WISTAR'S BALSAM OF WILD CHERRY,

THE GREAT REMEDY FOR CONSUMPTION And the best Medicine known to Man for the cure of Asthma, of every stage, Liver Complaints, Bronchitis, Influenza, Coughs, Coutds, Riceding of t. e. Lungs, Shortness of Breath, pains and weakings in the side, breast, &c., and all other diseases of the Pulmonary Organs.

A VERY important disease over which thus Balsam' Agreets a very powerful influence, is that of a DISEASED LIVER. In this complaint it has undoubtedly Proved more efficacious than any remedy hitherto em-ployed, and in immercial instances when patients had endured long and severe suffering from the disease, endured long and severe suffering from the disease, without receiving the least benefit from various temedies, and when MERCURY has been resorted to invain, the use of this Balsam has restored the LIYER to a healthy action, and in many instances effected. PERMANENT CHRES, after every known remedy had failed to produce the effect.

Besides its a Lanishing effect,
Besides its a Lanishing effect,
ASTIMA: a compliant in which it has been extensively 0, sed with decided success, even in cases of years standling.

lt not only emanates from a regular Physician, but

E. C. & J. BIDDLE,

OPINION OF A REGULAR PHYSICIAN. Exter, Me., Sept. 30, 1815. This certifies that I have pronumended the use of MI-TAR'S BALSAM OF WILD CHERRY for diseases of the Lungs, for two year past, and many bottles to my knowledge have being used by my parients, all with geneficial results. In two cases, where it was thought confirmed consumption had taken place, the Wild Cherry elected a cipe.

B. BOYDEN, Physician at Exter Corner.

6BOOKS!

SCHOOL & MISCELLANEOUS, WHOLESALE AND RETAIL. AT UNEXAMPLED LOW RATES, IN MANY INSTANCES CHEAPER THAN PHILADA, PRICES,

AT BANNAN'S CHEAP BOOK STORE. TIS STOCK is extensive, embracing all kinds of I School books, such as Emerson's, Lobb's, Mitchell's, Parley's, Smith's, Pike's, Conly's, Frost's, Grigg & Elifott's, Thomas, Cowperthwaite & Co's Ilogan & Thompson, &c.—all of which are manufactured for use, and purchased directly from the publishers, at the lowest trade cash prices, and which are at the same price, from 10 to 20 per cent cheaper than the auction trash and old and often imperfect editions, offered for sale by the travelling book sellers, and agents of what are termed, the half price stores.

5- It may not be generally known to our readers that there are Printers and Binders in Philadelphia, whose sole brisiness, is in printing and, binding books, at the cheap rates, for auctions, which look well outside, but which are put together so flimsily, that they will harely stand handling. As we have a reputation to sistain, and reside here, we cannot and will not deal in this trash. The Pediars and Travelling Merchants confine POTTSVILLE, PA. and reside here, we cannot and will not deal in constrash. The Pedlars and Travelling Merchants confine their business almost solely to the auctions. This is a secret purchasers of books ought to be made acquainted with. Try us, and satisfy yourselves.

B. BANNAN Ag't.

TO CAPITALISTS & OTHERS. Pennsylvania Coal & Iron Lands For Sale.

For Sale.

1671 ACRES 19 Perches and allowance of 6 per John Scatter of first rate farming Lands, located in Jen's Township, Jefferson county, finely Timbered and Watered, and having several Mill sites upon them. Two main roads run-through the lands, and improved Farms adjoin, while Saw and Grist Mills are in the immediate neighborhood. This land was selected by a gentleman of experienced judgment, and is considered by judges to be one of the best tracts in the county. Its proximity to the Clarion and Allegheny rivers, and numerous navigable streams, and the proposed Railroad to Pittsburg and Erie, renders it highly desirable as an investment at present prices.

Abounding in Iron Ore and Bitmainous Coal of fine quality, it is believed to present one of the most advantageous locations for Iron Works in West Pennsylvania. The present owner purchased with a view of erecting such Works, but lengagements in another quarter obliges him with great reluctance to forego his intention. Maps will be shown, land every information given by the undersigned. The lands are pricated, and the titles and quality will be warranted, and sold free and clear of all incumbrance.

December 13, 1815.

December 13, 1815. TRIUMPHANT SUCCESS OF Thompson's Compound Syrup of TAR & WOOD NAPTHA.

Still another remarkable Cure!

Carlists, Pa., Nov. 20, 1845.

About six years since, in consequence of the sedentary nature of my business! I was attacked with severe pains in the breast, palpitation of the heart, and shortness of breath, which avere soon followed by a failure of appointic, extreme wakefulness at night, and partial paralysis of my limbs—these symptoms of a deranged system being frequently attended with spitting of blood. For about two years I was occasionally thrown into consulsions, which left me in a miserable state of fee-blen-ss and began to affect my mind. From time to time my sufferings were more or less severe, until at length they increased to such a degree, and the violence of the symptoms were so augmented; that for a whole year I was onable to attend to my business. During this time I coheulted some able physicians and attended to their prescriptions; but all their skill was unavailing to procure me relief, and at length they regarded my recovery as entirely hopel-ss. In this condition I was informed of the salutary effects of Thompson's Compound Syrup of Tar and Wood Naptha, in a case somewhat similar to mine, and though I had given up all expectations of a recovery of my former health by human means, yet by being strongly advised to try this medicine, I was at length prevailed upon to do so, and I have now to say, that by the use of six bottles my health has been restored, and I am now able to attend to business with as much facility as usual. Still another remarkable Cure! nas neen restoren, and 1 am now able to attend to business with as much facility as usual.

MINERS' JOURNAL.

Saturday Morning, Jan. 10, 1846. Advertisers will observe by the arrangement of our paper, that news will be found on every page, which compels the reader to glance his eye over all the advan-tisements. This obvistes to a great extent, the objection of having advertisements placed on what is termed the wristed of the parter. taide of the paper.

ADVASCE OF CIVILIZATION IN POTTSVILLE.—We understand that our Pottsville friends are carrying their imitation of city customs to extremes. They not only have employed waschmen to sleep in appropriate boxes at the expense of the corporation, but they have placed a bench in their theatre to represent the third tier in similar establishments in our "cities of larger growth."

growth."

A third band of music is under why. We need hards.

Ty say, from the location, that they are all brass bands.—

Reading Journal.

We are very innocent people in Pottsville .-We had not the slightest idea that there was a tiench in our theatre corresponding with the third tier of theatres in acities of larger growth." We presume that some Readinger has been on a visit to Pottsville, and not being able to find any such sinks of iniquity as he was in the habit of frequenting at home, he sought the theatre, and finding there one or two depraved characters, he inferred that we were a very immorel community. We acknowledge that all our bands are brass. pands; but the metal is polished—and the montbers of the bands are a bright set of fellows. We hope we have explained satisfactorily to our Reading brother.

We understand the managers of the Mill Creek Rail-We understand the managers of the aim creek data-road declared a dividend this day of secendard a half per-cent, for the last year. This road runs from Port Car-hour to Broad. Mountain, where it connects with the Diriville and Pottsville, and forms a part of that im-portant work. It has only been in operation during the last six months.—Ledger. Rather a mistake. The Mill Creek Rail Road was the first road of any length laid down in Schuylkill County. It was laid down in 829, -- and was relaid with Iron T. Rails about seven months ago. For the last five years this road declared a dividend of about twelve per cent per annum to the owner, Mr. Holkins. Last year the capital stock was increased for the purpose of re-laying the Road with Iron Rails, and several gentleman connected with the Reading Rail Road Company, became joint proprietors with Mr. Holkins. These gentlemen have since purchased Mr. Holkin's interest for fifty thousand dollars. and have now the exclusive control of the road-If the Tariff of 1812 is not destroyed, the trade on

this Road will be doubled the present year. THE LEGISLATURE -This body met on Tuesday last. Findlay Patterson of Armstrong, was re-elected Speaker of the House, he having received 65 votes on the first ballot.

Daniel I. Shorwood, was elected Speaker of the Senate. Sherwood 16-Gibbons 12. The Governor's Message possesses one merit at least—it is concise, and occasionally about one-half, the usual length of summer documents, emanating from that quarter. Want of room prevents us from publishing it entire-we therefore. give an abstract below, which embodies all the views of the message, for which we are indebted

to the Philadelphia Inquirer: The Executive commences by congratulating the Le-

to the Philadelphia inquirer:

The Executive commences by congratulating the Legislature on the happy and pro-perous condition of the country.

The exertions of the people to infer the engagement of the State have thus far been successful. On the first day of the present selsion, there was in the Treasury about the present selsion, there was in the Treasury about \$45,000, which, with the accruing revenue, will, it is thought, be imple to pay the February interest.

The public dath, Doc. 1, 1843, was in all \$40,986,393.—
Relief nores in circulation, but included in this gross amount, \$1,258,578.

The reccipts in the Treasury during the year, were less than the demands by \$114,499. The assessment for the year 1816, and the revenue for the year proper, will be instituted to meet the demands upon the Treasury, by the sum of \$416,590.0. The Governor says it is plain therefore, that our present financial system is inadequate to supply the means of meeting all the demands on the Treasury, except when aided from the balances which had accimulated before the payment of interest was resumed. The deficit, under existing laws, presents a topic of paramonapt importance to the Legislature. The credit of the state must be astained, the interret of the public must hereafter be purctually and fully paid.

The Banking System is next aluded to, a detailed history of financial operations in Pennsylvania for several years is given; it is urged that the Banks be required to make monthly returns to the Auditor General; also, that the igdividual hability fenure be, made more directly operative, and be introduced in the case of every Bank that may ask a renewal of its charter. The Governor finisk that is expiral invested in existing Banks, is amply adequate to the business wants of the community.

The Agriculturil, Commercial, Maing, and Manufacturing resources of Pennsylvania are dwelt upon, and the Governor says that, our people feel a deep anxiety in recard to the adeption or change of any policy which may be supposed to affect such He would respectfully amounted that this immense Store-house is jammed and reammed with bran splinter-fine NEW GOODS, which in variety, quality, clegance and cheapness, cannot be surpassed by any assortiuent offered in the borough. The only difficulty be has in

which was sent to the Eastern and neighboring States, being an increase of about twisty five per release the operations of the preceding year, and it is believed that the trade in this article will increase in even a ligrenter ratio, the present year. Of the lituminous Coal, a very large amount was also mind and sent to market. It is estimated that not less than thirtheen inflicing bushels were consumed at Pitt-burg and its vicinity, and about six millions bushels were transported from that point down the Ohlo river.

The public works are said to demand the special care and vigitance of the Legislature, by whilh the incomputer are now yielding may be secured and advance with the increasing business of the country.

Pennylvania he described as having a deep interest in the removal of the obstructions in the navigation of the Ohlo river. Ohio river.
The mode of collecting the revenue of the State has been

The mode of collecting the revenue of the State has been improved by the Legislative action of the last year; but further reforms are necessary.

A well organized militia is recommended.
Our Common School System is properly referred to as a great blessing, and the Philadelphia Public Schools are noticed in highly complimentary terms.

The Governor concludes by assuring the Legislature of his hearty co-operation in maintaining the faith of the State, and in alluding to the death of Ex-President Jackson. ATTENTION! MECHANICS!!- The Washington correspondent of the Richmond Enquirer gives the following paragraph which explains liself— read it:—Mr. Johnson, of Tenn, is one of the most remarkable men of the day, yet young for his position, (being about 40,) his sound sense, general acquirements, excellent delivery, always in-sure him an attentive bearing, however wearied the house may be with previous speeches. He is a tailor by trade, and, if I am rightly informed. still chrries on the shop at home. His wife taught him to read and write after marriage! Hishigh standing in Congress is the strongest illustration of the tendency of our institutions that I know of. Native mind and labor, sided by the opportunities which are at the command of every tizen, have made him what he is. What a glu-

rious country to live in. A Senies of Expeniments have recently grored that the amount of inorganic matter taken up in a crop of wheat is equal to one pound to the bushel of grain of 62 pounds. It also proved by the same experiments that the proportionate weight of the wheat and of the ashes when the wheat is consumed, is an inverse ratio. These facts will prove highly important to the agriculturist, as they will govern him in relation to his soil and manures. It would be no less important to determine the relative weight of icorganic matter

A meeting was held at Erie, some days elined the Hon. John Galbraith presiding at which reso-New York Steam Syrup Molasses, a very sulutions strongly favoring the project of the Saubumittee appointed to be present at the Convention, T. & J.
