'A lady of the first respectability in this city, (whose name we are permitted to give in private) informed us this week, that she had long suffered the most violent headache, and that nothing had ever afforded her headache, and that nothing had ever altarded her relief like these Pills." She said that Dr. Hunt-ington advised her to try them, stating he knew them' to be a good medicine. This case is not uncominon. "Illusicians no recommend them, and Dr. S.; has the proud satisfaction of being perinitted to refer to more than one men in the rofession. These Pills, besides their great efficacy, have a taste as pleasant as a sugar pl ing coated with sugar, (a thing unheard of in the world, until Dr. Smith made them, after more than a year's trial and great expense.) The pub-lic are informed that these Pills are not of the mushroom class, made of anything merely to sell for a short time, as they are made of the purest for a short time, as they are made of the purest materials, and they will bear the scrutiny of either Physician or Chemist. The public ought to re-member that no Sugar Coated Fills can be relied pon unless the signature of Dr. Benj. Smith, M. " CITIZENS OF THE UNITED STATES !- Let it In remembered that Brandreth's Vegetable Univer-sal Pills, have now been before the citizens, of the United States for nearly six years, and used by hundreds of thousands!! They are so well known that it need scarcely be mentioned that they are a "Purgative Medicine," so "justly balanced' that the "experience of a century" has proved that the "experience of a century" has proved that they may be taken it any dose, ac-cording nelNaftyre's requirements, and this rule refers to "both list as and all ages. They have been used in every variety of derangements of the human body, and yet, when properly used, never failed to restore to headth, except in those eases where nature was exhausted before the bill, the grant of the state of the stat Pills were cominenced with.

Experience tas taught that Brandreth's Vege-table Universal Pills remove all corrupt humors aming unversion runs remove an corrupt minimus from the body, in an easy, safe and effectual man-ner—producing no effect but what will finally conduce to the perfect purification of the Blood, and thereby cure the disease, (winterer name it

GREAT EXCITEMENT .-- Lippincott & Taylor, at their Clothing store, have astonished every body, in this part of the state by the magnitude of their stock, and their excessively low prices. People stop to peep in that they may discover what kind of chaps those are who sell at such rates. We begin to fear, unless counciling takes place, our merchants will begin to give goods away. The Coal Region cant be beat.

MEW MACHINE FOR PUNCHING R. R. LOS WHEN COLD .- Vesterday, just before we went to press we saw a machine for punching R. R. Iron when cold., It was manufactured at the establish ment of Messre Haywood & Snyder for the use of the Montour Iran works at Danville. The ma-

chine works beautifully. - We understand that it s an entirely new invention for that purpose .--The Rail Road iron after being rolled is sawed. then straightened, and immediately carried under the machine and punched-the whole being dono; as it were, by one process. The machine is capable of punching iron of any thickness which may he required for Rail Roads. We are promised a

full description of this machine for our next paper. Annorr's DRAWING CARDS .- These are a eries of outline cards, well adapted to teach children the first principles of drawing. They are sold at fifty cents per pack, and may be had at

· · · · RAILROAD FROM PHILADELPHIA TO ROCHESTER, Luin AND PETTSBURG -- In this, paper will be bund the Report of Mr. Kimber Cleaver, on the Rail Road between Pottsville and Shamokin .-Mr. Cleaver is in Engineer of much ability, has recently surveyed the route, and we doubt not his report will he read with interest. The objection that has hitherto leep made to a Road to Sunbury has been the heavy grades. It appears from Mr. Cleaver's Report that a Road can be made without planes with very few grades, and those not near so heavy as some on the Baltimore and Ohio Road. - Desides this, the heaviest grades would be made where they would accommodate the heavy descending trade, which is not the case on the Baltimore and Ohio Road, where the heaviest findering to ascend the heaviest grades. The abyst of a Eulroad communication between Philadelilha and the West, through Penn-
