring him back! We will. Apply Jayne's Hair Tonic to the bald places, and a richer and more luxuriant growth than that you have lost, will soon allure him back. Thousands have tried the preparation and testif, to its virtues, as a restorer of the hair.

RHEUMATISM AND GOUT.—Wright's Indian Vegetable Pills, are a most extraordinary medicine for the cure of Rheumatism and Gout; because they not only cleanse the stomach and bowels of those morbid humors which, if taken into the-circulation and thrown upon the membrane and muscle, are the cause of the above painful upaladies, but they excite the absorbent vessels, to take up that which is already deposited, and therefore are absolutely certain to make a perfect cure of Rheumatism and Gont. A single twenty-five cent box of Wright's Indian Vegetable Pills will often give the most asionishing relief, and perseverance according to directions, will be certain to drive pain of every description from the body.

Organs. NATURE'S OWN PRESCRIPTION. A compound Balsamic preparation of the Prunus Virginiana or "Wild Cherry Bark," prepared by a new chemical process, approved and recommended by the most distinguished physicians, and universally acknowleged the most valuable medicine ever discovered.

No Quackery!!! No Deception. In setting forth the virtues of this truly great medicine, we have no desire to deceive those who are labouting under affliction, nor do we wish to eulogize it more than it justly deserves. Yet when we look around and see the vast amount of suffering and distress occasioned by many of the diseases in which this medicine has proved so highly successful, we feel that we cannot urge its claims too strongly, or say too much

in its favour. Such indeed are the SURPRISING VIRTUES Of this Balsam, that even in the advanced stages

of Consumerion, after all the most esteemed remedies of physicians have failed to effect any change, the use of this middle has been productive of the most astonishing relief, and ac-tually effected cures after all hopes of recovery had been despaired of. In the first stages of the disease, termed " Ca. tarrhal Consumption," originating from neglected OOLD, it has been used with undersating success, and hundreds adknowledge they owe the restoration of their health to this invaluable medicine alone. In that lorps of Consumption so prevalent amongst delicate young females,

mmonly termed debility, or "GOING INTO A DECLINE," A complaint with which thousands are linger. ing, it has also proved highly successful, and not only possesses the power of checking the progress of this alarming complaint, but also strenghens and invigorates the system more effectually than any medicine we have ever possessed. If For particulars see Dr. Wistar's Treatise on Consumption, to be had of the agents.

THE POCAHONTAS, OR INDIAN VEGETABLE PILLS.

THE remedies prescribed for the cure of disde cases, have correctly been divided into classes according to their operation upon the human system. Thus we have one class which causes the stomach to eject its contents, called emetics, another inducing perspiration called dicophoret ics and a thick which exacustes the stomach and bowels, denominated catharties, &c. Catharties or purging medicines, have in every age and country been the favourites of the physicians for the cure of the most obstinate and alarming ma-ladies. The wonderful specess attending this mode of treatment will readily be understood when we reflect that the stomach and bowels have assigned to them, the important function of di-gestion, or the conversion of topd into blood, that vital fluid intended for the growth and nourishment of the whole system. It follows that whenever the digestion organs become depraved or disqualified for the healthy performance of their duty (and this occurs daily in civilized society) mpure blood, and consequently disease are the

It has been femarked, that whenever the sto ly risk his reputation for vergetty. There is not a disease attended with a full pulse, a dry skin, and a coated tongue, that these pills will not relieve. The following simple narrative will show the benefit derived from these pills in a ve-

ry common disease : CERTIFICATE. Having been cured by the use of the Pocahon. tas Pill of an alarming disease of the liver of several years standing, I deem it a duty to make my case known to the public, for the benefit of others. I had taken various remedies which af-forded only temporary relief, after using two boxes of these pills, my disease yielded, and I have enjoyed good health for the last six months.
