This Institution, founded on the mutual Safety and Joint Stock principle, and embracing all the recent improvements in the steince of Life Insurance, has established offices in British America, and various parts of the United States. Amongst the many advantages, which it offers to all persons wishing to insure their lives, are 1st. its perfect Security, arising from a large paid up, and safely invested Capital;—2d its moderate rates of premium;—2d the participation of ALL profits by the Insured, which (as the business of the Socialy in Great Brutan, has become very extensive,) is of the utmest importance;—4th--the use given to the Insured wherever they require it, of two thirds of their former pryments—that obviating the objections against Life Insurances, with those, whose meomes are precarious, and who might dread the possibility of being behind hand, with their annual premiums, and of thereby forfeiting all previous instalments.

The steady success and increasing prosperity of the

hand, with their annual premiums, and of interest of feiting all previous instalments.

The steady success and increasing prosperity of the Soc ety, has enabled the Directors at their last annual at meeting in 1814, to declare a second Bonus, overacing 60 per cent, on amount of annual premiums, as a reversionary addition to the policy, 182-per cent in premium to the policy of the period of of t tion of future premiums; at the option of the assured.

Pamphlets centaining the Society rates, and every
other information, may be obtained upon application
to Mr. Peter, 68, South 4th street, Philadelphia; to C,
De Forest, Schuytkill Haven; or at the Office of the
Miners' Journal, Potteville.

PCUDRETTE,

A FERTILIZER OF THE SOIL.

20 BARRELS of the above mentioned axcellent ferillizer of the soil, just received on consignment
and for sale by the subscriber, by the Birrel, at the
Manufacturer's price, 31, 75, with the price of freight
and porterage added. Each barrel mattains four bushels,
and is acknowledged by all those, who have used it,
particularly for corn, patatoes, and for Gardens, to be
the best and clicapest article ever used. For Gardens
it is invaluable, and also for top-dryssing crops. Where
the Poudrette is used the crops invariably ripen at least
two weeks earlier than with the use of any other fertulizer. This is particularly the case with nearly all
kinds of Vegetables. The early vegetable by which
the Philadslphia market is supplied, are forced by the
use of this manure almost exclusively. It has been
used in this County on Farms with great success by
Christopher Leeser, Esq., of Orwigsburg; Mr. Benjamin Pott, and Mr. Thomas Sillyman, and in a number
of Gardens. The Manifaturer sold last year upwards
of 3000 barrels, which from the increased orders received from those who ussed it, he expects to more
than double this year.
