Coose Examined.—Shay was not sitting on the end of the bench, two persons at the end, then Shay, she could not be far from Shay, for the office is not large. Shay was about 5 feet from Mra. Reese when the was brought in by Geiss, 2d January 1847, Shay was along, just in the dusk of the evening. Rose said this is the man we have been looking for, then Mrs. Reese was brought in, and I asked her if this was the man that kil-led her husband, I think I swore her, not certain, she hung her head down, and then he looked up at the man twice brought in, and i asked her it this was the man that all lod her husband, i think I swore her, not certain, she hung her head down, and then she looked up at the man twice and said I dont think it is; I asked her again, she said I dont think it is again,; and then asked her why she had brought him there, can say that she made any answer to that; then I discharged him; there was no more eri-dence; on the 4th he was brought up again, on the 3d ap-pearance he was held in \$3000 ho sphere row another day. 4th time he came and on examination on the J0th of Jan. he was committed to answer.

The first time Mrs. Rese came to my office it was dark the candle was lighted ; Michael Foley brought Mrs. Receiver, I think he had hold of her arm ; he was always side of her ; that was all at the same time that Foley told her not to swear this young man's life away; Shary had a bluich coat one nearly dark, can tell what kind of a craval he had on ; no other witnesses there athat time; there were a good many Irish in and others, more Frish at first; many came in with them; and other citizens; Mrs. Rese was again examined before ine; she then though the was the man; that was on the 4th or 5th of January; it was the 5th, that was in the day time. I saw Foley apeak to her, just at the down a she came in; other remarks were made in the crowd. The remarks-in; the crowd were that she should not swear against the man. Mrs. Reses kept her hend down I thought she was exclied, can's ay positively. She said at the first time, the Autorniesnotei. Wadesville to put Recogin the cars. John En-glebec came with me. I found Mrs. Recess and man named Carin Cute came up and looked into the car, said something—cant say what—he was the only man I saw there; the others cams from esville. Rrese's daughter came up and said John Reese was killed, and I ran down. The man with the cars was a kind of mulatto man. Daniel Rose sworn.-I was in the Squire's

office when Mrs. Reese was brought in-a crowd was in-I met Shay and Mrs. Reese on the pave ment, and went in the office with them; the waton in which they came was crowded : Geisse was there. I don't know that threats were made in the office. Michael Foley was very busy about the matter, but he did not make threats that I heard. Cant say that Mrs. Reese looked any way different than usual-she appeared confused, much more than at the coroner's inquest. There was no examination on oath at Squire Reed's that I know of, the first time. This is my hand writing. I was a juror in the coroner's inquest at Wades ville. Mrs. Reese was examined before the inquest-I took notes of her evidence. [The court lecided notes not admissible.] Robert Smith sworn .- I remember when Reese

I arrested Reese at the time; it was at Scalpingtown, 40 yards from his house, on the Rail Road ; he was surrounded by a mob of 40 or 50 Irish, about 15 or 20 of them armed with guns and muskets. Reese was in the midst of them, on the East Rail Road; Colahan was a small distance from where Reese was, in a double house, in bed. I know where Charles Brumm lives-about 40 or 50 yards from where Reese lived ; Reese's house was, in the vicinity of Scalpingtown.

Juhn Moore sworn .- I recollect the day when

John Rerse was killed. I know Martin Shayar that time Martin Shay worked under me in Alfred Lawton's mines; I was then, and sm now, foreman there-saw Martin Shay that afternoon between 3 and 4 o'clock, in the mines. There happened to be a wagon off the track in the mines on that day, and injured the road a little, the gangway rail road. I was fixing the road, and Martin and they came by at the time, asked time know as to the lith Jan'y, he was on the 2d to assist, he helped about 2 minutes, and then he Jan'y. He was there until two o'clock, when he went he went back in the mines-that is all I was taken; it was on Sunday I first heard Shay know of him on that day. He had his working clothes on. He was dirty as a miner is. I expect we were between 5 and 600 varids from the mouth of the drift. I visit round the different breasts every day, shout once each day-can't recollect exactly that I saw Martin Shay the next day-when Martin and they it was light enough to see; he had his lamp; Shay could not have got in without passing me; I went in about 2 o'clock; I have this in my book; I heard Reese was killed that night; I remembered it; did not hear till the 9th January that Shay was suspected. I remember the day Shay was arrested; Joseph Geisse and I took Shay over to Frock's tavern-he came over himself; he came out at quiting time. Saturday af-ternoon; generally quit at 2 ° clock; asked Shay if he would go over there, and he was agreed. 1 told him what it was for, that he was suspected as the murderer of dohn Reese. We went to the tavern and Mrs. Reese was sent for, and when drowned; Shay talked to my mother when he Mrs. Reess came in she said it was Martin Shay came in; my brothers told me Reese was that murdered her husband, swore to it-he had drowned; they were little brothers; mother Mrs. Reese came in she said it was Marin Guay that murdered her husband, swore to it—he had his miner's clothes on, and then she said she be-lieved it wasn't him—she couldn't tell.
