Extracts from English Testimonials. I have great presented in the leghtly Colliery, May let 1844.

I have great presented giving you an account of the "Wirp Ropes" now in use at the leghtly Colliery:

That which has being longest at work, and which is believe, which was the first used in the Counties of layers. "Wirp Rapes," now in use at the Leghill Calliery:
That which has been longest at work, and which is
I believe, which was the first used in the Counties of
Durham and Lundecland, has given the greatest satisfaction. The bank dyed, which it works, ruses in 47,
and the weight of train-exclusive of friction, is 81 tons.
The size of the Rope 182 inches, weighing of list, and
fathion, and its length 11 miles. This Rope was put to
work on the 12th of June, 1811, and in my opinion, will
continue to work for some time to come; whereas, a
6 inch Hempen Rope, dever lasted longer than 9 or 10
membs. On the sained knitway, there is another of
your Wire Rapes at work, which was laid on, in July,
1812 and appears this work well—its length is 2 miles,
and size 2; inches, weighing 4 lb. and fathom, to iides
others on the time, all of which have given great satisfaction. So convineyd am I, of the safety and economy offithe wire roops that ma short time, I shall not
have a Hempen Rope in use.

CHAS, CARR.

**Tition Colliery, 5th April, 1846.

I have great pleasure in bearing testimony, to the
cflictency of the "Patent Wire Ropes." The Hetton
Coal Company; have goar ropes in use, upon nearly tho
whole of the self-acting Incline and Engine Planes, on
their Railway—Song of them, have been at work for
upwards of a year, aptrappear to be very little affected by wear. Eighed JAMES GAN, Engineer.

**Coolors Supper to be very little affected by wear. Fighed JAMES GAN, Engineer.

**Coolors Supper to be very little affected by wear. Fighed JAMES GAN, Engineer.

**Coolors Supper to be very little affected by wear, weight to work, one of your Patent
Wire Ropes, in a draining Shaft. The rope has been at
regular work since the 3d of March,
1813—it is working exceedingly well, and does not
show the alcatest degree of wear.

**Our opinion is that Wire Ropes, well made, and
properly used, will be sound for Colliery purposes, decidedly superior to Hespen ones.

Signed HOUNSFIELD WILSON.

*I find the Patent Wife Rope, now in use on the Incline it the Casop Coffeet, to be greatly superior to the Hempen Ropes ineviously used. The Hempen Ropes ineviously used. The Hempen Ropes when in use for the months, were so far worn, as frequently to break with the landed waggons attached, whereas your swire rope, has been in use, since the 25th of April, 1832 and up to this time, there is no appearance of any faiture in it.

the 25th of April, 1832 and up to this time, there is no appearance of any finitire in id.

Signed H. L. REDHEAD,

Testiming, 20th Feb. 1844.

I beg to state for your information, that our machine with your rope on, have this last, year made, one hundred and twenty one thousand trips, lifting a load of four tons, one hundred and the feet high, and as far as I can see, the rope is as good as the day that it was put up.

Signed J. LEISHIMAN.

Gold's Fall! Iron Works.

Heat Brunswick: Feb. 20th, 1814.

We pre exceedingly featified to have it the our power to give you a suitifactionly report of the 'Patent Wirs Rope,' you supplied by with. It has now been in regular operation, lifting a considerable quantity of coals daily, in one of our collisions of 18 months, without the slightest appearance of defect in any part of it. In fact its durability has been a mark of astonishment to our foreign and others, connected with the management of the Callery. Signed ishment to our foreign and others, connected with the management of the Colleys. Signed

N. B.—Many other sestimentals to the same effect, from all parts of England. &c., can be given.

Samples of the different descriptions of Wire Ropes, can be seen, and every information as to their various application, will be eigeneat the office of ALFRED F. KEMP, 55 Broad et. N. York.
