B. BANNAN, Agent. INDIAN VEGETABLE ELINER & LINIMENT.—A I cure for Rheumatic affections. This article penetrates to every netve and sinew of the prison using it, and it has attained a freputation unequalled by any other article in Rheumatism. This will cure the most severe cases—extend contracted mustl—s, and bring feeling and sensibility to limbs long paralyzed and useless. We only need refer to some cases below to obtain the confidence of the bublic for these articles. The following are two respectables, and the gentlement too well known trirequire comment: Leithem be read. I have been afflicted most grievoully since 1832 with Rheumatism and kohrraction of the cords of my legs, caused by the crapps of the cholora, which I then had in its most severeform. After trying in my remedies in vain, I have found relid—in the cords of, my legs related by the use of the bottle of Liounent, used externally and one bottle of Fadian Vegetable Ellist, used internally at the sable time. I can now, will with easi in positions that I could not a week age endure at all.

Though this wise given more than a year since, Mr Reynolds, was a kw days atto if the office, where this remedy was obtained in full health and perfect possess it not his legs and feet, and though over sixty years old, stood in on his toes repeated it on show the spectators how complete he was cured. This remedy reaches and soothes the nervex and all arys pains most effectually on its first application, and by a few repetitions removes more effectually and speedily Rheumatic pairs, then any other application was ever known to do. Its effects are powerful and immediate! Test those afflicted try is but once and they must be convinced.

The Limiment is much counterfalled as to due the facisimite structure of Counsiock & Co. If that cannot he found it is counterfeit. Buy only all Counstock's Branch House, No. 2, North 5th street, Philitalphia, and i Pottsville of December, 23,

Extracts from English Testimonials.

Laphill Colliery, May Let 1844.

I have great pleasura in giving you an account of the "Wite Ropes" now in use at the Leghill Colliery:

That which has been longest at work, and which is I helieve, which was the first used in the Counties of Durham and Lunderland, has given the greatest satisfaction. The bank upon wnith tracks, rises I in 47, and the weight of train, exclusive of friction, is St toos. The size of the Rope is 2? inches, weighing 62, his, and fathom, and its tenteth 12 inites. This Rope was put to work on the 12th of June, 1811, and in my opinion, will continue to work for some time to roome; whereas, a 6 inch Henopen Rope, never lasted longer than 9 or nonths. On the same Rulway, there is another of your Wire Ropes at work, which was laid on, in July, 1812, and appears to work well—lis length is 22 indies, and size 21 inches, weighing 4 lb. and fathom, I e ides others on the line, all of which have given great satisfaction. So convinced am I, of the safety and comony of the wire ropes, that in a short time, I shall not have a Hempen Rope in use. CHAS. CARR.

whisters it is strongly reccommended, the color produced is natural, and will not rub off, or soil the whitest muslin. Price 50 cents.

Michaux's Freckle Wash.—A completeremedy for Freekles. This remedy, was invented by Dr. Chis Michaux, of Lombardy, a distinguished Physician of the last century. The proprietor has every confidence in it; as a superior preparation for the purpose designed, it may be used without the least cantion, and for pimples and other affections of the skin, it is a certain cure. Price 37; cents per bottle. The above named articles have been sold very extensively by the subscriber for many years, and are conscientiously recommended to the public, as preparations of real value, and not to be ranked with the humburs of the day, as single trial will convince the mist skepfical, that their good qualities are not over rated.

New Castle. upon Tyne, Feb. 2201, 1977.

I, find the 'Patent. Wire Rope,' now in use on the Incline at the Cassop Colliery, to be greatly superior to the Hempen Ropes previously used. The Hempen Ropes when in use for four months, were so far worn, as frequently to break with the loaded waggons at lathed, whereas your wire rope, has been in use, since the 25th of April, 1812, and up to this time, there is no appearance of any failure in it.

Signed H. L. REDHEAD. Testiming, 20th Feb. 1814.

I beg to state for your information, that our machine with your rope on, has this last year made, one hundred and twenty one thousand trips, lifting a load of forr tous, one hundred and ton feet high, and as far as can see, the rope is as good he the day that it was pur Bigned J. LEISHMAN.

West Residency, Feb. 22th, 1841.

We are exceedingly gratified to have it in our power to give you a satisfactory report of the Patent Wire Rope," you supplied us with. It has now been in regular operation, lifting a considerable quantity of coals daily, in one of our collieries upwards of 18 months, without the slightest appearance of defect in any part of it. In fact its durability has been a mark of astonishment to our foreman and others, connected with the management of the Colliery. Sirned

It cannot be Denied ( For Truth is mighty ) that DR. LEIDY'S SARSAPARILLA J Is the purest, strongest, and most efficacious of any other preparation of Sarsaparilla that is made It is warranted to be stronger than 6 bottles of MQST to thera-stronger than four of SOME, and stronger than three of the STRONGEST prepared by any other in the United States.

Dr. Leidy's Barsaparilla is recommended by all-respectable physicians in preference to any other. All who have ever used it, have derived MORE BENEFIT fresh one bottle than three to ten of others; and those who, after having used other's preparations, without benefit, will use Dr. Leidy's, will soon be convinced (as thousands have already been) of the foregoing assertion.

The apparatus with which Dr. Leidy's extracts used in his preparation of Sarsaparilla as prepared, is the only one in the United States, imported by Dr. Leidy shimself, from the celebrated house of Pelleter & Cavenon, in Paris, at a great expense, and is capable of extracting the indical virtues of Sarsaparilla and other roots more effectually than by any other process.
