INDIAN PEFORMANCES .- We understand that a com any of Indians will visit our borough next week. They are a part of the Oneida tribe, living in the State of New York, and during the summer travel through various parts of the country. They intend to pitch a tent and manufacture baskets and other fancy articles luring the day. At night, it is said, they will perform native dances, &c., in the Town Hall.

Fowle, Boston: -DEAR Sin. -Permit me to address myself, through yon, to all who are suffer-ing with any pulmonary complaint, and advise and recommend all such to use at once Dr. Wistar's great remedy. A medicine which I sincerely believ will cure, if 'a cure bu possible; and not waste their time and money on the many trashy and owrthless nostrums of the day. One year ago last fall, I took a sudden cold, which settled at once upon my lungs. I was soon obliged to take my room. A severe cough followed and I soon lost my appetite, and consequently my strength. P became very much reduced, suffered se-vere pain in the eide, breast, shouldes, &c. I coughed much nights and raised large quantities of matter, sometimes accompanied with blood. I confinited to grow worse, and was obliged to consult a physician, who visited and prescribed for me several times, bat afforded see little relief. I became discouraged and larmed at my situation; my family and neighbors sup-posed I could not live long. Fortunately I found one of Dr. Wistar's pamphlets, and like a drowning man, "catching at straws," I took courage, and sent imme-diately sent for a bottle of WISTAR'S BALSAN OF WILD CHERRY. My disease was so deeply rooted, however, that I was obliged to get a second and third bottle before I luegan to improve perceptibly. I kept on until I had taken two more bottles; continuing to improve, I soon recained my appetite and strength.--I continued to grow better until the summer, when I was able to do a days work on uny farm every day, and have continued so to do. My health has not been bet-ter for four years than at this time. To your invalua-ble medicine, now so universally popular, I feel indebt-ed, through Provience, for the preservation of my iffo.
