Pause Header !:—This good advice comes from a friend, an educated physician, and one who has been rured of protracted liliness by "The Improved Indian Vegetable Pils" (Sugar Coated,) which are at this moment effecting some of the most remarkable cures on record, and they will continue to heal the sick as long as they are resorted to by them. This is no nostrum, made merely to sell irrespective of its qualities, but a valuable medicine made by a well educated Physician, of Vegetable Ingredients, pure, efficacious and hatmless. In a few days, we shall make a public report of several more cases of necessary cures (for we note no others) and the public may know on what medicine to rely on in time of need.

Sold at 179 Greenwich st. N. Y. and by John S. C. Martin, Druggist, Potts ille; J. & J. C. Rahn, Orwigsburg; E. W. Earl, Reading; S. & G. Shollenberger, Hamburg; Bast & Sterner, and J. A. & J. H. Falls, Minersville.

Contacious and Estremic Diseases.—Water mast be adapted to the nature of the fish, or there would be no propagation of the species. The soil must be adapted to the seed, or there will be no increase. The climate must have those matters in it which will unite and keep alive epidemical or contagious poisons, or they will become extinguished as a lamp that is unsupplied with oil. So it is likewise with the human frame; it cannot be materially affected by epidemical or contagious maladies, unless there be those matters floating in the circulation which offer the appropriate soil. By purifying our bodies with the he those matters floating in the circulation which offer the appropriate soil. By purifying our bodies with the Brandreth Pills, which have affinity with those impurities upon which contagion feeds, we may always feel secure, whatever disease may rage around us. True, we may have it, but it will soon be over, our sickness will be the affair of a day or two, while those who have been too wise to use this simple and excellent remedy, either die, or have weeks, perhaps months of sickness. \$Sold at Brandreth's Principal office, 241 Broadway N. Y. and by the following authorized Agents in Schuytkill county. Schnylkill county.
Pottsville, W. Mortimore; New Castle, George Relfenyder; Port Clinton, J. Robinhold &co:, Orwigaburg, E. & E. Hammer; Schuylkill Haven, Charles. Huntzinger; —And by one agent in every place of importance throughout the world.

Me beg to inform you that we have established ourselves at the above place, principally for the purpose of meeting the view of our wholesale and large family customers on the North riverside.

The upright manner in which we have carried on our business for several years past, in this city, together with the very high quality and moderate price of our goods, have earned for us a degree of reputation and renown far beyond that of any similar house in the United States, and we consider these the best reasons we have made, with great care and judgment, our selections from all the spring cargos, and which comprise the finest specimens of Hyson, Gunpowder, imperial, Oolong, Pekoe, Ningyong, Congou, Souchong, &c., which have arrived here this season, which, with an immense variety of fine and good qualities, we offer at wholesale and retail.

We have, also, the true Government Java and other Coffees, as usual, rousted and ground daily. We continue operations at our other places as heretofore, especially at 121. Chatham street.

We are your obedient servants.

A CARD.

A CARD.

IT HAS suited the convenience of certain parties, to offer in the market, pipes made in violation of our patent, and tiazed, with a view to obtain the preference, by pretending that lead pipe is an unwholesome conveyance for good watef. This stale imposition has been urged, with extraordinary efforts of perversion and dishonestly, in New York, without effect; and is now about to be attempted elsewhere.

Nature soon provides an insoluble and indestructible coating to lead pipes, (when muse for conveying water that is fit to drink.) far better than any artificial projection; for the latter can neither be permanent nor secure in any case and sometimes injurious. Persons interested may see at our office some of this "linned" stuff that was used for ten years by the side of pure lead pipe, and judge for themselves about the corrosion. A letter from Dr. ROBERT HARE, of the University of Pennsylvania, distinguished as one of the first Chomists of the age, is appended below.

Nevertheless, for the benefit of lovers of the marvellous, we will supply the timed or "tin plated" pipe at the price of pure lead pipes at and, as we will not be undersold, we hope to preserve our old relations with our business friends.

Messre. Tatham & Brothers;—In reply to your

Messre. TATHAM & BROTHERS ;- In reply to you Messra. Tatham & Boothers:—In reply ito your note respecting the influence of lead pipes upon the water which they convey, it may be sufficient to say, that having used the Schuylkill water so conveyed, to my laboratory in the University for more than twenty five years. I have never perceived the slightest indication of the presence of that metal. Had there been any lead in the liquid in question, the reagents, with which I have been accustomed to use it, must have rendered the impurity evident.

I aim sentlemen, yours with regard, (Signed.)

GRAND EXHIBITION! Unexampled Attraction:

As THE Fakir of Ava has ceased to amuse our citicaens, we think it will be gratify ing for the Public to learn that amusements equally as attractive and more profitable than those given by the Fakir are now open at the store of the subscriber. The amusements are bowever of a different character. The Fakir's method of amusing his audience was humbug and nothing but humbug, and the undersigned's system of amusing his audience consists of bargains and nothing but barreains, being a grand display of seasonable user chandize, which for cheapness is unparalled in Ancient or Mudern times. His stock of goods is larger and he feels quite certain that he can in the lapse of a month by scientific experiments reduce them to the little end of nothing, which will be a beautiful and unprecedented feat, and he doubts not will result quite profitably to his customers and most certainly agreeable to himself. The philifon-phy of this magical operation consists in the following grand secret, viz:—Goods are offered jat such exceedingly low rates that the mind becoming excited the fancy amused, and before the exercises are over, the purse will be considerably relieved. Admission free and no charge for showing goods.

P. 8—In addition to the above exhibition, there can Unexampled Attraction!

The im-

provements are near-mill a small house made known at the time and place of sale by HENRY BOLIG. Executors

By order of the Court,
JNO. H. DOWNING, Clerk,
Orwigsburg, Oct. 4th, 1815. To the Public.

To the Public.

PROPOSALS for building Schnythill Barges, and keeping them in running order for ten years.

First.—The undersigned, with an experience of 20 years in the building of Boats and Barges will contract to build 50 to 100 Coal Boats, suited to the enlarged locks of the Schuylkill Canal, to carry coal from Petlsyille to Philadelphia, of 200 tons burthen at 5; feet water, for \$1000 each. And to keep said hoats in good running order for Ten years, (if life will permit) at the following rates for each year, or any part of that yerm:

1st yr. 2d. 3d. 4th. 5th. 6th. 7th; 8th. 9th. 10th. 200 \$100 sto. \$100

Being 8 per cent on the cost.

Third.—I am ready to contract for the building of 20 Sailing Barges,—with centre board, &c., exclusive of spars and other rigging—calculated for the Fastern trade of 200 tons burthen, at \$1650 to \$1500. And keep them in repair at a slight increase of rates, equal to 8 per cent on the whole cost. them in repair at a signific increase of races, equal to oper cent on the whole cost.

Fourth.—I am also prepared to build Steam Tugs or decked vessels, calculated for propellers, at \$2000 each. Said vessels shall be substantially built, of the heat timber to be had in the Valley of the Susquehanni and its tributaries, well fastened with wroight spikes and bolt iron, well kneed throughout, and finished in a workmanlike manner.

& Estimates of repairs are intended for the ordinary wear and tear only.

MINERS' JOURNAL.

LIVING IN TEXAS. According to the following extract of a letter, published in the New Orleans Picayune, written by an officer of the army at Corpus Christi—the post occupied by Gen.
Taylor's "Army of Occupation" cannot be partical ularly desirable;

Corpus Christi, Teruz, Sept. 30, 1945.

* Florida may be the "land of promise," but Texas is the land of "warmints." In clearing the ground to pitch my tent, I killed a water moscasin; aliont 3 o'clock in the morning. I was wa-kened up by the barking of a dog; he had just run, a tattlesnake out of my neighbor's tank; when the rattling and barking aroused me-nine rattles—captured. I again laid down and when day broke, a yellow necked lizard was cocking his eyes cunningly from the ridge pole of my tent. I sprang up, seized my boot to despatch him, when lo! out of the boot dropped a tarantula! Ex-

rapidly to abandon my position, having been stung Besides the above mishaps, he lost a valuable og hy a shark. The dog had jumped overboardfrom a boat, when the voracious monster caught.

chair; but no sooner down than I was compelled

THE MEXICAN President HERREBA, in his dessage to the Congress, gives a gloomy pictureof the internal condition of the Republic; nor is the prospect of the future less gloomy. He de-plores the utter inefficiency of the revenues of the Sovernment and demands the prompt and energetic co-operation of the legislative body to remedy the evil. All the powers of administration are paralyzed for want of means. The army cannot move, says the President, territory unsurped will remain usurped; and the hope of recovering it being once lost, the usurpation will be successively and gradually continued until it embraces the whole Republic, and (I shudder to confess it) Mexico, with so many elements of abundance and of greatness, will disappear from the number of

mependant nations." The elements of dissolution are in Mexico herself-fixed in her own bosom. Possessed of the finest region of country in the world, her people are impoverished amidst the richest gifts of nature, and her relause into barbariem geema to be rapid in proportion to the means in her hands of the highest attainments of civilization.

The tone of Hennes a's Message is borne out by the language of the Journals. One of the papy ne tanguage of the Journals. One of the pa-pers of the interior, speaking of the reported ar-tival of Gagna's division at Matamoras, exclaims, 'Heaven grant that it may not be composed of more officers than soldiers, and that it has carried with it the means of subsistence; because if it: comes to die of hunger, as has been almost the case with the troops now there, instead of imprering, it will only aggravate our condition.' The article goes on in this strain, showing that the roops near the frontier are almost totally disorgannized for want of the necessary resources.

CANCELLATION OF RELIEF NOTES .- On the 30th of last month, the State Transurer of Penn-sylvania cancelled and delivered to the Auditor General for destruction \$35,000 in notes issued! under the Act of 4th May, 1841, agreeably to the provisions of subsequent Acts of Assembly, proiding for the gradual withdrawal of those is from circulation. The whole amount of these notes now tempining to circulation, but little excecds \$1,200,000.

Sewine Maching. - A most ingenious piece of mechanism has lately been made known to the public in France, the inventor of which has been engaged during the last fifteen years in bringing it to its present state of perfection. It is a sew-ing machine, plain in its details, and calculated to revolutionize completely the art of sewing. will perform two hundred stitches to the minute, GEO. W. SLATER.

8—In addition to the above exhibition, there can of a screw, lead the needle along all the sinuosities or the stuff to be sewed, without:

and irregularities of the stuff to be sewed, without: the least danger of tear, whatever may be the texture of the stuff, and do every part of the sew-ing of a coat, button holes excepted.—New York

RESIDION IN GERMANK.—A correspondent of the German Schnellpost concludes his review of the Political and Social condition of the different Surgpean Countries at the present moment with the following remark:

"The various Governments of Germany, terri-fied by the recent sad events in Leipzic, Tosen, Halberstadt and at different other places, are busy in stopping the religious movement. Ronge, Czerski and others are forbidden to preach. When ther this will avail I doubt very much. The stone that has once been started rolls down the hill, and ne who attempts to stop it will be run aver."

MULTIPLICATION OF BIBLES.—Five Bibles a minute for ten hours every day, except the Sab-bath, making three thousand per day—have been sent our the past year by the British and Foreigns Bible society, according to its Report. The Evening. Post states that at a meeting of the managers, on Thursday last, it appeared that the number of Bibles and Testaments issued during the last month was more than 56,000 copies—averaging nearly 2000 copies per day. The number considerably exceeded that of any previous month's issue. The receipts, however, for the month, were by no means encouraging, and bills to the amount of \$10,000 remain unpaid, most of them for papers

PATING FOR THE WHISTLE.-The government at Washington, on Saturday jast drew \$100,-000 to pay the troops in Texas. This is a single and comparatively a small item of the cost of Tex-as to the tax-payers of the United States The bills are just beginning to come in. The total ex-pense, in Legislative discussions, army operations, diplomatic negotiations, national shame and disgrace, and ultimate evils will be enormous, crushing, incalculable. Oh! we must pay very dearly ndeed for our Whistle.

The subscribers of the "Democratic Review," the great organ of the Locofoco Party, are in arrears to the amount of \$40,000! they have evidently imbihed the prevailing idea among a ton large class of subscribers to newspapers and periodicals, that the proprietors can sustain their publications and feed and cloths themselves and their families, upon the profits of empty promises to pay. It is dry folder. Baw dust puddings and bran short cakes are for more nourishing and palatable.

A NEW FEATURETE CATELE Snows. At the recent Agricultural Fair in Burlington, Vt., Mr. L. Chase presented for premium three pretty female children, two and a half years old, born at a birth! The Committee on houshold manufactures awarded him \$14, which was voluntarily contributed by the old bachelors present, who said they considered him a legitimate object of charity.

Fourtuse's Fuorics .- A Journeyman tailor at Boston, and a poor man, with a large family, received intelligence by the steamer Hibernia of a large amount of money, houses, land, plate, horses. carriages, Scc., &c., amounting to from 150,000 to \$200,000 being the effects of a rich pawnbroker, deceased, of whom he is sole heirs

THE WHITE House .-- The Washington Journal says the country will one a debt of gratitude to Mrs. Polk for introducing a system of republican simplicity into the Presidential mansion, to which it has heretofore been a stranger. Having plain, quiet, and very agreeable mode which has been adopted in receiving company; we have now to thank her, in behulf of the whole nation, for the exceedingly judicious selections which have been made in fitting up the White Hause. All
