No known substance possesses those perservative and beautifying properties so desirable in a paint, to monish even with module article white how to be on equal extent with unadulterated white lead; hence

any admixture of other materials only mars its value. It has therefore been the steady aim of the manufactures, for many years, to supply to the public a perfectly pure while lead, and the unceasingdea perfectly pute while lead, and the uncertainty of the article is proof that it has met with fa-vor.
