Clippings.

From Neal's Saturday Gazette Che Bride. Ob. say not she is happy.
Though flowers wreathe her brow;
Though the bridal yeil is floating.
O'er a neck of spouless snow.
Her heart is strongly beating;
'Tis not the pulse of joy;
For bitter thoughts and sad ones
Her spirit doth employ.

Is she thinking of the mother
That watched her youthful days,
Of the sister and the brother
Who share I her childish plays? Of the sire whom she leaved To light another's home? And the bitter memories That to her spirit come? Or loves she not the being, She is destined now to wed;

Mourns she a young affection
That hath foreyer fled!
Is it this lier pale check flusheth
As a crimson rose leaf bright!
Ah! no it is a deeper yower.
Her new deess is much too tight!

THE MAGRIE AND THE PICKLED COCKLES .-A certain notable housewife had observed that her stock of pickled cockles was running remarkably low, and she spoke to the cook accordingly. The cook's character was at stake; unwilling to give warning with such an imputation upon her honesty, she, nevertheless, felt that all confidence between her mistress and herself was at an end.-One day, the jir containing the pickles being placed as usual on the dresser, whilst she was engaged in basting a joint before the fire, she happened to turn suddenly round, and beheld, to her, great indignation a favorite margin perched on its side and dipping its heak down the open neck with every symptom of gratification. The my stery was explained—the third detected. Grassing the ladle of scalding grease which she held in her hand, the exasperated lady dashed the whole contents over the hapless pet, accompanied by the exclamation "Oh! Oh! you've been at the pickfed cockles, have ye!", Poor mig, of course, was dreadfully burnt; most of his feathers came off, leaving hi little round pate, which had caught the principal part of the volley, entirely bare. The poor hed moped about lost all his spirit, and hever spoke for a year. At length, when he had pretty well becovered, and was beginning to chatter again, a centleman called at the house, who, outtaking off his hat discovered a very bald head! The migpie, who was in the room, appeared evidently struck by the circumstance, hopping upon the back of his chair, he looked him ha-tily over, and suddenly exclaimed in the ear of the astomshed visiter. "On Oh! you've been at the pickled cockles have ye.?'

Joseph C. Neal, the "Charcoal Sketcher," in his limning of "Tribulation Trepid, a man without a Hope," thus admirably hits off that class of people, who are never so happy as when they are "How are you Tropid? How do you feel to

day, Mr. Trepid ?" "A great deal worse than I was, thank'ee; 'most dead, I am obliged to you: I'm always worse than I was, and I don't think I was ever any better. I m very sure, any how, I'm not going to be any better; and for the future you may always know I'm worse, without asking any questions, for the questions make me worse, if nothing else does." "Why Trepid, what's the matter with you!"

"Nothing, I tell you, in particular; but a great deal is the matter with me in general; and that's the danger, because we don't know what it is .-That's what kills people, when they can't tell what it is: that's what's killing me: My great-grand-father died of it, and so will I. The doctors don't know; they can't tell; they say I'm well enough when I'm bad enough, and so there's no holp :-I'm going off some of these days, right after my great-grandfather, dying of nothing in particular but of everything in general. That's what fi rishes our folks."

TRICKING & BANK .- George Arnold, (remorks a facetious editor.) a well-known wag, kept a lot-tery office for several years in Broadway, apposite Masonic Hall-wanting money, he was encouraged by Mr. Cheeseborough, President of the Fult m Bank, to throw in his note for discount, waich he did, and it was thrown out. The worthy Presided it; and advised George to throw it dent regretted it; and advised George to throw it in again on the ensuing discount day, which he did,

"Oh, nothing more than I will take Fultor Bank notes at par, for lottery tickets. No harm

in that" "Pray take it down, my good friend, it does no good; take it down, and you may throw in that little piece of paper, and it shall be done. George took down the placard and his note was discounted.

THE ADVANTAGES OF A NOVELIST IN DEBT .-At the first news of the approaching sale of Alex. Dumas' chateau of Monte Christo, says a French paper, a merchant of Loons took the post route to paper, a merchant of Loons took the post route to parie, and presented to the illustrous novelist, in person, 50,000 francs! M. Dumas, delighted with this generosity, offered the noble merchant his Wilkesbarre, Luzerne County, Pa. friendship and a box in the Theatre Montpensier. On the morrow of this event, a lad; called on

Dunias, and in a tone of emotion, said: "Mon-sieur, I do not know you, but I have seen Antany. Henry III; and have read the Three (quard-men and the Count of Monte Christo. Here are my savings, amounting to 6000 francs. Take them. they are yours!" Dumas declined the widow's offering, and sent her his works complete. If a subscription were opened to make up M. Dumas deficits, adds, the same j mend, it would surpass that of the Laune subscription.

The two young princes, the sons of Archduke Charles of Russia, had a very warm dispute in the presence of no less a person than the Emperor himself. Greatly excited, the one said to the other: You are the greatest ass in all Vienna."

Highly offended at such a quarrel in his presence, the Emperor interrupted them, saying with indignation:

Come, come, young gentlemen, you forget that I am present.'

ANECDOTE OF THE DUKE .- During the regular of the Paul Administration, an jupo tint situation in Ireland Secome vacant, to which an Irish relative of the duke's wished to be appointed. He therefore wrote to his grace, and after having staged his wish, concluded his letter with the words One word from your grace will be sufficient.
The duke sent the following laconic and characte ristic reply: 'Dear_, not one word, [trom yrs. affly', Wellington."]

A remarkably ugly man, as conceited as silly, said to a Philadelphia wag, who has wit enough for everything but making money: Why, S, liow thin you are! you'll ne

ver pay the debt of nature. I'm afraid that you will dry up and blow away.'

Well, you will pay that, at all events; for you owe fixture so little that you can't repudiate.'

Somebody says that a woman who loves, fover for life, unless a well founded j-alousy compels her to relinquish the object of her affections. And

somebody the says that a man a bo layer, loves for life also—unless he changes h a mind. Counsellor Rudd, of the Irish bar, was equally

remarkable for his love of whist, and the dingy color of his linen. My dear Dak, said Curran to him one day, you cant think how puzzled we are to know where you buy all your duty shirts."

In Pittsburg, a young man named Drum acts as a bar-keeper in a hotel. An equaintance, for whom he was preparing a whiskey punch, remarked that he never before under tool Shakepeare's expression of the "spirit stirring Drum."

A New DRINK .- Mr. Guzzlefunction: I have discovered a new drink for you, suppose you, try a little.' . Well, I dou't care if I do;' (drinke.)-It hasn't got a very bad taste to it, and if my me. mory serves me right, it is what they call water. I recollect drinking some when I was a lad.

Medicines.

HAAS' EXPECTORANT. FOR THE CURE UP Consumption, Coughs, Colds, &c. TO THE PUBLIC!!

IN PRESENTING this valuable medicine to the public as a remedy for Consumption, and Pulmonary Diseases in general, I have been actuated solely by the great success attending its use in my own immediate neighborhood, and a desire to benefit the afflicted, I shall simply endeavor to give a brief statement of its sachtness, and flatter myself that its surprising efficacy will enable me to furnish such proofs of its virtues as will enable me to furnish such proofs of its virtues as will enable me to furnish such proofs of its virtues as will enable me to furnish such proofs of its virtues as will enable me to furnish such proofs of its virtues as will enable me to furnish such proofs of its virtues as will enable me of the curred to in time. As Consumption, however is a disense which differs much in the severity of its symptoms, and the typidity of its progress, and has long baffied the skill of physicians it cannot be supposed that this or any other remedy is capable of effecting a cure in every case and in every stage of the disense; on the contrary, we must expect it to fall sometimes, a circumstance which occurs daily, with all the most valuable remedies we possess, for the most simple diseases. The proprietor submits the following testimonials in its favor from citizens of this. County, well know to the public.

Mr. W. J. Haas,—Having been afflicted for the less

In its favor from citizens of this. County, well known to the public.

Mr. W. J. Haas, —Having been afflicted for the last thirty years with Consumption, and having had the advice of some of the inost eminent Physicians, and was given up as incurable. It was induced to make trial of your invaluable Expectorant, and am happy to say that I am entirely cured, and amattending to my daily occupation as though I had never been afflicted. Previous to taking your EXPECTORANT, I could not, if I had been so disposed, do anything at my trade. I have since resommended it to several of my friends, and particularly one case of CONFIRMED CONSUNTION, and am happy to state that in every instance it had the desired effect.

Yours respectfully JOSHUA HAWKINS.

Schuylkill Haven, October 1, 1845.

Schuytkill Haven, January 1, 1815, Mr. W. Je Haas, — Dear Sir:—Having been afflicted with a new gree pain in the breast, I was induced to try your Expeditorant, and after using one bottle of it, found it to relieve me, and I do not hesitate in recommending it to the public as a valuable medicine for Colds, Coughs and Afflictions of the Breast.

I am respectfully yours & C...

EDWARD HUNTZINGER.

SCHUVLKILL HAVEN, October 19, 1844.

I was taken with a had cold some time ago, and used one or two bottles of Mr. Haas? Expectorant, which relieved me much, and should I have occasion for the above again, I would freely call on Mr. Haas for his invaluable Expectorant DANIEL H. STAGER. above again, I would freely call on Mr. Haastor his invinuable Expectorant DANIEL H. STAGER.

SCHEYEKILL HAVEN, July, 29, 1845.

Mr. William. Haas,—Dear Sir.—I am happy to lestify to the etheary or your expectorant, for answering the purpose for which it was intended, that of relieving Coughs, &c.,

Yours respectfully,—CHAS.—HUNTZINGER.—For saile by the Proprietor at Schuylkill Haven, and by the following Agents in Schuylkill county.

ANOTHER TRIUMPH OVER DISEASE BY Thompson's Compound Syrup of TAR & WOOD NAPTHA.

BEHOLD the following testimonial: PHIL'A, Nov. 2d, 1846. The undersigned is induced to make the following brief statement, under a firm conviction that many valuable lives would be saved if those affected in the walu ible lives would be saved if those affected in the same manner had recourse to the same means that have restored her to health. Being afflicted for a long time with a violent cough, with pain in the side and breast, and almost fotal loss of voice, with difficult respiration, and with finability to discharge the philesm which obstructed the breathing, great was my distress. It is scarcely necessary to say, that during this time many medicines were used, but all of no avail, until one bottle of Thompson's Lomp. Syrup of Tar and Wood Naptha was procured. But astonishing were its effects! Before taking half offit all alarming symptoms disappeared—expectoration became free—the cough ceased—the voice recovered, and all pain and oppression vanished before finishing an entire bottle. If this statement car be of any benefit to the afficient, you are at liberty to use it for that purpose.

No. 140 Spruce Street.

TRIUMPHANT SUCCESS.—Consumptives remember, that it is Thompson's Compound Syrup of Tar and Wood Naptha, which is daily effecting such remarkable cures in Pulmonary Consumption, Asthma, Bronchiti. Spitting Blood, Pain in the Side and Breast, Sore Thorat, Hoarseness, Palpitation of the Heart, Whooping, Cough, Croup, Ilives, Nervous Tremors, Liver Complaint, Diseased Kidneys, &c., therefore beware of all spurious mixtures of Tar or Naptha, and purchase of the advertised agents only.

ANOTHER WORDERFUL CURE!!

PHILADENPHIA, Feb. 24, 1816.

PHILADENPHIA, Feb. 24, 1816.
The undersigned is induced to make the following brief statement under a firm conviction that many valsuffered for years with weakness of the lungs and Liver complaint, but so gradual were the inroads of disease that I sain, and with no better success. At-length he resolved to be even with them, and take a little sly revenge. He placed up a placard at his window — "Fulton Bank notes taken at par for longry tickets!" It was soon buzzed about the city.— "What is the matter with the Fulton Bank!" was asked on all sides.

At length the President called upon him.— "Why, George, what do you mean by that placard!" Oh, nothing more than I will tab. The suffered for years with weakness of the lungs and Liv not procured this remedy at the time I die SARAH JANE ADAMS.
Sworn to and sub cribed this 21th day of February

Si6, before me, CHAUNCEY BULKLEY, Alderman.
Prepared only by Angney & Dickson, (successors of
P. Thompson,) at the N. E. corner of Fifth and Spince streets, Philadelphia, Sold by J. G. BROWN, Pottwille; E. W. EARL, Reading; and MOORE & LONGAKER, Norristown, Price 50 cents, or six bottles for \$2 50. Dec. 5.1846 49—

Medicines.

HANCE' SARSAPARILLA. OR BLOOD PILLS. WHAT IS TRAT PRINCIPLE WHICH WE CALL THE BLOOD !

THE BLOOD?

THE blood is that principle by which the whole system is regulated. Therefore if the blood becomes impure, a general derangement of the system mustiement; and give rise to Coughs, Colds, Influenza. Dyspepsia, Dropsy, Headache, Fullness of Blood, Bilious, Typhoid, and Typhus Fevers of all kinds, Indigestion, Weakness of Stomach, Rheumattum and Rheumatic Affection, Nervous Affections, Liver Complaint, Asthma, Pieurisy, Inflammation of the Lungs, Low Spirits, Fits, Measles, Small Por, Whooping Cough, Croup, Sore Eyes, Inward Weakness, Worms, Quitry, Bronchitis, Choile, Dysentary, Gravel, Sait Rheum, Deafness and other affections of the ear, St. Anthony's Fire, Scorfula or King's Evil, Ulcers, White Swellings, Tumors, Biles, Suppressed Monthly discharges, and Female Contiveness, and all diseases depending on a disordered and diseased state of the blood, or a suspension of the healthy secretions.

Therefore on the first appearance of any of these Therefore on the first appearance of any of these symptoms, HANCE'S SARSAPARILLA OR BLOOD PILLS, should be procured, and used according to the directions. Price 25 cents per box of 50 Pills, or five boxes for one follow.

FURTHER PROOFS OF THE EFFICACY OF
HANCE'S COMPOUND SYRUP OF
HOARHOUND INRELIEVING AFFLICTED MAN!
Mr. George T. Warrington, residing in York street,
Federal till, Baltimore, was attacked with a violent
cough and sore throat, after trying many remidies,
was induced by a friend to use Hance's Compound
Syrup of Hoarhound, and before using one bottle was
entirely cured.

ANOTHER YET MORE ASTONISHING . Mrs. Henrick, residing in Monument street between Canal and Eden streets, was attacked with a very severe cough and pain in the breast, which was so intense that it extended to the shoulders. She was afflicted also with a pain in the side.

After trying many remedies, she was persuaded by a frend to use Hance's Compound Syrup of Horehound, and, after using three doses, she experienced great relief, and before she had finished the bottle, was entirely curred.

Price 50 cents per hottle, or 6 hottles for \$2 50.
For sale by SETH S. HANCE, corner of Charles and Pratt streets, and 108 Baltimore street; and by the following Agents:

JOHN FLOOD, Pottaville; E. & E. HAMMER, Orwigsburg; GEO. REIFSNYDER & BROTHER, New Casile; WM. PRICE, St. Clair; SAML, KEMPTON and HEILNER, STRAUS, & Co., Port Carbon; OLLYER & MARS, Five Points; C. W. DAUNENHAUER, Tamaqua; J. B. FALLS, Miuersville.

Facts for the People.

THE constantly increasing popularity and cale of B.A. Fahnestock's Verbuluge has induced persons who are envious of its success to palm off upon the public preparations which all medical men know to be inefficacious in expetting worms from the

This Vermifuge has made its way into public favou pon the ground of its own intrinsic merits, more han any other medicine of the kind now used; and hile many worm remedies have by dint of puffing been forced into sale, and shortly after gone inte the obscurity which their worthlessness justly mer ited. B. A. Fhanes ock's Vermitige continues to be triumphantly sustained. It has only to be used and its effects will fully sustain all that is said of its vonderful expelling power.

Certificate. Wales, Erie Co., New Y., Jan, 7, 1843. We certify that we have used B. A Fahnestock's Vermitige in our families, and in every case it has provided a decided and effectual remedy for expeling worms from the system. We cordially recommend to parents who have children afflicted with that dangerous malacy

WM. B. AINE, ROB'T MAY, OSEPH BURROUGHS. For Sale, wholesale and retail, at the Drug War B. A. FAHNESTOCK & Co. Corner of Sixth and Wood sts. Pitsburg, Pa. For Sale in Pottsville, by CLEMENS & PARVIN, Druggists.

> WISTAR'S BALSAM OF WILD CHERRY.

THE GREAT REMEDY FOR CONSUMPTON And the best Atedicine known to Man for the cure of sthma, of every stage, Liver Complaints, Bronchitis, Influenza, Coughs, Coulds, Bleeding of the Lungs, Shortness of Breath, pains and weakness in the site, breast, &c., and all other diseases of the Pulmonary Organs.

A VERY important disease over which this 'Balsam'
exets a very powerful influence, is that of a DISEASED LIVER. In this complaint it has undoubtedly
proved more efficacious than any remedy hitherto em-EASED LIVER. In ensecomposition and the theoremproved more efficacious than any remedy hithertoemployed, and in numerous instances when patients had
endured long and severe suffering from the disease,
without receiving the least benefit from various remedies, and when MERCURY has been reserted to in
vain, the use of this Balsam has restored the LIVER
to a healthy action, and in many instances effected
PERMANENT CURES, after every known remedy
had failed to produce this effect.

Besides its autonishing efficacy in the disease above

Besides its astonishing efficacy in the disease above mentioned, we also find it a very effectual remedy in ASTIMA, a complaint in which it has been extensively used with decided success, even in cases of years

It not only emanates from a regular Physician, but has also been well tested in all the complaints for which it is recommended. It is not my intentior, therefore, either to cloak it in mystery, or in any was decrive the public by overrating its virtues; on the contrary, I shall simply endeavor to give a brief statement of its usefulness, and flatter myself that its surprising efficacy will enable me to furnish such phoofs of its virtues as will satisfy the most incredulous, that Consumption may and 'CAN BE CURED,' if this medicine be resorted to in time.

Poughkeepsie. N. Y. Sept. 18, 1845. Mr. Seih W. Fowle: Bear Sir: -The character of Wistar's Balsam of Wild Cherry is so well established throughout the country, and especially in the State of New York, country, and especially in the State of New York, that any further testimony would seem to be unecessary. Yet I have derived so much advantage from it that I am happy to communicate through you to the sick and afflicted, what it has done for me and I consider it a privilege and duty to do so. I have been troubled with weak lungs for four years I had a cough more of less every winter. I was confined to the house all last winter with a severe cough, pain in the side and breast; raised blood several times. I consulted a physician, but have never taken any medicine which has done me so much good as WISTAR'S BALSAM OF WILD CHERRY. I consider it the BEST medicine in the world for Colds, Coughs, and Pulminary Complaints.

OPLYION OF A REGULAR PHYSICIAN

OPINION OF A REGULAR PHYSICIAN. OPINION OF A REGULAR PHYSICIAN.

Exter, Me., Sopt. 30, 1845.

This certifies that I have recommended the use of WI-TAR'S BALSAM OF WILD CHERRY for diseases of the Lungs, for two year past, and many bottles to my knowledge have been used by my patients, all with beneficial results. In two cases where it was thought confirmed consumption had taken place, the Wild Cherry effected a cure.

E. BOYDEN, Physician at Exter Conner.

NO QUACKERY! NO DECEPTION! NO QUACKERY! NO DECEPTION!

All published statements of cures performed by this medicine, are, in every respect, TRUE.

BEWARK OF COUNTERFEITS AND INITATIONS.—The unparalleled and assonishing efficacy of Dr. Wistar's Buisam of Wild Cherry in all the discases for which it is recommended, curing many cases after the skill of the best physicians was unavailing, has effected a large and increasing demand for it. This fact has caused several unprincipled counterfeiters and imitators to palm off spurious mixtures, of similar name and appearance, for the genuine Balsam.

Becareful and get the genuine DR. WISTAR'S BALSAM OF WILD CHERRY. None genuine unless signed by I. BUTTS. Address all orders to SETH W. FOWLE, Boston, Mass.

SARAPARILLA & VEGETABLE BLOOD PILLS IN consequence of the increasing demand for Dr. Leidy's Blood Pills, and the encouragement by the public in employing them, in preference to all others, the proprietor was obliged to have constructed a machine, which would make them more rapidly and with

chure, which would make them more rapidly and with less labor, consequently less expense than heretoforc. Having effected so desirable an object, and that the public may share the benefits of such great improvement in Pilitaking, his boxes will henceforth contain FORTY PILLS IN A BOX.

and the price the same as heretofore, namely:—Twenfive cents a Box—five Boxes for One Dollar!

YDr. Leidy's Sarsaparilla and Vegetable Blood Pills have, duringshe past few years, been more successfully employed throughout the United States, Mexico and the West Indies, than any others, and the rapidly increasing demand for them is unparalleled.

They are the only Pills in existence, thown to contain Sarsaparilla in them, the proprietor only knowing how to combine the Sarsaparilla with other substances in form of pills. in form of pills,

IF PILLS ARE NECESSARY

The stomach at d bo

for purging or cleaning the stomach and bowels, for purging or cleaning the stomach and bowels, for purifying the blood or fluids of the body, as an alternative for removing the causes of disease and arresting its progress, and as a [Spring purifier these pills] will be found more effectual than any other.
YOUNG AND OLD, MALE OR FEMALE, YOUNG AND OILD, MALE OR FEMALE, may at all times take them without change of living, restraint from occupation, or fear of taking cold from exposure to all kinds of weather, for they contain no mercury or minerals, which are contained in other pills, and which make other pills so unsafe or danger-

pills, and which make other pills so unsufe or dangerous to take, and uncertain in their effects.

PERSONS OF ALL CONSTITUTIONS.

whether feeble or debilitated, or of robust and strong constitution, can take them without prostrating or debilitating the system: they operate so easy and gentle, yet effectual, that little inconvenience is caused in taking them.

THEY ARE GOOD AT ALL TIMES, for all diseases of whatever nature or kind.

Caution is necessary: Besure at all times to ask for and take no others than Dr. Leidy's Blood Pills. All others by names nearly similar, are spurious, and calculated to deceive; the proprietors of them thinking to sell them on the reputation of the genuine, bona-fide and only true Satsaparilla and Vegetable Blood Pills of Dr. Leidy.

Se Beware of such imposition, fraud and trickery.— Dr. Leldy.

10. Heware of such imposition, fraud and trickery.

Touch them not, much less take them, for being manufactured to deceive the public of their money, they will besides deceive the body and your system by their

DEA! NESS CURED.

Scarpa's Compound Krewsote Acoustic Oi

Scarpa's Compound Kressole Acoustic Oi

FOR the cure of Deafness, gains and the discharge of matter, from the ears; also all those disagreeable noises like the buzzing of insects, falling of water, whizzing of steam, &c., which are symptoms of approaching deafness, and also generally attendant with the disease

HERE is something worth attending to coming as it does from a man so extensively known as is Mr. Graeff bothin city and country.

"I hereby certify that from the effects of a server coil last winter, I became partially deaf, attended with very disagreeable noises like ringing of bells, &c., which gradually increased, until completely lost the hearing of one ear,—when I was induced to try Scarpa's Acoustic Oil, and am now happy to say, that with the use of one bottle of the above medicine I can hear as well as ever, and all disagreeable noises have entirely disappeared. Any further information respecting my case, will be gladly given, by calling on me at No. 45 k North Fifth street near Race.

DANIEL GRAEFF.
Philadelphia, Nov. 11, 1843.

J. Franklin Harris,

PATENT METALLIC ROPES. FOR THE USE OF MINES, RAILWAYS, &c., For sale, or imported to order, by the subscriber.

THESE Ropes are now almost exclusively used in the Colliaries and on the Railways in Great Britan, and are found to be greatly superior to Hempen ones as regards safety, durability and economy.

The Patent Wire Ropee, have proved to be still in good condition after three year's service, in the same situation where the Hempen ones, previously used, of double the size and weight would wear out in nine or ten months. They have been used for almost every purpose to which Hempen Ropes and chainshave been applied. Mines, Railways, Heavy Cranes, Standing Rigging, Window Cords, Lightning Conductors, Signal Halyards, Tiller Ropes, &c. They are made either of iton or Copper Wire, and in cases of much exposure to dampness, of Calvanized Wire.

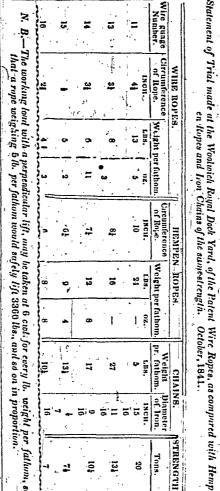

Testimonials from the most eminent Engineers in England can be shown as to their efficiency, and any additional information required respecting the different descriptions and application will be given by ALFRED F. KEMP, 75 Broad st., New York, Moy 3mh, 1846.

Philadelphia.

TO CAPITALISTS & OTHERS. Pennsylvania Coal & Iron Lands,

For Sale.

1671 ACRES 19 Perches and allowance of 6 per 1671 cent, of first rate farming Lands, located in Jenks Township, Jefferson county, fittely Timbered and Watered, and having several Millsites upon them. Two main roads run through the lands, and, improved Farms adjoin, while Saw and Grist Mills are in the immediate neighborhood. This land was selected by a gentleman of experienced judgment; and is considered by judges to be one of the best tracts in the county. Its proximity to the Clarion and Allegheny rivers, and numerous navigable streams, and the proposed Rilitroad to Pittsburg and Erie, renders it highly desimble as an investment at present prices.

Abounding in Iron Ore and Bituminous Coal of fine quality, it is believed to present one of the most advantageous locations for Iron Works in West Pennsylvania. The present owner purchased with a view of erecting such—Works, but engagements in another quarter obliges him with great reluctance to forego his intention. Maps will be shown, and every information given by the undersigned. The lands are patented, and the titles and quality will be warranted, and sold free and clear of all incumbrance.

Farmers' Department,

CULTURE OF INDIAN CORN. The famine abroad having been the means of introducing Indian Corn into England and Ireland, and creating a demand for it as a substitute for the potatoe, its cultivation will become an object of greater importance than usual. We gire an extract from an able article in the Albany Cultivator, on the proper mode of cultivating it. Mode or Planting.—The distance between

must be determined principally by the character of the wariety cultivated. The different kinds re-"quire space according to the size and height to which they are inclined to grow. The smaller the kind, the closer may be the planting. If planted thickly, considerable advantage will be gained by allowing the gentest space to rows unuing north and south, as freer access to the light and heat of the sun is thus afforded. In drill planting, the medium sized varieties usually cultivated in this latitude, (423 degrees.) require space of three feet between the rows, and with this space on three text determined the space one kernel may be allowed to every foot in the row, for a permanent stand. If land is very weedy, there is an advantage in planting so that the corn can be worked both ways; but to render this convenient, a less space than two and a half feet the narrowest way, would not be advi-sable, and three stalks might be allowed to a hill. In the selection of varieties reference should be had to quality of soil as well to the nature of the climate. A variety inclined to produce large stalks should by no means be put on thin land; for the food of the crop might be so much exhausted in producing the stalk that the ear might fail for want of nourishment; A larger variety, however, than it would be wise to plant, on thin land, may be profitably placed on that which is rich; but whether the kind chosen be large or small, or calculated for rich or poor soil, it should be recob as possible in proportion to the size of the ear and the quantity of corn. A small cob, especially at the butt, is of much consequence. In this latitude, as before remarked, the ripening of corn is rather precarious, and a difference of only a few days in the maturing or drying of the grain, may seriously affect the value of the crop. Every one may have observed that the ears with a large butt, retain moisture and remain in a green state longer than those of an opposite description. This retention of moisture renders the corn liab e to injury by moulding in the crib, or when standing in shocks, and also by the cob being frozen while in this state. The latter effect may be frequently noticed; on those ears which have been frozen while the cob was filled with sap or juice, the cob and the "chit" of the corn will be found black, and the Kernel has in many cases lost its germinating

To provide against contingencies, (destruction by worms, birds, &c.;) it is proper to plant an extra number of kernels. After the corn has attained the height of six or eight inches, and is out of danger, the supernumeraties may be pulled up leaving only the desired number of stalks. The proper depth of covering in planting corn, depends on the nature and dryness of the soils.—
The depth of an inch on some soils would be

equal to several inches on others. A deeper corering than is actually necessary to produce healthy germination, is prejudicial to the growth of the plant and considering all circumstances, there are but few cases where it would be advisable to cover corn more than two inches, and in very moist soils, a covering of only an inch would be preferred.

If the ground has been well prepared, and is ree from stones, the corn may be well planted with a machine. Lewis' 'Seed Planter' will perform well in such cases, and make a great saving of labor. FIME OF PLANTING. - The condition of the so:l as to warnith and moisture, and the general forwardness of vegetation; must regulate the time of planting. From the variation of the seaons it is obvious that particular day cannot be fix-I on for this work. The rule said to have been folowed by the Indians. I from whom we first obtained and learned the uses of this valuable escu-

ent-was to plant when the leaves of the white

oak had so far advanced as to show the form of a crow's foot. The ground has then acquired a

good degree of warmth, germination is quick, and he growth rapid. PREPARATION OF SEED CONN .- Mr. Landing Welmore, an experienced Pennsylvania farmer. tutes that he has had his corn crop increased about thirty-three per cent. by a simple prepara-tion of the seed, as follows:
At noon of the day before planting, 18th of May, (says Mr. W..) put my seed corn to soak in a strong decoction of copperas water; say two pounds of copperas to warm soft water sufficient to cover a bushel of corn. The next morning took out a peck, added a pint or more of suft soap, stirred it thoroughly, then put on plaster enough to make it convenient to drop for planting, say one quart. The whole field was planted with the seed thus prepared, except four rows, which were planted with seed without any preparation. The after-culture of the whole was alike; passing

up, harvested, and the corn weighed and measured by itself; also four rows next adjoining, the seed of which had been prepared as above.
The produce of the four rows of unprepared seed was eleven bushels and a half; the produce of the four rows from the prepared seed was seventeen bushels; a difference of five and a half bushels of ears in one hundred and twenty hills .-The yield of the remainder of the field averaged fully equal to the four best rows measured. The difference in the growth and appearance of

the corn of the prepared and unprepared seed was

striking, from the time of its appearance above ground until it tasseled; the former looking green and vigorous, the latter puny and yellow. It was all cut down by the frost when about three inches high, but came on finely after the first of lune. There was scarcely a soft ear in the whole field, excepting on the four rows of unprepared seed. These were about a week later in rip than that from the prepared seed. The soil is a sandy loam. The whole expense of preparing the bushel and three pecks of seed did not exceed 621 cents. The increased produce of the field, y preparing the seed, was over 200 bushels of ears. ANOTHER SOAR FOR SEED CORN. -- An experienced agriculturist. Dr. Samuel Webster, of Charlestown. New Hampshire, has discovered a simple soak for seed corn which increases the product from 30 to 50 per cent. It is muriate of ammonia, or hartshorn dissolved in water, of the proportion of a pound of the drug to 41 bushels of corn, to remain in the solution four or fivehours. The seed should be rolled in plaster, as

usual, to fix the ammonia. THE MANY HEADED WHEAT .- Of which wo have recently had so many marvellous accounts in the papers, is indigenous to California. It is said that six heads of this wheat, procured by a Major Spering, from a native of the Osage tribe of In-dians, produced six hundred grains, which were planted by Mr. All heus Baker, of Ibberille, S. C., the production of which was ten thousand heads. The ground on which the wheat grew was measured by an accurate surveyor-the heads counted —and one head shelled out, and the grain weighed; a calculation was then made, the result of which was, that the wheat produced at the rate of two hundred and thirty bushels to the acre. It was planted about the last of January, and cutton the 20th of June. The land on which it grew is poor and sandy, and was unassisted by manure. This is a sall story, it is true; but we have no special reasons that we are aware of, for calling in question its credibility. Superior culture is always accorded to new seeds, and hence the wonderful productiveness of many kinds, particularly those that are exorbitantly cracked up. - Maine Cultivalor.

Tor-Duessing. The great care now taken to preserve liquid manure, which was formally allowed to run to waste, and the accounts of its fertilizing effects upon land, published almost weekly in the Agricultural Gazette, are proofs of the high value set on this form of manure; almost, indeed, a higher value than on the solid manuro of the farm-yard. Agriculturists see the rapid effects of liquid manure on growing crops, with-out reflecting that the advantages of manure spplied in a fluid state result not from any peculiar richness which it possesses, but from its being presented to the plant in a state of solution of ninute subdivision, an I therefore ready prepared for the food of vegetation.
