FRUIT TREES,-At a late meeting in Boston,

John Owen of Cambridge, stated he cured the

black wart on plumb trees by cutting off and wash-

ing in salt water; and in another case, by wash-

iug with salt water only the warts cracking off ---S. Pond learned the value of salt for plumb trees,

by an inundation covering his grounds several

feet with sult water ; 'killing everything but his

plumb trees, and giving them new life, health and vigor.' Dr. Shurtliff, of Brooklyn, applied to un-

healthy, unproductive plumb trees, two quarts of

salt each, in water ; the trees became healthy, and

the ensuing season they bore too much fruit.' He

continued the application, and was not troubled

with black wartor curculio. W. Buckminster said he found roots of apple

trees three rods from the trunk, that had been set

out only sixteen years-a proof of the importance

Sowing CLOVER AMONG CORN -I noticed in

can say from experience; that it, will do well, if

Cultivator an inquiry, whether it will answer to sow clover seed alone in the fall on corn land ?-

sown directly after working the corn the last time

when the ground is in a fresh worked state. One

of my neighbors has, this summer, a fine field of

clover, which he sowed after working his corn the last time---I think about the 20th of this month,

(July.)' I expect in about ten days to sow my

corn field, which I intend to lay over for wheat one year, and I would advise firmers generally to do the same, as I am certain it is much better for

the wheat crop and the land to turn in a good crop of clover, than a parcel of noxious weeds.-Ohto

CARROTS-RUTATION .- At one of the Boston

Agricultural meetings, Mr. Gleason, of Wayland, stated that he fail raised 800 hushels of carrots to

the acre; on the same ground the year following he had only 525 bushels. The ground was ma-

nured both years. The importance of alteration r rotation is here evident.

ows fed on them in winter, yielded him as much

profit as in summer., Eight hundred bashels to

the acre were equal to sixteen tons, they- were worth to high eight dollars per ton, or equal to \$128

per acre. The tops were worth \$4 per acre to

Roor's Fon Cows .- The Boston Cultivator

says, that the disagreeable flavor of milk, and of-

fensive odor in cellars, from ruta baga, may be ob-

viated by substituting the cabbage turnip, or tur-

nip rooted cabbage, below ground ; that it yields as

much or more than the ruta baga, keeps well, im-

parts no unpleasant flavor to milk, and like a par-

snip will keep well in the ground the severest win-ters, and be ready for use in the spring. The tuf-

nip moted cabrage, abore ground, io less valuable.

GLASS MILE PANS .- Why can't we have glass

milk pans in this country ?. They are being in-troduced into the English dairies, and are much

liked. They are said to be much more easily

cleaned than pans of any other materials, and are so strong that they will bear a very severe blow

without breaking. The only objection to them is: their cost, which, on account of duties, is rendered

high. We suppose they might be afforded cheap-

BI WM. F. HOBIAC, Hand Ling Ling from the Lebigh to the Susquehanna, put up in Pocket Book form. Price 33 25 per copy. Also on canvass for offi-ces, price 33 25. Just received and tor sale at GAN-NAN'S Cheap Book Store, Pottsville. August 1, 1840.

PACKING YARDA THE subscriber respectfully informs his friends and the public in general, that he has appointed J. F. Whitney, Agent for the sale of his superior Italian Hemp Packing Yarn, who will keep a constant supply at the Iron Works of E. W. M'Ginnib. THOMAS JACKSON. Pa.

Pottsville, April 25th, 1846.

October 28,

THREE FISH FOR DISSER. -A Livernoo tells this story, as having its origin in an Ameriegn cating house. It is a good one happen where it might: Diner .- 'Now, waiter what's to pay ?' Waiter .- Let me see, sir ; what have you had

Diner .- 'Three fish.'

Waiter .- Only brought up two. I think, sir.' Diner .- No, three ; I had two mackerel, and one smell.

liquors can I get for two long hits ?'

Five.' said mine bost. Well, fork'em over. Come up boys and drink.' The liquorising completed, he pulls out two old bridle bits, which were long enough in all conscience: It is needless to say how wavige the landbid looked, when the customer couldy walked out, smid the shouts of the crowd.

RATHEB PERSONAL -- A motion was made by s member of a Western state, to lay-a tax on horses. cows, asses, and other domestic animals. A mem ber moved to strike out the word, asses, or amend the resolution, by inserting the word quadruped after animal, else, ho argues, the law might operate onerously on the mover of the resolution, and other hanorable members of the House

A country man, recently, went into a book store in Boston, and addressing the clerk, said :

agent :

"Please sir, to let me see My Wite,' from the pen of Mrs. Tuthill, of which the young book seller, liad nover heard. Why, sir, your wife ain't here, nobody's wife

sing here, the bogs is a bachelor, and belongs to the church, and belongs to

As USESTIGHTSED Caspinare. -- Reller cit-izens, said a candidate for Congress, recently, somewhere out west -- Peller citizens ! you're well awar I have no edication. I never went to school but three times in my life, and that was to might school. Two nights the teacher dudn't come, and 'tother night I had no candle.'

What a strange thing it is, that with such a name you should be such a wicked fellow,' said Mr. Sleel & Mr. Good. Note at-all,' was the reply, seeing that you,

notwithstanding your name, are severy sait." LADUACITY A young ipan who was a great

talker, was sent by his parents to Socrates to learn oratory, - On being presented to Socrates, the lad cincessantly that he was out of all patience. When the bargsin came to be struck.

Why charge me double ?' said the young fel-

ABecouses said the orator, I must teach you two sciences; the one to hold your tongue, and the other how to peak.

CATOO RAPUY .- It is said that when a cat's tail is pinched between a door and the post, she utterthey worder a si orr, and finally dwelling on w ulfreised, when the sound terminates on r short.

STANTON'S EXTERNAL REMEDY

HUNT'S LIINIAMENT, Is NOW universally acknowledged to be the infallible remiedy for Rheumatiam, Spinal Affections, Con-inctions of the Muscles, Sore Throat and Quinsy, Is-sues, Oid Ulcers, Pains in the Backand Chest, Aguesin the Breast, and Face. Tooth Ache. Sprains, Bruises, Salt Rheum, Burns, Croup, Frösted Feet, and all Nerse vois Diseases. The triumphant success which has at-tended the application of this most wonderful medicine in curing the most severe eases of the different diseases alayee named,—and the high encomiums that have been bestowed upon it, wherever it has been introduced, given the right to call on the afficient to resort at once to the only remedy that can be relifed on. The following certificate of the restoration to health and the prefer ture of a deformed and crippled child, who was thought to be by one the reach of hope, shows that no matter how appalling the case may be, there is a remedy in HUNT'S LINIMENT, that will conquer the most chaser cases, and that if the dischase be cu-rable, this, relebrated external remedy will do it. If has never failed in giving immediate relief if timely applied, as proved by the abundance of high and unim-pear halbe testimany, the particulars of which are to be found in the pamphilets which are to be had of eyery agent: Ositystyo, June 10, 1815.

pear halde testimany, the particulars of which are to be had of every agent: George E. Stanton, Esq.—Sir.—I feel called upon by the tie of gratingle, to offer the following testimony, in favor of Hunt's-Iniment. My graudson, Clark E. Evans, who is now ten years of age, has been for the last eight years arripple, caused by falling from a chair when he was two years old, and wrenching his Spine. From the time of the occurrence, we have tried every means to restore him to his natural shape, but all with-out avail. We took him to New York and placed him under the eare of a prysician of skill, and after remain-ing there some time, we brought him home to be tett than whe we took him there. For several days a times he was swo pulpes that he could only walk by placing his hands upon his knees, for support, giving but a papearine of a deformed hunch's ack. He was also taken to N. whurg and prescribed for, without any better success. At times he would he strong enough to go out of doors, but after playing an hour; would come in perfectly exhausted, and for several 'days would he arin perfectly belpless. We had all tost hope of ever again seeing him restored to his natural shape, or strength-but a kind Providence placed your *External Reversy* in my hands. I have used hit four bottles, and tam rejoited to say that the by Bonw as straight and tam rejoited to say that the hoy Bonw as straight and tar negoited to say that the hoy Bonw as straight and tar negoited to say that the by Bonw as straight and tar of doer, but a find this statement. I take sin-ere pleasure in straing under like calamity: Yours Respectively lear winces to the deformity of which he was serfouly affiettd, apparently for life.— Dated Sing Xing, June 9, 1815. HENRY HARRIS, Justice of the Peace, the particulars of cures, see the certificate accoun-particulars of cures, see the certificate accoun-particulars of cures are the certificate accoun-parting the stat the set and straight and the state of cures are the
