THE TARIFF OF 1842, THE COUNTRY DEMANDS ITS RESTORATION.

CIRCULATION,

1200 COPIES WEEKLY REMOVAL OF THE COUNTY SEAT.

. In another portion of to-day's paper will be found the proceedings of a meeting held in Orwigsburg by the citizens of that borough, and other persons opposed to the removal of the Soat of Justice. It presents in the strongest possible light all the arguments in favor of continuing the County Scat at Orwigeburg, and all the objections that can be urged against the removal.

The first argument that we notice in the remonstrance is the small number of property hol. ders in the Coal Region townships compared with the votes of those districts, there being but 1266 holders of real estate in 5766 taxable inhabitants. This objection is easily answered. In the townships named in the Orwigsburg remonstrance, it is true that the number of property holders as compared with the, taxables is small, but this arises from the fact that the greater portion of the Town Hall, on Tuesday Evening next. In every coal lands are owned by persons who reside out work of benevolence, the Pottsville people are alof the County, and who are unwilling to sell, so that persons who may be rich enough to own property are prevented from it by the fact that the property in question cannot be purchased. Besides, we have yet to learn that it is necessary for a man to be a property holder in order that he should be a good citizen. There are many persons in this county we doubt not, who are excellent citizens, and who have the welfare of the county just as much at heart as their wealthy neighbors who do not own any real estate. It is not certainly a correct principle that in a republican government a man should be debarred from expressing his opinion at the ballot box because he is not a property holder.

The anti-removalists appear very much werried at the fact that a large number of the petiioners for removal are naturalized citizens, or as they call them "foreigners." It is true that in our county the number of naturalized citizens is large. This is a necessary consequence resulting from the character of the business carried on in the region. In order to the successful prosecution of mining operations skillful miners must be employed, and as there are few Americans acquainted with mining, it is necessary to employ natives of other countries who are experienced in mining,-It appears rather inconsistent to us that our Orwigsburg friends should object on that score .-They have never been found to complain about the votes of naturalized citizens when they wanted office-on the contrary they were eager to receive their votes and appeared grateful for their support. Now we consider it quite as necessary for the county to have good officers as that the County Seat should be eligibly located, and the man who is permitted to express his preference for any particular candidates, might certainly heallowed to have a voice in a matter where his own convenience was consulted. in This matter every citizen of Schuvlkill county is interested, and therefore it is only right that all should have a vote. It ought also to be born in mind by our agricultural districts of the county, that this very population has built up one of the best markets in the State for the produce of the farmer.

Notwithstending the statements contained i the proceedings of the anti-removalists, it is a fact known to every one who has been compelled to attend Court for several years past, that the accomodations at Orwigsburg are totally inadequate for the comfort and convenience of the litigants, lawvers, jurors and witnesses who crowd into that few weeks ago that the accommodations at Orwigsburg are no greater then they were fifteen years ago. This is an undeniable truth, and

business of the Schuylkill County Court originates flicting the woulds upon her huebond, took a rain the coal region cannot be denied. This however zer and cut her own throat, and, after wiping the ever, is not to be wondered at when we take into blood from the razor and putting it away, she fellconsideration the density and miscellaneous char- and expued. Mrs. Snyder had only been two acter of its population. In sparsely scitted districts weeks out of the alms House, where she had been crimes are always comparatively few. We cannot confined on account of insanity, and it is supposed however, see any reason for the fears cotestained by that it was owing to a return of her disease that the Orwigsburg anti-removal men that the records she murdered her husband: Mr. Snyder was in of the county would be unsafe, or that the Juil good circumstances. / Nine children have been orable storming of Montercy. might be stormed by an excited population, even left parentless by this sad affair. The only perif the county buildings were located in Pottsville. sons present at the time were the children. Such apprehensions are about as groundless as is the assertion made in the report, that the Pottsville people sent emissaries to Orwigsburg to anail petitions signed by residents of the coal region in order to induce the Legislaturo to believe that the people of Orwigsburg were in favor of removal! Savage Lodge of Odd Fellows, and was buried by The truth of the matter is that a wag from Pottsvilles gravely assured the Drwig burgers that the removal men were playing this trick upom them, and swallowing the hoax, they gravely set it forth in the remonstrance as a fuel! So far as we have been able to learn there has not been one petition in favor of removal sent through the Orwigsburg Post Office.

The remonstrance says that "the only good purpose to be achieved by the removal is to put a few Aollars into the pockets of the tavern keepers, &c. of Pottsville-and to bring the Seat of Justice a while it is removed an equal distance farther from another portion." There's the rub, the dollars murders," would at once vanish, and they would he foremost in the ranks of the removal men. The objection in regard to the increased distance would not be made-they would patriotically say that the will and interests of the majority must be consulted, and that as the greater part of the population would be nearer to the Seat of Justice, the re- Railroad Company to increase their capital.

moval ought to take place. We are willing to leave the question to the voters of the county. and abide by their decision, whatever it may be.

SUFFERING . IRELAND!

The news brought by the late Steamers of the distress existing in Ireland, has awakened the sympathy of the whole American people-Throughout the Country measures are being taken for the relief of the sufferers. The Odd Fellows of New York, have chartered a vessel in order that those desirous of sending grain to Ireland, may do so without paying freight upon it. Large sums of money have already been subscribed, and the work of benevolence is still going on.

Bishop Potter has recommended that on the first Sunday in March, collections should be taken throughout his Diocese, for the benefit of the fund, and Bishop Doane of New Jersey, has recommended a similar course. The following ta-Fund, as far as they have been announced:

Society of Friends, Philadelphia, Amount collected at Walnut st. Theatre, New York City, Pittsburg, New Oileans, Washington City, Reporters in Congress, Hon. Richard Packenham Jersey City, St. Louis, Mo. Utica. Church of the Holy Cross, Boston Society of Friends. Hopkinton, R. I., Bishop Doone, New Jersey, Baltimore.

Total. We are glad to find that our citizens are moving n this matter. In another part of to-day's paper, will be found the proceedings of a meeting held at the Town Hall, on Wednesday evening last. Meetings will be held in the First Methodist Episcopal Church, to morrow morning, and in the wave willing to aid, and we doubt not that their subscriptions to the aid of the starving people of Ireland, will be liberal.

Committees have been appointed for the various who may wish to contribute.

OUTRAGE ON THE PUBLIC HIGHWAY .- On Thursday last about dusk, Mr. George Patton was returning, on horseback, from Minersville to his home at the York Tunnel, while two men named Wilson, who were in his employ, were walking by his side. Suddenly one of the men left him and went some distance ahead into the woods. The other continued walking by Mr. Patton, until they reached a dark place, about two miles from Llewellyn, when he drew a pistol and presenting it at Mr. Patton, told him that he was sworn to kill him and that he was shout to do it Mr Patton with friends in Orwigshurg and the residents of the great presence of mind, threw himself from his horse upon Wilson, who fell to the ground with Mr. Patton upon him. Mr. P. then told W. to The following extract is very patriolic: discharge his pistel, which he refused to do, but said he would throw it away, and did so. Mr. P. then forced W. to accompany him home, half ter his brother. NEWS FROM WASHINGTON.

During the past week the proceedings of Congress have been of a highly interesting charac-ter. The ten regiment bill having passed both Houses, has received the signature of the President and has become a law. The three million Bill has passed the House, with Mr. Wilmot's proviso against permitting slavery to exist in any territory acquired by the United States from Mexico. We give in another column the vote of the Pennsylvania Delegates on the bill.

For the first time in the history of the republic a government editor conducting the organ of the Administration has been expelled from the privileges of one of the Houses of Congress .-About two weeks since, the Union contained an attack upon Mr. Wentworth, which induced Mr. Douglass to offer a resolution for the expulsion of the reporters of that paper from the House .-The resolution was however lost. It was hoped that the effect on the Union would be salutary. ble contains a list of the subscriptions to the Relief Instead, however, of this being the case, so far from profiting by the gentle admonition, the next morning an article appeared in the government \$8,977 organ, headed, "MEXICAN VICTORY," in which certain Senators, Mr. Calhoun being among the number were denounced as being more favorable 200 to Mexico than to their own country; in other words, with being traitors to their eduntry !-Mr. Yulee, one of the Senators from Florida, a 1,230 locofoco, being one of those thus alluded to, offerred the following resolution:

Resolved, "That the editors of the Union, newspaper published in the city of Washington, having, in a publication contained in a number that paper, dated 9th of February, issued and uttered a public libel upon the character of this body, be excluded from the privilege of admission the floor of the Senate.

After the exciting debate the resolution was passed by a vote of 27 to 21. So Mr. Ritchie is expelled from the Senate. His reporters were spared. This is the most severe rebuke administered to President Polk. On Saturday the President sent a message to both Houses, asking provisions to be made for the appointment of field officers under the fen regiment bill. Mr. Polk recommended a tax on tea and coffee and a reduction in the price of the public lands, in order that liberal provision neight be made for the vigorous prosecution of the existing war with the Republic of Mexico. He likewise recomwards of the Borough, and the Towns in the mends-the acceptance of the continued services County to collect money, in aid of the fund. proviso, and one from a Slave State, Mr. Houston of Delaware. Eighteen Locos from Free States toted in favor of Slavery, six of whom, one-third vere from Pennsylvania.

We have gleaned the above from an article in the New York Tribune.

Santa Anna has written a reply to the Mexican Congress, accepting the provisional Presidency

Since lately I set my foot upon the soil of my country - as I had not returned to obtain the Pres idency of the country, but only to fight the audacious foreigner who profanes with his presence the dragging him all the way, and when there he left sadred soil of the country-I have reflected much him in charge of another man while he went af whether I should accept the station which for the fifth time in the course of my life has been confer red upon me; but at last, overcoming my natural repugnance, stifling within my breast considerations of a private nature which influenced me, and, not to do me the injustice to believe that I returned from ostracism to re-possess myself of power, I have resolved upon the sacrifice, for there is nothing which I am not prepared to do in obedience to my dear country.

RELIEF TO IBELAND.

In pursuance of a call made for that purp a Public meeting to aid the suffering people of Ireland was held at the Town Hall in Potsville on the 17th inst., at 7 o'clock P. M. When Mr. BENJAMIN HAYWOOD, was unanimously called to the Chair, and the Hon, STRANGE N. PALMER, WASHINGTON BIGLER, E. O. JACKson and Robert Mounts Esque, were appointed Vice Presidents, and Dr. Thomas Brady and Dr. Robert Philips, Secretaries.

Mr. Haywood stated the object of the meeting

in a speech of great feeling and sound practical argument, after which Jno. C. Neville, Esq. being called on, addressed the meeting in his usual clo quent style, portrayed the suffering of the people of Ireland, in so touching and feeling a manner that the tears could be seen rolling down the cheeks of nearly every one present. On motion of Jno. C. Neville, a committee of

nine was appointed by the Chairman with power to appoint other committees, &c. and to report at the adjourned meeting to be held on Tuesday evening 23d inst. at 7 o'clock at the Town Hall The following gentlemen compose said committee:

J. C. Neville, Chairman Burd Patterson, Edward O'Conner, John Shippen, Dr. Brady Robert Morris, Hon. Strange N. Palmer, and

Samuel Sillyman. After the appointment of the Committee the neeting was addressed by Dr. Robert Philips, who spoke warmly of our duty to assist the suf-

fering and distressed. On motion of Patrick Fogerty, a subscription list was then opened to give those present an opportunity to subscribe, when the sum of one hundred and eighty-eight dollars and seventy-five cents was collected in the room. During the time the subscription was taking up, Mr. Haywood addressed the meeting several times, detailing with great propriety and judgment, the duty of every estness of a man who has a deep conviction of

the duty of a christian and a feeling heart.

By order of the meeting, BENJAMIN HAY WOOD, Esq. Chairman.

Anventising .- We find the following in the Berks & Schuylkill Journal. We know the person alluded too, and we know it to be correct. He commenced advertising in the Journal, and his success was so great that he extended his favors to other papers of the Borough :

How To no Business .- We conversed a day or two or, ago with-a friend from Pottisville, who is driving a first-rate trade in a businessiin which there is more opposition than any other in that place. " He commenced operations but a few onths ago, and has already succeeded in doing a larger business than other establishments of years standing! "The secret of my success," said he, lies in the simple circumstance that I made use of every means to keep my name and husiness before the people. I advertise in all the papersvertise in them to. It costs me thirty or forty dol recent presentation of an elegant Sword to our lars a year, to be sure, but I am persuaded that I nett ten times the amount per annum, at least, in consequence."

> The Washington correspondent of the Boston Advertiser, says that Mr. Polk is as unpopular as his war, and his party is getting on as well as at can without a President or a leader. The writer says :- Mr. Polk remarked, at a dinner which he gave last week, to the Judges of the Supreme Bench, that the happiest day of his Presidential career, would be the one on which he took leave of it."-Exchange paper.

No person in the country is so fully acquainted with his total want of capacity to conduct the affairs of Government as Mr. Polk himself, and bute of his fellow citizens, that regret is allayed therefore we are not surprised that he is anxious to retire. The party has not only disgraced Mr. Polk, but themselves, by elevating such a man to

the Presidency. CORRUPTION AT WASHINGTON .- Senator Westcott, from Florida, a Locofoco, in his speech on the expulsion of Mr. Ritchie, the official editor from the floor of the Senate, for a libel on a portion of the members of his own party in that body, made use of the following startling language: Mr. W. then went into the question-"what is democracy?" and said that at this time of day, under this administration, democracy was nothing more than the "loaves and fishes" yes, the "loaves and fishes," from a Lieutenant General

down to a Second Lieutenant. Mr. W. warned the democracy of the Union against the dangers which beset them. If they could only see the corruption which had been brought about by this administration-could only see how they were made use of by those who this present, its value will be enhanced in a ten- were seeking only plunder-plunder of the public offices, they would view it with astonishment and I'hey would come here and tumble the President, Heads of Departments, Senate, and House-Wings and Democrats-heels over head into the Potomac, and serve them right too.

> \$10,000,000 IN Specie.-The New York Sur says-"We learn from our foreign corresdondents that over £2,000,000 sterling, or about ten millions of dollars in specie, will be shipped to this country from England before the 1st of May. The present low rate of Exchange makes this movement profitable. It is said the bank of England is engaged in it, and will part with that amount of specie to gain the difference of exchange, which tee unqualifiedly assert is not the fact. It is true is about three per cent, equal to a profit of \$300,-000, on the sum named."

REMARKS OF A. W. LEYBURN OF SCHUYLKILL COUNTY, the Resolutions relative to the Tariff,

Mr. Levnens, said : Mr. Speaker: When I had the honor to in troduce to the House, the resolutions now under liscussion, I had not the remotest, idea, sir, that there could be found upon the floor of this House, one individual member, who would rise in his place and scriously oppose their passage. But in this fond hope, I have been mistaken, and to my utter astonishment and deep regret, I find that there are in this Pennsylvania Legislature, certain would be politicians, of mushroom popularity, with much zeal (but little ability) arraying themselves, and trying to persuade others, against

passing those resolutions. Why is this so Mr. Speaker? What is there objectionable in the resolutions! Is there any thing in them sir, calculated to jeopardize the best interests of these United States, and particularly those of insulted and deceived Pennsylvania .-For the life of me, sir, I can see nothing, and I think you and the majority of this House, will agree with me in saying, that although much has been said both by the gentleman from Bradford and Tioga, but little has been proven. These gentleman have laboured hard, but to no effect, to prove that the British Tariff bill of 1846, is pre- merchants and mechanics of Pottsville,

What, sir, has it come to this! fact that both members of the House of Representhat the great and growing interests of the North tatives being from the Coal region, that the maand the great and growing interests of the Roth and the East, are to be overlooked and disregard jority of the chizens are in favor-of removal, wilstender of Odd Fellows, at Pottsvikill Confed to promote the interests of the Southern Natives will known that these gentlemen were not Pagen Monday, February 22d, 1847, (Washing ed to promote the interests of the Southern, Nabobs, who have grown insolent and dictatorial elected with a view to this question, one of them upon the spoils of office, and rich upon the sweat one who was able to aid in this cause, and enand fabour of their negroes. Polk was in favor of the Tariff of 1842; when at the same time it was well known that Mr. Polk was opposed to any such Tariff .-Will the gentlemen from Bradford and Tioga, or the office of the Hon. Strange N. Palmer on either of them answer! They can, but will not! Thursday evening the 18th first., the following I will tell this House the reason. The Locofoco I will tell this House the reason. The Locofoco party (or as it is more properly termed the "party without principles.") with which the gentleman, I have called upon in vain to answer, so zealously acts, knew well that the Tariff of 1842 was the idol whom the people all admired and desired to either to John C. Neville, Chairman of the Cen- live under. That, unprincipled party knew well, that if they said one word against the Parist of 1842, their fate was sealed for the next four years, f not longer.

> Hence, Six, that party made necessity a and they rullied almost to a mair under the banners having among others, for their motto the "Tariff of 1842." By this subterfuge they de-ceived the people and got into power. But, sir, we need not go so far back as 1814, to prove the decei of that party. I need but refer you to the recent fall elections in Pennsylvania, which must be fresh in the recollection of every one within the sound of my voice. That same party six again tried to deceive the people by rallying under the Tariff of 1842. But sir, it was no go! The honest and intelligent among that party, at least in many parts of the State, were determined to be no longer deceived by the leaders of a party who made professions when out of power that never practised when in. The county sir, which I have the honor in part to represent in this Hall, is emphatically, (or at least was,) a Locofoco county. Schuylkill county second to none in the Keystone of the Federal arch, in point of nineral wealth, industry and intelligence, has, thank God, thrown off the shackles of the "Spoilsmen Party," with which she was so long fettered as to be nearly the ruin not; on'y of themselves an families-nay, but of their common country .-Perhans: Mr. Sneaker, there is not a county in Pennsylvania more deeply interested in a Proective Tariff than Schuylkill. Hence sir. you can read ly account for the anomily of her rending that if the Tariff of 1846, the idol of the gentlemen from Bradford and Tioga was, what they represent it to be, that my constituents (the majorit at least of whom are as intelligent as either of those two gentlemen,) could not discover it? Sir, the citizens of Schuvlkill county have intelligence enough for their own and their country's interest, and manly fortitude sufficient to declare and su

tain :them. I am Mr. Speaken, glad that the discussion of these resolutions has taken the wide scope it has It has afforded an opportunity for the gentlemen from Bradford and Tioga, and their political friends in this House, not only to express their sentiments and that of their party, nay, but also to record upon the Journal of the House their votes in favor of the Tariff of 1846. And when they shall so have done, I believe I hazard) nothing in saving that when they return home to their respective constituents, they will not be greeted with " well done good and faithful servants, prepare to represent us again in the Hall of Legislation. " No sir. but me thinks their constituents will say to them, and each of them: "Depart from us, you unfaith-

I fear, Mr. Speaken, I have already trespassed upon the indulgence of the House,—(Cries of go on, 50 on!) I had not sir, intended when I rose, to occupy the time of the House, but for a very few moments. I rose sir, not to make a set and formal speech, nor with a view of being able to better that which has already been so eloquently, ably, and effectually said in favor of those resolutions by my political friends, especially, the deservedly, distinguished gentlemon from Adams, with whom I have the honor to act.—No sir, Prose simply, because, I regarded it my duty, (having introduced the reslutions,) and a duty which I owed to my constituents, to maintain and support, to the best of my humble abilities, upon the floor of this House, those principles of policy which I regard best calculated to promote their interest and the best interest of my country. If I have proved recreant to their trust by advocating the Tariff of 1842, and denouncing that of 1846, to them, I owe my present elevation and to their decree, be it what it may, I will most cheerfully submit.

ANTIREMOVAL MEETING. A very large meeting of the citizens of Schuyl-

kill county, convened at the Court House, in the borough of Orwigsburg, on 24 hours notice, was held on Thursday evening, the 11th of February, The meeting was organized by calling DANIEL B. KERSHNER, Esq., to the Chair, and appointing George Moser, Frederick Freed, Henry Miller,

Charles Moser and Christian Zoller, Vice Presi-Wm. Wagner and J. S. Keller, Secretaries.

Although so short notice had been given, the ige Court room was crowded. The meeting having been called to order by the to the responsible stations they now hold. resident, was addressed by Wm. B. Potts and giving a statement of the object for which hey had assembled. Whereupon the Chair ap-

Wm. B. Potts, Abraham Albright, Peter P. udwig, Geo. S. Frailey, Joseph Hoy, Joseph Deibert, Daniel Boyer, Eli Reed, J. Huntzinger, rf, Joseph Moser, Benjamin Bode, John Bannan, John M. Bickel, Jos. Hammer, Christian Berger, Jacob Krebs and Joseph Kremer, a committee for the purpose of drafting a preamble expressive of the sense of the meeting, in reference to the questibn of the removal of the Seat of Justice Orwigsburg, now agitated by the people of Potts ville. The Committee having retired a short time reported the following, which was received and dopted by acclamation:

That in the opinion of your committee, the time has arrived when it becomes the duty of those who are opposed to the removal of the Seat of Justice from its present location, to speak their sentiments, in as much as their silence hitherto has been misrepresented, and it has been publicly proclaimed, in the newspapers of Pottsville, that very large majority of the citizens of the county are in favor of such removal, -such the commit that the advocates of removal, after ransacking the coal mines, lanes and alleys, &c., of the county

have procured a large number of signatures to their petitions, but who are those petitioners?

A large number are foreigners, who are not yet naturalized and many others who have been barely long enough in the county to become entitled to the right of citizenship, men- who have no property, no, local interests in our county, attracted hore by our failroads, Canal, and other public improvements, and who, as soon as these improvements are completed, like birds of passage, they will leave our county to seek work on the public improvements cist where; for a proof of this statement of facts, we appeal to the petitions them selves. To this we nd! the testimony contained in our Assessment lists.

In the Assessment of Norwegian township for the year 1846, it appears that there are 1958 tixables, of whom 1619 have no property; reducing the number of owners of real estate to 369; in Schuylkill township, there are 631 taxables, of whom only 151 own real estate; in Pottsville out of 1680 taxables, only 597 own property; in Branch township out of 1489 taxables, only 29 own, property; showing that out of 5766, the

own property; showing that out of 5766, the whole number of taxables, 4550 own no real estate; the greatest part of whom are foreigners who have no local interest in our county-to-day here. to-morrow scattered over the face of the country.

Who then are the persons interested in the removal! We answer, the tavern keepers, the erable to the truly American Tariff of 1842 .- | their own interest of the increase of business They each allege, sir, (unblushingly too) that the Tariff of 1836, is more equitable and just in its provision towards the South, than that of the it is well known that these gentlemen were not having repeatedly declared that he was opposed

papers of Pottsville, that there are not sufficient accommodations in Orwigsburg for persons attending Court. This is untrue, there are ample accommodations and if more were required they would soon be provided. Your committee cannot refrain from noticing one of the means resorted to, to create an impression in their favor, they have sent a special messenger to Orwigsburg with ectitions signed in the Coal region, to mail them t the Orwigsburg Post Office, thereby intending to create the impression that the citizens of Or wigsburg were in favor of removal.

'We now proceed to examine the reasons as signed for removal: the first is, that Orwigsburg, is neither in the centre of territory nor population. Your committee are not aware that it necessary properthat the Seat of Justice should be located in the midst of the densest population Such an argument will apply more forcibly to a from its present location. It is indeed the strongest argument why, the Seat of Justice should not be removed to Pottsville, for it must be evident, however their petitions are worded, this is the ultimate object. In a population such as Pottsville is composed of, being principally foreigners from almost every part of the globe, it is believed that the Records would be unsafe, and to preserve out. the Records would be unsafe, and to preserve our Jail inviolate, little less than a standing army would be required. Within a few miles of the borough of Pottsville, in open daylight, in the view of many persons, cold blooded murders have been perpetrated; and when an individual was crested, (whether guilty or not, we pretend not to, judge) such was the excitement of his counrymen, that the citizens of Pottsville were hurried from their devotions in the house of God on the Sabbath day, to act as a guard to prevent the rescue of the prisoner.

It is further stated that four-fifths, if not nineenths of the Criminal business originates in the ceal region.-to this lamentable state of facts we rimes and misdemeanors go unpunished, owing to the distance of the Seat of Justice. Herether et us refer to the records of the county :- at the Criminal Courts held in 1843, 1845 & 1846. six several Grand Juries have strongly expressed their regret, that so many Uriminal prosecutions, of trivial importance, have been instituted and sent to Court from the coal region, thereby usetwo Whigs to this House. Do you or the mem- lessly and impreperly burthening the county-with bers of this House, sir, suppose for one moment heavy cosis. And in some of their reports they. Wheat Flour, couraging such (rosecutions, for the mere purpose, of malting costs for their benefit. These reports have-been published from time to time, and are of oriety. How for this coil would be increased, judging from the argument of the removalists, we leave for the community to judge.

Orwigsburg is situated in a Beautiful and healthy part of the county, about one hour's drive from the borough of Pottsville, and 20 minutes waik from the Philadelphia and Reading Railroad. What good purpose is then to be achieved by its emoval? . We answer to put a few dollars in the ockets of the tavern keepers, &c., of Pottsvillefring the Seat of Justice ofew miles nearer to one portion of the people of the county, whilst it is removed in equal distance further from another

Your Committee refer to the able report made by the Elented Representative from Schuylkill county, read in the House of Representatives on the 20th December, 1833, (SE Journal of House of Rep. 1833-34 Vol. 2, page 206.) fully showing the fojustice and inexpediency of the removal of the Seat of Instice from Orwigsburg, which reasons are at the present time ten fold stronger, from the fact that since that time, thousands of dollars thave been expended from the County (20th Ref. 2) Removed the Polace of the y the falented Representative from Schuylkill lollars have been expended from the County Preasury in enlarging the Court House and other public buildings. But the petitioners say, the nerely desire to test the will of the majority ! an appeal to the ballot box; an argument in itself plausible enough, and to which we can have no objection, provided that appeal caus be made under proper restrictions. But can it be tolerated; that the thousands of foreigners with which the coal region is inundated, who have no local interest and nothing in common with the citizens of the county; who are here to-day-to-morrow residents of some other place; shall be permitted to control this question ! We trust the good sense of our Legislative bodies will ferbid so great injustice. Let the vote be confined to those citizens of the county who have an interest in her welfare, and we court the resultas one which will forever put at rest this agitating question by a triumphant majority in favor of the present location of the Seat of Justice at Orwigsburg.

Resolved. That amongst the many proofs that the people of this county are opposed to the renoval of the Seat of Justice, is the fact, that heretofore no candidate for election by the people to office, has had the temerity before the election, to declare himself the advocate of removal that on the contrary every successful candidate on whom suspicion rested, that he entertained views favorable to that measure, has taken the most especia Jos. Albright, Christ. Boyer, John C. Woolison, care to satisfy the voters that all such suspicious were groundless. And if either of our present worthy Representatives had suffered it to have been proclaimed before the election that they were favorable to the cause of removal, they could neither have been placed in nomination nor elected are aware of this fact, and they will not now Idha Bannan, Esqrs. with their usual eloquence, sadopt a course that might be construed into a deception upon a large and respectable portion of their constituents, and bring down upon them: selves the just odium of the tax payers of the

county! Residred, That the people of the county having. succeeded by heavy assessments and payments of taxes in partially reducing a heavy public debt, it is inexpedient that they should be again burdene with a heavy tax to pay for the erection of other public buildings, which will become necessary if the Seat of Justice is removed from its present Resolved, That the proceedings of this meet-

ing, signed by the officers, be printed and a copy of the same forwarded to each member of the Ile gislature. Resolved, That the proceedings of this meeting be published in all the papers printed in the
