We know it has been supposed by many that the Public Lands were the bone-fide property of the General Government, and that Mr. Clay's bill was to deprive it of an actual property therein for the purpose of distribution among the States. In an article of yesterday we endeavored to show that the facts are the reverse of this, and that the Gen-eral Government is holding over, what by right and all law and usage is another's, to whose use and henefit it' is the object of Mr. Clay and the Whig party to restore it. We submit the case to the candid consideration of the property holders and themselves to be taxed to the amount thercor that the general government, which has no longer right nor claim to it, nor actual use for it, may em-joy its use and benefit? N 9 MEDICINE has ever been introduced to the A-merican Public, whose virtues have been more cheerfully and universally acknowleged, than the a-bove named WRIGHT'S INDIAN VEGETABLE FILLS.

To destant upon their merits, at this late day, would seem to be wholly unneccesary, as very few indeed who read this article, will be found unacquainted with the real excellence of the medicine. Ignorant and unprincipled men have at various pla-es, manufactured a spurious pill; and in order more completely to deceive the public have made it in outward appearance to resemble the true medicine,---"These wicked papple could never pass off their worth-wass trash, but for the assistance of certain misguided storekcepers, who because they can purchase the spu-cious article 21 a reduced rate, lend themselves to this
