Clippings.

[The following spirited song, written by the late Ma for Ringgold, a short time previous to his quath, wa furfished to the Feliciana Whig by an officer of the ar

my.]-NaO. Picagune. The Drancon's Song-

- SEDICATED TO THE BRAD SAPTAIN MAY. A fleet steed with a flowing mane,

- A fleet steed with a flowing mane.
 A troop that follows fast,
 That fills the wide and spreading plain,
 And sounds the bartle blast,
 And sounds the bartle blast, my hoys,
 While like an arrow bright,
 Away the brave steeds weeps, be bears
 The warrior to the field.
 The warrior to the field.
 What was the brave steeds wide so the bears
 The warrior to the field.
 Away the brave steed sweeps, be bears
 The warrior to the fight.
- O for a nice and gentle pag.

- O for a nice and gentle pag.
 I've heard a trit one sigh.
 But givet neer the warner's steed,
 His white free's archive high,
 His white free's archive high, my boys.
 His motion rand end free,
 He sweeps along the boundless plain,
 Midst death and victory,
 Midst death and victory, my bays.
 I'midst death and at telony.
 He sweeps along the boundless plain,
 Midst death and victory,
 He sweeps along the boundless plain.
 'Midst death and victory.
- There's danger in his a same eye,

- There's danger is his a since eye,
 There's danger in his bands.
 Hark to the trangel, warrious browe,
 The battle races round, my boys,
 The battle races round, my boys,
 The held of citle is our own,
 Midst should of wirery,
 Midst should of wirery, my boys,
 Midst should of wirery,
 The field of battle is our own,
 Midst should of battle is our own,
 Midst should of victory.

From the St. Louis Reveiffe. A Unive in a Coan Screen.

AT JIS MIE RO, THE

in order to load the coal lasts on the Lehigh eanal, a short but steep inclined plane of about one handled and fifty feet in length, is made at the shule which runs from the sprion house on the side of the mountain, to a large encular revolving screen. To the lording car is attached a rope which draws up an empty car, and, arrived at the scoaled as many sizes is related out, and shot, by scoppers, into just as many boats, waiting for diffirent descriptions of the article.

A few months since Nankee of the genuine bred, quite inquisitive, but more verdant than a Xunkee should be, gained the station house, and gazed with wonder at the contrivances. He pecultarly admired the swittness with which the loaded car descended and coaptied its load and the velocity with which it returned to give place to

Shortly his attention was attracted by seeing. laborer mount one of the fall cars about to make the descent.

'Going to slide!' inquired he. Yes, going to shute; won't you go ! Wal, I guess I'll stop a bit, and see you do

The car swiftly descended, and ere it reached the hopper, the passenger journed off safely. Do you do that often? inquired he of one of

the laborers in the station house.
Oh, yes, continually, was the waggish answer, you know all the boatmen are all single men, and as they often have order Yor drinfly coal, we always send down a married man with every car of that kind, to let 'em know.'
Wal now, du ted 'uttered the castern man.

The more the Yankie looked at the appearatus the more did be become convinced that it would be a great thing to go down the steep in that way -something that he could tell to hum.'
P'ucking up courage, he approached the super

That beats s'ed ing down hill, don't it?" "I 'spose it does."

You could't let a feller go down, could you ! Why, do you think you can jump off in

-jumpin does me good; I once jumped off a hay mow thirty feet high, addit made me so suple that I'm given in to be the best dancer in the null township ·Well, get on, arel take care of yourself."

Studdenly, the car moved off, and our friend found the speed so fearful, and the decivity so great, that he was forced to stoop down and 2 a-; the side of the vehicle for support. This p'a where the laborer had leapt off was reached, but the Yankee was not in the position to jump; he had to hold on, and running down a descent three times as steep as that which he had come, a sudden click shot the bolt, and with, a violent force out went the contents, Yankee included into the

Munder! get me out! stop the consaro! shout ed our hero, as he felt himself siding down the hopper to the cylinder. Murder! stop the consarn was mellifle better the consarn was water. Murder! stop the consarn was water, which had no syppathy with those who pursue knowledge undered file ultres, and those who pursue and uncreasing a demand for it. This fact has caused several unprincipled constended in the previous many cases after the unparalled and astonishing fleaven for constrain e e open, and saw with delight that the cylinder was only about fifteen feet in length, and he forced his woy forward to the opening with disperation, but it was not altogether successful; another revolution of the wheel had yet to be borne, and the next time he reached the bottom he-was shot out of the scupper into the boat beneath .-To; the screams of laughter to which his advent was halled our hero said not a word, but, gettigg out an old handkerelitef, rubbed the dust out of his eyes, and surveying his torn apparel and brused, battered, scratched and cut limb, he traited his vein,' to know what quality of withracite he had been delivered when, smasking his remaint of a hat over his eyes, he samped off, mettering, bro-

Gerrido lev Mixan - We once heard an old fellow, famous all over the country for his tough yarns, tell the following. He was telling what heavy wheat he had seen in the State of New York :

kenen and screened, by Blunder.

'My father,' said he, some had affield of wheat, the heads of which were so close together that the wild turkies, when they came to gat it, could waik round the top of it anywhere?" Well suggested that the tarkles must have been

enow in harve-ttime. Well, I d clare, said he looking a little foolish, I have got part of two stories mixed.

A violent party polliucian was in a company of ladies and gentlemen hantering an old mild on her state of single blessedness. In the course of his remarks he said:

It is really unaccountable, area some now a meaning parent, and lady of your virtues and accomplishments could that dangerous malany that dangerous malany ELON VIRGHA. It is really unaccountable, she replied. . Un like you, sir, - the is inharious for his political tergiversations.)-qualite you, sir, I go in for principles - not men.

Said an unlucky colored fisherman, Why is my worm-hox like de parliament house?' cause it am always full of de-bate, (batt.)

Coal! Coal!! INTEND keeping a supply of the best quality White and Red Ash Conl. for family use, during the Fall and Winter. Orders left at the office of the Miners' Journal, Anthractic Gazette, or at the Yard lefow Clemens' & Paryins' Steam Mill, will be promptly attended to.

Medicines.

DELEIDYS

arşapartlıa & Vegetable blood Pills IN consequence of the increasing demand for Dr. Leidy's Blood Pills, and the encouragement by the public in employing them, in preference to all others, the proprietor was obliged to have constructed a machine, which would make them more rapidly and, with less labor, consequently less expense than herefofore. Having effected so desirable an object, and that the public may share the blenefits of such great improvement in Pill making, his boxes will henceforth contain

FORTY PILLS IN A BOX, and the price the same as heretofore, namely:—Twenty five cents a Box—five Boxes for One Dollar!

Dr. Leady's Sarsaparilla and Vezetable Blood Pills have, during the past few years, been more successfully employed throughout the Enited States, Mexico and the West Indies, than any others, and the rapidly increasing demand for them is unparalleled.

They, are the only Pills in existence, known to contain Sarsaparilla in altern, the proprietor only knowing hew to combine the Sarsaparilla with other substances in form of pills.

or purising or cleaning the stomach and bowels, for purising or cleaning the stomach and bowels, for purising the blood or fluids of the bedy, as an alterative for removing the causes of disease and arresting its progress, and as a Spring purifier these pills will be found more effectual than any other.

YOUNG AND OLD MALE OR ENVALE

YOUNG AND OLD, MALE OR FEMALE, may at all times take them without change of living, restraint from occupation, or fear of taking cold from exposure to all kinds of weather, for they contain no nectury or minerals, which are contained in other fulls, and which make other pills so unsafe or dangerous to take, and uncertain in their effects. PERSONS OF ALL CONSTITUTIONS PERSONS OF ALL CONSTITUTIONS whether feeble or dehilitated by of robust and strong constitution, can take them, without prostrating or debilitating the system: they operate so easy and gentle, yet effectual; that little inconvenience is caused in taking them.

THEV ARE GOOD AT ALL TIMES,

for all diseases of whatever nature or kind.

Caution, sengersyary! Be sure at all times to ask for and take no others than Dr. Leidy's Blood Pils. All others by names nearly similar, are spurious, and calculated to deceive; the proprietors of them thinking to sell them on the reputation of the genuine, bona-fide and only true Sarsaparilla and Vegetable Blood Pills of Dr. Leidy.

The Beware of such imposition, fraud and trickety. THEY ARE GOOD AT ALL TIMES.

Beware of such imposition, fraud and trickery.

Touch them not, much less take them, for being man-ufactured to deceive the public of their money, they will besides deceive the body and your system by then which draws up an empty car, and, arrived at the research, the lower end of the car is suddenly unbolted, and the coal is shot with great velocity into the screen, a hopper, this conversity into the screen, which has three large channers. Income which which has three large channers. Income which Drag Store. May 23, 1816.

WISTAR'S BALSAM OF

WILD CHERRY. THE GREAT REMEDY FOR CONSUMPTON And the best Medicine known to Man for the cure of Asthma, of every stage. Liver Complaints, Bronetatis, Influenza, Coughs, Coulds, Bieeding of
the Lungs, Shortness of Breath, pains and
weakness in the side, breast, &c.,
and all other diseases of the
Pulmonary Oreans.

VERV important diseases over which this Balsant
exerts a very nowerful influence is that of a IMS

A VERY important disease over which this 'Balsam' A exerts a very powerful influence, is that of a DISEASED LIVER. In this complaint is as undoubtedly proved more efficacious than any remody britiento employed, and in numerous illetance is when patients had endured long and severe suffering from the disease, without receiving the least been if from various remoders, and when MERCPRY has been resorted to in vain, the use of this Balsam has restored the LIVER to a healthy action, and id many instances effected PHRMANENT CURES, after every known remedy had failed to produce this effect.

Besides its astonishing efficacy in the disease above mentioned, we also find it a very effectual remedy in ASTHMA, a complaint in which it has been extensively used with decided success, even in cases of years standing.

ly used with decided success, even in cases of years standing.

It not only emanates from a regular Physician, but has ilso been well jested in all the complaints for which it is recommended. It is not my intention, therefore, either to cloak it in mystery, or in any why deceive the public by overrating its virtues; on the contrary, I shall simply endeavor to give a brief statement of its usefulness, and flatter myself that its surfising efficacy will enable for furnish such proofs of its virtues as will satisfy the post in redutous, that Consumption may and CAN BE CURED, if this medicate be resorted to in time.

Poughkeepsie, 'N. Y. Sept. 18, 1815;

Mr. Seth W. Fowle:

Dear Sit:—The character of Wistar's Balsam of

Mr. Seth W. Foughkeepsie, N. Y. Sept. 18, 1815;
Mr. Seth W. Fowle:
Dear Sitz—The character of Wistar's Balsam of Wild Cherry is so well-established throughout the country, and sepecially in the State of New York, that any further testimony would-seem to be unecessary. Vet I have derived so much advantage from it that I am happy to communicite through you to the sick and afflicted what it has done for me and I consider it d privilege, and duty to do so. I have been troubled with weak lungs for, four [years; had a cough more or less every winter." I was confined to the house all last winter with a severe cough, pain in the side and freast; raised blood several times. I consulted a physician, but have never taken any medicine which has done me so much good as WISTAR'S. RAISAM, Ohen sician, but have never taken any moditine which has done me so much good as WISTAR'S BALSAM OF WILD CHERRY. I consider it the BEST medicine in the world for Colds, Coughs, and Pulminary Complaints.

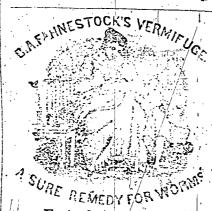

WILLIAM B. SWARTS.

OPINION OF A REGULAR PHYSICIAN. Exter, Me., Sept. 30, 1815.

This certifies that I have becommended the use of WITAR'S BALSAM OF WILD CHERRY for diseases of the Lungs, for two year past, and many bottles to my knowledge have been used bying patients, all with beneficial results; In two cases, whereat was thought confirmed consumption had taken place, the Wild Cherry effected a cure.

E. BOYDEN, Physician at Exter Corner.

TO CAPITALISTS & OTHERS. Pennsylvania Coal & Iron Lands.

For Sale.

1671 ACRES 19 Perches and allowance of 6 per cent. of first rate farming Lands, located in Jents Township, Jefferson county, finely Timbered and Watered, and having several Mill sites upon them. Two main roads run through the lands, and improved farms adjoin, while Saw and Grist Mills are in the immediate meighborhood. This land was selected by a gentleman of experienced judgment, and is considered by judges to be one of the best tracts in the county. Its proximity to the Clarion and Allegheny rivers, and numerous navigable streams, and the proposed Raifroad to Pittsburg and Erie, renders it highly desirable as an investment at present prices.

Abounding ir Ipon Ore and Bituminous Coal of fine quality, it is believed to present one of the most advantageous locations for Iron Works in West Pennsylvania. The present owner purchased with a view of erecting such Works, but engagements in another quarter obliges him with great reluctance to forego his intention. Maps will be shown, and everyinformation given by the undersigned. The lands are patented, and the titles and quality will be warranted; and sold free and clear of all incumbrance:

Having the superintendance of the Works myself, I feel confident it would be to the interest of persons wanting apy of the above named articles, to call hefore purchasing elsewhere, as I will warrant the work turned out by me. to be of the best material and work manship, and will be prompt to do work at the time fixed appn.

Tamaqua, May 6, 1846.

Farmers' Department. SEASONABLE HINTS FOR THE FARMER.

Manure.—As manure is the gold mine of the agriculturalist, so should it be the duty of every agriculturalist, so should it be the duty of every one to lay the ground work of a supply at this season of the year. Therefore, as soon as the leaves fall, send your carts and wagons to the woods and gather as many loads of leaves and mould as will enable you to cover your cattle yards twelve inches deep. In the arrangement of the yards, so spread these substances, as to cause a dish like inclination to the centre, in order that there be no loss from washing away. To prevent any loss from the evaporation of the liquid voidany loss from the evaporation of the figure voidings of your cattle, sprinkle your yards accasionally with plaster or charcoal. When your cattle yards shall have been furnished with the requisite quantity of leaves and mould; see that your hog pens are also similarly treated. Without periodical supplies of manuse are given to the land, the best soils will wear out; hence it is, that it should be considered by every agriculturist as his first duty to secure it in ample quantities. Let this fact be impressed upon each, that the sooner leaves are gathered, and disposed of in the cattle yards and hog pens after they fall, the larger quantity of naneral will be secure for his crops.

Fattening of Hogs. -It is an admitted fact, that all animals take on fat better when the weather is moderately warm, than when cild. The philosophy of this is simply this :- If the weather be intensely cold, a large portion of the food goes to keep up the animal heat, which, under a more auspicious temperature, would go to the increase of flesh and fat. Therefore, as soon as your pumper kins or roots are ready, pen up your hogs, and commence feeding them, in order that they may be an a condition to kill before the weather becomes intensely cold. When the hogs are first put up, they should each receive portions of flour of sulphur, say a tea spoon full each, per day, for three or four successive days. This will cool their systems, prevent a determination of blood to the brain, cleanse the bowels, and prepare them to go through the fattening process healthfully. Give them salt twice a week : Keep charcoal and rotten wood constantly in their pen, which should be provided with a rubbing post. After you have fed them a week or two with pompkins and roots, and them a week or two with pumpains and roots, and commenced feeding with grain, we desire you to bear this fact in mind: By grinding your corn you may save one-third in quantity | and have the cobs for your milch cows, and which, when broken and boiled, makes an excellent food for

such animals. Melch Cows. - As your pastures are now provide your milch cows with proper quantities of wholesome and nutritious food.—Yard them at night, taking care to give them plenty to eat. Salt them twice a week, and occasionally pure them a mixture of equal quantities of lime and salt to lick.

Cattle and Cattle Yards .- See that your cattle are provided with sheds, that they lay dry, warm and comfortable through the winter, and that the manure which they may make whether solid or liquid, be not suffered to run to waste. By dishing your yards, you will prevent loss from washing, while by strewing charcoal or plaster over them, you may prevent loss from the flying off of the ammonia, in which substance the urine of cattle is very rich. Horses. - Let it be a matter of duty with you to

sisit your stables daily, see that they are kept clean, that your horses' stalls are daily cleansed, that am-HARDWARE & IRON STORE. Ple beds of straw are provided, and that the horses t each meal, actually receive their allowance of ood. In these matters, no good master should confide in athers, Working Caltle. - These must receive additional care, more food, and be provided with dry lodging under cover. By chopping the com, oats, rye and burley, for your horses, and mixing it with cut straw or hay, you may save fully one-third the

quantity of grain .you usually give them, while they will thrive better, and be kept in more uniform good health. Young Slock of all kinds. These should receive additional attention. Be sure not to let them remain out until they fall off in flesh. Yard and protect them by shedy, as soon as the gets cold; give them plenty of good hay or fodder;

see that they are salted and watered. Orchards.-Examine every tree in your orchard, cut off every limb which is actually dead : smooth off the wound and cover it with a plaster made of capal parts of cow dung and clay. Then make a mixture in the proportion of t gallon of soft soap, to I pound of flour of sulphur and I pint of sait. With this paint each tree from the of the trees have moss on them, let that be scraped.

off before you apply the mixture. . . Should you design planting out a young orchard this season, he sure to prepare your ground well at once. No young orchard, in our opinion, should be set out unless the ground he previously ploughed and subsoiled; nor should it be omitted to be moderately manured broadcast. The best manure to put into the holes, (would probably, he mould and leaves from the forest. The time for transplanting is just after the leaves fall. The holes for the reception of the young trees should be made sufficiently wide to allow of the lateral roots being spread out without in the least being cramped. As to the depth, that must be regulated so as to allow of some five or six inches of the compost being at the bottom, and the young tree to stand about an inch lower than it originally grew. As the earth is thrown in around it, it must be stamped tight, and would be the better of having water poured on it. Before the earth is put in, a stake must be placed in the hole, to which the young trees must be tied with a withe of straw or hay, to prevent injury from the shaking of the

To prevent field mice and rabbits from barking young trees through the winter, their bodies should be treated as advised for the older ones above.

CURE FOR THE SWELLER THROAT IN HOUS. An old and respectable farmer gives the following receipt for the cure of this disease. By its timely use he has saved the lives of many valuable animals. The disease, he observes, is most apt to occur with hogs feeding on mast or nuts, in autumn. The throat of a hog affected with it swells, and the animal will be seen crouching on its belly with its head between the feet. The disorder may be prevented by feeding occasionally with tar mixed with feed in a trough. The hog has, what are commonly called 'sweat holes' in his fore legs. -he must be turned upon his side and these hole rubbed well with a corn cob and dish Water till they are red—turn over and rub the other leg—open the sweat holes with a knitting needle—take a tin full of sweet milk with some brimstone in it moderately warm-put a stick in his mouth to keep it open-pour the mixture in slowly-bleed under the tongue—if no blood comes, cut across the tongue in the form of an X. Then take the volk of an egg, a charge of gunpowder and a little hog's lard, simmer them over the coals not too hot-rub it over the swent holes in the legs and under the jaws-observe the effects for an hour or two, and if the hog is not relieved, repeat the treatment. In this disease there is a collection of materials which must be are tion of water about the heart, which must be arrested by testuring the functions of the sweat-holes or the sack containing the water will burst and cause death instantly

PIANOS.

THE MUBSCRIBER begs leave to inform the public in general that he has been appointed the only Agent for this county, for the sale of C. Meyer's Grand Action Pianos, with Metallic Plates and that he has just opened a fresh assortment of the most superior once ever offered to the public.

Meyer's Pianos have received the premiums of the Franklin Institute for seyetal successive veing and that the first silver metal was anvarded to them by the same Institution at its last exhibition. His Pianos took the lead at the late National Fair at Washington, and were all disposed of long before the close of the exhibition. They laye also received the most flattering notice of all the most enginent performers of the present day, among whom are the celebrated Leopold de Meyer, who have pronounced them equal to any. The subscribes can furnish these Pianos either with Rosewood or Mahogany cases, at the Manufacturer's prices.

All orders from a distance will be promptly and ex-
