## The Coal Trade. The shipments this week show a slight increase

over last week -by Rail Road 22,799-by Canal 9,795 making for the week a total of 32,591 tons. The shipments by Canal for this week have increased nearly two thousand tons.

The supply of Anthracite Coal this year will fall very little, if any, short of Two million of Tons, more than one half of which will be sent from Schuylkill County. This quantity will give an increase over the con sumption of last year, of about 300,000 tons -- all of which we feel satisfied the market will require. The increased inland consumption alone on the lines of the different improvements on which the coal is transported, before it reaches tide, this year will be at least one hundred thousand tons. This is a large increase but Is rather under than over rated. We learn that an advance of ten cents per ton on the
