ARRIVAL OF THE CALIDONIA.

Five days later from England.

The steamer Calidonia, Lott, arrived at Boston on Thursday at 2 o'clock P M. She brought forty-three passengers to Halifax, left eight at that place, and took on board eighteen for Boston.

We have London papers to the evening of the 3d of June and Liverpool to the 4th, inclusive.

THE HOUSE OF LORDS.—All the London papers have their say touching the unexpected majority in the House of Lords on the second reading of the corn bill; and the sayings are a little complimentary. Even the Times, though an advocate of the bill, gives the peers who voted for it a rap.

REMORS, &c.—Of these the English journalists amused their readers with a sufficient variety.—One was that Mr. Consul Armstrong's visit to the United States was made by request of the President and for the purpose of taking the chief command in the Mexican war! Another, somewhat less preposterous, was put forth by the London Times, as follows:—

AMERICA AND MEXICO.—There is a rumor in the city that the American Government has recently invited the mediation of England and France for the settlement of the dispute between the United States and Mexico.

The Herald varied this report by saying that the British Government has resolved to offer its mediation.

FROM THE EAST.

London papers of the 31 instant have accounts from India by the overland mail—advices from Bombay to the 1st of May, from China, to March 29; from Lahore, to April 9. The intelligence is without prominent interest.

The accounts from Lahore were satisfactory. No idea of disturbance was entertained, so long as the British forces should remain.

From Wilmer & Smith's Liverpool Times of June 4.

COMMERCIAL.—The beautiful weather, which set in with the close of May, still continues, and the warmth at the present time is oppressive.—Vegetation progresses, and the country in every direction presents a smiling and lovely appearance. Hebe never looked more bewitching. At present there is evidence not only of an abundant, but what is better—of an early harvest. The corn in most districts looks strong and healthy, and the potato, about which much misgiving is to the future existed, is found to be free from disease, and excellent in all respects. Even the famine in Ireland is denuded of its horrors. It is assumed less severity than was anticipated; and God's best gift to man—a full granary—seems everywhere likely to reward the husbandman's labor.

So that it seems likely that those among us who would give up the benefits of a Tariff for the prospects of furnishing England with bread stuffs, are likely to be disappointed.

From the London Globe of June 3.

POTATOES FROM NORWAY.—A cargo of potatoes from Norway, is announced for sale in the present week, as applicable either for seed or for home consumption. In appearance and taste they are more like those esteemed in the English markets and for the table than any other which have been introduced from abroad, accommodance attributable to the more temperate climates in which they are grown.

NEW POTATOES.—Potatoes of this year's growth ploughed in the middle of April, at Fulbertun, were sold yesterday in the Ayr market. They are the first offered for sale this season. The species is the early American kidney.—*Kilmarnock Journal.*

POTATOES.—Two vessels are loading for the Thames, but it is doubtful whether full cargoes will be got for both. The high price (29s a boll) is attracting supplies from Argyle and Inverness-shire; but our own county is almost exhausted.—*Perthshire Courier.*

Prince Napoleon Louis Bonaparte, arrived in England on the 26th of May, the first day after his escape from Ham. The Prince has written a letter to Sir Robert Peel, and one to Count St. Aulaire, the French Ambassador.

THE CHOLERA.—We have already stated that the cholera had made its appearance in the provinces of Persia. It has spread from Bokhara to Herat and Meshid, and has taken the direction from the Caspian Sea to Teheran and Ispahan.—Accounts from Odessa state that it crossed the Russian territory and appeared suddenly at Tiflis, taking a northerly direction between the Caspian and the Black Seas.

On the other side the cholera broke out unexpectedly at Orenbourg, in the dunes of the Ural mountains, it crossed the Volga, and set its foot in Europe, at Casan, only 2,000 kilometres from St. Peterburg. If the accounts we have received are exact, it has taken a most irregular direction. It has advanced from west to north, and does not seem to have followed the banks of the river as in 1828 and 1832.

A Frankfort Journal of the 28th states, from Cracow, that the famous peasant chief, Szela, and his son, have been arrested.

A mysterious prisoner has been for some time confined in the fortress of Konigstein, in Saxony. It is supposed to be Tyssowski, the last dictator of Warsaw. It is said that he will be exiled to America.

CONVERTS TO PROTESTANTISM.—Yesterday (Whit-Sunday), in the French Protestant church in St. Martin-le-Grande, two (formerly) Roman Catholic ladies, firmly convinced of the truth of Protestant faith, and converted under the pastoral guidance and instruction of the ministers of the church, presented themselves for the purpose of publicly renouncing the errors and superstitions of the Church of Rome. They went through the services with the Congregation, and were received according to the established forms.

FRANCE.—The long report on the attempted assassination of the King has been published.—Its real importance is in the conviction it sets forth, that he compte had no accomplices—that his crime was an isolated movement.

Clippings.

A CUSTOM LIKELY TO INSURE CONSTANCY.—In Guernsey, when a young man offers himself to a lady, and is accepted, the parents of the parties give what is termed a flouricing; that is they invite their friends to a feast, where the young lady is led round the room by her future father-in-law: there is then an exchange of rings and some articles of plate, according to the rank of the parties. After this it is quite shocking for the damsel to be seen walking with any other male person, and the youth must scarcely glance at any female, in this way they court for years. After this ceremony, if the gentleman alter his mind, the lady can claim half his property; and if the fickle lass should repent, the gentleman can demand half of hers.

It is said that Gen. Arista, of the Mexican army, once carried on the tin and copper business in Cincinnati.—*Exchange.*

If accounts of the material of the Mexican ball be true, the General is still in *the copper business.*—*N. Y. paper.*

No; he is supposed to have lately retired on his *capital.*

A YOUNG officer on his way to *Corpus Christi* when Gen. Taylor occupied that post, on arriving at an inn at some distance from the camp, determined, as he was somewhat fatigued, not to proceed that night to the army, but to remain until morning. Having had his horse stabled, and made himself comfortable, he walked into the public room, and before long found himself in such a conversation as the following, with a fat, rough, but comfortable looking gentleman.

Are you on your way to the army?

Yes.

Why do you not go on to-night?

Why I thought I would wait until morning.

Were you not ordered to report without delay?

Yes, but I am tired, and determined to remain here to-night.

What will your commanding officer say?

Never mind him, I shall be able to make a satisfactory excuse to the General.

Hem. The stranger left.

Landlord, said the officer, who is that inquisitive old buffer?

Lord sir, don't you know? It is General Taylor.

General Taylor! Phew! Landlord have my horse saddled, I will go to the camp to-night.

ALEXANDER'S TRICOBAPHE.

A NEW AND VALUABLE DISCOVERY.

BEING a liquid dye, which instantaneously changes the color of the hair to a beautiful brown or black, without any injury to the hair or skin. The great superiority of the dye consists in its easy mode of application and instantaneous effect—all other dyes requiring from ten to twelve hours to produce any change. Its superior excellence will be apparent to every one upon a single application.

Extract from the Philadelphia Daily Sun.—*Alexander's Tricobaphe.*—The effect of the above on the hairs truly astonishing. It was tried yesterday in our office, and the change from grey to black, was instantaneous.

Extract from the Philadelphia Daily Forum.—Several of our acquaintances have recently applied to their hair the valuable liquid known as "Alexander's Tricobaphe"—a new and valuable discovery; and it has in no case failed to produce the desired effect. Immediately after applying it to grey hair or whiskers, it imparts a beautiful brown or black color.

Extract from the U. S. Gazette.—Messrs. R. & G. A. Wright, sell a liquid dye for the hair which a gentleman assured us would, with no trouble, color either black or dark brown, the hair of chin or head that had any obstinate tendency to red or grey.

Extract from the Philadelphia Inquirer.—Hair Dye.—The liquid dye for the hair, which is sold by R. & G. A. Wright, No. 23 South Fourth street,—is an excellent article. It is said that it instantaneously changes the color of the hair to a beautiful brown or black, and without injury to the skin—the dye is called "Alexander's Tricobaphe."

Extract from the Philadelphia Daily Forum, Dec. 7th 1845.—*Alexander's Tricobaphe.*—We frequently hear our friends speak favorably of this liquid dye, one or two applications of which it is asserted, will instantaneously change the color of the hair or whiskers, to a beautiful brown or black, without injury to the skin. It has been used and recommended by many of our citizens, and we doubt not it is a valuable discovery.

CAUTION.—To prevent fraud, each direction bears the *written* signature of G. Alexander.

PURE WHITE LEAD.

Whetherill & Brother,

MANUFACTURERS, No 65 north Front street Philadelphia, have now a good supply of their warranted pure white lead, and those customers who have been sparingly supplied in consequence of a run on the article, shall now have their orders filled.

No known substance possesses those perservative and beautifying properties so desirable in a paint, to an equal extent with unadulterated white lead; hence any admixture of other materials only mars its value. It has therefore been the steady aim of the manufacturers, for many years, to supply to the public a perfectly pure white lead, and the unceasingdemand for the article, is proof that it has met with favor. It is invariably branded on one head—WE PHILADELPHIA—WHETHERILL & BROTHER—WARRANTED PURE—also red letters

Extensive Clothing Emporium.

THE greatest bargains in ready made clothing are to be had at M. TRACY'S Old Established Pioneer Line, No. 292 Market Street, Philadelphia, who has just finished one of the largest and most complete assortment of Spring and Summer clothing in the city, consisting of Dress and Frock Coats, spring and summer Sacks and Coatees, of fine cassmerette, Habit and Croton Cloths, Tweed Cassimere, Brown Linen, &c., super French Cassimere pants, and Vests of every description.

All garments at this establishment are warranted both in fit and workmanship; they are got up expressly for the retail trade, consequently more care is taken in the selection of the goods, as well as the style of cutting. The proprietor of the establishment is a practical tailor (having served a regular apprenticeship to the business) and has none but practical workmen in his employ. Gentlemen in want of clothing, may depend upon being suited in every respect, as we are determined not to be undersold by any competitors. All goods are purchased for cash and sold for cash, which enables us to sell a little lower than those who deal on the credit system, it being a self-evident fact, that the nimble sixpence is better than the slow shilling.

Also, always on hand an extensive assortment of Cloths, Cassimeres, and Vestings. (which will be made to order at the shortest notice) Shirts, Collars, Suspenders, Gloves, &c. M. TRACY.
