Catholic Missionaries in Oregon Territory The last number of the Ami de la Religion, which was received by the Britannia, states, that seven female Roman Catholic missionaries were at once to embark for this country, with the intention of settleing at a small colony in Oregon, in the service of the Hudson's Bay Company. This colony bears the name of Williammette, and is comsed of Canadian's and Roman Catholic Indians. The Pope has already appointed a hishop of the whole territory, with the title of the Bishop of Philadelphia, et in partibus infidelium. On board the same vessel, are to come Fatherde Smet, with his company of priests and settlers, and Father de Vereuvs, of the College of Peace, both of whom come on a mission to the Flathead Indions. Both these eclesiostics, with their trains bring with them all the implements and materials for colonizing, and for manufacturing. Houses and mills are to be erected, and permanent settle ments, begun with religious designs, are at once to

The fellow was foolish enough to take the bet, and the stake \$10 was placed in the holder's hands. A large crowd went down to see the performance, and the Colonel with great composure seized the man by the pape of the neck and waistband, and pitched him about ten feet into the river off the whart. The green un came out puffiing and blowing, saying, 'you've lost your bet.' Clay and the Union .- In his speech at Raleigh, Mr. Clay said this Union will not, must not, shall not be dissolved.' And where is the Whig who does not respond with his whole soulto the patriotic sentiment? The Whigs of '76 framed the Union, and the Whigs of '44 must preserve it. But lef them be on the alert for it is in peril. Opinions are abroad, and party machinery s at work, that should arouse every sentinel of liberty to renewed and anxious vigilance. This is no idle alarm, for the wolf is really stealing on to the fold.

THE ELLIGIT CHRISTIC ATES .- The New Orleans Bee says, that the three State Courts offer to issue new papers of -naturalization to all those who hold the Elliott certificates, on their appearing and giving proof that they possess the neces-sary qualifications, without charge. They are also authorized by the Clerk of the District Court of the United States, to say, that the Judge of that Court purposes to hold periodical sessions during ner, for the same purpose. This will settle this difficult and knotty question, and it is hoped, that we will hear of no more quarrelling at the polls relative thereto.

Recipe for speaking English .- A servant girl in Edinburg, who spoke Scotch so broadly as at times to be hardly comprehended ever by her mistress, though a native of Burns's Avrshire, on being asked how she contrived to make herself un derstood when in service in England, where she had previously been, replied, 'Ou, it's quite easy; e nacthing to do but leave out a' the R's, and gi'e the words a chaw in the middle!'

BY G. W. LORD. CARD.—A combination having been formed by a portion of the Dealers in Boots and Shoes, of this city, with the avowed object of suppressing the sale of those Goods by Auction. It seems proper for the subscriber, (who has held these Sales for the past eighteen months) to state that notwithstanding the confibination, the Sales will not be stopped; but on the contrary, as he will now rely more than ever, on the patronage of the Country Merchants, the sales will be held

at the Auction Store, 205 Market st, and his arrangements with the Manufacturers, both of this city and all New England, are such, as to insure him a constant a full supply of every description of goods.

No Quackery!!!. No hisception. In setting forth the virtues of this truly great medicine, we have no desire to deceive those who are lab mring under affliction, nor do we wish to eulogize it more than it justly deserves. Yet when we look around and see the vast a. mount of suffering and distress occasioned by many of the diseases in which this medicine has proved so highly successful, we died that we cannot urge its claims too strongly, or eay too much

in its favour.
Such indeed are the SURPRISING VIRTUES Of this Bilsam; that even in the advanced stages of Consumption, after all the most exteemed remedie of physicians have failed to effect any change, the use of this medicine has been productive of the most astonishing relief, and actoally effected cures after all hopce of recovery

had been despaired of.

In the first stages of the discase, termed " Catarthal Consumption," originating from neglect ed COLD, it has been used with undeviating success, and hundreds acknowledge they owe the restoration of their health to this invaluable niedicine alone. In that form of Consumption so prevalent amongst delicate young females, commonly termed debility, or "GOING INTO A DECLINE,"

A complaint with which thousands are linger ing, it has also proved highly successful, and no only possesses the power of checking the pro gress of this alarming complaint, but also strengh ens and invigorates the system more effectually
