PHILADELPHIA, Sentember 5th, 1836.

Dr. H. Swayne:—Dear Sir:—Being for a length of time afflicted with a very violent couch, with a pain in my side and breast, soreness of the lungs, shortness of breath, loss of appetite, hight sweats, &c. I made trial of various r medies, which were recommended highly in the papers, but gradually grew, worse. The violence of my cough was sinch, that the bloodrushed prousely from my-mostris when the parodysms of coughing came mon me. Indeed my whole system seemed prostrated, and the hour of my departure scenied class at hand.

At this time you recommended the use of your COMPOUND VILIP OF WILLD CHERRY, which immediately began to southe, comfurt, and allay the violence in my cough, retieved the pain in my side strengthened and healed my lungs, &c. I continued the use of it, but now, chanks to God, and to the effect of your Compound Syrup of Wild Cherry, Lam cured and able to pursue my daily labors.

I think it an invaluable medicine in toughs, colds and disease of the lungs, and one that should be known to all afflicted. If persons would purchase the original and genume article, as prepared by you, and not tamper with the many spurious and worthless preparations which are attempted to be plaimed of on the reputation of yours, it might be the means of saving many valuable lives. If redy offer this statement for the benefit of those wha are suffering as I was.

INSUNSIBLE PERSPIRATION HE preceding froure is given to represent the In-ATION for the impurities of the body. It will be noticed that a thick cloudy mist issues from all points of the surface, which indicates that the perspiration flows uninterruptedly when we tre in health, but ceases when we are sick. Life cannot be sustained without it. It is involve off from the blood and other junces of when we are sick. Life cannot be sustained without it. It is inrown off fean the bleed and other, juces of the body and disposes by this means of nearly all the importance of the body and disposes by this means of nearly all the importance of the scripture is. In the blood is the Life. If it ever becomes impure it may be traced directly to the stappage of Insensible Perspiration. Thus we see all that is necessary when the blood is stagnant or infected, is to open the porest and it relieves itself from all impurity instantly. All practitioners, however, direct their efforts to restorg the insensible perspiration. The Thompsonan, for instance, steams; the Hydropathist shrouds us in wet Blankers; the Homespathist deats out infinetesmals; the Allopathist bleeds and doses us with Pills; pills!!!

To give some idea of the amount of the Insensible Perspiration, we will state that the learned Dr. Lewenhock ascertained that five-righths of all we received into the stomace passed off by this means. This is note other than the used up particles of the blood, and other juices, giving place to the new and fresh ones. To theek this, therefore, is to retain in the system five eights of all the virtuent matter that nature demands should leave the blody. It is, by stopping the pores that overwhelm mankind with coughs, colds and consumitions. Ning tenths of the world dielfood disease induced by a stopping of the Insensible Perspiration.
