Short, fat men are not calculated to proceed well in the world. As soon as Banaparte grew corpulent his reverses followed. Ambition is a steep hill, and he who ascends it, if he be lean, may pick himself up after a fall, but your short, fat man must inevitably roll to the bottom.

NEW JERSEY COPPER MINES .- The value of the old New Jersey copper mines appears to be attracting attention, now that the practicability working them seems to have been suggested by the prosperous enterprizes about Lake Superior.-The mine lying on the North side of the Blue Mountain in Pahaquarry-township, Warren Co., near the Delaware is advertised for sale. Another 40 miles from New York, and only a mile an! a half from as Railroad, is also advertised. We notice that during some 10 or 12 days past more than 20 tons of copper have been raised by a few inexperienced operatives, from the mines at Fleanington, Hunterdon county—which have just pass ed into the hands of a re-ponsible company .-

Newark Daily. CLIMATE OF MATAMONAS .- The Washington Union of Saturday says :- "We are informed by an intelligent physician, who was a native of this city, but who resided for several years to the west of the Rio Grande, who married a Mexican lady, who was an United States consul, practised physic several years in the vicinity of Matamoras, and 18 intimately acquainted with the climate, as well as the habits of the Mexicans, although at a certain season of the year it is unhealthy at Matamoras and on the immediate borders of the river, yet that several miles from it the ague and fever is unknown. The climate for several miles be yond, away off to the west, is remarkably healthy, and no humbug as to yellow fever, sickness 2 &c., ought to prevent the troops of the United States from visiting this interesting region of the earth."

Ligarning .- The wire of the Magnetic Telegraph, in Lancaster, says the Inteligencer, was struck by lightning several times during the thunder storms of last week. No damage was done, the wire being too small to contain a sufficient quantity, of fluid to produce any. The sound pro-Incest . by the stroke, in the interior of the Telegraph Office, was similar to that of the report of a pistol, accompanied by the emission of a few sparks.

## NO SCARCITY IN POTTSVILLE!

NO SCARCITY IN POTTSVILLE: By some people it may be supposed that the under-tion of the custom, and consequently to sell the greater por-tion of the custom, and consequently to sell the greater portion of goods that are disposed of in. this Borough. This is not exactly correct. Experience teaches him that all such efforts would be useless, and common sense dictates the propriety of not engaging in anything which will most likely prove unsuccessful. It is true that he makes a considerable noise, and causes no tri-ting sensation in the mercantile world, but his object in haying his name to appear so frequently in the pa-pers of the borough, is the PUBLIC GOOD. He pro-claims truths / IMPGFTANT TRUTHS!; and unless the citizens refuse to see, they cannot be blind to the four thet in will be to their interest to call at his
