"You're welcome, Old Winter! the gay lad cries, As he plunges into the snow, Or der the ice-bound streamlet flies, Like a shaft from the tivanging how For garments warm are about his form. And his sport is rich and rare! Old Winter may bluster and raye and storm, But what doth the urchin care !

Oh! Winter is dreary : the poor man cries, As he wends along the street, While the snow in his frost-nipp'd visage flies And benumbs his unshed feet !
Oh Winter is ureat! But there's none to hear The plea of the poor and old ; Strait on goes the crowd with unlistening ear-Who cares if the beggar is cold ?

'Alas, it is Winter! And we is me!' The Widow exclaims and clasps The shivering Orphans around her knee, In a wild and phrenzied grasp;. Through the frosted parie on the life-thronged way A laughing crowd she sees, And merryly giagle the sleigh-hells 22y, While the Widow and Orphans ficeze!

Ay! Winter is drear! O, ye rich neger smile At my simple and homely Muse. Nor the tale of the poorsman's woes revile, Nor a helping hand refuse; For Heaven has lifest you with stores of gold, And how should your thinks appear, But by shielding the poor from hunger and cold, And making their lives less drear

THE PROOF POSITIVE.

My
wife was
affacted with
pair in the breast,
and a severe Cough,
for the period of five years.
About the first of May last, she
became so reduced, that she was confined to her hed for several weeks, entirely onable to move. I cathed in our family physician, who after some inquiry, &c., left
her a few pills. The next day the Doctor paid
her another visit, and then told methat
medicine was entirely useless, as
her recovery was impossible?
I then procured a boatile of
Dr. Swayne's Compound Symp of
Will Cherry,
which
she
ling to the

commenced using accuraing to the directions, and from which she drived considerable benefit. I continued the use of the Syrup until she had used 10 battles. By this time she had recovered perfectly. She now enjoys pood benth, and attends to her household duties as usual. I would most cheerfully recommend this medicine to all similarly afficied. What is the price of 10 or 15 bottles, compared to good health?

Yours respectfully.

I have great pleasure in giving you an account of the "Wire Ropes" now in use at the Leghull Colliery:
That which has been longest at work, and which is I believe, which was the first used in the Counties of Durham and Lunderland, has given the greatest satisfaction. The bank upon with it work, rises I in frainful the weight of train, exclusive of friction, is \$1 tons. The size of the Rope is \$25 inches, weighing of this and fathom, and its length I miles. This Rope was put to work on the 12th of June, 1811, and in my opinion, will continue to work for some time to come; whereas, a 6 inch Heinpen Rope, never lasted longer than 9 or 10 months. On the same Railway, there is another of your Wire Ropes at work, which was laid on, in July, 1822, and appears to work well—list length is \$2 miles, and its elective with the wish that my daughter would try its before on the line, all of which have given great satisfaction. So convinced am I of the safety and economy my of the wire ropes, that in a short time, I shall not have a Hempen Rope in use.
