PHILADELPHIA China and Queensware House.

THE subscribers, successors to S. TYNDADE, would call the attention of the merchants and residents of Pottsville and its vicinity, to their stock of CHINA AND QUEENSWARE, Which we have no hesitation in saying is the largest in the United States, and which, in the greater part, is made for, and imported by ourselves.

Any person having used Queensware or China for a number of years, will notice the general deterioration in the quality—this is owing to the greatly reduced prices. In some of the manufactories, where a good name has been established and oride taken in their name has been established and pride taken in their character, no such inferiority is observed—from such houses have we constantly endeavored to make our stock, and we are DETERMINED to sell our wares as low as any quality, whether equal or inferior, can be sold in the U.S.

There is a prejudice against Chesnut Street, raised from a false notion of higher prices. Our roots on the

There is a prejudice against Chesnut Street, Taised from a false notion of higher prices. Our rents on this street are Lower than on any other Business street, and nothing clee could possibly make a difference.—But no horie can succept here that does not keep the heet qualities of goods, and this does not suit all—hence the prejudice. We have every kind of Ware, from Common Painted Tens, Edged Plates, Mocha Granite, Printed, Flowing Blue, &c., &c., to the finest China and Glass. We are anxious to extend our business, and take every proper means of doing so-but not making per sonal application to strangers here, we have no othe means of doing it than by the aid of our old friends, b

Edvertising, and by the quality and prices of our goods.

To Lawyers, Magistrates, Conveyancers, and · Citizens generally. Dunlop's Laws of Pennsylvania,

CHRONOLOGICALLY ARRANGED. Price \$6 00.

NOW PUBLISHED in one volume, octavo, of over 1000 pages, a New and Complete Edition of the, Acts of Assembly of the State of Pennsylvania, from 1760 to 1816, with NOTES AND REFERENCES TO THE DECISIONS OF THE SUPREME COURT OF THIS STATE, AND A VERY FULL AND ACCURATE INDEX, BY JAMES DUN-LOP, Eso. VERY FULL AND ACCURATE INDEX, BY JAMES DUNLOP, Esc.
This work, the result of several years careful and
fudustrious labor, has been arranged upon a plan somewhat new to the Profession in Pennsylvania, but which
has been tried elsewhere and found much more satisfactory and convenient than the alphabetica? arrangement. For the proper understanding of an Act of Assembly, it is necessary to read the whole act; but this,
by the alphabetical arrangement, is impossible, and the
reader must trust to the care and accuracy of the editor to collect the different Laws upon one subject, and
to extract from each those sections which are deemed
necessary to its explanation. Important parts may be
abmitted, or serious errors unit arise from having only
a portion, by which to judge of the meaning of the
whole.

The chronological arrangement removes, this objection. By the aid of AN UNISCALLY FULL, AND SERY

The chronelogical arrangement removes, this objection. By the aid of AN UNISCALLY FULL, AND YEAR CAREFULLY FREPARED AND ACCURATE ISDEM, the reader will be referred to every Statute upon a given subject, and having the entire acts before him, with ARLYANT REFERENCES TO PRIOR AND SUBSEQUENT ACTS AND DECISIONS, be will be much better, enabled to arrive at a proper understanding of the law. This plan has been tried in other States. It has been found the most convenient, the most accirate; and by far the most satisfactory form in which Acts of Assembly can be arranged. In issuing the present volume, the publishers believe they are supplying a want which has been long and seriously felt by the Legal Profession, in common with our citizens generally. The work will, they trust, be found to be, as it purports, a complete collection of the Public Laws of the Commonwealth, in a compact and convenient form; and so arranged as to render hasty Jound to be, as it purports, a complete collection of the Public Laws of the Commonweilth, in a compact and convenient form; and so arranged as to render hasty reference thereto easy and certain. In addition to their own convictions of the necessity existing for such a book; convictions founded on a wide spread intercourse with the prefession, they have been hastened to its publication by the argency of sev-

been hastened to its publication by the argency of several distinguished members of the Bench and Bar, de sirous of seeing in the hands of the publicas speedias possible a work, of which, from careful examination they had formed a very high estimate.

they had formed a very high estimate.

It's claims to preference are various, and rest upon the plan of ite arrangement, and the indepaticable labors of its learned editor. The Chronological Order, giving, the Acts entire and connected, presents the min a far more intelligible and perfect form than the mutilated Alphabetical Order, and is much itself labor to errors and omissions. It possesses, also, many other advantages over any artificial arrangement, that will be readily understood by all who have occasion to consult the Alphabetical Digests.

These advantages, coupled with the laborious Annotations of the Editor, his fall references to all Decisions of the Editor, his fall references to all Decisions of the Courts, giving construction to Acts of Assembly, and his very perfect index, will, they believe, secure the book a ready welcome and firm hold, in the favor of the community.

the community. \{\partial \text{In addition to these, it presents the recommendation}\}

In addition to theke, it presents the recommendation of cheapures, for, in pursuance of their policy of "low prices and large sales," they have fixed it at a rate which they think will be deemed very moderate, and besides its small original cost, there will be a great saving in the purchase of subsequent editions, as the chronological arrangement will enable them to post up answalte and by the occasional issue of a new general annually, and by the occasional issue of a new general index, to save their patrons from buying over again matter already purchased, perhaps, many times.

MINERS' JOURNAL. Saturday Morning, Mar. 20, 1847. To Advertisers will observe by the arrangement of our paper, that news will be board on every page, which compole the reader to claime his eye over all the advertisements. This obvintes to a great extent, the objection of having advertisements placed on what is termed the outside of the paper.

As locofocoism has endeavored to lay a tax of 52 cents a year upon those of our subscribers in the County, who receive their papers through the Post Office, for the benefit of the office-holders, we will endeavor to remedy the evil to some extent, by making arrangements to i send our papers by stages out of the mail. In the meantime, our subscribers will please designate the places in the different towns where they may wish them left. As soon as the arrangements are completed, due notice will be given.

A filend writes to us from Philadelphia, that a ve-sel, the Brig R. Russell, will leave Philadelphia on Tuesday or Wednesday for the Is. land of Lobos. The letter bag is at the Merchant's Exchange. This is a fine opportunity for our citizens to write who have friends in Mexico.

We learn from Harrisburg, that the Governor has signed the Removal Bill. As soon as a copy is received, we will lay it before our readers. Tix Roorisa, &c .- We would call the attention of our readers to the advertisement of Mr. Long in to-days paper. He is a skillful workman and will, we doubt not, give satisfaction to all those who may wish to have Tin Roofing and Spout-

ing done... Messrs. Hudson & Waters, have taken the Foundry and Machine Shop at Tamaqua, and sto prepared to execute all kinds of Muchinery in the most durable manner, at short notice.

A lady dropped a Blue Purse, in Mahantango Street, on Wednesday, the 17th inst., containing upwards of twenty dollars, and a few days previous, a Gold Pen. Any person finding these articles, and leaving them at this office, will be suitably rewarded, and receive the thanks of the oweer.

THE LEGISLATURE - This body adjourned on the 16th inst., after a session of about ten weeks, during which time, they transacted more business. than has heretofore been transacted by the Loca Foco Legislatures in sessions of five and six months. This makes a great saving to the tax payers of the State, and shows the difference between whig practice and locofoco professions.

Persons wishing to send papers to their friends will find it to their interest to subscribe for the papers, and have them sent from the publication office. If sent by individuals, they will be subjected to 3 cents postage under the new law, which must be prepaid. Why this distinction is made we cannot tell-it is one of the beauties of Locofocoism, which spems to dread the duffusion of knowledge and intelligence mong the people. To Several of the bills vetoed by Gov. Shunk.

were passed by the constitutional majority, almost unanimously in both branches of the Legislature We have never known the veto to be used so free ly as it was by Gov. Shunk during the session of the present Legislature, and we therefore feel the more graffied in excording there rebukes to the increased execuse of this despotic power. mr Reading has been incorporated into a city.

How our friends of the Journal and Gazette will floom out." The would be Lieut. General will be completely cost into the shade. Benton, it is said, has gone West muttering rengeance against Secretaries Marcy, Buchanan

and Walker, who opposed his aspirations to the Chief command, in Cabinet Council. I It is stated that Col. Cummins, of Georgia, has declined the office of Major General, tendered

him by the President. The President seems to be unfortunate in his selections. INCENDIARISH -An attempt to burn the carpenter's shed at the Firth Dock, and destroy the Lumber stored up there, by the Schuylkill Navigation Company, was made on the night of the 17th, (St. Patrick's Days) fortunately, the flames were discovered by a person living near by, and

extinguished before any material damage was done. We are authorized to say, that Fifty Dollars Reward will be paid by the Company's Engineer, for such information as may lead to a conviction. of the incendiarles.

Numerous strikes for higher wages are taking place in our cities among the Mechanics and laborers. This is but a beginning of the operation of the Turiff of 1846. With the exceptions of Ship builders, the different mechanical interests are all suffering in our cities. A very destructive fire took place of Towarda'

ming the Court House, and about 20 buildings in . the heart of the town. Loss estimated at 75 or 580,000. É Examirion Ball Mr. Stanch's exhibition ball, come off at the Town Hall, on Thursday Evening last The number of persons in attendance was very large, and they all expressed themselves highly delighted with the manner in which the pupils moved through the various fig-) ures of Cotillions, Polkas, Mazunkes, &c. Mr. Stauch requests us to return bis thanks to the citizens of Pottsville, for the patronage bestowed upon him during the last two seasons. We believe it is his intention to return next winter, to give lessons in Pottsville. No teacher of dancing has ever given/more general satisfaction in Pottsville, and we doubt not that should he come, he

will receive a liberal support. New Hampshine.-The Boston Atlas gives corrected returns from 211 towns, leaving only nine to be heard from, the result of which is as
