Payse Readen!!—This good advice comes from a friend, an educated physician, and one who has been cured of protracted illness by "The Improved Indian Vegetable Pills" (Sugar Coated.) which are at this moment effecting some of the most remarkable cures for record, and they will continue to heat the sick as liong as they are resorted to by them. This is no nostrum, made merely to sell irrespective of its qualities, but a valuable medicine made by a well educated Physician, of Vegetable Ingredients, pure, efficacious and sharmless. In a few days, we shall make a public report of several more cases of decrease cures (for we note no others) and the public may know on what medicine to rely on in time of need.

Contagious and Epidemic Diseases.—Water must be adapted to the nature of the fish, or there would be no propagation of the species. The soil must be adapted to the seed, or there will be no increase. The climate must have those matters in it which will unite and keep alive epidemical or contagious poisons, or they will become extinguished as a lamp that is unsupplied with off. So it is likewise with the human frame; it cannot be materially affected by epidemical or contagious maladies, unless there be those matters floating in the circulation which offer like appropriate soil. By purifying our hodies with the Brandreth Pills, which have a finity with those impuricies upon which contagion freeds, we may always free secure, whatever disease may rage around us. True, we may have it, but it will soon be over, our sickness will be the affair of a day or two, while those who have seem too wise to use this simple and excellent remedy, bither fue, or have weeks, perhaps months of sickness. LAUCKSRHEUMATIC PRESERVATIVE: FOR SALE, WHOLESALE AND RETAIL, BY SAMUEL LAUCKS, Proprietor,

MUCH need not be said in relation to this wonthat when applied, it will, as an be proven by a
number of respectable persons, effect an entire cure
of the Rheematic and other pains. It had not, until lately, been his intention to make it public, but by
the frequent applications of his neighbors, and the
wonderful cures it has effected, he feels it a duty he
owes to society, as well as himself, to make it more
generally known, and at the same time, have it put, generally known, and at the same time, have it put
