A PROTECTIVE TARIFF The true, and only policy of the Country, which gives labor its reward and stimlates industry. Our own workshops in preference to those

of Europe NOW AND FOREVER!!

The Result in Schuyikili county!

We refer our readers to the official election r turns of this county, published in to day's paper. It will be perceived that the Whig candidate for Canal Commissioner has a majority of 484, the Whig candidate, for Congress a smajority of 601, the volunteer Whig condidate for Sheriff a majority of 738, the volunteer Whig candidate for Senate a majority of 413, and that the whole of the county ticket is elected by an average majority of 400: This result is glorious. We were prepared to see a great change in Schuvlkill county, but such a result as this could not have been anticipated by any one.

We are not disposed to consider the election of the Whig ticket in this county, as a party triumph. We regard it as an expression of the preference, which the working men of the coal region have for the Tariff of 1812 over the British Bill of 1846. We look upon it as a rebuke to the administration for the repeal of a law, calculated to benefit the-American working man, and the passage of one, the tendency of which was to level his condition to that of the laboring population of Europe. The time had come when the people would no longer suffer themselves to be guided by party leaders. They determined that they would do their own voting and their own thinking. Strenuous efforts were made to whip, them into the traces by the party leaders who with a very few exceptions, strove earnestly to make them travel in the "good old way," and even Francis W. Hughes, Esq., who had been perfectly quiet throughout the campaign, came out on the evening before the election and used all his powers of persuasion to induce the disaffected to fall back into the ranks-All would not do. Those who had been deceived in 1814 by assurances that the Tariff would not be repealed if Polk was elected, were not now disposed to believe the men who had so deceived them then. They came forth and voted the Tariff Ticket-they were determined to speak their disapprobation of the course the administration has pursued, and the result has been a TARIFF TRI-CMPH?

Thanks then to those honest men, who had resolution enough to throw off party shackles in order to support a great principle! Thanks to the Whigs and Tariff Democrats of Schuylkill county who have demonstrated that the people know their rights and dare maintain them! Thanks to the naturalized citizens' of our county who have nobly proved their love for their adopted country by refusing to canction a bill for the benefit of the British manufacturer. You have done well, and the working men of America thank you for your aid in checking the innovations on their rights made by the present administration. Schuylkill county has spoken; her voice will be beard; her example feit.

Ounselves .- We were abused before the election for stating that Wynkoop's vote for Congress in Schuylkill, would not exceed 75 votes, and that a portion of the Natives would not vote for him Morton received 136 in the county, and Wynkoop received 95. On the authority of our Dauphir county friends we also stated that Wynkoop would 10t receive 500 votes in Dauphin county, which is less than one-half the Native vote of last year His vote is about 500. Does not the result show that we stated the truth as near as it could be stated under the circumstances ? It is well to recur to these things after an election.

CANAL COMMISSIONER .- From the regards received, Power is certainly elected by a majority ranging from 10, to 15,000

17' Doct. Eckert's majority in Schuylkill county is greater than the united majorities of Dauphin and Lebanon counties. We told our friends in that quarter that Schuylkill would do her duty. Has she not done it?

LEBANON.-Eckert's majority for Congress, is about 450. The whole whig ticket elected. Volunteers all defeated Shay for Sheriff by about 200-and Phleger by about 30. Power has a large majority.

DAUPHIN,-Eckert's majority for Congress in of the Legislature, it is believed, are both elected. the other part of the ticket is doubtful. The Native vote is from 450 to 500 in the county.

A REASON.-'A Locofoco vesterday; in cog-itating over the result of the election, gave as a reason for their defeat, that the flood on election day was so great that all the rafts at the head of Salt River broke loose, and the Whigs floated down in such numbers that they were overwhelmed .-Perhaps it was so.

"BOUND FOR SALT RIVER."-After the election returns came in on Thursday, showing the his district. great Whig gains in every part of the state, some wag having caught a land tortoise, pasted the Lowere by, took the joke in good part, but thought that the method of conveyance was centirely too slow for the occasion,

Native, 15,227; McGrath, Whig, 9,807. It will he seen by the above, that Mr. Lelar is elected Sheriff by a majority of 55 over Mr. Deal, and 5.420 over Mr. McGrath. The Democrats have carried the other city and county officers. In the county the vote has fallen off from last ear in most of the districts.

BEHRS COUNTY .- The Democratic majority in Berks is about 1200. The Whige carried the borough of Reading by a majority of 232 for Canal Commissioner and 80 for Congress. This is the first time that the Whig ticket has ever had a majority in Reading. Foster's majority in the county, will not exceed 700. MONTGOMERY has elected, two Whigs and one

Democrat to the Legislature. The Whigs have also elected their Senator, by about 600 majority Whig gain. Nonthampton.—One Whig, two Democrats o Legislature. Maxwell, Whig candidate for longress, was shead of Brodhead, Democrat, in

is own county.

Friedely, Whig, is elected to Congress from Montgomery and Delaware, over Leiper, Demo-Whip gain.

The Whig Senatorin Northampton and Lehigh selected by about 200 majority. Whig gain. ancaster county, is reported to be over 2000.— The whole Whip ticket is elected. John W. Hornbeck, Whig, is elected to Con-

Democrat. Whig gain.
In the 15th District, composed of York and Adams, Dr. Henry Nes, Independent Tariff Candidate, is reported elected. YORK COUNTY .- Twenty-eight townships have seen heard from, and those yet to come, will make the Whig insjority above 200 votes: Philip Smy-ser, the Whig candidate for State Senator, is elect-

gress from Bucks and Lehigh, over Jacob Erdman,

ul. A gain. ADAMS COUNTY .- Mr. Nes' (W.) majority in dams county, is set down at 780 votes. CUMBERLAND COUNTY .- An extra from the ffice of the Carlisle Herald, says : . The whole A hig ticket is believed to be elected by majorities

from 80 to 200 votes. CARBON COUNTY .- Fosters majority 52.-Overfield has only about 40 majority over Pitman. As Pitman has a majority of 413 over Overfield in Schuylkill, there is a strong probability of Pitman's election. One Whig and one Locofoco elected to the Legislature from Carbon and Lehigh, both Carbon county men.

NORTHUMBERLAND COUNTY .- Hunter elected o the Legislature in this county, and it is said that the whole Whig ticket is elected, except the Com-

Pollock is elected to Congress in the District by about 1200 majority. COLUMBIA.-Locofoco ticket elected by about 200. Leib's majority about 50.~

LUZERNE.-Butler's majority is about 1000 .-One Whig and one Locofoco elected to the Legislature. Butler's majority for Congress is about WYOMING .- This county has given Butler and

the whole Whig ticket about 250 majority. SUSQUEHANNA .- Six townships in this county show a gain of about 200 votes in favor of White. Adams, Passengers give it as their opinion that Wilmot is

THE COAL REGION .- The Coal Region has done nobly—it has "rolled up" a majority that speaks for itself. The following is the result for Congress and Sheriff, and the balance of the sicket Luzerne,

DR. GEO. N. ECKERT. - We hail with pleasure | XIV. George N. Eckert, the election of this gentleman to Congress by a majority much larger than any ever before given in the district for any candidate. His long residence in Schuylkill county and his connection with the coal and iron business, has enabled him to acquire more information than is perhaps possessed by any man in our district, on these important interests. With the subject of the tariff he this county is about 100. The Whig members is thoroughly acquainted, having made it a close study, and we doubt not that his election will be greeted with satisfaction not only by his immediate constituents, but by a large portion of the business men of Pennsylvania. Dr. Eckert will make a valuable member of Congress; one whose influence must be felt. We do not wish to be understood as under-rating our present talented Representative, Hon. Alexander Ramsey. He has been indefatigable in his labors at Washington to advance the interests of his constituents, and has furthfully discharged his duties. / His labors have been properly appreciated by the people of

that the election returns from Pennsylvania will satisfy the Hon. Mr. Sevier that the people of this State were not joking when they remonstrated against the repeal of the Tariff of 1842, and that they cannot so easily be whipped in to support dious measures as he imagined, even if those measures are Democratic. Such documents as the election returns from Pennsylvania are jolies that the Senator from Arkansas will not relish much, and a motion to lay them on the table cannot destrov their influence. The effects of the recent election in this State cannot now be estimated.-Pennsylvania has administered a severe rebuke to | yield. those men who deceived her in 1844-to South ern nabobs, who strived to sink the laboring men of the North to a level with the slaves of the South, and to Vice President Dallas who en grossly deserted her in the hour of her trial. people will be heard and heeded. STATE SENATOR. - We have no accurate return from the other counties, which with Schuylkill, compose the Senatorial District. In this county, Mr. Pitman's majority, as will be seen by the official returns, is 413. In Carbon, from the best information we have received, Mr. Overfield's ma. jority will be about 40 or 45. We have no returns whatever, from Monroe and Pike. The probabilities are that they have given majorities sufficient to elect Mr. Overfield, although he will have but little to boast of, if he should be elected. The close run which Mr. Pitman has made, is highly creditable to his personal popularity, and is very satisfactory to his friends, none of whom ever hoped to overcome a majority of some 3300 against which he had to contend. "Some things can be done as well as others," and if we had known how closely he would come to an election, he would have been the next Senator from the LANCASTER COUNTY .- The majority for Pow- 8th district. Wilmot, it is reported, is defeated. Accinents.-Quite a series of accidents occuron the West Branch Railroad, on Saturday last, one of which, we regret to learn, proved fatal. A child, whose name we have not learned, was climbing up the embankment of the Road near the inction, when a train of cars approached, which is supposed alarmed the child, it lost its hold and rolled down on the rail, and the front Car

passed over its head, killing it instantly. A train of Cars ran off on the plain above Minersville, in consequence of the break giving way. killing two fine horses, belonging to Mr. Harris of Schuylkill Haven.

On the same day, a man by the name of Muray had his arm caught in the breaker at Payne's nines, which nearly severed it from his body.

INVANTICIDE.-The body of a femule child ras found in the stream of water running through the Borough near Third street on Wednesday morning last. It was packed in a Pot, and had a shawl wrapped around it. The Jury came to the onclusion that it came to its death by violence and exposure, by some person unknown.

A National salute was fired by the Wash ngton Artillerists, on Monday evening last, from Prospect Hill, on the receipt of the news of the storming and capture of Monterey, by Gen. Taylor and his gallant army. A most glorious victo ry has again been achieved and additional lustre and glory added to the American arms.

A man named John G. Cook, a resident of Moymensing, Philadelphia, murdered a woman na med Mary Lee on Sunday morning, with a butcher's anife, and then inflicted injuries on himself with the same instrument, of wich he died in the course of the day. The woman had lived with her murderer for a number of years as his wife: but latterly she had married a man named Lee. with whom she was living at the time of her death The murderer had also married a second time.

Capture of Monterey. Another battle has been fought upon Mexican soil, and again has the American army proved vic see Regiment; Lieut. Putman, 1st do. do.; a torious. Our forces, numbering about 6000 men. half of whom were volunteers, stormed and seized a populous city, surrounded by heights bristling with cannon, protected by walls and forts and barricaded streets, and defended by at least 12,000 well drilled Mexican troops, plentifully supplied with artillery and ammunition, and fighting with valor and a skill inferior only to those of the troops to whom, in the end they were forced to On the 10th of September the American aimy

reached Monterey and the battle was commenced

by the Mexicans ficing upon Gen. Taylor, who with a detachment of dragoons, and the "Texan Rangers," had advanced within a few hundred yards of the city. On the 19th the main body of the army marched on to the plain selected for encampment at no great distance from the city, and remained their throughout the whole of that day and night. At noon on the 20th Gen. North marched from the camp on the east of the town in the direction of the heights west of the town. McCulough's and Gillespie's companies of rangers forming the reconnoitering party. At night the division bivouncked almost within range of the guns stationed at the highest point of the hill, on which the Bisnop's Palace is situated. At daylight on the 21st, the column was again in motion and in a few moments was turning the point of a' ridge which protruded out towards the enemy's gune, bringing the Americans as near to them as their gunners could desire. They immediately opened upon the column with a howitzer and 12pounder, firing shell and round shot as fast as they could discharge their pieces. The road new upon the Americans. Another ridge lay about three-fourths of a mile beyond the first, around the tery ? termination of which the road wound, bringing it under the lofty summit of a height which rises between Palace Hill and the mountains, which arise over us on the west. Maj. Mansfield, of the Engineers, reconneitered the enemy's works on the night of the 19th but could obtain no very accurate information, although he approached very near to some of them on the heights. On the 20th Lieut. Scarritt and Lieut. Pope were sent out to reconnoitre the works; Scaritt on the right and Pope on the left of the town. The latter approached and discovered the position of the battery on the extreme left, and was exposed to a fire of cannon and musketry from Lancers, from which, after fixishing his observations, he retired in safety. On the night of the 20th the mortar and howitzer, batteries were placed in a 'position to play on the strong holds around the citadel. The action commenced on the morning of the 21st, by the opening of these two batteries. Col. Garland's brigade was ordered to move to the left for the purpose of storming the battery discovered by Lieut. Pope the day before, and to occupy if possible, the lower part of the city. Major Mansfield, Capt. Williams and Lieut. Pope were ordered to advance to select the most avilable point of attack, and to direct the movements of the columns upon it. Three companies were thrown forward as skirmishers and advanced rapidly towards the works, followed by the Brigade in line of battle under a cross fire of house being, as it were, a fort.

It being impossible, in the opinion of the Engineer Officers to affect anything in attacking the parricades in front, the column moved rapidly up the street to the right, with the intention of turn. ing them. On the which resulted in the capitulation of the town.

The city has capitulated on the following terms: The Mexicans soldiers shall be permitted to march out of the town with their small arms and six small field pieces, leaving all their munitions o war behind, with all their artillery and public stores. They are to retire to Linares, 60 miles hence, and about 30 miles north of Salulto, and are not to approach nearer than that to this place within 60 days, or until each party can hear from its respective government. Ampudia kept Gen. Taylor until nearly midnight last night; preparing the terms, &c. Many persons, particularly the Texan volunteers, who fought so bravely, are displeased at these terms. The town was all but in our hands, and they believed could have been taken in three hours. I believe that it would have required much more hard fighting to have taken it, but this was not the question with Gen. Taylor He and all his officers knew perfectly well, of course, that the town could soon be taken, but he wanted no prisoners to take up his time and eat. absistence, but he did have an object in view which will be reached by the terms of this capituation; and that object will lead to a result most beneficial to our government, under whose advice or orders Gen. How cheerless the late blooming face of creation! Weary time seems to pause in his rapid career, And fatigued with the work of his own desolation,

The closing season of the year, though unsuch that is instructive, and much that is interesting. It is a season, which no one can approach without emotion, and no one can pass through, without feeling how transient and how perishable are the charms of earth. It is then that the proud heart stoops from its dangerous elevation; and the veriest worldling, who would not heed the loudest thunder, is softened into tenderness by the voice of decaying nature. Silent are its whispers but it speaks to the heart. He hears it in the winds and storm—it sighs from the leafless wood and desolated field-it echoes from the ocean and the cloud; and he weeps that such is the frail tenure by which he holds his possessions and his hopes. The falling leaf and the drooping flower are to the unsanctified but the signal for depression, cancel-ling the dreams of happiness below, and reminding them of the approaching autumn of life, when they must sleep in the silent grave. The fighting was desperate every the unwary passenger will tread on our graves, and know not that we are there. There is no confidence to be placed in earthly prospects. The nost splendid monuments of human greatness are quickly corroded by time, and all that remains o their magnificence is a mass of mighty ruins.-Where now are Carthage, Palmyra and Persepolis! Where are Babylon and Athens and Tyre The winds have swept over their remains-the ivy the solitary raven moans undisturbed amid their ruins, announcing to the world that no pomp of

earthly greatness can survive the desoluti To the aged, the season that is now passing orings with, it sympathies which mankind perhap have denied them. With them the summer scene of life are past, with all their follies and pleasures and hopes; and they are compelled to feel that their winter is near. To such the impressions of Autumn, though tender and affecting, are by no means unwelcome. They accord well with that morning of the 24th, a flag of truce was sent, pensiveness which is usually attendant on the declining years of life, and which may well arise from the near prospect of exchanging worlds. .

Yet amid these gloomy reflections, the pleasing thought arises, that the Spring will again return. The sun of Heaven will again revisit our at pres ent inhospitable clime—the forest will 'bud and blossom as the rose '-the fields will smile with verdure—the fertilizing showers descend, and the grand animated scenery of nature will be renewed n all the varieties of awfulness and beauty. An we shall live again. The winter of death will not annihilate the hopes of immortality beyond the rave. Oh! then, if we are worthy of that exalt d destination, a scene of glory will open before is, which no tongue can describe—no heart conceive, and which will pour supon the transported believer a flood of light and knowledge through the ceaseless ages of eternity.

DR. SWAYNE'S COMPOUND SYRUP OF

WILD CHERRY. A Truly Wonderful Cure! ANOTHER LIFE SAVED !-

PHILADELPHIA, September 4th, 1846.
Dr. H. Swayne: —Dear Sir: —Being for a length of time afflicted with a very violent cough, with a pain in my side and breast, soreness of the lungs, shortness of breath, hose of appetite, night sweats, &c. I made trial of various remedies, which were recommended trial of various remedies, which were recommended highly in the papers, but gradually grew worse. The violence of my cough was such, that the blood rushed profusely from my nostrils when the paroxysms of coughing came upon me. Indeed my whole system seemed prostrated, and the hour of my departure seemed close at hand.

At this, time you recommended the use of your COMPOUND SYRUP OF WILD CHERRY, which immediately began to souther, comfort, and allay the violence. ately began to soothe, comfort, and allay the violence in my cough, relieved the pain in my side, strengthened and healed my lungs, &c. I continued the use of it, but how, thanks to God, and to the effect of your Compound Syrup of Wild Cherry, I am cured and able to pursue my daily jabors.

I think it an invaluable medicine in coughs, colds and disease of the lungs, and one that should be known to all afflicted. If persons would purchase the original angle genuine article, as prepared by you, and not tamper with the many spurious and worthless preparations which are attempted to be paimed off on the reputation of yours, at might be the means of saving many valuable lives. I freely offer this statement for the benefit of those who are suffering as I was.
