LEGISLATIVE.

The Legislature has been quite busy during the past week, but little of general interest has been transacted. In the House, the Committee on Corporations has reported in favor of repealing the charter of the Lehigh County Bank.

The New York and Eric Railroad bill passed he Senate on Saturday morning last, by a vote of 22 to 8. Several amendments were made to the bill, which will require that it shall be sent back to the House. One of the amendments provides

the State for the privilege of locating the road in Pennsylvania. In the Senate the bill supplemental to the act elative to hawkers and pedlers in Schuylkill Co. was read a third time and passed. In both Houses, resolutions were passed instructing the Commissioners to report the amount of

The steamship Hibernia arrived in Halifax on Tuesday, and the news brought by her was expressed thro o Philadelphia for the North American newspaper. We did not receive the news until last evening just as our paper was ready for press, and we are consequently unable to give more than a hasty summary. This speaks well for the trade as both deaters and consumers have been buying but very cautionisty, and speculators have been almost entirely out of the market.

The European Times says:—Our transatlantic readers, engaged in commerce with England, may

readers, engaged in commerce with England, may rest satisfied that Peel's commercial policy will become the law of the land. There will be wrangling, there will be delay, but there will not, cannot be defeat. The events of the last few days show that the House of Lords will swallow the pill; with wry faces, it may be, like children takpill; with very taces, it may be it down, from a ing medicine, but they will gulp it down, from a conviction of its necessity—combined, probably, with a conviction equally grong, that they will be made to do so should they turn restive.

The great deliate on Sir Robert Peel's financial scheme, which extended over three weeks, and afforded food for twelve nights' incessant oratory, was brought to a close, by a division which gave the Minister a majority of NINETT-SEVEN. Sir Robert Pee has determined to proceed with the Corn law part of his scheme first. This scheme our readers know, proposes the extinction of the Corn-laws in three years from the present time; and the next great hattle, as well as the next salemn talk, will have reference to the immediate or the postponed repeal. Sir Robert since the first announcement of his plan, has stolen, in this respeset, by his tacities, a march on the enemy. The three years' grace was debateable ground, a great

Feeling, that if he blindly adhered to his own pet scheme, a junction might be formed between thuse favorable to the immediate abolition of the Corn-laws; and those opposed to any change in the present system, which mightend in his defeat, cleverly prevented such a result by anticipating it; and he will now, he says, consent to whatever the House sanctio s -whether it be in favor of his own or any other plan as respects the time for the law

The preemptory refusal of the American Government to submit the question to arbitration, on the ground that it would thereby recognize the n as rea-it in this rights of the British Government to a portion of Oregon, is regarded as puerile, not to say insulting. These rights have been long acknowledged by treaties between the parties, and it is held as being too late in the day to crase a bo preceding negotiators, on both sides of the Atlan-tic, have combined to respect. The friends of peace mourn that the arbitration—the most satisfactory mode of settling amicably a controverted claim-should have been, so uncerimonio sy rejected, and its effect upon the Cotton market has ture craft might have cut a more respectable figure

The French Chambers are still engaged in discussing American affairs; showing the affairs of M.
