The soil must be adapted to the seed, or there will be no increase. The climate must have those matters in his which will unite and keep alive ppidemical or contegious polsons, or they will become extinguished as a lamp that is unsupplied with oil. So it is likewise with the human frame; it cannot be materially affected by epidemical or contagious maladies, unless there be those matters floating in the circulation which offer the appropriate soil. By purifying our bodies with the Brandreth Rills, which have smally with those impurities upon which contagion feeds, we may always feel secure, whatever disease may rage around us. True, we may have it, but it will soon be over, our sickness will be the affair of ady or two, while those who have been too wiss to use this simple and excellent remedy, either die, or have weeks, perhaps months of sickness. GRAND EXHIBITION! Unexampled Attraction!:

A STHE Fakir of Ava has ceased to amuse our citiLens, we think it will be gratify ing for the Public
to learn that 'amusements equally as attractive and
ince profitable than those given by the Fakir are now
open at the store of the subscriber. The amusements
are however of a different character. The Pakir's meth
od of amusing his audience was humbug and nothing
but humbug, and the undersigned's system of amusing
his audience consists of bargains and nothing but bargains, being a grand display of seasonable merchandize,
which for cheapness is unparalled in Aucient or Modern
times. His stock of goods is larger and he feels quite certain that he can in the lapse of a month by scientific experiments reduce them to the little end of nothing, which
will be a beautiful and unprecedented feat, and ha
doubts not will result quite profitably to his customers
and most certainly agreeable to himself. The philosophy of this marical operation consists in the following
grand secret, viz:—Goods are offered at such excéedingly low rates that the mind becoming excited. the fancy amused, and before the exercises are over, the purse
will be considerably relieved. Admission free and no
charge for showing goods.

MINERS' JOURNAL

Saturday Morning, Sept. 27, 1845. Connection. In our paper last week an erfor occurred, which we doen it necessary to, correct. At the end of the communication or the Schuylkill Navigation Co., the name of Mr. Elwood Morris appeared with the title President Engineer. It should have been Resident Engineer. The error was purely typographical, and escaped our notice when correcting proof:

THE NATIONAL LIGHT INPANTEY, Capt. E. E. Bland, went on Monday morning last to Philadelphia, by the Rail Road. They were met at the cars by the National Greys, Captain Fritz, and Philadelphia Cadets, Captain White-each of which companies was attended by a fine-band of music-and escorted to quarters which had been provided.

The Philadelphia papers speak in the highest terms of the Infantry. During their stay in the eity they have received much attention from their military brethrein They will return to-day. The resolutions of the Company, upon hearing. the death of Sergest Hower, will be found in an-

other column. (1) We invite the attention of our dealers to the new Philadelphia advertisements which are to

be found in to-day's paper. The Philadelphians appear to be more awake to the advantages of advertising than the citizens of our borough. There is no greater mistake than to suppose that the money expended in advertising is lost. It is only as bread cast upon the waters;

after a time it returns to the advertiser ten-fold Many persons have heretofore objected to their. advertisements tieing placed upon the outside of the paper, urging that they were not sufficiently conspicuous. Ho do away with this objection, it will be seen that we have adopted a new planthat of distributing our reading matter over every. page of the Journal. By this means all the advertisements in the sheet are brought before the eve of the reader. The last column on the third page will always contain the latest news.

THAT LETTER .- We understand that the contents of a political felter have, in a very mysterious manner begins known in this community, to the great detriment of some of the politicians. Whether the Pakir was employed or not, who it is said can read letters without breaking the seal, is not known; but certain it is, that the contents were known before the letter reached its place of destination. PORT CARROX.-We visited Port Carbon on

Monday and were glad to see that place is increasing in prosperity. Several landings are being prepared for the shipping of coal on the enlarged Canal, next springi The new Methodist Church which was recently commenced is already under The stores of the Merchants and the shops of the Mechanics, all appear to be doing well. We see that Messrs L. Mattson & Co., have recently

Goods. Their place of business is now among the largest in the region, and would not disgrace any of our Commercial Cities. Among the advertisements in to-day's purper are those of Messrs Lippincott & Taylor, and Mr. Sluter. The latter has recently built a

anlarged there store, and added to their stock of

large addition to his store and has increased his stock of goods proportionably. Our Riend Mr. Joseph Morgan, has recently made an addition to his stock of Fancy Dry Goods, &c. , We learn that he sells very cheap.

(Hve him a call. CANAL COMMISSIONER. - We give below, the address of the State Committee, nominating Samuel D. Karn's 3r the Whig candidate for Canal Commissioner. The nomination appears to meet

with general approval, and Mr. Karns is highly commended by all those who know him.

Address of the Whig State Committee. To THE WHIGS OF PENNSTLVANIA. The State Committe, in obedience to public. opinion, have, after mature deliberation, agreed to present to the Whigs of Pennsylvania, Samuel Karns, Esq. of Dauphin county, as a candidate for the office of Canal Commissioner, at the ensuing election. Mr. Kanas is a gentleman of education, talents, great business, habits, and has a thorough knowledge of our public works.

He is hesides extensively and favarably known throughout the State, as a man of unblemished character, and whose strict integrity is a sure guaranty of a faithful discharge of the duties of the office, should his receive a majority of the suffra-

ges of the people.

The Public Debt of Pennsylvania, most of which was contracted in the construction of the Canals and Railroads, is now about \$40,000,000! The Interest on this debt is \$2,000,000 !- while the income from the Public Works, after deducting repairs and expenses, pays at best, only about one-fourth of the interest, leaving \$1,500,000! tole annually collected from the people! It is believed that under a proper system of management, the dismisal of an army of idle, extravigant agents-astrict accountability of all disbursing and accounting officers-and the adoption of a liberal and enlightened tarrif of tolls, so as to secure upon our Main Line the trade of the West, which now passes over rival routes, will greatly increase the revenue from our State improvements. The New York Canals, which connect the Lakes with tidewater, are not as well located as are those of Pennsylvania, which connect the Great Vallay, of the Ohio with the scaboard. Nor ought New York afford a tonnage compared with the rich productions of our Furnaces and Forges and Coal mines. Yet the New York canals last year yielded \$2,. 446,374, and a net profit of over \$2,000,000 ! equal to the interest on our entire debt; while our Public Works, which are more extensive and better located, did not yield a not revenue exceeding one-fourth of that amount. All this owing

to bad management.
To reform abuses—to introduce economy—and to adopt such a system of tolls as shall awaken enterprise and being trade and business upon our Canals and Railways, Mr. KARNS is presented as again in support of their men and their measures. which he respectfully jurites the attention of the sagain in support of their men and their measures, people of Puttsville and Schuylkill county generally. Let them show that undivided front in October next, that will convince all that they will never yield their organization or their principles; but that like the victorious Whigs of 1776, and 1840. they will show themselves worthy of victory, as their couse is worthy of success.
