WHAT THE "SUGAR COATED INDIAN VEEETABLE."
PILLS," ARE DOING IN BOSTON.

PILLS," ARE DOING IN BOSTON.

BOSTON, JANUARY 3d, 1815.

DEAR SIR:—You have no idea of the amount of good done here by the "indian Vegetable Pills," (Sugar Coated) Yesterday a respectable druggist came in from Lowell, and purchased 6 dozen, and stated 'he could recommend them beyond any medicine he ever bad, as his wife had been perfectly cured of rush of blood in the head, by using them Several bad cases of the Influenza have also been cured by them. Yours truly, I. P. CLARK, Water Street.

To G. Benj'n Smith, M. D., N. Y.
P. S. For the truth of the above, I refer to Hon. Charles Wells, President of the Mutual Fire Insurance Company, Boston.

Dealers furnished at the New York College of Health, 179 Greenwich street, New York.

179 Greenwich street, New York, and by John S. C. Martin, Druggist Potsville—J. & J. Ralin, Orwigsburg—E. W. Earl, Reading—S. & G. Shollenberger, Hamburg—Bast & Sterner, and J. A. & J. H. Falls, Miners-

Portuge Revenies .- The most popular rem Portuka Reskritzs.—The most popular remedies of the present day, are those which cleanse and purify the blood, and which are known to be innocent in their qualities. Such remedies as Antimony, Mercury, Zinc and having recource to Bleeding in disease, are now, it is hoped going out of fashion, and Vecetable remedies will be soon the popular medicine. Then Brandreth's Fegetable Universal Pills will be used and appreciated. They are known to act beneficially on every part of the blood, which they purify, and it should be remembered that they only remove those parts from the blood which were the cause of inflammation of any kind—Nothing is could be ridding the vittated humors with a veretable

were the cause of inflamination of any kind—Nothing is equisiple origing the vitiated humors with a vecetable medicing of this kind, which eighty-four years have proved hever to do injury, but always good.

5. Remember Druggists are not permitted to sell my Pills—if you purchase of them, you will obtain a countrifeit.

B. Baxanerin M. D.

5. Sold at Brandreth's Principal office, 214 Broadway (N. Y.) and by the following authorized agents in Schuylkill county: Schnyklill county;

A man-with small family would be preferred. Good references required. Application to be made personally to the board of School Directors. School to commence about the 1st day of December next. Application of the school Directors of the school D

HAAS' EXPECTORANT,

IN PRESENTING this valuable medicine to the public as a remedy for Consumption, and Pulmonary Diseases in general, I have been actuated solely by the great success attending its use in my own immediate neighborhood, and a desire to benefit the afficted. I shall simply endeavor to give a brief statement of its usefulness, and flatter myself that its surprising effica-cy will enable me to furnish such proofs of its virtues as will satisfy the most incredulous, that CONSUMP-TION may and "CAN BE CURED." if this medicine is TION may and "CAN BE CURED." If this medicine is resorted to in time. As Consumption, however is a disease which differs much in the severity of its sympoms, and the repidity of its progress, and has long briddled the skill of physicians it cannot be supposed that this or, any other, resiedly is capable of effecting a cure in every case and in every stage of the disease; on the contrary, we must expect it to full sometimes, a circumstance which occurs duly, with all the most valuable remedies we possuss, for the most simple disease. es The proprietor submits the following testimonials in its favor from citizens of this County, well known to the police

the public.
Mr. W. J. HAAS,-Having been afflicted for the last Ma. W. J. Haas.—Having been afflicted for the last thirty years with Consumption, and having had the advice of some of the most eminentPhysicians, and was given up as incurable. I was induced to make trial of your invaluable Expectorant, and am happy to say that I am entirely cured, and am attending to my daily occupation as though I had never been afflicted. Previous to taking your EXPECTORANT, I could not, if I had been so disposed, do angthing at my trade. I have since recommended it to accreate of my friends, and particularly one case of Confl. MED CONSUMPTION, and am happy to state that in every instance it had the desiral effect.

Yours respectfully JOSHUA HAWKINS Schuyikili Haven, October 1, 1511.

Schuyikili Haven, October 1, 1511.

Schuykin haven, October I, 1811,
Mr. W. J. Haas,—Dear Sir:—Having been afflicted with a severe pain in the breast, I was induced to try your Expectorant, and after using one bottle of it, found it to relieve me, and I do not hesitate in recommending it to the publicage aduable medicine for Colds, Coughs and Afflictions of the Breast.

Lam respectfully route.

I am respectfully yours &c., EDWARD HUNTZINGER. SCHUYLKIL HAVEN, October 19, 1844.

I was taken with a bad cold some time ago, and used one or two bottles of Mr Haas' Expectorant, which relieved me much, and should I have occasion for the above again, I would freely call on Mr. Haas for his invaluable Expectorant.

DANIEL H. STAGER. valuable Expectorant. DANIEL H. STAGER.

Schuylkill Haven, July, 29, 1845.

MR: Williak J. Haas, — Dear Sir:—I am happy to testify to the efficacy of your expectorant, for answering the purpose for which it was intended, that of relieving Coughs, Colds, &c...

Yours respectfully, CHAS! HENTZINGER.

Strekcepers in want of Groceries and Teas will find a choice stock at J. & J. C. Jenkins, No 214 Morket st. Philadelphia.

TT A. Alexander, No. 23, South 2d, st., Philaelphia Leepsan glegant assortment of Rich Goods. worthy the attention of Merchants Milliners, &c.

He sells very low. We have received the following communiation relative to Mr. Silebec, the well-known delineator of Yankee character. We have no doubt that he is what the communication represents him to be - we have never witnessed his performances -but he has had engagemenss at all the principal theatres of the United States, and wherever he has been, his entertainments have been highly com-

mended: EUN AHEAD. Yankee S. labee is in town, and we understand, intends giving a few performances here next week, commencing on Monday, December 1st. Silsbee is universally acknowledged by the Press and the public to be the most laughable delineator of down East peculiarities, on the American stage. There is to be an entire change in the Theatre both as regards the stage and the audience. No persons of doubtful character, boys without their parents, or colored persons are to be admitted—a strict police will be in attendance to preserve or-der, and from what we have heard of Silvee's inexhaustible humor, we would say to the lovers of rare fun, look out for a rich treat at the Hall next

week, ONE WHO HAS SEEN HIM. ECONOMY OF FUEL-ANOTHER GREAT IM-PROVENENT .- The New York Tribune notices a great improvement in the use of Fuel for manufacturing purposes, invented by Measirs. Clute & Sealinry, of that city, called their Umproved Patent Heat Generator," which according to the Tribune, will save half a million of dollars per annum in those Factories, &c., within sight of Trinity Steep'e. This opinion is supported by certificates of several prop telors of Factories, who have it in use, which we append below. It can also be applied to Locomotives, and will effectually prevent the greatest naisance connected with travelling on Rail Roads; that is, the flying of sparks. The improvement is very simple and is described as

"The process by which this is effected, is bery simple, and can be effected, when works are being put up or remodeled, at an expense (other than the patentee's charge) of but few dollars if any thing; to apply it to works already in operation may cost some \$25 or \$50 for materials and labor. The active agent is a common blower, acting on coal fire in the common boiler grate, from which the heat and flame pass over a bar which brings them into close contact with the boiler, which they follow to the further end. Here instead of passing up into the flue or chimney, the unconsumed gases are retained in the chamber of combustion by the action of a strong current of atmospheric air admitted into the chimney a few feet above the tre chamber. This air being heavier than the heated goses, bears them down, and in fact all the gasses neually escaping from fuel and forming smoke, heated air. &c., are retained in the fire chamber and consumed, except the carbonic acid gas, (income a tible,) which alone is forced off, hardly warm through the channey by the action of the Blower. All beside is retained and consumed in the formation of steam. Any offensive gasses which may be generated by the manufacture carried on by the help of the engine to which this apparatus is attached, may be conveyed into the fire-chamber and made not merely harmless but useful. We cannot see how any steamboat or manefa tury can offord to do without this improvement, and we trust it will soon be made applicable to Locomotives if it is not already so:

The introduction of this improvement in this region will be of cast impertance to our operators. The consumption of coal in the various engines connected with mining is an item of considerable expense, and besides the high stacks which are now rendered necessary, can be dispensed with, making an actsolute saving in the erection of engines, by the introduction of this improvement. independent of the saving in fuel. The following we have selected from a half column of certificates published in the Tribune :...

We, the subscribers, hereby certify that we have for several years pastiused a steam engine in our foundry at Troy, N. Y. on what we considered the most approved and economical construction. By this our daily fuel was 700 pounds of Anthracite coal and a quarter of a cord of wood, for melting off four tons of iron. We certify that since the first of May last we have had in operation Messrs. Clute & Seabury's Improved Patent Heat Generpounds of the same quality of coal, with a quarter cord of wood, will accomplish it—thus producing a saving of 483 pounds of coul in melting four tons of iron.

· Johnson, Geer & Cox, Signed, Troy, N. Y., S.pt. 11, 1843.

The subscriber has for three years past been using a steam engine in his factory, with a boiler set in the ordinary way, and has found that the daily consumption of coal was about 1400 pounds. I do certify that I have for the past year been using Clute & Scabury's Patent heat Generator, and find that the average daily consumption is now about 700 pounds—the engine performing the same average work as when using 1400 pounds in the old way, and find it full as easy to keep up E. C. SALISBURY, Signed, Troy, N. Y. Aug. 6, 1814.

This is to certify that we have a new steam boiler of about six horse power, set with the improved plan of Clute & Scabury's Patent Heat Generator, and figures state that said improvement has produced to us a saving of one third, in the amousit of fisel over the old plan. COOK & ENGLE.

Signed, Brooklyn, N. Y. Sept. 8, 1844. It is singular that this important improvement 19- I was not brought before the public before.
