

MR. W.-J./HAAS.-Having been afflicted for the last t to the public as a valuable medicine for Coldset it to the punit as a variant in the second state of the Breast. I am respectfully yours &c., RDWARD HUNTZING SCHEVIKIL, HAVEN, ÖCTOBER 19, 1 I was taken with a bad cold some time ago, an one or two bottles of Mr Huas' Experiorant, whi heved me much, and should I liava occasion f above again, I would freily cation Mr. Haas for vuluable Expectorant DANIEL-II, STAG SCHUYLKILL HAVEN, July, 29, MR. WILLIAM J. HAAS,-Dear Sir :- I dm ha MR. WILLIAM J. HAAS, DEAR SRIVER, JULY 29, 15 MR. WILLIAM J. HAAS, DEAR SRIVER, JULY 29, 15 methoday and the selector of the s A NATURAL REMEDY Suited to the Human Constitution, and equ the cure of every curble disease, will be foun WRIGHTS INDIAN VEGETABLE PIL Of the North American College of Health. THESE extraordinary Pills are composed of The state of the second DIAN VEGETAHLE: PILLS are founded upor principle that the human holy is in truth sUBJECT TO BUT ONE DISIANSE, namely, corrupt humors, and that said Medicines (hi-disease on natural principles, is cleansing an augnetic body, it will be manifest that, if the co-tution he not entirely exhausted, a perseverance in , the increase of green name from the body. When we wish to rest as awang or morass to value, if we wish to rest re the body to healt must cleanse it of mourity.

MR. W.-J. HANK, --Having been afflicted for the last thirty years with Consumption, and having had the ad-vice of some of the nest emmentPhysicians, and was gen-ren up as incurable-1 was induced tomake triat of your invaluable Expected rank, and and having bad the distribution of Freight on A entirely currel, and an attending to my didy occupation as though I had never been afflicted. Freetons to ta-king your EXPECTORANT-1 could not; if I had been to disposed, do anything at my trade. This is she at the desired effect, so disposed, do anything at my trade. This is she points below stated, per ton of 2000 so disposed do anything at my trade. This is she points below stated, per ton of 2000 generated it to several of my friends, and particularly one case of CONFIGNENT CONSTRUCTION, and having have a stated and the desired effect. Yours respectively Schuytkuit Hayeen, October 5, 184. Schuytkuit Hayeen, October 5, 184. ville Rail Road. Mr. W. J. HAAS. – Dear Stri. – Having been adlicted with a severe pain in the breast. J was induced to fir, found it to releve me, and 1 do not he sitate in recommending it to the public as a wain the work in the second in the second in the site in recommending to the public as a wain the work in the second i

POTTSVILLE. Philadelphia, Reading & Potts-Oct. 3d, 1816.

01 10 Mount Cathon Raifoad, terminating at Mount - BOAD. Carbon , and Mill Creek and Schuylkill Valley. Every Pennsylvanian is familiar with the great 49 acres are occupied with the Company's Raifroads, terminating at Port Carbon. There are therefore there is a points where is the function of the country, wharves and works, extending along 2272 free of constructed by air, Dundast Fins dock more at static passa over the whole line, octavely 1005 not the state. The source of the state of shipping in an active season's work at ville and Philadeiphia. least 250,000 tons of coal, and has been leased by From that date to the present, its business, its is not required, the elevation of the tracks by the Navigation Company. At Port Carbon the Navigation Company are's scarcely paralleled by any similar improvement, the Piers, affords sufficient room for stowing 195. now constructing an extensive series of landings, funul its undage and its receipts are measured, as 600 toris of Coali Capacious docks extend in on which fley have at present over 200 men, and at present, by millions. 40 horses at work. A part of these landings be-Two continuous tracks of railway extend the the whole River front available for shipping purlow the Mill Creek Railroad bridge; consists of a whole distance of 93 miles, from Mount Carbon, poses; ninety-seven, vessels can be loading at the dock, about 900 feet long, 60 feet wide, and 6 near Pottsville, to the Delaware river, three miles same moment, and few plates present busier, or dock, about 900 feet long, ou feet wher, and on feet above was above the heart of the City of Philadelphia; with feet along, but his call levated 18 feet above was above the heart of the City of Philadelphia; with the more interesting scenes, than the wharves of the abranch also haid with a doubletrack. If unles long; Reading Railroad, at Richmond. A Brig of 155 connecting by the State Road, with the principal Outside of and below this dock, the pier front business street of the same City, for the passengers. will be improved, and when the plans of the con- | merchaudize, and city coal business. The rail used | A very convenient and neat Engine House, t. will be insproved, and when the plane of the con-pany are fully completed, there will be room at is of the H plattern, with both top edges alke; and this point for 30 boats of 180 tons burden to load weighs  $45\frac{1}{2}$ ,  $52\frac{1}{3}$ , and 60 lbs. to the yard; the at ence, and these landings will be copable of lightest having been first, and the heaviest have the control of submer will be capable of lightest having been first, and the heaviest have the control of the variable of the two of other will be control of the variable variable variable variable of the variable of the variable of the variable v at once, and these landings will be capable of rightest having been first, and the heaviest last shipping 500,000 tons of coal per annum. In the pool of dam No. 1, the company are also a further supply of the pattern adopted for the road about erecting 6 new landings, with their rails could be obtained in England, and varying from elected 16 feet above the water, and so arranged 51 to 57 lbs, per yard, are also in use. the 6 large boats may load at once, without merst. The track is laid in the most simple manner, the Gobbic Styles the front supported by cast iron ruption. In addition to these and also in the jower web, or base of the rail, being notched into clustered pillars, from the tops of which spring upper dam, the Navigaton Company have leased, 7 by 8 white oak cross sills, and these laid on clustered pillars, from the whole capped with tur-the long dock, which is to be immediately fitted broken stone. 14 inches deep and well rammed:— retted capping. Inimedia the whole capped with tur-the long dock, which is to be immediately fitted broken stone. 14 inches deep and well rammed:— retted capping. Inimedia the same time, 6 This method is tound admirably calculated for the large boats. So that in the course of the sal on enormous tonnage of the road, being tapidly and the service and Cars, all under one roof. 221 by 63 the reads will have 42 fore landburs to ship that the trade will have 42 fine landrugs to ship chall economical y repaired and replaced, securing a feet. A visit to this chief cullet of the Pennsyl-coming from the Schuyikill Valley and Mill thorough trainage, and preserving its line and level, saila Coal i rade, will give the best idea of its coming from the Schuyikill Valley and Mill Greek Railroads, and capable together of shipping near 700,000 tons in a sedsons work. A number of the schons work. The gradies and preserving its line and level is a sedson work. The gradies of this road, are the chief elements of them, will be ready, for use early in the ship-ping season, and will fully supply this point. The only other place where new landings seem at present to be required, is either at Polts-ville of the Schuyikill, a distance of 84 miles, the gradies all descend in the direction of the loaded and 1539 Wooden Coal Cars ; 482 Cars in Mer-alt work billy have now been in progress, if the all probability have now been in progress, if the trains, or are level ; with no more abrupt descent chaptise and use of Road, and ecventeen Passenall probability have now been in progress, it the extignting prices demined by the landholders for suitable ground, had not formed an impediment; fortunaticly, however, the Navigation Company we learly they have determined to improve with suitable landings to enable them to ship upon their suitable landings to enable them to ship upon their suitable landings to enable them to ship upon their suitable landings to enable them to ship upon their suitable landings to enable them to ship upon their suitable landings to enable them to ship upon their suitable landings to enable them to ship upon their suitable landings to enable them to ship upon their suitable landings to enable them to ship upon their suitable landings to enable them to ship upon their suitable landings to enable them to ship upon their suitable landings to enable them to ship upon their suitable landings to enable them to ship upon their suitable landings to enable them to ship upon their suitable landings to enable them to ship upon their suitable landing to enable them to ship upon the them to ship upon their suitable landing to enable them to ship upon their suitable landing to enable them to ship upon their suitable landing to enable them to ship upon their suitable landing to enable them to ship upon their suitable landing to enable them to ship upon the them to ship upon their suitable landing the landing sintable landings to enable them to support there of intermoto, while it is reading conveyed by the empty, and carry nye tons of Coal. I he ave age to an arry nye tons of Coal. I he ave age to an arry nye tons of the destination of the coal which may bome to the same engine which started from Pottsvillo, for the logd of each Engine, dwing the destination of the destinatio ber of small bonts ready to move as soon as ture on the Road, if not in the State, is a stone through. Its Gnabus have chiefly secured this the chiefly not in the Scale provided in the state of small bonts ready to move as soon as ture on the Road, if not in the State, is a stone through. Its Gnabus have chiefly secured this the chiefly not bridge over the Schuylkill near Phænixville, built great conomy in transportation. capable of transporting near 500,000 tons without of cut stone throughout, with 4 circular arches, of The total length of Lateral Railroads, connect-counting on the transport boats from other canals, 72 feet span, and 164 feet rise rach, at a cost with ing with the Reading Railroad, under other charcounting on the fransient boats from other canals, 1 a ter span, and tog ater rise tach, at a cost with fing with the training manual, under other canals, of \$47,600. There are 75 other stone ters and corporations, but all contributing to its should be a sufficient demand for their services. bridges, and culverts, varying from 6 to 50 feet business, using its Cars; and returning them load-It has been mentioned to us, that romors again span; all of circular area, spinning water courses, ed with Cosl and Merchandise, is about pinety-prevail winch we hope are incorrect, that either by branches of the Schaylkill and roads. There are five miles. Some of these Railroads are construcan athitrary embringo like that faid upon the trade i seven bridges from 25 to 38 feet pan each, built ted in the most substantial manner, with the best last year, by the Radroad Company by favoritism; in of iron, trussed after the "Howe" plan, with superstructure at present used in the country. last year by the Rainout company by factoriant, in on non, custon and the move pion, with superstructure at present uscont the control distributing their cars, or by management upon the wrought from top, and bottom, chords, wrought By the monthly Reports which have been made control control of the business of the Company, it appears that be shat off from the Canal or those who use it. There bridges are stiff and light, and present a the Receipts from Dec. 1st; 1845 to October 31st. be shut on from the Value of those who use it is the source of the shut of the receipts are shut and light, and present a the Kacepts from Dec. 1st, rows to Geoder over, punjahed. Should anything of this kind be again very neat and handsome appearance. As, hower-attempted, the Colliers owe it to themselves, to the flooring is of wood, and therefore liable to their customers, and to the public, to resist it with and accident, they have only been used with and terselution,—the interests of this where the width and depth, rendered stone bridges. The Gross Recripts to about \$1 600.000. region are deeply involved in the free metres to this ployment of both these routes to market, and who-ever attempts to impede either, should be regard-ed as a public enemy. Since the above was in type, we have received by heavy arch piccie. Of the latter being always used in re-triable. There are twenty two long woodens are period, \$1,725,000. From this statement bridges varying from 41 to 160 feet span, built on various principles, chickly of lattice work, assisted by heavy arch piccie. Of the latter deertinin. If the last Annual Report, the Managérs esti-mated that the last Annual Report, the Managérs esti-mated that the fore fore would be, for the same period, \$1,725,000. From this statement warious principles, chickly of lattice work, assisted by heavy arch piccie. Of the latter description. If the year's will prove year statilized the Annual Report of the Navigation Company. by heavy arch pieces. Of this latter description, of the year's business, will prove very gratilying the bridge over the Schuylkill at the Fall is a fine ito the Stockholders. It is a very able, and interesting document though unusually lengthy. From its pages we gleam the following facts which are not contained in the ar-ticle shore. ticle above. lengthened, and 4 new ones built; 10 squeducts from 14 to 39 feet, built of King post, Queen post, works, untrammelled by the quartels, or jeal-have been raised improved and strengthonod; 92 "Hows's trues," and Joists. Port Carton Fo

the bulk of the coal mines of this region, are situ- Charter, beyond Port Cointon to Potteville, went at Tidewater on the River Delaware, sre conated upon four leading railroads and their laterale, finto an active pro-e- ution of the whole work, from structed the most extensive and commodious &c., to wit :- The Mine Hill & Schuylkill Haven. Pottsville to the Delaware, ninety-three miles, un-Railroad, terminating at Schuylkill Hacen; the der one chatter, now known as the READING RAIL. Whartes, in all probability, in the world, for the Mount Carbon Railroad, terminating at Mount noan.

Railroads, terminating at Port Curbon. There are, therefore, three leading points where checking commercial enterprize, disastrous to every River front, and accessible to vessels of 600 or 700 landings are increased to enable the Coal trade to branch of industry, and fatal to public and private tons. The shipping arrangements consist of 17 avail itself of the improved navigation of the credit, during the period from 1838 to 1842. Not- wharves or piers, extending from 342 to 132 feet chuylkill. At Schuy kill Haven a very fine dock 900 feet this Road pushed steadily on with its construction, manner, and furnished with sputes at convenient long. Go feet wile, and 6 feet deep, with its rail taxing their energies, their means, and their credit "distances, by which the Coal flows into the vessel 17 feet high show water, thutes, and landings to the unnost, to insure its speedy completion; and 'lying alongeide, pragmary rar, oreware (now partly Bnisbed) on both siles, has been on the first day of 1842, the first beomative and BOTTON OF THE COAL CAR IN WHICH IT LEFT THE constructed by Mr. Dundas. This dock alone is train: passid over the whole line, between Potts noutri of the MINE. As some for is filed of

It appears that in making the above, improve-It appears that in making the above, improve-also assisted by arch pieces. Besides the above, ments, to the Navigation, '35 culvents have been the are twenty-eight wooden bridges of short spans, cuitomers, the foll and free use of both these
