CURIOUS AND BRAUTIFUL INCIDENT .- OVOR she pulpit, in the chapel at West Point, as some of our readers may perhaps have remarked, stands a fine allegarical picture from the true-to-life pencil of War. A part of it represents Peace, as a female figure, holding an olive branch in her hand. During the performance of divine service, one or two days ago, a small bird flew into the church. and made several allempts to fly on the branch ! A better criticism upon the fidelity of the artist's representation of air and foliage could scarce he mentioned. The same complument as our readers will remember, was paid by a bird on Apelles, some three thousand years ago .- Home Journal.

CORE FOR THE BOWEL COMPLEINT .- The following remedy for bowel complaint, selds dnown to fail, is by the late distinguished Dr.

It is not always money that, makes the mare go, which locofocoism would ride.

Gen. Taylor has been nominated for the Presidency by the Whigs of Jackson county, Geo-Also by the Whigs of Potk county, Tennessee .-The fever continues to spread. Popular meetings' have already been held in almost every section of the Union, and Gen. By early cutting, a very important saving is made in the articles of straw, which, if cut in a green and succulent state, becomes excellent fodder for stock, and, if properly cured, and

Eight days before the usual time, I cradled two swarths round the entire piece, the berries being then just in the milk, and the straw as green as at any period during its growth. ANOTHER YET MORE ASTOMISHING' Mrs. Henrieta Merrick, residing in Monument atreet between Canal and Eden streets. was attacked with a very severe cough and pain in the breast, which, was an intense that it extended to the shoulders. She was afflicted also with a pain in the side. After trying many remedies, she was persuaded by a friend to use Hance's Compound Syrup of Horehound, and, after.using three doses, she experienced great re-lief, and before she had finished the bottle, was entirely cured i On threshing, I Tound the grain slightly deficient in weight to that which was cut eight days, after ; about two pounds in the bushel. I think but the increased value of the straw, as fodder,more than compensated for the deficiency in the weight of grain.
