New Jersey, the lather of the unfortunate young sufferf. Potters Cheek, Jone 6th, 1844.

Dr. Steeling—Dear Sit;—I have the pleasure of
being able to state that my daughter, who had been
suffering undersevere Asthma for 5 or 6 years, has been
entirely cured of that painful disease, by the use of six
bottles of your Pulmonary Syrup. She was when
first attacked with that complaint, only nine years of
are, and suffered with it beyond all description; for
the period of near six years, having an attack about
every three or four weeks. It was to all appearance,
confined and memorable—we tited many medicines
without any rehef whatever. About this time, we
heard of the superior efficacy of your Pulmonary Syrup and determined to give it a trial—we procured a
dozen/portles of it; the first bottle relieved her very
much hand by the time she had taken six bottles, she
was perfectly cured!!! It is now three three years
since (hen, and she has not had the slightest attack of
the Asthma.. She suffered so much when laboring under those attacks, that we could hear bee breath disthe Ashma. . She suffered so much when laboring un der those attacks, that we could hear her breath dis tincily over the whole house—she was frequently nea sufficating, and we hadquite despaired of her recove

ry.
I give you the above statement of facts, that other, who may be afflicted with this awful disease, may make use of the same means, and we feel assured that with the blessing of Providence, they will find perma-Yours respectfully, SAMUEL R. BUNNELL. A loud voice from Philadelphia!!!

PRILADA., July 10th, 1844.

Dr. Steelling—Sir:—I feel much gratified in being able to say to you, that the Pulmonary Syrup you sent, has been used by several persons with great success.—The first person with took it, had been confined to her bed for some time with a severe couch—acter taking only one hours. It was almost entirely cured. A Sailor was greatly distrested with a cough, and could not find nothing to relieve hipa-He took one bottle and called osay that he was extirely early!!!—A member of my Church, was taken with the prevailing influence—He took six of your Antibilieus Pills, and a bottle of Syrup, and fell almost entirily restored to los wanted health. The following is from a distinguished Councellor at Law in Bridgton, N. J.

Brington, December S. 1841.

Dr. Wm. Steelling—Sie:—It gives me pleasure to have it in my power to bear testimeny to your invaluable Pulmonary Strup. For several years when any one of my family, has been affinitely with a Cough. Houseness, Asthad, Indusera &c., &c., we have used it with very bunchial effects—It has attacked in the night, with a controlled part visin of coughing—a dose of the Syrup innocliate offects. I was attacked in the night, with a controlled part visin of coughing—a dose of the Syrup innocliately stopp of the cough, and before I had finished the bottled foundingself completely cured. The cause of philanthropy, most certainly owes you a delat of gratuide, for the acquisition of a medical compound stilbully properfy, pleasant to the taste, toutaining so many excellent properties, and made accessable to all, the hand page, by its reduced prices.

To descand upon their merits, at this late day, would seem to be wholly unoccessary, as very few indeed who read this article, will be found unacon timed with the real excellence of the medicines. But if further proof were wanting to establish the credit of this singular rem. sky, it might be found in the fact that no medicine in the country has been so.

SHAMELESSLY COUNTERFEITED.

Ignorant and unprincipled men have, at various places, manufactured a spurious pill; and in order more completely to deceive the public have néide it in outward appearaince to resemble the true medicines. These wicked people could never, pass of their worthless trash, but for the assistance of certain miscuided storekeepers, who because they can purchase the sunrious article at a reduced rate, lend themselves to this monstrons systemed imposition and crime.

The patrons of the above excell at Pills, will therefore be on their grard against every kind of unposition, and remember the only genuine Agents in Pottsville, are Messrs, T. & J. Beatity.

ARRIVAL OF THE BRITTANNIA. The Brittannia, Capt. Hewitt, arrived at Boson, on the 23d ilist. She left Liverpool on the 5th. We glean the following principally from the

New York Herald: The news is of very little importance. No agitation in politics any where. The Queen was well.

Ireland was quiet. The monster steamer Great Britain, was aflea, out of dock. The Caledonia was to Icave Liverpool on the 19th inst. for Boston. The Acadia to follow on

the 4th proximo, and the Cambria on the 4th of January. The Corn market was firm. Canadian flou had anyanced 6d, a barrel. The Brittannia left Livepool on 5th inst., and

has been somewhat detained by rough weather. The cotton market remains in a quiet state, with fair demand from the trade; speculators nibbling occasionally.

The overland mail arrived at London on the . Money continues abundant. The government securities, in the teeth of this abundance, do not

nurove. By the monthly official returns just published, we perceive that the Bank of England has commenced diminishing its issues as nearly as possible to the amount of drain upon its gold bullion, and what is still more worthy of attention, its de-

posits are increasing, while its paper currency is also decreasing. Thank.-Business in the manufacturing districts is as good generally as it was ever known to

The iron trade is firm. Buyers hold off in expectation of lower prices. Twenty persons were killed on the 1st inst., by

The Caledonia arrived out on the 29th, in 14 chain pump for the purpose of watering the crops days from Boston. The London Clubs persist in their determina-

tion not to admit Americans, so long as any of our States repudiate their debts. Accounts from Spain speak of continued conspiracies in the capitol; and there is a rumor that an important one has been discovered and frustrated at Sarragossa.

A survey is making for an important railroad, traversing the mountains of Jura in Switzerland. Espartero recently passed through Paris on his way to Italy, in a very low state of health.

The 'Paris National' recently came out with a urious article against Queen Christina of Spain which caused some excitement in the French me-

The late crop of potatoes in Ireland is found to exceed the produce of any year on record. The abundant growth of this vegetable has surpassed

all expectations. The enormous steamship the Great Britain, Las at length got affoat. It is expected that the Archimedian screw will be fixed in a fortnight, after which the vessel will proceed to the Thames-After-remaining there some weeks she will come round to Liverpool, and sails from this port early in the spring, on ther first voyage to America. ter Maime, now four years old. Letters from Canton; published in the English papers, represent the piracies committed on the coast as exceeding all belief.

Accounts from Simin represent that unhappy country as in a state of greater anarchy and confusion than ever. M. Arago has predicted that the impendin

vinter is likely to prove the coldest known for maay years. There is said to boya valuable copper mine on

Mr. O'Connell's estate at Dorrynane. This return of O'Connell from Derrynans to Dublin was a continued scene of enthusiasm and

triumph. Accounts from Albania represent that province as still in a partail state of revolt against the government. Strong medsures were in train to put

an and to these disturgances. A hanquet was recently given by the King of Prussia, to which the grand Rubbi of the Jows was invited, which gave mortal offence to some

dignitaries of the Christian church in Prussia. Prince Albert is following the occupation of a. fazier, by fattening valthe in Winsor Park. On Friday last he had a sale of fat stock which brought upwards of £1400.

The Jesuits.—A letter from Geneva says:—

During the last Months a French gentleman, M. Claude Gaillard, having abjured the Catholic faith in this city, and combraced the reformed religion, the fact was announced in our journals .-He immediately received an invitation from a pern styling himself a member of the Ord Christian Doctrino at Geneva, couched in ox" tremely polite but very pressing terms, to pass the next morning with his intended host at the parlor of the fristernity, there to talk over the particulars of his conversion. Treating the overture as an impertinence, M. Gaillard only mentioned it to his friends and declined going. Within two days, he having left the house on business, and not returning, his friends became alarmed, and sought for him everywhere, but without success. Information has been obtained the he has been kidnapped at Geneva, and transported by the road of Trangy to Chambers, where the Jesuits of that place detain him in close confinement. If this be true, as there is little reagon to doubt the quarters from whence the information has been received. the reclamation of a French subject by the French government will follow of course, and the whole iniquitous mystery be ligravelled.

IRELAND. Charles Gavan Duffy, editor of the Nation, and late fellow prisoner with O'Connell has addressed a long letter to the leader, deprecating adhesion to the federalists, on the part of the repealers as a body.

THE ROMAN CATEPAGE CHURCH.-There were in this country fifty years since, but one Bishop and 25 Priests og this denomination, with a few scattered churches. There are now 21 Bishops and hearly 1200 priests, with 700 churches and about .500 Missionary stations .-They have 48 Academics, 21 Ecclesiasticai Seminaries, 35 houses for religious women, and 26 Orphan Asylums. Their increase is at the ratio of nearly 100 per cent. every ten years, being of course largely aided by omigration. The increase of the general population, is 34 per cent. There are two societies in Eusipe, whose principal object is to convert this country to the doctrines of their church, viz: the Leopold Foundation in Austria, and the society of St. Charles Borromeo in Lyons. The latter frammitted to this country in 1840 \$163,000, and in 1842 \$177,000.
