denit, who, has just traversed the whole line of the works, that the lower section will be navigable for the present Capal Boats as far as Phonixville the; first week in May, and by the 20th of the month boats of the targest class will be able to run to that point. The Company have put their own forces on the line, and in several instances have taken, friter-possession of those contracts which were delayed for want of sufficient energy on the part of the contractors. As the work is completed below the hands will be continued up the line, and the forces thus doubled on the upper sections. We are confidently assured that the whole line will be ready for navigation by the latter end of June or the beginning of July. We are also assured that nearly if not quite two hundred Boats of the largest class will be ready for the mavigation of the Canala, by the time if is completed. It is important therefore that those operators who intend using the canal, should be active in preparing the Landings for sulpping in the large Boats, otherwise the Canal will be completed before they will be ready to availt themselves of its facilities.

The shipment of Coal from the Lehich region, we learn, commenced on Tuesday isst. We have received no returns. COOPERING BUSINESS.
