The Rail Roads damaged by the recent freshet, are now all repaired, and the Collinries below the level, drowned out, are generally under way again. The trade from this region at present is only limited by the supply of cars, and the demand for Coal continues un usually brisk, at this season of the year.

The Delaware Division of the Pennsylvania Canal will not be ready for transportation before the 20th of April, probably, not before the 1st of May. Tels will retard the shipments from that region to a certain extent. The Motris Canal was not much injured. The North Branch Canal has been injured to such an extent, that the repairs cannot be made before the middie of June and probably not before the lat of July .-All the supply from that quarter, this year, will be required by the various Iron Works, before it reache

ALEXANDER'S TRICOBAPHE.

A NEW AND VALUABLE DISCOVERY, -DEING a liquid dye, which instantaneously changes, the color of the hair to a beautiful brown or black, without any injury to the hair or skin. The great superiority of this dye consists in its easy mode of application and instantaneous effect—all other dyes requiring from ten to twelve hours to produce any change. Its superior excellence will be apparent to every one upon

superfor excellence will be apparent to every one upon a sincle application.

Extract from the Philadelphia Daily Sun.—Alexander's Tricobaphe.—The effect of the above on the bair is truly astonismur. It was tried pesterday in consulting, and the change from feet by thate, was instantaneous.

Extract from the Philadelphia Daily Forun.—Several of our acquaintances have recently applied to their hair the valuable liquid known as "Alexander's Triop-baphe"—a new and valuable discovery; and it has in no Case failed to produce the desired effect. Immediately after applying it to grey hair or whiskers, it impatts a beachiful brown or black color.

Extract from the U.S. Gazette.—Messes, R. & G. A. Wright, self-a liquid dye for the bair whiches gentleman assured us would; with no trouble, color enther black of dark brown, the hair of chin or head that had an obstinate tendency to fed or grey.

Extract from the Philadelphia Inquirer.—Hair Dye.—The liquid dye for they hair, which is sold by R. & G. A. Wright, Nr. 23 south Fourth street,—is an excellent article. In the Saif that it instantaneously changes the color of the hair to a beautiful brown or black, and without injury to the skin—the dye is called "Alexan without injury to the skin—the dye is called "Alexan"

LANDRETH'S NURSERIES AND GARDENS.

1 And THESE extensive grounds are on Federal street,

1 near the Arsenal. \* \*\* \* \* The earliest collection of Camellis was made here. Some of those now in the possession of those distinguished nursery-men, are ten feet high. \* \* \* \* The selection of Green House Plants is valuable and extensive.

The Narjeries are all very correctly managed, supplying every part of the Union, a detail of which would occupy too much of our space; we therefore content nurselves with stating that the stock is very large, and in every stage of growth, consisting of Eorest and/Ornaminal Trees, Nichs, Evergreens, Vince and Creepers, with a collection of herbaceous plants; Fruit Trees of the best kind, and in the most healthy condition; large heds of seedling apples, pears, plums, &c., as well as stocks for budding and grafting; a plan very superior to that of working upon suckers, which carry with them all the diseases of the parent stock:

Garden Seeds of the dinest quality have been scattered over the country from these grounds, and may all the diseases of the forest quality have been scattered over the country from these grounds, and may all the diseases of the Seed Establishment of

To obviate the chance of mixture of the faring of the plants of the same family, they have established another nursery, at a suitable distance, so that degeneration cannot take place, and which secures to the purchaser's genuine article. Knowing thus the age, quality and process of culture of every plant, the supply from their grounds is recommended with great confidence."

\*\*\* Since the date of the report from which the above is abstracted, the entire establishment has been greatly, enlarged. The collection of Camellias embraces all the finer kinds, and consists of some thousands of various sizes - so tikewise of Roses, and other desirable plants both tender and hardy—Fruit Trees, etc.

The Seed Gardens alone, cover fifty acres, and the whole is, as it has been for more than half a century, under the successive management of father and son, whom Catalogues may be obtained, gratis.

DESTITUTION IN EUROPE.

NO SCARCITY IN POTTSVILLE:

D's some people it may be supposed that the undersigned is making efforts to secure the greater portion of the custom, and consequently to sell the greater portion of goods that are disposed of in this Borough. This, is not exactly correct. Experience teaches him that all such efforts would be useless, and common sense dictates the propriety of not engaging in anything which will most likely proue unsuccessful. It is true that he makes a considerable noise, and causes no triffing sensation in the mercantile world, but his object in having his name to appear so frequently in the papers of the borough, is the PUBLIC GOOD. He proclaims truths! IMPORTANT TRUTHS!! and unless the citizens refuse to see, they cannot be blind to the fact that it will be to their interest to call at his NO SCARCITY IN POTTSVILLE! fact that it will be to their interest to call at his FIG STORE. 103 FEET IN DEPTH.

HE WOOM respectfully announce that this immense fore-house is jammed and crammed with bran splinterface NEW GOODS, which in variety, quality, elegance and cheapness, cannot be surpassed by any assortment offered in the borough. The only difficulty he has in pleasing his customers is that his stock is too extensive; among so many excellent articles, it is almost impossible for customers to make a choice. In order to obvince this difficulty, he desirés to reduce his stock and calls upon his friends to assist him in the undertaking.

TITOSE two contitious Wharf Lors, each lot 100

feet front on the river Schuylkill and the same on
Sutherland Avenue, with the two superior built wharves
and three shipping docks for vessels or boats, the docks
being 28 feet wide, by 241 feet in length. This property is in first rate order, and considered of the very best
construction, embracing more facilities for the Coal
Trade than any other property on the Schuylkill, having
been built expressly for that business, and occupied as
such for many years by Messra. S. B. Reeve & Co.,
who, on account of the perfect arrangements of the
wharves and docks, did the heavlest business on that
River. The wharves are well planked, have counting
homses, scales, scale houses, &c. There are on the
Sutherland Avenue front, 8 three story brick houses
with plazzas for the Agent and Workmen's families.
The two wharves together are 203 feet wide, by 400
feet deep.

Taking into consideration the great work new rapid-

eet deep. Taking into consideration the great work now rapid: Taking into consideration the great work now rapidly progressing by the Schuylkill Naviration Company in the enlargement of the Canal, and the adoption of the 200 ton boats which will reduce the price of transportation two-thirds or to 50 cents per ton, and in connection with this, a law having been granted by the last Leeislature to make a Rail Road along the western front of the city at the heads of the wharves on Schuylkill, connecting with the Colombia and the Philadelphia & Reading Rail Road, nothing can prevent an immense inhancement of the value of property in this immediate neighborhood.

MINERS' JOURNAL. Saturday Morning, Har. 28, 1846.

The Adventure will observe by the grangen our paper, that news' will be found on every news, which compute the resder to glance his vector; all the altern-te-ments. This obviates to a great extent the objection of having adverticements placed on what is recincil the of having adverticement outside of the paper.

Anvantisamenta-Our columns this week exhibit an unusual quantity of new advertisements. It will be seen that the Philadelphia business men appreciate properly the advantages of advartisings and use the correct means to obtain a large hurdness. The merchants in this region, do not appear fully to understand the benefits of making thems lves known through the prose, and are more negelectful of their interests than their city brethren. We hope that they will not allow themselves to be entirely collipsed by the city dealers. "A world

to the wise," &c. Trite but true. The press of advertisements this week prevents us from continuing the publication of the list of unseated lands. We shall resume it next week.

LOSS OF THE PACKET SHIP HENRY CLAY.-This noble vessel, the finest packet ship ever built, went ashore on Squam Beach, on Thursday evening last. Two seamen and four of the second cabin passengers lost their lives in the attempt to gain the life-boat, the side of which was stove in by the force of the waves. A tremendous gale was blowing at the time, and it is thought that the vessel will be a total loss. There were about 300 passengers (most of them in the steerage) on board, ail of whom it was supposed, would be saved when the storm moderated. The Henry Clay was a. new ship, not having been in service quite a year

ACCIDENT ON THE RAIL ROAD .-- A man by the name Thomas Cronan was severely injured on the Railroad Lear Norristown on Monday evening last. He was a conductor on a coal train, and in endeavoring to jump upon the train just as it started, he fell across the track and was so much injured that it was not supposed he could live. He has been a conductor on the road for several years and is about 40 years of ago.

RAIL ROAD BRIDGE ON FIRE. -On Safurday morning last, the roof of the Columbia Railroad Bridge over the Schuylkill, at Peters' Island, took, fire from sparks of a locomotive attached to the Harrisburg train. The flames were extinguished after considerable exertions, as the wind was blowing fiercely at the time.

FATAL ACCIDENT IN THE MINES .- We learn that on Thursday the 19th inst., a man named Hugh Hughes was killed in the mines of Mr. Pinkerton, by a fall of coal. Mr. Hughes is represented to have been an industrious man and a good citizen. He has left a wife and child to la-

ment his loss. DEATH OF EZHA HOLDEN Esq.-We regret to learn that this gentleman died at Gadsby's Hotel on Friday morning last. For several years he has been one of the proprietors of the "Philadelphia Saturday Courier." He was above forty years of age, and leaves a family and a large cir-

le of friends to mourn his death. THE LATE DUEL AT RICHMOND.—The Richmond Times, states, that Mr. Thomas Ritchie, Jr surrendered himself at Chesterfield Court House and was duly committed. Tuesday week, to await his trial, which will come on at the ensuing term of the Superior Court commencing on Wednesday last. He did not ask to be admitted to bail. He has waived his privilege of examination before a call court, and submits himself for trial at once before the Superior Court. It will be remembered that the Coroners Jury found Mr. Ritchie guilty of Murder, and on his death bed Mr. Pleasants stated that he had extracted the ball from his pis-

tol- so that he might not kill Mr. R. COAL TRANSPORTATION .- The amount of coal which has passed through the Delaware and Rari-

tan canal, for the last five years, is as follows: 119,470 tons 1811. 171.754 tons. 1843, 1844. 267.496 tons.

372,071 tons. THE STATE WORKS .- We find the following

n the last Harisburg Telegraph: We are informed by the State Treasurer, that rom the best information obtained, the damage to he State Can ils by the late disastrous flood will require an expenditure of about one hundred thouand dollars to repair—and not to exceed one hundred and eighteen thousand. This together with the loss of transportation on them at the commencement of the season, will render the payment of the August interest very doubtful."

PAINFUL ACCIDENT.-A young girl employed

in Harding's paper mill, on Saturday morning last, was caught by her clothes by an upright shaft revolving with great rapidity. Before she could be

extricated or the machinery stopped, she was much bruised and the flesh torn from one of her feet and ankles, laying the tendone bare. - Trenton Daily News. O JESUS! I DO THIS FOR THEE. - Mrs. Comstock of the Burmah mission, was called upon to part with her two children. Duty obviously demanded that they should be brought home to A-merica to be educated. The day tame, for their separation. She took one in each hand and led them down to the ship which was to bear them away. She paused on the shore; her face grew pale; her lips quivered; she raised her hands and said, "O Jesus! I do this for Thee!" and then?

quietly returned to her missionary work. The Principle of Association in business matters which has done so much for New England, is beginning to be acted upon in the old country, in relation to which we find the annexed

passage in a late number of Blackwood's Maga-The leading feature of our age is the institution of joint stock companies. We have taken up very lately the view which Æsop hinted at some thousands of years ago, in his quaint parabolic manner and which Defoe, who lived a century and a half before this time, most clearly enunciated and described. We have found the way at last to make small cap tale effect the most gigantic results by encircling them with the magic ties of combination. No matter when it was discovered; the principle has never yet been thoroughly acted upon until now, and we know not how for it may be carried. Our fathers, for want of this principle, ruined themselves by isolated aftempts.
