"TRUTH IS MIGHTY AND WILL PREVAIL."

A. B. MARSHALL,

No. 155 *Chesnut St. between Seventh and Eighth Streets*

PHILADELPHIA,

IS NOW prepared to offer Wholesale and Retail, a large assortment of Fancy and Staple

DRY GOODS,

suited to the Country as well as the City Trade. He continues the system of "*no abatement in prices*," which he has pursued for the past ten years and desires to call the special attention of the public to it as the only *true system* of retail business, and which is decidedly to the interests of the purchaser to promote. It is quite time that the fraudulent practice of asking a high price, and abating to make the purchaser believe they are selling "Cheaper Low," was done away with, as, nine times out of ten, they are made to pay a higher price (however great the reduction,) than the like style and quality can be purchased at the 'One Price Store.'

A. B. Keeps in regular receipt of the newest and cheapest seasonable goods, and when any article depreciates in value, the price is at once marked down so low that it cannot be undersold. By this system the purchaser can at all times buy with confidence and satisfaction, and without waste of time in useless bargaining. He has at this time a complete assortment of

Medicines.

Facts for the People.

THE constantly increasing popularity and sale of B. A. Fahnestock's Vermifuge has induced persons who are envious of its success to palm off upon the public preparations which a medical man know to be inefficacious in expelling *worms* from the system.

This Vermifuge has made its way into public favour upon the ground of its own intrinsic merits, more than any other medicine of the kind now used; and while many worm remedies have by dint of puffing been forced into sale, and shortly after gone into the obscurity which their worthlessness justly merited, B. A. Fhanestock's Vermifuge continues to be triumphantly sustained. It has only to be used and its effects will fully sustain all that is said of its wonderful expelling power.

Certificate.

Wales, Erie Co., New Y., Jan. 7, 1843.

We certify that we have used B. A Fahnestock's Vermifuge in our families, and in every case it has provided a decided and effectual remedy for expelling worms from the system. We cordially recommend it to parents who have children affected with that dangerous malady.

HAAS' EXPECTORANT,

FOR THE CURE OF

Consumption, Coughs, Colds, &c.

TO THE PUBLIC!!

IN PRESENTING this valuable medicine to the public as a remedy for Consumption, and Pulmonary Diseases in general, I have been actuated solely by the great success attending its use in my own immediate neighborhood, and a desire to benefit the afflicted. I shall simply endeavor to give a brief statement of its usefulness, and further myself than its surprising efficacy will enable me to furnish such proofs of its virtues as will satisfy the most incredulous, that CONSUMPTION may and "CAN BE CURED," if this medicine is resorted to in time. As Consumption, however is a disease which differs much in the severity of its symptoms, and the rapidity of its progress, and has long baffled the skill of physicians it cannot be supposed that this or any other remedy is capable of effecting a cure in every case and in every stage of the disease; on the contrary, we must expect it to fail sometimes, a circumstance which occurs daily, with all the most valuable remedies we possess, for the most simple diseases. The proprietor submits the following testimonials from citizens of this County, well known to the public.

Mr. W. J. Haas.—Having been afflicted for the last thirty years with Consumption, and having had the advice of some of the most eminent Physicians, and was given up as incurable. I was induced to make trial of your invaluable Expectorant, and am happy to say that I am entirely cured, and am attending to my daily occupation as though I had never been afflicted. Previous to taking your EXPECTORANT, I could not, if I had been disposed, do anything at my trade. I have since recommended it to several of my friends, and particularly one case of CONFIRMED CONSUMPTION, and am happy to state that in every instance it had the desired effect. Yours respectfully JOSHUA HAWKINS

Schuylkill Haven, October 1, 1841.

SCHUYLKILL HAVEN, January 1, 1845.

Mr. W. J. HAAS.—*Dear Sir.*—Having been afflicted with a severe pain in the breast, I was induced to try your Expectorant, and after using one bottle of it, found it to relieve me, and I do not hesitate in recommending it to the public as a valuable medicine for Colds, Coughs and Affections of the Breast.

I am respectfully yours &c.,
EDWARD HUNTZINGER.

SCHUYLKILL HAVEN, October 19, 1841.

I was taken with a bad cold some time ago, and used one or two bottles of *Mr. Haas' Expectorant*, which relieved me much, and should I have occasion for the above again, I would freely call on Mr. Haas for his invaluable Expectorant. DANIEL H. STAGER.

SCHUYKILL HAVEN, July, 29, 1845.

Mr. WILLIAM J. HAAS,—*Dear Sir.*—I am happy to testify to the efficacy of your expectorant, for answering the purpose for which it was intended, that of relieving Coughs, Colds, &c.,

Yours respectfully, CHAS. HUNTZINGER.

TRIUMPHANT SUCCESS OF

Thompson's Compound Syrup of *TAR & WOOD NAPTHA.*

Still another remarkable Cure!

Carlisle, Pa., Nov. 20, 1845.

About six years since, in consequence of the sedentary nature of my business, I was attacked with severe pains in the breast, palpitation of the heart, and shortness of breath, which were soon followed by a failure of appetite, extreme wakefulness at night, and partial paralysis of my limbs—these symptoms of a deranged system being frequently attended with spitting of blood. For about two years I was occasionally thrown into convulsions, which left me in a miserable state of feebleness and began to affect my mind. From time to time my sufferings were more or less severe, until at length they increased to such a degree, and the violence of the symptoms were so augmented, that for a whole year I was unable to attend to my business. During this time I consulted some able physicians and attended their prescriptions; but all their skill was unavailing to procure me relief, and at length they regarded my recovery as entirely hopeless. In this condition I was informed of the salutary effects of Thompson's Compound Syrup of Tar and Wood Naptha, in a case somewhat similar to mine, and though I had given up all expectations of a recovery of my former health by human means, yet by being strongly advised to try this medicine, I was at length prevailed upon to do so, and I have now to say, that by the use of six bottles my health has been restored, and I am now able to attend to business with as much facility as usual.

Boston, Dec. 20, 1845. 51—

REPORT

Of the Iron and Coal Association of Pennsylvania.

We referred to this report in our last number, and return to it this week for the purpose of making an abstract of all that relates to Iron. The statistics in relation to Coal, our readers for the great part have become familiar with in our own columns. The author of the report sets out with the avowed intention of not theorising upon the Tariff question, but to give the result of the absolute experience of the country, and to place them in comparison with the practically exploded ideas of the Secretary. The present Tariff Bill: the Report holds an admirable illustration of the inconsistencies of the free trade Politicians. While it was under discussion, they maintained it was too protective and would consequently produce no revenue. It proved however to be a Revenue Tariff, and has raised the country from Bankruptcy to the enjoyment of a full Treasury. It has at the same time exalted the prices of labor, and restored to activity commerce, agriculture, and manufactures, previously in a most languishing condition.

In 1839, the iron business was in a sound and healthy state, and attention was generally aroused to words in the minds of all who had money to invest. In that year the feasibility of the long sought use of Anthracite Coal in Furnaces and Rolling Mills was perfected, by which vast treasures were unlocked. It aroused the operators with bituminous coal, and introduced into Pennsylvania the manufacture of Coke-Pig iron, which has achieved such gigantic fortunes for many of the English Iron men.

The Price and duty of Iron then were as follows:

	Bar Iron.	Duty.	Pig Metal American	Duty.	Blooms.	Duty.
1839,	£10, 0, 0.	$21 00.	$33 00.	$8 50.	$75 00	$23 00
1840,	9, 0, 0.	18 00.	29 00.	8 00.	60 00	21 80
1841,	7, 0, 0.	"	"	"	"	"

Under the compromise Bill, the duty in 41 was but three dollars per ton reduced on Bar Iron, and but 50 cents on pig-metal from what it was in 1839. Yet from the low English prices and the over production, this country felt the change so sensibly, that at the extra session of that year, Congress was petitioned to prevent the compromise bill from going fully into effect as the certain result of the reduction of duties would be the paralisation of the industry of the country and ruin of all engaged in trade. The numerous petitions were however unheard, and prices fell accordingly.

July and August.	Eng. Bar Iron	Duty	Pig Metal American	Duty	Blooms	Duty
1842,	£5 10	$7 50	$23 00	$4 50	$46 00	$8 20
1843,	4 10		19 00		38 00	

There prices tell their own tale. American Bar Iron fell from $100 to $75 per ton; Blooms, from $75 to $38; Pig Iron, from $33 to $19; and furnaces, rolling-mills, forges, founderies, and manufactures of cutlery, all ceased operations, and dismay and ruin pervaded the land. The great distress of the country could not be contradicted; Congress could not avoid the passage of the law of 1842, the majority in favor of which would have been very large had it been unembarrassed by the land question. In spite of Veto, and executive influence, the bill was passed by a majority composed of both parties which induced a belief, that at length we had a permanent Tariff, and Capitalists an assurance that their calculations would not be again interfered with, and their best efforts rendered nugatory.

What has been the effect of this legislation? How has it effected the manufacturers? According to the census of 1840, the number of Furnaces in Pennsylvania was 213, of Rolling Mills, Bloomeries, and Forges, 109. In March 1842, returns were had from 79 furnaces, 72 of which were charcoal, and 7 Anthracite, viz:
