The triumphant success which has attended the application of this most wonderful medicine in curing the most severe cases of the different diseases above named,—and the high encomiums that have been bestowed upon it, wherever it has been introduced, gives me the right to call on the afflicted to resort at once to the only remedy that can be relied on. gives me the right to call on the afflicted to resort at once to the only remedy that can be relied on.

The following certificate of the restoration to health and the perfect cure of a deformed and crippled child, and the perfect cure of a deformed and crippled child, and the stronght to be beyond the reach of hope, shows that no matter how appailing the case may be, there is a remedy in HUNT'S LINIMENT, that will conquer the most desperate cases, and that if the discase be curable, this celebrated external remedy will do it. It has never falled in giving immediate relief if timely applied, as proved by the abundance of high and unimpeachable testimony, the particulars of which are to be found in the pamphlets which are to be had of every agent:

Ossinsing, June 10, 1815.

George F. Stanton, Esq.—Sir.—I feel called upon by the tie of gratitude, to offer the following testimony in favor of Hunt's Limiment. My grandson, Clark E. Evans, who is now ten yen years of age, has been for the last eight years a cripple, caused by Enting from a chair when he was two years old, and wrenching his Spine. From the time of the occurrence, we have tried every means to restore him to his natural shape, but all without avail. We took him to New York and piaced him under the care of a physician of skill, and after remaining there some time, we brought him home no better than when we took—him there—For several days at times he was so helpess that he could only walk by placing his hands upon his knees for support, giving him the appearance of a deformed hunchrack. He was also taken to Newburg and prescribed for, without any better excess.

Highly important from Washington! IMPORTANT DISCLOSURE!!! Designs of the Administration-Perpetua

Free Trade!! Oliver Oldschool in a letter to the United States Gazette, under date of July 8th, writes from Washington as follows:

I have come in possession of information as to the designs of the administration, in regard to Mexico, which I deem important and I take an early opportunity to lay it before the public, and to call special attention to it. It has been stated by a prominent member of the Cabinet, that it was their purpose to take from Mexico, all the country lying north of a line running due west from Tampico, on the Gulf of Mexico, to the Pa cific Ocean; which would take from that republic about one half, perhaps more than half of her Territory. That the country thus taken would be organized into Territorics of the United States for a time, and then admitted into the Union, as

States should be formed out of it. These States, said this member of the C: binet will be fare thank Stater, and we shall be to ranner of ever able with them to out vote the north, and prevent her frum ever establishing her protective policy again. The interests of the South, he laints of remarked, would cause them to unite against the north, and with the strength that will be thus acquired by them, they can forever hereafter con-trol and rule the north. He referred to the effect of the annexation of Texas in enabling the South to carry her free trade doctrines into effect at the resent session; -said that Texas had done her duty in the House, in voting for the tariff bill, and would do it in the Senate.

Gen. Patterson as Major General to command the the Government, have been converted into an Ex-Volunteers, by a vote of 29 to 11. He was opposed by the 54 40 men,

THE PEOPLE IN MOTION.

By the manner in which the revenue under the proposed bill, is to be collected, no trade is likely to be so seriously affected as that of roal, which will be liable, without the possibility of prevention, to all kinds of fraud, so much so, that foreign competitors have it in their power to shape the duty from nothing to anything which will suit themselves. Already a deep feeling has been excited and the popular clamor is exceedingly great throughout the whole region. In some instances orders for machinery etc., for new operations have been countermanded. A meeting has been called: at J. Geisse's Hutel. Let the people of this region turn out en masse this afternoon. Let the moutitains of Schuylkill send forth a voice that will make the destroyers of the country's prosperity pause in their career of ruin and desolation! Not only has the Tariff of 1842 been crushed by the House of Representatives, but the committee rooms of the Capitol of the Nation, as proclaimed The Senate has confirmed the nomination of in the editorial columns of the official organ of change for the barter of British goods !

House of Assembly have held a Special Session, to concert measures for the relief of the sufferers by the destructive fire at St. John's, as well as borrow a sum of money not exceeding half a million—for rebuilding the town, to which Sir John Harvey has lent his hearty co-operation and assistance.

14-is estimated that 2000 houses have been de stoyed, and that 12000 persons are rendered houseless. The demand for provisions and building materials in officially and purposely made known to be great. In a general military order,

His Excellency Sir John Harvey does great cre lit to the military, and ascribes to their efforts the saving of the east end of the town. Many merchants burnt out saved a good proportion of their stock. The Scotch houses are said to be the heaviest losers, as they were all in a cluster, and in the immediate vicinity of the all vat which was destoyed.

reference to the Oregon Treaty, (published in the United States Gazette on Tuesday;) 'No doubt now exists that at the time when Mr. McLine forwarded the conditions which have become the basis of the treaty, he strenuously urged the Government not to accept them, as they were by no means to be considered as an ultimatum, but were rather to be taken as an act of courtesy in opening the negotiations. It would therefor seem strange at the first blush, that the Senate should so suddenly have recommended the President to accept the treaty thus proffered.

The reasons were, however, and such we understood to have been assigned in the recent discussions, that we had everything to fear from our weak, wicked, and ambitious Executive, but nothing from Great Britain. The Senate after witnessing on the part of the President a series of inconsistencies of a character to destroy all confidence either in his capacity or integrity, were afraid to trust the

cate him from a difficulty in which his duplicity had involved him—that he and Mr. Buchanan, while crying aloud for the whole of Oregon this side of the water, and had rejected all the terms of settlement, proposed by Mr. Packenham, had been instructing Mr. McLane to induce the Brit-ish Government, is offer terms of some kind, or
