

POTTSVILLE.

Saturday Morning, July 28, 1845.

VOLNEY B. PALMER, At his Real Estate and Coal Agency, Corner of Third & Chestnut Streets, Philadelphia.

LIFE INSURANCE. This kind of insurance is beginning to attract considerable attention in this country.

Particular Notice. We are daily engaged in making out bills up to the present time, and will be ready in a few days to submit them to the inspection of those interested.

Acceptance of the Railroad. A watchman, on the Reading Railroad, named McAtee, was accidentally thrown under one of the cars on Thursday morning.

Accident on the Railroad. A watchman, on the Reading Railroad, named McAtee, was accidentally thrown under one of the cars on Thursday morning.

Tamaqua. The flourishing town of Tamaqua, lies at the north foot of the Sharp Mountain on the little Schuylkill River, within four miles of the line of boundary between the county of Schuylkill, and the new county of Carbon, and at a distance of about sixteen miles from Pottsville.

On the south side of Tamaqua, "Sharp Mountain" presents a facade of stunted benches, and rocks that are clove and riven into chasms, and split and piled in heaps, as by a stroke from "the hammer of the artificer of Worlds," and ponderous masses of stone that hang seemingly upon nothing, and seem eternally to fall "like ruin in action."

The little town lying in the midst of so much natural beauty, has in it all the elements of prosperity, and they are all actively at work, with palpable effect. Among the substantial improvements which are going forward, is a large and handsome brick building, intended we believe, for a store.

The loss is estimated from five to ten millions of dollars, and it is not possible to say how much of it will probably never be known how many lives were lost upon this distressing occasion, as many families lived in garrets, of four and five stories buildings, who could not possibly escape so rapidly did the fearful elements extend itself when the several explosions took place.

THE NEW YORK FIRE. The investigations which have taken place since the fire, are developing the true cause of the explosion which gave such impetus to the conflagration; and it now seems certain that neither gas nor saltpetre, but gunpowder did the mischief.

THE TARIFF—HOW IT WORKS. A letter from Petersburg, of the 18th May, says that the Emperor has prohibited the exportation of grain of all kinds, from Riga, and Perna and other Russian ports, during the whole period of the navigation there this year.
