INDIAN VEGETABLE ELIXER & LINIMENT.—A cure for Rheumatic affections. This article penetrates to every nerve and sinew of the person using it, and it besattained a reputation unequalled by any other article in Rheumatism. This will cure the most acvere cases—extend contracted muscles, and bring feeling and sensibility to limbs long paralyzed and useless. We only need refer to some cases below to obtain the confidence of the public for these articles.

The following are two respectable, and the gentlement too well known to require comment. Let them be read. I have been afficted most griceously since 1853 with Rheumatism and contraction of the cords of my legs, caused by the crame of the cholers, which I then had in its mest severe form. After trying many remedies in vain, I have found relief—had the cords of my legs relaxed—the swelling reduce—and am greatly benefited by the use of one bottle of Liniment, used externally and ore bottle of Indian Vegatable Elixir, used internally at the same time. I can now walk with ease in positions that I could not a week ago endure at all.

2. 144 Chrystie street, corner of Delancey street. Though this was given more than a year since, Mr Reynolds, was few days ago at the office, where this remedy was obtained in full health and perfect possessi in of his legs and feet, and though over sixty years old, stood up on his tnees repeatedly to show the spectators how complete he was cured. This remedy reaches and soothes the nerves, and always pains most effectually on its first application, and by a few repetitions removes more effectually and speedity Rheumatic pains, than any other application, and by a few repetitioner convers more effectually and immediate. Let those afflicted try but once, and they must be convined.

The Liniment is much counterfeited as to externa ooks, and the only test of feenines is to flud the fastinile signature of Comstock & Co. If that cannot be found it its counterfeit. Buy only at Constock's Branch House, 10, 2, North 5th street, Phila

Leghill Colliery, May 1st 1814.

I have great pleasure in giving you an account of the "Wire Ropes" now in use at the Leghill Colliery:

That which has been longest at work, and which is 1 helieve, which was the first used in the Counties of Dorhain and Lunderland, has given the greatest satisfaction. The bank upon wunch it works, rises 1 in 47, and the weight of train, exclusive of friction, is 81 tons. The size of the Rope is 25 inches, weighing 64 lbs. and fathom, and its leinst 1 in its. This Rope was put to work on the 12th of Jüpe, 1811, and in my opinion, will continue to work for some time to come; whereas, a 6 inch Hempen Rope, never lasted longer than 9 or 10 months. On the same Railway, there is another of your Wire Ropes at work, which was laid on, in July, 1812, and appears to work well—its length is 27 miles, and size 21 inches, weighing 4 lb, and futhom, 16 sides others on the line, all of which have given great satisfaction. So convinced am 1 of the safety and economy of the wire ropes, that in a shoft time, I shall not have a Hemper Rope in use.

Hetton Colliery, 5th April, 1814.

I have great pleasure in bearing testimony, to the efficiency of the "Patent Wire Ropes." The Hetton Coal Company, have your ropes in use, upon hearly the whole of the self-acting Incline and Engine Planes, or upwards of a year, and appear to be very little affected by wear.

Coal-Office Sheffield, Feb. 20th, 1814.

In December, we put to work, one of your Patent Wire Ropes, in a draining Shaft. The rope has been at regular work since that time, and does not as yet show the least symptom of wear. The weight of the Rope was 54 ht. and fathom, and it is working in a situation, where we had been accustomed to work Hempen ropes of about 10 ht. and fathom, which on an average have not worked more than 12 months. We have had another of the Ropes at work since the 2d of March, 1812-it is working exceedingly well, and does not show the shightest degree of weat.

Gur opinion is that 'Wife Ropes,' well made, and properly used, will be found for Colliery purposes, decidedly superior to Hempen ones.

New Coatle, upon Type, Feb. 23d, 1814. I find the 'Patent Wire Rope,' now in use on the Incline at the Cassop Colliery, to be greatly superior to the Henpen Ropes previously used. The Hempen Ropes when in use for four months, were so far worn, as frequently to break with the loaded waggons attached, whereas your wire rope, has been in use, since the 25th of April, 1812, and up to this time, there is no appearance of fine fullure in it. appearance of any failure in it. Dr. I.elly's Starsparilla is recommended by all respectable physicians in preference to any other. All who have ever used it, have derived MORE BENEFIT from one bottle than three to ten of others; and those who after having used other's preparations, without benefit, will use Dr. Leidy's, will soon be convinced (as thousands have already been) of the foregoing assertion.

The apparatus with which Dr. Leidy's extracts used in his preparation of Sarsaparilla as prepared, is the only one in the United States, imported by Dr. Leidy himself, from the celebrated house of Pelleter & Cavenou, in Paris, at a great expense, and is capable of extracting the medical virtues of Sarsaparilla and other riots, more effectually than by any other process.

As SEVERAL HUNDRED CERTIFICATES of remarkable cures and recommendations from clerrymen and physicians have been from time to time published it is only thought necessary to keep the public acquainted in the other Dr. Leidy's Sarsaparilla can by obtained sensing, namely, at Dr. LEIDY'S HEALTH EMPORIUM, 191 North SEGOND Street, near vine St., (sign of the Golden Engle and Serpents;) Fred Brown's and Frize ONE DOLLAR per bottle; 3 bottle's for \$2.50, and 5 hottles for \$1.60.
