NOW AND FOREVER!!

We throw to the wind the above braner ande which the battle fer the defence of American industry must be fought, without flinching and without compromise. At the first of party, the tion will be to cause, from the date of the arrival shops must be heshed to gratify the party views of British goods to be made with which the custoff or the bill, as he said before, for the sole purpose of interested politicians, who have decrived and gulled the people. Unlike the experiments of worst Bill shall go into effect on the 1st of Dec. nextpeople, the burden here falls on those who are On that day the doors of the ware houses deast able to bear it, on the poor and appresed, on he opened, and at the low duties the country wil those who live by the sweat of their brows, and the fooded with goods to the total destruct who can look for no assistance or sustenance but American manufactures, and our own cuto from their own honest hands. To all such, to those who have been earnest and presevering supporters of the true policy of the country, a well as to the many who have been defrauded of their rights, and deceived, we say ralciples inscribed on it. The time for delay has the immediate effect of which will be to lock a gone by temporising must be forgotten, and the for the Government all the gold and silver, to great and only division of politics must be, into the banks, and pay out to the people, rags. those who are in favor of protection and those who are opposed to it. With regard to the lead these three great acts of the powers that be, is a ers of the party we have nothing to say; they crusade against American Industry and reduct have deceived the people knowingly and wilfully, and the wages of the laboring men to that of the have forfeited all claim to further faith in spite of European Governments, and the level, as Mr. any protestations they may make, until they have Sevier says, of the Slave labor of the South. renounced those enemies of their country, not in words only, but have stamped their repentance with the seel of good works. We say therefore faith in and vote for no one who is not the avowed. and active friend of "Protection to American In lustry," the great principle which must be triumphant

and on which the next Presidential contest must wholly depend. THE FRAUD TRIUMPHANT.

The news has now been spread far and wide that the Tariff of '42 is repealed, and as far as the leaders of the party are concerned, the fraud is comes all who will suffer, not to waste time i idle complaints, but to make the best preparation they can to support the troubles that! must ensu tion are not matters of surmise, but it is already sire that almost all of the works which were projected and were being established, must be laid aside at once or as soon as they can be gotten into such a state as to render this feasible. Not only is this sure to happen, but large and extensive operations have already been closed. The St. Clair furnace has already been closed, the workmen discharged and an end put to extensive operations. A large machine shop which was being built, the walls having been completed will be roofed in and all further work on it postponed indefinitely. At the time we write a black flag is hanging from its walls. Had the Protective system been preserved a double activity would now have pervaded it. The Coal Shippers who have, as far as my voice and suffrage can give it but a few weeks since were unable to till the many orders they were receiving must now, the one half of them, suspend their business, and the rest without a profit continue their operations for the mere purpose of providing for their laborers work and subsistence. All operations will feel this; the market for produce will be effected, and all will suffer immediately by the general inactivity which will pervade all things.

industry and labor who have produced this state of things are among us and known. The people will appreciate hereafter their pledges and promises and will surely hold them accountable for the evils they have done. The evil men do lives after them, and long after they shall have passed from the political stage, the evil consequences they have sabandoned by Congress without a treacherous produced will be remembered. We would wish them no greater punishment than to live knowing as they must do, how they are regarded by their fellow citizens, and therefore leave them to the own reflections and the indignation of the people they have betraved. When labor shall be unem ployed, when artisans are looking in vain for bread: or tall for the fulfilment of promises made by these persons, the retribution will be severe only

ment is merited. As for ourselves we have triven to prevent this. We have warned the people and toiled by day and night to furnish statistics which have been extensivly used, and in every point of view to place this great question in its true light. We foretold in case of Polk's election the repeal of the Tariff of '42, if he had the power. For the presen we have been foiled and beaten by a foreign inter est, too rich to contend with. We do not however cure from the contest, but yet trust in the integrity and intelligence of our countrymen, to wit finally the victory for true American principles. We have raised the banner again, under which these principles must triumph,

I have long felt it my duty, a after I took a bad cold. I was troubled with a severe gb- for several weeks, so that my appetite and ingth failed me. I was obliged to give up business, re my bench and shop. I had all the alarming sympton so of Consumption; such as pains in the side, sweatinghts, &c. I tried many kinds of medicine, but in vain until I procured a bottle of Dr. Wistar's Biln of Whid Cherry, which, by faith and perseverance, ally saved my life, and cured me entrely. I have tenjoyed as good health for twelve past as id no now THOMAS BENNETT.

We are personally acquainted with Mr Bennett. In public may rely on the truth of his statement. WHITALL STOKES For sale by John S. C. Martio, Drugsist, Pottavil (m, Taggart, Tamadua; Bickel & Medlar, Orwi ug; J. B. & J. A. Falls, Minersville; Cafeb Who
