Louisville Journal calls attention to the facts that, the French have been fighting the Arabs upwards

of sixteen years. They have been victorious in avery engagement, and yet, after all these long years of toth and blood and victory, they have se-

cured nothing more than a mere military possescured nothing more sing a mere mining post-sion of Algiers, and even that they are unable to maintain except by the actual presence of a reg-ular army of one hundred; thousand men and a syearly expense of \$20,000,000.

From these facts the reader may perhaps form some idea of the force, the time, and the money
