TRIUMPHANT SUCCESS OF Captains, - Days of Sailing from Thompson's Compound Syrup of TAR & WOOD NAPTHA.

Still another remarkable Gare!

Carlisle, Pa., Nor. 20, 1515.

About six years since, in consequence of the sedentary nature of my business, I was attacked with severe pains in the breast; palpitation of the heart; and shortness of breath, which were soon followed by a failure of appetite, extreme wakefulness at night, and partial paralyisis of my limbs—these symptoms of a deranged system being frequently attended with spitting of blood. For about two years I was occasionally thrown into convulsions, which left me in a miserable state of fee-hieness and began to affect my mind. From time to time my sufferings were more or less severe, until it length they increased to such a degree, and the violence of the symptoms were so angmented, that for a whole year I was unable to attend to my business. During this time I consulted some able physicians and attended to their prescriptions; but all their skill was unavailing to procure me relief, and at length they regarded my recovery as entirely hopeless. In this condition I was informed of the salutary effects of Thompson's Compound Syrup of Tar and Wood Naptha, in a case somewhat similar to mine; and though I had given up all expectations of a recovery of my former heaith by human means, yet by being strongly advised to try this medicine, I was at length prevailed upon to do so; and I have now to say, that by the use of six bottles my health has been restored, and I am now able to attend to business with as much facility as usual.

Increase in 1315, 350,00% Notwithstanding the large increase this year, the demand for coal continues unusually brisk. Next week we will furnish our readers with our annual tables.

A man by the name of Heath, was killed on Monday morning at Nassau, between two cars, while connecting them together. How many men have been killed by the Reading Rail Road in two years 1. We are told at least one hundred!—Philada, Saturday Cour. It is true that many accidents do occur on the Reading Rail Road, but it must be remembered that the number of hands employed on that road, is greater than upon any other in the Union, and of course the liability to accidents is proportionate to the number employed. Besides this, the greater part of the accidents with which persons meet,are caused by their own recklessness or careless negs. It is but a few days since, that a man was killed who had got upon a coal train without the knowledge of any other person, and contrary to

the rules of the road. It is impossible for any

Company to guard against accidents under such

circumstances. If people travelling in the cars

would stay inside, and if persons would be careful about walking on, or crossing rail-roads and would be watchful, fower accidents would occur. There is nothing in ancient and modern history to compare to this. Sodom and Gomorran were destroyed by fire from heaven for the sins of the people. Babvion and Ninevah were made desolate from the same cause. The Goths and Vandals destroyed every thing that lay in their way by fire and sword.
