## Clippings.

# A Reckless Spendifrift.

- "Waitah, this way you doubtless heard Ne ring your plaguy bell : Yo've opened here, upon my word, An out-and-out hotel.
- No doubt, you've got a larder fine
  Of viands ready drest,
  A cellar of most famous wine,
  And figuous of the best."
- "Yes, sir, we've all that you could wish Be pleased to take a chair— | Poultry and joints, and soups and fish— I'll fetch the bill of fare.
- None of our wines can e'er complain. For great is their renown, And unster's claret and champaigne You cannot match in town."
- "Waitah, of all extravagance
  I ever had a dread;
  To-day I'll give your house a chance—
  Bring me a herring red;"

THE WAY THET PULLED THEM UP, AND LET. HIM FALL. The following amusing adventure. given by a correspondent writing from Buffalo, actually took place in the town of M-, in Ohio, two years ago. It would have made the late Isaac Hicks, laugh at a solemn "Seventh day" meeting. "Farmer—, had two daughters very interesting young ladies, yet in their teens, who were quite romanife in their notions. Their fathmergug. "Farmer— had two daughters very interesting young ladies, yet in their teens, who were quite romanic in their notions. Their father was an aristofratic member of the Baptit church, and of course was very particular as to the company his girls should heep. Now it happened that these two girls became acquainted with a couple of young bucks, clerks in an adjaining village, and to use a common phrase, stook quite a shyin' to can. To this the self-gentlemen was very much opposed, as the intended to match his daughter; himself. Buf 'twas no use' talking to them; while week after week were away, and found to young men-constant visitors. At length, under the following to the necessity of to-king up his found to the necessity of to-king up his found to the necessity of to-king up his found to Sunday afternoons in the back bed-room in the second story, which frontell the barrayad; a very fromantic look out. Quider the window was a pile of stones, which had been left after repairing the celler-wal in that corner. For two-or three successive Sabuth (venings: the usual period of visiting their inamoratas, the lower-had climbed by means of the sheets of the hold, with a week after week production of visiting their inamoratas, the lower-had climbed by means of the sheets of the hold, with a week fire week production of the hack window; so he walked moise lessly around to a-certain the vanitue of night of the hold with the serior of the bark window; so he walked moise lessly around to a-certain the wasting of the sheets of the hold, without being at last discovered. One Energy Sabbath just, at twilght, the lather coming from in the bara tho't be saw some rather ominaus, barging out of the back window; so he walked moise lessly around to a-certain the wasting of the sheets of the hold, without being at last discovered. One for the week as the production of the back window; so he walked moise lessly around to a-certain the wasting of the sheets of the hold, with one was a series of the sheets of the history of the back w old man giving it a slight jerk, commoned the ascent. He was high gently from off his teet, and felt himself gradually trising in the world? Twas a very heavy weight the daughters thought; and to tell the truth, it was a corpulent body corporate at which they were ho, cludy tuzging away. But lo! his head reached sine-window sail; and now, just as his old/white hat appeared above the window, his affectionate drughter dropped him like a hot potato;' and, with something like the emphasis of a squashed apple dumpling, the old man came in instant confact with the mother earth; while the two knights of tape and setsors. made hasty tracks from the settlement, leaving nothing behind them but hodely misery, horrorstricken damsels, and their own coat-tails-streaming the cool night air! - Kaickerbocker.

wise:

"I am now going to pray; and I want all that deshe to be prayed for, or so have any of their friends who are absent prayed for to so made that a friends who are absent prayed for to so made that a friends who are absent prayed for to so made that a friends who are absent prayed for to so made that a friends who are absent prayed for to so made that a friends who are absent prayed for to so made that a friends who are absent prayed for to so made that a friends who are absent prayed for the lines, separates the poisonous particles that are consuming them, and expels them from the

On the accession to which we refer there we at once sent up to the desk quite a pile of listly slips of paper, with the names of persons or whose behalf he was to wrestie as he said, with the Alunghty. A pause alon ensued, when he said, Send em up! send em up! I can pray for five thousand just as easy as I can pray for a dozen. Send 'em up! It you havn't any paper, get up and name the friend you want prayed for. At this stage of the proceeding a man whom we shall call Oziel Biggs, a stalwart person of six feet and a half in his stockings, a notorious unbeliever, and a confirmed way to boot, rose in the midst of the congregation, a mark for all, and smidst the winks, and backs and smiles of the auditory

Mr. Burchard, I want what to pray for Jim The reverend petitioner saw, from the excitement in the audience, that Oziel was a 'hard

"What is your name, Sir !- and who is Mr. Thompson! It's Jim Thompson; be keeps a tayern down in Thompsonville, and I keep a public disuse a little below him. He is an internal scoundiel, and I want you to give him a lift.

But, said Mr. Burchard have you faith in the efficacy of prayer & Do you believe in the power That's n'ither here nor there, responded Oziel;

"I want you to try it on him?" A PALPABLE, Hir .- Mr. R. of the Chancery abar, asked an M. P. beber known by his desutory and dull speeches than by his wit or argu-

facult, if he intended to come into Parliamini at The next session. Why, replied the Dullard, I do not know that I have culibre enough for the House of Com-

Calibre, said R. I know nothing of you

calibre, but you have bore enough for anything. The Difference .- A little more animation. my dear,' whiepered lidy B. to the gentle Su-

san, who was walking languidly through a quad-· Do leave mo to manage my own business

### Medicines.

## M'ALLISTER'S - 77

INSENSIBLE PERSPIRATION.

M'ALLISTER'S ALL HEALING OINTMENT, OR, THE WORLDS' SALVE... OR, THE WORLD'S SALVE...
It has the power to restore perspiration on the feet, on the head, around old sores, upon the chest, in short, upon every part of the body, whether diseased slightly upon every part of the body, whether diseased slightly or severely.

It has power to cause all external sources, serafulous homous, stan diseases, pois-monis wounds, to discharge their puriti matters and then heals them.

It is a remedy that forbids the necessity of so many, and deleterious drugs taken into the stomach.

It preserves and defends the surface from all derangement of its functions. The surface is the outlet of five-circline of the bile and used upmatter within. It is pierceightly of the bile and used upmatter within, it is pierceightly though so openings to relieve the intestness. Stop up those pores' and Death's knowless to your door. It is rightly termed All healings for there is scarcely a disease, external or internal, that it will not benefit. I have used it for the last 11 years for all diseases of the chest, constangation, liver, involving the utmost danger and respons bility, and I declare he fore Heaven and man, that not in one single case has it fulled to ben, seds, when the patient, was within the reach of mortal means.

Thy it on.—The Köickerbocker tells an excellent story of Burchard, the revivales, not of
him exactly either, but of what happened at the
close of one of his meetings. He was in the
habit of addressing his congregation in this
wise:

thered not say that it is curing persons of consump-on continually, although we are told it is foolishiness, care not what is said, so long as I can cure several ousand persons yearly.
HEADAGHE.

The salve has cuted persons of the headache of 12 years' standing, and who had it regularly every week to that vomiting often took place.

Deafness and Ear-ache are helped with like suc-

RHEGMATISM. It removes almost immediately the inflamation and welling, when the pain ceases. COLD FEET.

Consumption, liver complaint, pains in the clost or ide. falling off of the hair, one or the other, aiways ecompanies could feet. It is a sure sign of disease in he system to have cold feet. The salve will cure evry dise. In Scrofula, old sores, crysipelas, salt rheum liver complaint, sore eyes, quincy, sore-lifroat, bronchitis, oroken or sore breast, pulse, all chest diseases, such as isthma, oppression, pain—also, sore lips, chapped lands, tumars, custameons eruptions, nervous diseases, and of the spine there is probably no medicine now snown to me

and of the spine shown, so go SCALD HEAD. We have cured cases that actually defied every thing known, as well as the ability of 15 or 20 doctors. One man to'd us he had spent \$500 on his children without any benefit, when a few boxes of the Oinment cured them.

J. BERNS. It is the best thing in the world for Burns. (Rend the directions around the box.)
WORMS.

If parents knew how fatal most medicines were to' children taken inwardly, they would be slow to resort to them. Especially mercanial logenges,' and medicated log-nges,' remnifice' pills, &c. The truthis endouge can tell, invariably, when worms are present.—Now is the say to parents that this salve will always fell fea child has worms. It will drive every vestige of them away." [Read the directions around the box!] There is probably no medicine on the face of the earth at once so sure, and so, safe in the expulsion of worms.

CORNS. Occasional use of the Ointment will always keep corns from growing. People need never be troubled with them if they will use it JAMES McALLISTER & Co., Sole Proprietors of the above medicine.

- CAUTION.

As the All-healing Omtment has been greatly counterfeited, we live given this capiton to the public that no Ointment will be ground unless the names of James McAllister, or James McAllister & Co., are written with a pen-upon every label. nu a parament.

Any taste can be suited at his new store tr entre street, next door above Clemens's Drug stor-ottsville. B. T. TAYLOR. C. Don't farget the place. Pottsville, April 18, 1816,

COLLIERY WORKS, FOUNDRY & MACHINE SHOP.

FOUNDRY & MACHINE SHOP.

THE subscribers, at their old stand, corner of Rail Road and Callowhill streets, are prepared to manufacture to order, at the shortest notice, Steom Engines aid Pumps, of any power and capacity for mining and other purposes, Battin's Coal Breaking Machines, with solid and perforated rollers, as may be required.

Also Engines and Blowing Cylinders with all necessary machinery for Blast Furnaces. Hat dir Fipes, of the most approved plans, Cup and Ball joints and Water Tippers, of the very best construction. They particularly invit the attention of Iron Masters and hartices engaged in the Iron trude, to their large stock of Patterns for Rolling Mills, having lately constructed the machinery for two of the largest Mills in the country, viz.—The Wyoming Mill at Wilkesbarre, and the holling Mill at the Montour Iron, Works, Danville. They are fully prepared for this kind of work together with every variety of general machinery. Of the quality of their works and materials, it is enough to say, that time and experience, the most infallible tests, have amply demonstrated the genuine character of their engines and machinery.

Orders are respectfully solicited and will be promptly attended to.

PIANOS.

THE subscriber respectfully invites the public to call at Mr. Withfield's Store, Centre street, and examine his assortinent of C. Meyer's GRAND ACTION PIANOS of Philadelphia.

The instruments are highly approved of by the most content Professors and Composers of music. For qualities of func, touch, and keeping in time up to concert pitch, they cannot be surpassed by either American or European Pianos. They are chosen by all musical stars for their concerts, such as Madame Castellan, Leopald'ds Meyer, Vieux Temps, Burk, Wallace, Templeton and many others; they are used for 200 or 300 concerts every year. They have also received the first premiums of the three last exhibitions, and the last silver medal by the Franklin Institute was awarded to them. The subscriber warrants these instruments for the vear. He keeps them constantly on hand and salls other at the lowest manufacturer's prices on reasonable terms. All orders from abroad will be promptly attended to.

Pottsville, Aug 1, 1816.

## Medicines.

Facts for the People.

Till: constantly increasing popularly and rate of B. A. Fahnestock's Vermiluge has induced persons who are envious of its success to pain off upon the public preparations which all medical menknow to be inefficacious in expelling worms from the system.

This Vermilinge has made its way into public favour pon the ground of its own intrinsic merits, more han any other medicine of the kind now used; and nan any other inequence of the kind now used, and, and while many worm, remediez have by dint of puffing been forced into safe, and shortly after gone into the obscurity which their worthlessness justly mer tied, B. A. Flianes ock's Veimituge continues to be triumphantly sustained. It has only to be used and its effects will fully sustain all that is said of its good of the continue of the continues. onderful expelling power.

Certificate.

Wales, Erie Co., New Y./Jan. 7, 1843: We certify that we have used B. A. Fahnestock's Vermitige in dur families, and in every case it has provided a decilied and effectual remedy lor exicting worms from the system. We cordially recommendit to parents who have children afflicted with that dangerous malacy

December 12, 18:6 A NATURAL REMEDY, Suited to the Human Constitution, and equal to the cure of every curable disease, will be found in

WRIGHT'S

INDIAN VEGETABLE PILLS, Of the North American College of Health, THESE extraordinary Pills are composed of plants which grow spontaneously on our own soil, and are, therefore, better-adapted to our constitutions than Medicines concocted from foreign drugs, however well they may be coumpounded; and as WRIGHT'S INBIAN VEGETAILE PILLS are founded upon the coincide that the human body is in truth

they may be coumpounded; and as WRIGHT'S INBIAN VEGETAHLE PILLS are founded upon the
principle that the human body is in truth
"SUBJECT TO BUT ONE DISEASE,
namely corrupt humors, and that said Medicine cures
this disease on natural principles, by cleansing and per
triying the body, it will be manifest that, if the constitution be not entirely exhausted, a perseverance in their
use, according to directions, is absolutely certain to
drive disease of every name from the body.

When we wish to restore a swampor morass to forcility, we drain it of the superabundant water. In like
manner, if we wish to rest re the body to health, we
must cleanse it of impurity.

WRIGHT'S INDIAN VEGETABLE PILLS,
will be found one of the best, if not the very best medcing in the world for carrying out this granny Funityincorping the cause they expel from the body all
morbid and corrupt humor; the cause of the disease, in
an easy and natural manner; and while they exery
day give ease and pleasure, disease of every name is
repidly driven from the body.

The following highly respectable storekeepers, have
been appointed Agents for the sale of WRIGHT'S INDIAN VEGETABLE PILLS, in Schuylkill County:

CULTURE OF GREEN CROPS FOR SOILING-CARROTS. The September number of the Albany Cultiator contained a letter from our friend W. H. yator contained a letter from our friend w. 41.
Sotham, in which he notices the rotation of crops, as cultivated on my farm, for Soiling Milch Cours.
His favorable notice of my experiment, has induced several of the readers of your valuable journal, to ask of me a statement of the amount of green food raised by me on the twenty acres, on which I soiled sixty cows for six months. To save time, permit me to trouble you with the fol-lowing statement for publication in your paper.

ng tablet : 5 acres of clover, cut three times, 5 acres of oats, cut twice, 🤞 5 acres of corn, cut twice, '5 acres of corn and pumpkins, cut once 73

The whole product averaged more than 12 tons of reen food per acre, as you will see by the follow-

255 20 acres in all, The corn on one acre, (black muck, manured with cow dung, leached ashes and lime,) yielded stalks over ten feet long, planted in drills one fuot apart, and four inches apart in the drills, and

The Carrots noticed by Mr. Sotham, vielded on the average six hundred bushels to the acre, and on some portions of the muck soil. (manured with cow manure and leached ashes) they were in mas instances fourteen and fifteen inches in circumcrence, and twenty-seven and thirty inches long, and produced at the rate of twelve hundred bushels to the acre, in beds of one quarter acre each. They were drilled in by machine (as was also the corn.) in drills one foot apart, and the Carrots thinned to one every four or six inches in the drills. They were weeded by hand at a cost of LATE CIEMENS & BAKER,

WI HOLESALE DRUGGIST, Manufacturer of CoV pal Varnish, sole Agent for the Jerankiin Glass
Works. Having been long engaged in the manufacture of Copal Varnish, (as well as other kinds.) is now

quality, cannot be surpassed by any in the Union. Also, receiving weeklysfrom the above celebrated Works.
Window Glass of every size. Constantly on hand a
full assortment of White Lead, of the most approve
brands, Red Lead, Litharace, Saxony Magnesia, &c.
which will be soil al Manufacturer's prices, together
with a large and well selected stock of Drugs, Medicines, Dyes, 'Acids, Fine Colors, Perfumery, &c., in
short every article in the Drug ling. Merchants, Physicians and Dealers in general, are requested to call
and examine the stock and prices, feeling satisfied they
will be induced to purchase.

Philada. February 11, 1856.

7-Iy in the Rochester market, twenty cents a bushel by the quantity, and retail 25 cents, at which latter price I could clear one hundred and twenty dollars per acre, on my whole crop of eight acres. Is not this a valuable crop? My last year's crop of four acres, yielded me six hundred and forty bushels per ucre. I intend next year to sow at least ten acres of Carrots, and two acres of Sugar Beets for my Const.

Yours, C. B. STUART.

From the Germantown Telegraph THE SUN-FLOWER. It is not perhaps so generally known as it deserves to be, that the oil of the eun flower seed is possessed of highly valuable properties. It is stated that C. A Barnitz, near Baltimore, instituted series of scientific experiments for the purpose of accurately ascertaining the quantity obtainable from a bushel of seed, and found that a gallon of seed is an excellent article for poultry; its highly

sary to pravide, in no stinted quantity, when the fawls are confined and debarred the range and freedom of the fields. Since penning the above, I have perused an article in the New England Farmer, written by a Mr. Inan, who seems to have been unacquainted with the process, and who obtained no more than \$15.00 half a gallon of oil from a bushel of seed. The Silver Lepine Watches inwel'il, 1st quality, 14 00 ever. He did not hull the seed. For burning, Superior Quartier Watches. Superior Quartier Watches,

For painting, it is preferred to dinseed—spreading smoothly and with ease, plain 12 cts., patent 181, lunet 25. Other articles in proportion. All golds warranted to be what they are sold for:

O. CONRAD.

On hand, some Gold and Silver Levers, 2 Lepine

sessing an advantage in cheapness, and having a more agreeable flavor. I have made some few experiments with the sun-flower, and have found it exceedingly prolific. In the spring of 1837, I planted two hundred and sixty-two hills on old, well-worked soil, and obtained seven bushels of seed-two plants only to THEse stablishment, since it passed into the hands of the subscriber, in June hist, has been thoroughly refitted, and is now in complete order for the accommodation of the travelling public.

Since the change of proprietors, numerous additions and improvements have been made, and it is now his lieved to possess all, the requisite sprointments and conveniences which belong to A FIRST CLASS in the New BATHING ROOMS; new Ladies and Centlemen's ORDINARIES; a splendid new Bar Room; new Parlors, and new Furniture, have been added to it within the last six months, and the undersigned, grateful for the very liberal patronage which has thus fall be in the very liberal patronage which has thus fall be not referred to the very liberal patronage which has thus fall be its continuance, which he preliges hunself it shall be his unitring aim to deserve. the hill. Many of the flowers measured ten inchand great attention accorded during the entite season. Emention these facts as many might regard my successful experiment as the common result, and expect the same quantity of produce from the same number of plants, on soils of inferior quality, and without a moiety of the care in culture or the economy of the crop. An agricultural friend of mine, assures me that he has cultivated the sun flower for years, principally as a feed for his poultry. The last year his coop amounted to one hundred and fifty bushels,

We copy from the American Farmer the fol-

from about two acres of land, costing according to

his estimate, forty-five cents per bushel, and worth

SEASONABLE ADVICE. Sowing Cloven Seep. As we are among those who believe, that no land can be preserved in a condition of fertility, without the system of culture observed embraces clover within its economy, as well for turning in, as for food for stock, we advise all who may have wheat fields, [if they have not done so already] to sow thereon, upon every acre, from 12 to 16 ibs. of good clean Clover Seed.

s out of the earth, and the ground sufficiently dry to be ploughed without injury, all kinds of grass seeds may be sown-as Timothy, Herd's-grass, Orchard grass, Rye grass, and Lucerne. A practice prevails in some parts of our country of sow-ing Timothy and Clover Seed together. The ractice we think a bad one. Clover flowers, and is fit to cut, several weeks before Timothy, and is therefore ill suited to be grown with on the same field. We would always sow Timothy seed alone. With regard to the quantity of seed we would remark, that less than a peck per acre should never be sown, and that a peck and a half per acre.

of ground, CLOVER AND ORCHARD GRASS, though they do not flower at the same time, may be sown together, with a decided improvement both for pasture and hay. When they are sown together, the clover must direct the judgment as to the proper time of cutting for hav. So soon as the clover is in bloom, without looking to the state of the or-Orchard grass should be sown on each acre. Pastures thus sown are much better than when clover is alone sown thereon, as the cattle are measurably exempt from contracting the disease called the hoven. The quantity of hay which may be grown on an acre is greater, while the quality is better. CLOVER FIELDS .- All clover fields which may not have been so treated already, should have, as soon as possible, a bushel of plaster sown on each
