Іменочения и оси вопочен.- We perceive that our friend, Mr. S. Sillyman has commenced the foundations of two new three story brick buildings, on the vacant lots next to the White Horse Hotel. These buildings are to be occupied as stores and dwellings. The new Hotel of Mr. Geiss' is rapidly pro-

The Congregation of Methodists who have been for some time worshipping in the Universalist Church, have purchased a lot on Market Square, and intend to build thereon a handsome Church. The work has commenced.

We have no doubt that fifty small houses which would rent for \$50 to \$75 would be occupied as fast as they could be ereceted. The demand for dwellings is greater than the supply, notwithstanding new ones are constantly being creeted. Capitalists who wish to invest money safely, and draw a good interest from it, could not do better than to build a number of these small houses. All thos which are now in process of erection are dispose of some of them having been rented before the foundations were completed.

GENEROSITY .- We understand that the Potts ville Division of the Sons of Temperance, applied during the week to Mr. Andrew B. White, for the use of the large room over his store, as a place in which to hold their meetings. He refused to rent it to them, but told them they might have it so long as he owned the premises, free of charge.

RATES OF FARE .-- The fare charged from Philadelphia to Wilkesbarre, via Railroad to Pottsville. and thence by stages, is \$3 50. To Pottsville only,

We do not object at all to the cheap rates of fare between Philadelphia and Wilkesbarre. We . have no doubt that the low fare increases the travel and the funds of the Raitroad Company, without any additional expense; but the Company is indebted to the Coal region for the trade it enjoys, and we would ask whether it is right and just to charge the same rates to Pottsville, as are charged to Wilkesbarre. No part of the State offers greater i inducements for the man of capital to invest his money in mining or manufacturing than this, and in proportion to the increase of population, and the development of our resources, will be the in-· crease in the travel and transportation.

We are sure that if the Rail Road Company would reduce the fare from this place to Philadelphia, to a reasonable rate, they would be greatly benefitted by it. But we do not want the cheap rates for only a month, or a quarter. Give us reduced fare for twelve months, and if the receipts are not greater than they have been during any preceding year, we will say nothing more about

THE FARIN OF AVA .-- This noted personage, who may well be styled the Prince of Humbug, has been giving a series of his 'Sources' at the Town Hall, during the present week. Renuction of Fare. The Baltimore and Ohio Ruil Road Company, have reduced the fare between Washington and Baltimore from \$2,50 te \$1.60.

Competition for the Thade of the West .-The subscriptions to the stock of the Eric road, rain was run off the track into a Coal Train at have reached \$1,800,000. \$1,200,000 are yet required but the probabilities are now in favor of its completion. The Baltimore and Ohio Rail Road Company, will most probably soon have a continuous line to Pittsburg, and then the business of Philadelphia will suffer materially.

We perceive that the Philadelphians are beginning to agitate the subject of a Rail Road communication with the western part of this State, and with Lake Erie. Three routes, the northern, middle and southern, offer themselves for consideration, in case this plan should succeed. The southern route is already completed as far as Chambersburg, but the crossing of the Alleghany Mountains is a strong reason why this route should not be selected. There is already a Canal and Rail Road communication from Philadelphia to Pittsburg, but this is not open during the winter. The northern route would pass through Pottsville and Sunbury, to Williamsport, thence up the West Branch of the Susquehanna, and the Sinnemahoning Creek to Bennett's Branch. At the head of Bennett's Branch is a gap in the Alleghanies through which a Rail Road could readily be laid. From this point two branch roads, one to Erie and another to Pittsburg, might be made, which would command a very heavy Wes-

tern Trade. The northern route appears to us much the bes of any which could be selected, as it passes through the rich iron districts of Pennsylvania, and would serve to give a new impulse to the business in the northern part of the State. The whole line has been surveyed, as it was purposed at one time to have the Pennsylvania Canal pass over this route. The middle portion of the State, has already a communication with the west, and the advantages which would ensue from substituting a Rail Road for the Canal, would not be so great as those which would result from the new

From Williamsport to Elmira, a a road is partially made, which when finished would intersect the N. Y., and Eric Road, and would connect Philadelphia with the whole wesern part of New York. The amount of business which would go to Philadelphia should this Western Rail Road communication be made, would be minense. In the Departmental Assembly of Tamaulipas, a proposition to second the initiative of Zacatecas (for the restoration of this Constitution) has already been introduced.

Mexico is so much agitated by her internal trou bles, that she is not in a fit state to declare war. Should a war be declared, however, it might result in uniting the various factions, and giving stability to the Government.

RAIL ROAD MEETING IN DANVILLE .- A meeting was held in Danville on Tuesday, 9th inst mill of the kind ever erected in the state of Alato take into consideration the best means of promoting the construction of a Railroad to connec Danville with Pottsville and Philadelphia.

SAMUEL R. WOOD, was appointed President, Alexander Montgomeny, John C. Bord PETER BALDY, GEORGE A. FRICK, HENRY BRE-VOORT, DR. WILLIAM H. MAGILL, ELI TREGO and WILLIAM DONALDSON, were appointed Vice Presidents, and Edward H. Buldy and Andrew F. Russel, Secretaries of the meeting.

We regret that want of room compels us to give only a condensed account of the proceedings. A committee of seven was appointed to draft resolutions expressing the sense of the meeting, who in the preamble setting forth the advantages of the proposed road say that it "will effect an union between the iron region of Columbia county and the coal basin of Shamokin and Mahanoy; it will also connect the town of Danville and its great iron interests, with the coal fields of Schuy kill and the interests of our Metropolis."

Several resolutions were passed, of which we think the following two will most interest our read-

Resolved. That this meeting view the subject of a transit communication by rail road between the termination of the proposed Danville Rail Road and the town of Pottsville, as one involving con-sequences and results of immeasurable magnitude to the interests of the citizens of the two towns espectively and Philadelphial and that measures ought forthwith to be entered upon to secure a coless experience on a just representation of facts

THE RIGHT SPIRIT.—The following resolutions were passed at the recent. Whig Conference for the City and County of Philadelphia:

Resolved. That the Whig party has done no thing, left nothing undone, that can justify the defection of any member of the party; that it is now all that it has ever been in principles, spiri and fidelity; and that no man can find in its his tory or character, that which can relieve an abandonment of our banner from the reproach and contempt which ever, even with those who nurse

the treason, await the traitor. Resolved. That the third party which has spring up, is not the Whig Party-and on that not ours-that it does not bear our name avoy our principles, or maintain our measures that it is local, temporary and of one idea, while the Whig party is of and for ALL our country,

through all times and in all emergencies. Resolved, That the Whig party will be faithful to itself in all its nominations—a fidelity that will win victory or dignify defeat.

Resolved. That since the open war commenced by the present administration upon the Tariff, it is apparent that to the Whig party alone can the country look for its rescue; that to it, and all the measures of our party, we pledge our faith and ho nor, and invoke the honest and natriotic of all parties to unite with us in sustaining what is the

Resolved, That in a crisis like the present, when foreign and domestic ills darken the path of ou history, no one idea or measure can save the land -that the sympathies and anxieties and efforts o ist cover every right and every inte est-that the Whig creed is ample to cover and shield all our common country—to meet every danger-rediess every wrong-maintain the com-mon welfare, and transmit our country to posterity as undimmed in its glory as when we received it from our fathers.

He has published a reply to a letter gers and 20 tons of merchandize at low rates, and from a committee of his friends in Cincinnati, in which, in hold and stirring language, he heaps in vective upon those who broke up his establishment and proclaims his unfaltering determination to continue to fight for the abolition of Slavery in his native State. We copy the concluding paragraphs of his reply :-

"It has been the policy of wise statesmen in all ages, to clothe the humblest citizen with the con centrated power and inviolability of the whol empire. It was enough for one unidst the wildes barbarians to say, 'I am a Roman citizen,' and she way safe. No country in Europe is so careful of individual and national glory as France, the first nation of Europe-and England, but a few years ago, was ready to peril her thirty millions of lives on the rescue of a single subject. It cannot therefore be less than madness to the American people if they expect long to live as a nation, and not to ted to the Judgeship of the United States Court, fall an easy sacrafice to foreign aggression or internal anarchy and despotism, to look cooly on, when even the humblest of those contending for constitutional liberty and national honor are overborn and trampled down in the battle. Surely that nation cannot live long, far less be free, that sees time after time, whatever of spirit and manlindependence may anywhere exhibit itself, crushed

and utterly extinguished." With regard to the Press, I would briefly re nark, that my banner, God and Liberty,' will never be struck. Though overpowered by numbers. To the Editor of the Miners' Journal: Sir:—In looking over your paper of the 13th inst., we noticed the above publication of a Bank Meeting—which proceedings are calculated to mislead and deceive the public, and to place us, whose mill, for the manufacture of rice. This is the first names are here set forth, as participating in_that meeting, in a false position, as we hope to be able to show in the sequel—which herewith follows: To the Stockholders of the Farmers' Bank of Schuylkill county, and the public generally:

We, the undersigned, being a minority of the Commissioners (whose names appear, for aughi that shows to the contrary in the above publica-tion of the Bank Meeting held on the 8th instant, as if we had acquiesced in, and voted for the passage of the resolutions above reported.) must, ir justice to ourselves, and in candour to the Stockholders in the said Bank, and to the public generally, take this method (for it was denied us at that meeting) of recording the ayes and nays, and the names of those who voted in favor of, and against the passage of the first resolution particularly. The vote on that resolution was as follows:

Ayes—Edward Huntzinger, H. W. Hughes Wm. Mortimer, Sen., Jno. D. Deibert, John G Koehler, Dennis Dougherty, George D. Boyer, D E. Nice, Philip Boyer-9.
Nays-Robert Bass, James B. Levan, Win Kramer, Mark Mellon, George Kaufman, Jno. W

Shocmaker, A. W. Leyburn-7. It may be proper here to remark, that Roland Kline, whose name appears among the list of Commissioners, was not present at the time the above vote was taken-and, that Philip Boyer, shottler said resolution. The undersigned were and still are opposed to the passage of the aforesaid resolu-tion, for the following reasons:

1st. Because we believe it to be an illlegal, and usurped power on the part of those Commissioners passing it, and an express violation of the letter, spirit and intention of the law incorporating the Farmers' Bank of Schuylkill county-see, secder; We have been favored with a specimen of tion 1st, 2nd and 3rd of Pamphlet Laws, 1845-

2nd. The Commissioners have no right to pass resolutions to arrest the progress of the sale of the Capital Stock of said Bank from being taken. 3rd. Because the resolution passed by the nine Commissioners aforesaid, if calculated to carry the law incorporating the Bank aforesaid into effect, (which we deny to have such tendency) has not been passed by such a majority of the Commissioners as that law requires.

4th. Because we feel assured, but for the passes

sage of the aforesaid resolution, the balance, three hundred and seventy-one shares of stock remaining to be sold of the 4000 shares, would have been disposed of in time to enable the stockholders in Erie Rail Road now reach \$1,500,000, being half the said Bank, to have elected thirteen directors for the required amount. The rest will be forth- said Bank, at any time previous to the third Moncoming, we have no doubt. The enterprise is law aforesaid. And

ubscriptions to the capital stock of the Bank aforesaid, was at all times opened for that purpose, by he unanimous resolution of Ten of the Commis sioners, that being a majority of the whole-and that two of the Commissioners, viz: Edward Huntzinger and John G. Kochler, who voted for the passage of the aforesaid resolution, acted as Comers, and bad charge of the Book for the sale of the stock to said Bank, at the following named places-John G. Koehler, at Orwigsburg, nd Edward Huntzinger, at Schnylkill Haven.-All of which is respectfully submitted to a candid-

and impartial public, by
A. W. LEYBURN, WILLIAM KRAMER. GEO. KAUFMAN, JOHN W. SHOE WAKER, ROBERT BASS.

REMOVAL MEETING. At an adjourned meeting of citizens of Schuylkill county, assembled at Henry Geiss' Hotel, in the Borough of Pottsville, on the 10th inst., AN-DREW WILSON, Esq., of Barry township was called to the Chair. Charles W. Clemens. Francis W. Hughes, John Clayton, and John C. Conrad were appointed Vice Presidents, and Or-

lando Dufur, Henry Geiss, John Gilman, and Jeremiah S. Nagle, Sccretaries. The Committee appointed at a former meeting, consisting of B. T. Taylor, John Clayton, A. B. White, William Mortimer, Sen., Edward Cola-han, Esq., Samuel Huntzinger, William Major, John Snyder, Benjamin Haywood, and Orlando Dufur, made the following report: which was unanimously adopted:

WHEREAS, the citizens of Schuylkill county are now fully aware of the importance of having the seat of justice, and the public offices located in a more central part of the county than the Borough of Orwigsburg; and whereas, they have long considered their present location as a heavy grievance—nine tenths of the Court business coming from other parts of the county, the additional expense of mileage of witnesses, jurors, and the hiring of wagons and horses of the parties, and others who have business at the seat of Justice, as heavy tax on a large majority of the people, and be borne any longer. If the public buildings were in a more central situation, farmers and others attending court, or having business at the public offices, might on such occasions dispose of their produce and attend to other business at the same tim And whereas we have seen the evils of having our public offices in an obscure corner of the county, inasmuch as the County Commissioners have unjustly taken on themselves authority to enlarge the paesent Court House, for the purpose, we believe, of preventing the removal of the same to a more central part of the county, and by so doing they have acted without consulting the wishes of the people of any other part of the county than the lorough of Orwigsburg, and put the citizens there-

of to unnecessary and useless expense. There-Resolved, That in the opinion of this Committee, that as, a mutter of right to the people at large the Court House and the public offices should be located in the most central business portion of the county; and we recommend that a meeting be called on Saturday, the 20th day of September, inst., at the house of Henry Geiss, in the borough soft, hollow, and rotten. From the time General Jackson vetoed the United States Bank, the his-suitable persons for Assembly, who shall pledge themselves in favor of having the location of the Resolved, That the proceedings be published in

the different papers.

On motion, the meeting adjourned: (Signed by the Officers.)
