"My aunte my poor deboted out the hair is almost gray.
Why will she train that winter cut? In such a spring-like way?
How can she lay her plasses down.
And any she reads so well.
When through a double convex ions
She just maker out to spol;

The father—crandpipe forgive
This erring lip its smiles—
Vowed she would make the finest girl
Withins hundred miles.
He sent her to a stylish echool,
Twas in her thirteenth June
And with her, as the mi-a required,
Two towels and a spoon.

"They bruced my aunt against a bourd,
/To make her straight and tall a

They laced her up, they starved her flown, of To make her light and small;
They pinched her feet, they singed her hair,
They persented it up with pins;
O never mottal suffered more
In penance for her sins.

"So, when my precious aunt was done,
My grandsire brought her back;
(By daylight, lest some rabid youth
Might follow on the track;)
"Ab!" said my grandsire, its he shook
Some powder in his pan.
"What could this lovely creature do
Against a desperate man!"

"Alas! nor chariot, nor barouche,
Nor banded cavalcade,
Tore from the trembling father's arms
His all-accomplished maid.
For her bow happy and it been!
And Heaven had sparred to me
To see one and, nigar hered rose
On my ancestral tree."

THE BELLE AND THE SCHOOL AL & Certain splendid evening party a haughty young beauty turned to a student who stood near her, and said Cousin John, I understood your eccentric friend is here, I have a great curiosity to see him. Do bring him here and introduce him to The student went in search of his friend and

at length found him lounging on a sofa. 'Come L____.' said he, 'my beautiful cousin Catharine wishes to be introduced to you.' .Well, trot her out, John, drawled I .-- with an affected vawn.

John returned to his cousin and advised ther to defer the introduction to a more favorable time, rereating the answer he had received. The beauty bit her lip, but the pext moment said, Well, never fear! I shall insist on being introduced.'

After some delay, I was led up, and the

ceremony of introduction duly performed. Agreeably surprised by the beauty and commanding appearance of Catharine L made a profound bow; but instead of returning it she stepped back-ward, and raised her eve-glass, surveyed him deliberately from head to foot, then, waving the back of her hand towards him, drawled out 'Trot him off, John! trot him off! that is enough!

JOHN RANDOLPH AS A HORSE-JOCKLY .- The pleasure of the South Carolina Jockey Club Races, was very much enhanced the season of 1796, by novelty of a much race between Sir John Nesbitt, of Dean Hall, of the ancient house of Nesbitt's near Edinburg, but who was at that time a resident of South Caroling, and John Randolph of Roanoke, in Virginia, cach gentleman riding his own horse. Mr. Randolph won the race after a clase and exciting struggle; but tradition says. Bir John Nesbitt, who was a very elegant gentleman, a gallant gay Lothario.

Shaped for sportive tricks, And made to court an amorous looking glass, Capering nimbly in a Lady's chamber To the lastivious pleasing of a Lute,' won the prize from beauty's eyes. Many of the enamored fair ones, were heard to confess, after the race was over, that altho' Mr. Randolph had won the race, Sir John had won their hearts, and that they much preferred him in a match, to his more successful competitor.'

THE OLD NADE YOUNG, OR A QUICK MATCH WITHOUT FOREIGN AID .- A Bachelor whose name was Young, and who was a wheel-right by trade, lowing lines to a name was Wrong:

Though old, I'll make thee Young, Though wrong, I'll call the right. If thou accept my song, Please answer me to night. The lady returned a note by the hand of the

I've long been Wrong. But love thee too, right. So wedded I'll be, Young, Dear John, good night.

A COLD AND HEARTLESS LADY .- In one of the large and fashionable stores in the lower part of this city, they have a female figure, on which they exhibit their cloaks mantillas, &., and which gives rise to many amusing mistakes. Among the most laughable was one that occurred a few evenings since, An applicant for charity came into the store, and after going around amongst the numerous clerks, soliciting a few pennies, his eye rested upon the lady in question. He immediately advanced towards her, and lifting his hat and making a most profound bow, reciting his tale, begged her to give him only a few cents. Not receiving an answer, he repeated his tale of won-still no answer. He stend in silent amozement, when at last, turning round, he thus addressed the clerks, who were standing witnessing the scene. convulsed with laughter: I would not ask her again for a dollar; she is the most cold and heartless lady I have ever met with!'-True Sun

two sisters named Wing, and then maxing off to Illinois. This verifies the old govern that Riches take to themselvee Wings and fly away.

Price ONE DOLL it per bottle; s octions for 2 au, and 6 bottles for 4 50.

May 11.

Let us lay no temptation in the path of youth, as the frog said when he popped his head mid-r water on seeing a boy pick up a stone. K-c'nig!

said Coffee, wou darn lazy nigga ! you always is nore benefit dan profit; I wouldn't gib your wittles for your clothes!'

A thief one night entered the chamber of a poor man, and commenced a vigorous search. The man being awakened by the noise, very coolly act corted the impodent thirt as follows:-- My friend ial do you expect to find here in the night, where I cannot find any thing in the daylight?"

In speaking of the arrangements for reposing at night on board a canal hoat, a lady remarked that it made her think of sleeping on a fence rail, and covering herself with two yards of tape.

Medicines.

WISTAR'S BALSAM OF WILD CHERRY. THE GREAT REMEDY FOR CONSUMPTION

And the best Medicine known to Man for the cure of Asthma, of every stage, Liver Complaints, Bron-chitts, Indicenza, Coughs, Coulds, Biceding of t.e Lungs, Shortness of Breath, pains and weakness in the side, breast, &c.i., and all other discovers of the Pulmonary Organs.

Polimonary Organs.

A VERY important disease over which this 'Balsam' exerts a very powerful influence, is that of a DISEASED LIVER. In this compitation to that of a DISEASED LIVER. In this compitation to the proved more efficacious than any remedy hitherto employed, and in numerous instances when patients had andured long and severe suffering from the disease, without receiving the least benefit from various remedies, and when MERCURY has been resorted to in vain, the use of this Balsam has restored the LIVER to a healthy action, and in many instances effected FERMANENT, CURES, after every known remedy and failed to produce this effect.

Besides its autonishing effect, in the disease above mentioned, we also find it a very effectual remedy in ASTHMA, a complaint in which it has been extensively used with decided success, even in cases of years that the content of the content of

ly used with decided success, even in cases of years standing.

It not only emidiates from a regular Physician, but has ilso been well tested in all the complaints for which it is recommended. It is not my intention, therefore, either to cloak it in mystery, or in any way deceive the public by overrating its virtues; on the contrary, I shall simply endeavor to give a brief statement of its usefulings, and flatter mysself that its unprising efficacy will enable me to furnish such pipofs of its virtues as will satisfy the most incredulous, that Consumption may and 'CAN BE CURED,' if this medicine be resorted to in time:

Mr. Seth W. Fowle:

Dear Six:—The character of Wistar's Balsam of Wild Cherry is so well established throughout the country, and especially in the State of New York, that any further testimony would seem to be unecessary. Yet I have derived so much advantage from it that I am happy to communicate through you to the test and effected what it has done for me and I consider

any. Yet I have derived so much advantage from it that I am happy to communicate through von to the sick and afflicted what it has done for me and I consider it a privilege and duty to do so. I have heen troubled with weak lungs for four years; had a cough more or less every winter. I was confined to the house all last winter with a severe cough, pulmin, the side and breast; raised blood several times. I consulted a physician, but have never taken any medicine which has done me so much good as WISTAR'S RALSAM OF WILD CHERRY. I consider it the BEST medicine in the world for Colds, Coughs, and Pulminary Complaints.

OPINION OF A REGULAR PHYSICIAN. Exter, Me., Sept. 30, 1245.
This certifies that I have recommended the use of WI-TAR'S BALSAM OF WILD CHERRY for disease es of the Lungs, for two year past, and many bottles o my knowledge have been used by my patients, all to my knowledge have deed used by my paintents and with beneficial results. In two cases where it was thought confirmed consumption had taken place, the Wild Cherry effected a cure.

E. BOYDEN, Physician at Exter Corner.

NO QUACKERY! NO DECEPTION!

All published statements of cures performed by this medicine, are, in every respect. THE E.

BEWARE OF COUNTERFEITS AND IMPATIONS.—The unparalleled and astonishing efficacy of Dr. Wistar's Balsam of Wild Cherry in all the diseases for which it is recommended, curing many cases after the skill of the best physicians was unavailing, has effected a large and increasing demand for it. This fact has caused several unpri apied counterfeiters and imitators to palm off spurious mixtures, of similar name and appearance. for the genuine Balsam. NO QUACKERY! NO DECEPTION! tors to palm off spurious mixtures, of similar name and appearance for the genuine Balsam.

WRIGHT'S INDIAN VEGETABLE FILLS, OF THE N. American College of Health. O MEDICINE has ever been introduced to the A-merican Public, whose virtues have been more

eerfully and universally acknowleded, than the a-WRIGHT'S INDIAN VEGETABLE PILLS. To descant upon their merits, at this late day, would cent to be wholly unnecessary, as very few indeed who read this article, will be found unacquainted with the real excellence of the medicine. But if further proof were wanting to establish, the credit of this singular remedy, it might be found in the fact that no medicine in the country has been so

the in the country has been so

SHAMELESSLY COUNTERFEITED.

Ignorant and unprincipled men have at various places, manufactured a spurious pill; and in order more completely to deceive the public have made it in outward appearance to resemble the true medicine.—These wicked people could never pass off their worthess trash, but for the assistance of certain misguided struckeepers, who because they can surchase the spuiess trash, but for the assistance of certain misculed storekepers, who because they can purchase the spinous article at a reduced rate, lend themselves to this nonstrous system of imposition and crime.

The patrons of the above excellent Pills, will therefore be on their guard against every kind of imposition, and remember the only genuine Agents in Pottsrille, are Messrs. T. & J. Beatty.

The following highly respectable store keepers have been appointed Agents for the sale of RIGHT'S INDIAN VEGETABLE PILLS, FOR

SCHUYLKILL COUNTY, and of whom it is confidently believed the genuing nedicine can with certainty be obtained.

CONSUMPTION. DILDS.

BRONCHFIE, LIVER COMPLAINT.

Difficulty of breathing.

Pain in the side & breast, Influenza,
Plapitation of the heart, Croup,
Broken Constitution, Syre Throat,
Nervous Dehility, and all diseases of the Throat and speedy cure ever known for any of the above diseases is Lungs; DR. SWAYNE'S COMPOUND SYR-UP OF WILD CHERRY.

Another wonderful cure of Consumption! PROVIDENCE, R. L. Sept., 20, 1845.

Dr. Swayne—Dear Sir: -1 feel-called by a sense of duty! rowe to the suffering himmanuy to acknowledge my grateful! thanks, for the wonderful effects of your Compound Syrup of Wild Cherry on me, after having suffered munths after months, with the most afflicting of all diseases, Consumption, with scarcely a ray of hope, or a beacon light, to guard me against my own horrible forbodings: 'The circumstances which first led to this awful state; of debility, was from taking a very heavy "cold," which seemed to fix itself upon the tungs, which gradually grow worse, with profuse hight sweat, a hacking sough, opipression in the breast, spitting blood with great general debility. My constitution seemed broken down, and nervous system very much impaired with all the symptoms of confirmed Consumption. If went'to Ply Indelbula, and was treated there by abysis. with all the symptoms of confirmed Consumption. I weath to Pladelphia, and was treated there, hy physicians of the highest respectability, but still greey, worse, until they gave me up as incursable, and advised me to go South, but being very popt after losing so much time from my work, and having spent all my mority in the various Patent Medicines," which were recommendations of the processing some processing the same process. go South, but being very p or after losing, so much time from my work, and having spent all my money on the various; Patent Medicines," which were recommended so high, through the medium of the press, it was unable to take their advice. Being a member of the order of Odd Fellows, they supplied me with mobey gratuitously to send me to my friends in Saro, Maine. I was treated by physicians of the highest standing there, but received no benefit whatever from them, but gradinally worse; until my physicians and myself gave up all hopes of my ever recovering, and I felt like one who is about to pass through the valley of the shadow of death. At this "awful incureure," I heard of your "Compound Symp of Wild Cherry," and knowing you to be a regular practicing physician in Philadelphia; cave me more confidence in the medicine, so I concluded, as a last resort, to make a trial of it. I sent to your agent in Boston, and purchased one bottle, which relieved me very much.—I then procured two bottles more, which I am happy to say entirely cured me, and I am now enjoying better health than I ever have before in my life. It seemed to have a beneficial effect at once. I gained strength rapidly, bithough reduced to a mere skeleton, and I feel satisfied from its salutury effects in my own case, that he Swayne's Compound Syrup of Wild Cherry will cure any case, of diseased Lungs, if taken according to the prescribed rules contained in the pamphlets accomplanying the medicine. Even the physicians who witnessed my case are highly recommending it in similar cases—and, I wish you to make this public, so that others who are, suffering as I have been, may know where to procure a remedy at first, which will reach their disease, before tampering with and runing their constitutions with the many "quack nostrones" with which the whole country is flooded, prepared by persons who have no knowledge of the acience of medicine in theory or practice, but are got up merely with a mercenary view.

I am a Scarlet member of the Hope Lodge of I. O. of To Dr. H. SWANNE, N. W. Corner of Eighth and nace str., Philadelphia.

CAUTION.—The public should be on their guard against the many "Batsams" and "Mixtures" of Wild Cherry, which have sprung up in all parts of the country, purporting to be presured by physicians, all. of which will be found to be "Gilse," by a little inquiry in the towns, and eities where they originate. All certificates and staten ents in regard to Dr. Swayne's Compound Syrup of Wild Cherry are "strictly frue," and the proprietor is daily receiving them from persons who have been eured by the "celebrated remedy." The foreignal and only) centuine article is only prepared by the "well-awanne, N. W. corner of Eighth and Rad.

PURE WHITE LEAD. Whetherill & Brother,

MANUFACTURERS. No 65 orth Front street Philadelphia, have now a good supply of their warranted pure white lead, and those customers who have been sparingly supplied in consequence of a run on the article, soall now have their orders filled. No known substance possesses those perservative and beautifying properties so desirable in a paint, to an equal event with unadufferented white fead; hence any admixture of other materials only mars its any admixture of titler materials only mars the value. It has therefore been the stady-aim of the manufactures, for many years, to supply to the public a perfectly pure white lead, and the unceasing demand for the article, is proof that it has met with the vot. It is invariably branded on once he ad—WEPHERILE & BROTHER in full, and on the other, VARRANTED PURE--allin red letters.

CARE OF COWS WITH CALF. Cows that are expected to calve early/must have more attention than others. It is barbarous to the a cow to a stantion near the time of calving. Let her have perfect freedom, in a pen or yard, but let her not have access to cold water. This has caused the

death of many a fine cow. After calving, warm drink may be given in any quantity; but you should becautious at such times not to feed so high as to cloy the appetite, or cre-ate a fever Warm swill will be drank by cows that have been early taught to drink it. A quart of meal may be stirred in, for one cow, and many cows will drink warm water with meal in it, when they will not drink swill.

We have generally thrown some hot embers into a pail of water, at such times, and cows will drink it, for they are then very willing to drink what they would not at other times, or when they have access to pure water. Many cows at such times, will drink their own milk as soon as it is drawn from the udder; and this is always good for them. The calf will not want it all, and he should be kept so short that he will worry the udder and draw out every drop of milk.

Roses.-There are three modes, says Buist, within the reach of all, for the propagation of garden or June roses-namely, by layering, budding,

To Sweeten Butten .- By adding two and a half drachms of carbonate of soda to three pounds of fresh or salt butter, possessing a disagreeable flavor, renders it perfectly sweet. Soda produces the same results when added to other culinary

greeses, as dipping, lard, &c .- Far. Herald.

Continued from last week. Work for March.

OLD FIELDS .- In most of the old States there are numerous old fields which from improvident culture, years gone by, have been exhausted of their fertility, and turned out not to grass, but to the bleeching influence of summer suns. In the approach to many homesteads, these unsightly fields greet the eye but to sudden reflection and mar those joys which otherwise would await the meeting of friends. Such sights to tend depreciate the value of farms, be the other portions ever so rich in all that gives fertility to soils and nutriment to growing crops. Now these, we do think, may be brought back to something like a ondition of profitable state of fertility at comparative little expense. Let such fields be fenced in, if they be not so already. Let the cattle be kept off of them; have them well harrowed and cross harrow, then availing yourself of moist weather, spread a bushel of plaster, let them remain undis-turbed until it shall be time to sow buckwheat; when that period arrives plough up your fields, harrow and roll well, then sow a half bushel buckwheat per acre, harrow it in and roll, and then finish by sowing thereon another bushel of plaster per acre, when the buckwheat first comes into blossom plough it in deeply, attaching a chain to your plough, or precede it with a roller. Then narrow your ground and let it remain a week. when if it be clayey ground you should sow it in wheat, harrowing in the seed thoroughly and following the harrow with a roller-if the soil be sandy or light sandy loam, sow in rye, using the har-row and roller as before advised. This done you nay wait until your convenience may best suit, when you should sow five or ten bushels of lime and as much ashes on each acre. Thus treated your old fields will yield you a fair crop of grain the first season, and if you treat them the succeeding year in the same way as the former, you may make up your mind that you will have no occasion to turn them out for some years to come, and not then provided you stock them down, as you should your other fields with clover, in the regular course of a wisely contrived rotation of crops. We have recommended buck-wheat as the green crop to be turned under as a fertilizer, and we have done so, because it is one of those crops which may be grown with the addition of a little plaster on most soils, and which, from the constitution of its leaves, draws much of its nourishment from the atmosphere, and will, therefore, return to the earth much more thun it may have abstracted from it.

QUANTITE OF GRASS SEED PER ACRE.-Many of the failures which arise from the setting of fields in grass, we are certain, arise from the parsimoniousness which directed the judgment of those who caused them to be thus sown. We have, there-He has also on hand,
Sewing Silk, Spool and atent Thread of the
best quality, Gloves and Hosiery, Straw Lg
an ample quantity of seed. Of Clover seed when sown alone we never would sow less than 16 lbs. to the acre. If Clover seed be sown with Orchard Grass, we should sow 12 lbs. of Clover and a bushel of orchard grass. Speaking of orchard, wo will seize the occasion to remark, that whenever the pasturage of Caitle or the soiling of cattle may be listended we would never sow the clover alone -first, because the admixture of the two grasses together, prevents the cattle from becoming affected with hoven, secondly because it makes a better hay, and thirdly, because it makes a much more lasting pasture than does clover alone, and may be said to be a measurably earlier grasss, while it grows much later in the fall, and as hay, when mixed with clover, from its greater substance is better for ruminating animals than clover hay alone. Of Timothy seed, a peck and a half per acre should be sown. Of Herd's grass or Red Top, a bushel to the acre is about the proper quantity. If Or-chard grass seed be sown alone, two bushels per acre is about the right quantity. Of Lucerne, 20 lbs. per acre is the right quantity. In the select fresh, as seed more than a year old is very shy in coming up. Lucerne seed by the bye, should always be soaked in warm water for a few hours before being sown; and as taken out of the soak and drained it should be rolled in plaster, or ashes. Orchard grass seed should also be sprinkled with water on a barn-floor, turned over repeatedly so as o moisten the whole mass, and left a few hours,

HAULING OUT MANURE.—As this is a work of much labor and one which requires much time, we would advise all to seize the first occasion to haul t to the field where it may be wanted, and in order o prevent the loss of the fertilizing gases, I would recommend that plaster of paris in the quantity of 1 bushel to every 20 loads of the manure bo mixed with it before removal. If the quantity of manure which you have accumulated through the past season is not sufficient to go over your hoe and plough crops, go to the woods scrape, up the leaves and wood-mould, mix these with your other manure, and thereby enable yourself to manure every foot of ground that you may intend for corn as it is useless to worry your hands and beasts with cultivating corn on poor and unmanured

lands. OATS.—So soon as the frost is out of it, and the ground which you intend for nats is dry enoughto bear ploughing, put all your force to work to break it up-harrow and roll it, then let it remain for a week so as to let the ground settle before you sow your oats, as they thrive best when the soil is compact. Whether you plough or harrow them in, take especial care to see that the roller be freely used, in order that the earth be thoroughly pressed around the seed, and germination thus ensured. It would be well too, to sow a bushel of plaster to one of ashes, over every acre of themthe first will provide food from the air for thee growing plants, while the latter will disolve the sand and thus form the silicate of potash, which enables the stem to tesist the pressure of wind and

We have one other remark to make, and we will have done with oats for the present-every grower of oats should recollect that the earlier hey are sown the greater certainty is there that they will head well and vield abundantly. BARLEY .- This grain judging from the small quantity, comparatively speaking, grown in our country, and the few number of states wherein it is grown at all, is not, in our opinion sufficiently appreciated. It is on many accounts a much more certain crop than rye, yields on an average fully one-third more bushels per acre, while it always finds a ready market at remunera ing prices. Independently of its steady and increasing demand

for malting purposes, as a horse feed, when chop-ped, it would be found more nutritious, and thereore a better grain to work upon. Its stra is equal if not better to be cut up and mixed for horse feed. The soil best adapted to its growth is is a deep mellow loam, tolerably dry, which should be well prepared by deep ploughing, thorough hartowing and rolling.

(To be continued.)
