Engineers' Office, Schuylkill Valley R. R. Notice to Contractors.

Notice to Contractors,

DROPOSALS will be received at this office, for the supply of 35,000 cross ties no filespers.

Twenfy thousand of said Sleepers, to be addivered and piled on the first four sections between Port Carbon and Middleport, on or before the first day of February nest, at points not exceeding a quarter of a mile apart, one thousand for each quarter of a single. Fifteen thousand will be required by the first of March, to be delivered at intervals of a quarter of a mile, as above, between Middleport and Tuccarora.

The Sleepers are to be While or Ruck Ock, 7 by 8 inches thick, and 7 feet long—to be evenly inwn or hewn, on two parallel sides, and to be sawed off square at each end.

at each end.

Those intending to propose are notified that no Sleeper will be received, which has not full right inches, hewed or sawed, bearing surface at top and bottom, and is not at least seven inches thick.
A. W. CRAVEN, Engineer.
Mount Carbon, Dec. 14, The Jan. No. of the Lady's Book

The Jan. No. of the Lady's Book

FOR 1815 is in all respects the most reckerche and extraordinary ever issued, either in Europe of America. Whilst the letter press abounds as usual with the most racy and valuable contributor, among whom are numbered Sedwick, Hoffman Tuckerman and Signary our eyelt were almost invidious to particularise. In addition to the productions fresh and sparkting from their gifted pens, the public will receive a new poemby our own favorite, Mrs. Welby,—better known as "Amelia." It is alone avorth the price of a single number. Her accession to Godey's unrivalled corps will be hailed with delight by his 100,000 readers. But who shall describe the "bright array" of pictorial embelishment. The first is a Mezzolint, by Sadd, of New York, and is considered superior to the New Cinderella of the December number, so highly prized by the beau mende. The second a magnificent deeping of Fruit in a fancy vase, by our friend Croome, is lucious, blooming, and, "reddient of sweets." The Soiree comes No. 3. but is considered second to mone; it is a finely finished line engraving, and mirrors most truly an elegant picture of fashionable life. Then come the every varying Fashi-ns, in a new style, by Pinkerton; they will be appreciated when the ladies see them. Let all who wish to avail themselves of the most precious of Christmas Presents, subscribe in time, lest the edition for Junuary be exhausted.

THE PROOF POSITIVE. Ma. Kinny-

My
wife was
afflicted with
pain in the breast,
and a severe Cough,
for the period of five years.
About the first of May tast, she
became so reduced, that she was confined to her bed for severat weeks, entirely unable to move. I called in our famity physirian, who after some inqury, &c., left
ber a few pills. The next day the Doctor paid
let another visit, and then told me that
underne was entirely useless, as
ther recovery was impossible.
I then procured a bottle of
Dr. Swayne's Compound Syrup of
Wild Cherry,
which
she
-ding to

she commenced using according to the directions, and from which she derived considerable benefit. I continued the use of the Syrup until she had used 10 bottles. By this time she had recovered perfectly. She now enjoys good health, and attends to her household duties as usual. I would most cheerfully reccommend this medicine to all similarly afflicted. What is the wrice of 10 of 15 bottles, compared to good health.

this medicine to all similarly afflicted. What is the price of 10 or 15 bottles, compared to good health?

Yours respectfully.

AGOB HAEE

Montgomery Township, Franklin Co., Pa., }

A pril 26. Patent Wire Ropes,

For the use of Incline Planes in Mines, Railways &c., for sale or imported to order, by the subscriber, a order, by the autocriber, a reflection of the Collieries, and on the Railways in Great Britian, and are found to be are. It superior to Hampen ones, als regards active, durable ty and economy. The "Patent Wire Ropes," have proved after three years service, to be still in good condition, where Hampen ones, of double the size and weight, never lusted longer than 9 or 10 months.

Testimonials can be shown, from the best authorities in England, as to their efficiency, and werey information respecting the different descriptions, and application will be given by ALFRED F. KEMP, 56 Broad st. N. York, Sole agent for the United States.

Statement of Trial, made at the Wollwich Roy v
Dock Yard, in October 1811, of the Patent Wire Ropes,
as compared with Hempen Ropes of the same strength
Wire Ropes. Wire Ropes , hempen roper tre guage No. Size w'ght & fath strg'th size av & 

Extracts from English Testimonials. Teghill Colliery, May Ist. IS14.

I have great pleasure-in giving you an account of the "Wire Ropes" now in use at the Leghill Calliery:
That which has been longest at work, and which is I believe, which was the first used in the Counties of Durham and Lunderland, has given the greatest satisfaction. The bank upon which it weeks, risks I in 47, and the weight of train, exclusive of friction; is,81 tons. The size of the Rope is 21 inches, weighing 61 ths, and fathom, and its length I finites. This Rope was put to work on the 12th of June, 1811. And in my opinion, will continue to work for soing time to come: whereas, a 6 inch Hempen Rope, nower lasted longer than 9 or 10 months. On the same Railway, there is another of your Wire Ropes at work, which was faid on, in July, 1812, and appears to work well—Its length is 22 miles, and size 21 inches, weighing 4 th, and fathom, 14 sides others on the line, all of which have given great satisfaction. So convinced am I, of the safety and wone-Leghill Colliery, May 1st. 1814.

chers on the line, all of which have given given faction. So convinced am L of the safety and esono my of the wire ropes, that in a short time, L shall in the L shall in t Tletton Colliery, 5th April, 1814.

I have great pleasure in bearing testimony, to the efficiency of the "Patent Wire Ropes." The Hetton Coal Company, have your ropes in usc, upon wearly the whole of the self-acting Incline and Engine Planes, on their Railway—Some of them, have been at work, for upwards of a year, and appear to be very little affected by wear.

Signed JAMES GAN, Engineer. ed by wear.

Signed JAMES GAN, Engineer.

Coal Office Skeffeld, Feb. 20th, 1814.

In December, we put to work, one of your Patent Wire Ropes, in a draining Shaft. The rope has been at regular work since that time, and does not as yet show the least symptom of wear. The weight of the Rope was 54 lb, and fathom, and it is working in a situation, where we had been accustomed to work Hempen-ropes of about 10 lb, and fathom, which on an average have not worked more than 12 months. We have had another of the Ropes at work since the 2d of March, 1813—it is working exceedingly well, and does not show the slightest degree of wear.

Our opinion is that 'Wire Ropes,' well made, and properly used, will be found for Colliery purposes, decidedly superior to Hempen ones.

cidedly superior to Hempen ones.
Signed HOUNSFIELD WILSON. New Castle, upon Tyns, Feb. 23d, 1814.

I find the 'Patent Wire Rope,' now in use on the Incline at the Cassop Colliery, to be greatly superior to the Hempen Ropes previously used. The Hempen Ropes when in use for four months, were so far worn, as frequently to break, with the 'loaded waggons atached, whereas your wire rope, has been in use, since the 25th of April. 1812, and up to this time, there is no appearance of any failure in it.

Signed II, L. REDHEAD.

Signed II. L. REDHEAD. Testiming, 29th Feb. 1814.

I beg to state for your information that our machine with your rope on, has this last year made, one hundred and twenty one thousand rips, lifting a load o for tous, one hundred and ten feet high, and as far at I can see, the rope is as good as the day that it was pu up.

Bigned J. LEISHMAN.

Gold's Hill Icon Works. Gold's Hill Iron Works.

West Brunswith, Feb. 29th, 1814.

We are exceedingly gratified to have it in our, power to give you a satisfactory report of the 'Patent Wire Rope,' you supplied us with. It has now been in regular operation, lifting a consilerable quantity of coals daily, in one of our collieries upwards of 18 months, without the slightest appearage of defect in any part of it. In fact its durability has been a mark of astonishment to our foreman and others, connected with the management of the Colliery Signed

N. B.—Many other testimonish to the same effect, N. B.—Many other testimonials to the same effect, from all parts of England, &c. can be given.

Samples of the different descriptions of Wire Ropes, can be seen, and every information as to their various. application, will be given at the office of
ALFRED F. KEMP, 56 Broad st. N. York.
