The Coal Trade. The quantity has increased this week, by Rail Road and fallen off by Capal. The former sent 22,095 13: and the latter 9,050 08-total for the week 21,152 0

The price of freight remains the same as last weakand the demand for large White Ash coal, is as great as ever. The shipments would easily reach 35 or 26,000 tons per week if there were facilities to carry it to market. In order to guard against a similar contingency next year, we would advise the Rail Road and Canal Companies to prepare a supply of Cers and Boats for a shipment from this region in 1846 of at least one million three hundred thousand tons: We can and will send that quantity to market. The trade from the Lehigh has commenced again—but very little will reach tide from that quarter this season—the mrrkets on the line will absorb it all.

Vessels are in demand for carrying coal from Richmond, to the Eastern Ports, and the price of freights

Another wonderful cure of Consumption 1

Providence R. I., Sept., 20, 1815.

Dr. Swayne Dear Sir.—I feel called by a sense of dufy I owe to the suffering humanity, to acknowledge my grateful thanks for the wonderful effects of your "Compound Syrup of Wild Cherry" on me, after having suffered months after months, with the most afflicting of all diseases, Consumption, with scircely a ray of hope, or al beacon light, to guard me against my own horrible forbodings. The circumstances which first led to this awful state of debility, was from taking a very heavy "cold," which seemed to fix itself upon the lungs, which gradually grew worse, with profuse might sweat, a hacking eough, oppression in the breast, spitting blood with gradually grew worse, with profuse might sweat, a hacking eough, oppression in the breast, spitting blood with great general debility. My constitution seemed broken down, and nervous system very much impaired with all the symptoms of confirmed Consumption. I went to Philadelphia, and was treated there by physicians of the highest respectability, but still grew worse, until they gave me up as incurable, and advised me to go South, but being very poor after losing so much time from my work, and having spent all my money on the various "Patent Medicines," which were recommended so high through the medium of the press. I was unable to take their advice. Being a member of the order of Odd Fellows, they supplied me with money gratuitously to send me to my friends in Saco, Maine. I was treated by physicians of the highest standing there, but received no benefit whatever from them, but gradually worse; until my physicians and myself gave up all hopes of my ever recovering, and I felt like one who is about to mass through the valley of the shadow of death. At this "awful juncture," I heard of your "Compound Syrup of Wild Cherry." and knowing you to be a regular practicing physician in Philadelphia; gave me more confidence in the medicine, so I concluded, as a last resort, to make a trial of it. MINERS' JOURNAL.

Saturday Morning, Nov. 9, 1845. Albertisements crowded out this week will

uppear in our next Tas. Fatt Etterions.-The State election in New Fork took place on Tuesday la t. Little. excitement was felt as regarded the result, and the vote was very small. The avergh in New York City was for the Register, and the following is the vote polled for each candidate: Osgood L. F. 15,322-Franklin Whig. 12,144

At first it was sustained by the Whigs, but it became so, narrow, contracted and bigoted, that it destroyed itself. We have few

returns from the counties in this State, and they. are vague and unsatisfactory. The election in New Jersey also took place on Tuesday. We have nearly full returns from the State. The Whigs have certainly carried the Senate, and probably the House. There is a possibility however that owing to the apathy of the Whigs, there may be a Locosoco majority

on joint ballot. ANTHRACITE FURNACES .- We learn that Messra Patterson & Lyman's Furnace, erected at Spring Mill, was blown in on Thursday last under

the superistendance of Commodore Perry. Mesus E. & A. Brooke, have also, erected an Anthracite Furnace, at Birdsborough Berks co., near the Canal, which will be ready to go into operation in a short time.

TEXAS .- The people of this 'State' have adoptod the new Constitution by a large majority. The vote in favor of annexation is about 8 to 1, so that that question appears to be settled. Poor-Mexico! in less than ten years, she will cease to

exist as an independent nation. DEATH ON THE RAIL ROAD.-A man named Charles Whitmore was killed on the Reading Rail Road, at the Norristawn Depot, on Monday night last. He was asleep on the tender of a locomotive, in motion. The engine struck a train of coal cars, and the concussion threw him between the tender and the engine, instantly cruebing him

to death. A Good INPHOVEMENT .-- The Mount Carbon-Rail Road Company have built a stone wall between Rail Road street and the Rail Road, extending from Clemens & Parvin's Steam Mill to Norwegian street, on which they are putting up a fence. This will effectually prevent the washings from being carried on the Rail Road, and improves the appearance of the street.

ARRIVAL OF THE CALIDONIA. The Steam Ship Calidonia arrived at Boston on
