Such men may, indeed, be aptly aippared to the dial, of which it has leen happily said, that it counts only the pleasant hours. It is hardly necessary for me to add, that in my spirit as far as may be in my power. Let others complain of every little annoyance which they have to encounter in a region where, of course, time has been wanting to add the graces to the ecessaries of life. I would rather dwell on the right side of the picture and present to you some of the happy influences which I see at work around me, and which sooner or later must greatly conribute to change the aspect of our moral and intelectual life for the better. Among these influences I wish at present to draw your attention particularly to one, which in an eminent degree breather the spirit of union and charity and which, passing by no class of our fellow men and no portion of our common country, looks with a benignant eve on all. Such, certainly, is the simple and unol trusive organization of the Sabbath School. Taking for its hasis the truth of God, it invites all who can cordially receive this truth to co-operate with each other in presenting it to the thor of children who surround us on every side.
