ing:
There are many jokes here about the boys who sloped from the field; one acknowledged that he did some tall walking—another, that any one meeting him on the road to Saltillo, would have supposed him in search of a physician, whilst two niggers, officers' servants, repudiate the idea of running away, and claim the ment of making a handsome 'trgat. I'll tell you 'bout it, Massa Boh,' said one to his master, 'Pete and me, we was down at the ranche, where the doctors was cuttin off the white folks heads and legs, and says Pete to me, 'Tom,' says he, lets go up the hill and see the fightin; so up we goes and we meets de landerers, and we streaks it back for de ranche, and de dam landseers after us, and Pete, he mikes tracks for the bake oven, but the gemman wol deals for de Kentucks, he was safe sconced in the backside of the oven, and when Pete put his head in de mouf of it the lodger swear he blow Pete's dam black brains out; so Pete says, there's dan-ger here. Tom, lets wames for town; and when we got half way we sees the landseers again, and then, Massa Bob, you ought to a seen Pete a streaking of it; his coat tail streaming away behind him all round, you might have played mar-

vels on it.' But what were you doing all the time, Toin, were you running away too?
No Massa Bob, I scorn the idea, I was only treating long side Pete, and when we got near the fort the soldiers roared, out, 'ren nigrers, run-get into the fort; then you ought to have seen Peta a streaking on it, he rolled over and over and

over the breast work and into the fort.' And were you running too ?'
No sar-ee! I rolled over 'long a de of P. t., and when we got in they roared out, fall in niggers,' and begin firing booms and things, and Pete says, if one of 'em busts here it'l hurt us, let us slope for the Plaza,' and when we got there it was, 'fall in niggers, fall m, all the time. You may call that a fandango, but if you catch me at one again. there's no snakes where this child was raised, Massa Bob.

GEN. TAYLOR'S TITLES .- The New Orleans National finds, on examination, that Gen. Taylor has as many titles as the Duke of Welling. ton, and they all designate some great event in his history, or some striking peculiarity of his mind. They have been conferred by different sovereigns of the United States and foreign potentates at different times, and when Gen. Taylor is in full dress, with their ensignia hanging across his breast, it makes him look like a plain old gentle man of the olden times, that does the people good

Mr. Marcy calls him- Major General Taylor, The People generally Old Rough and Rea-

The Mexicans- Don Zachary.' The Teamsters in the Army- The Old Man-The Merchants and Artists in the Army-The

The Mexican Women- Mucha Buena. Santa Anna- Old fool, don't know when he is whipped.

Gen. Scott-My dear, dear General. Mr. Polk-O, breathe not his name The Sovereigns - Our next President of the - United States!

PIN MONEY .- A down town merchant rince some time and married a rustic belle from Orange county. The young bride was brought down to this city and installed in one of the fine up town mansions. Leaving home a few mornings since, Mr. _____ observed to his wife— My love, here is some pin-money, if you wish

to go a shopping to day," and at the same handed over a hundred dollar bill. La! my dear Charles, said the affectionat wife, 'you men must think we women use a monstrous heap of pins; don't you know,' love, you gave me fifty dollars on Monday for pin-money. I laid out only five dollars of it for pins, and I've

enough now for five years.' supplied with pins, and will use up as much pinmoney as any one of her female associates.-Y. Paper.

Ayoung Hoosler recently visited the St. Louis theatre. The play was Douglass, or the Noble Shepherd: The Indianian ellently and earnestly noticed the progress of the play, till young Norval commenced his speech with-

"My name is Norval": On the Grampian Hills My father feeds his flocks. A frugal swain; whose constant cares

Were to increase his store, And keep his only son, myself, at home."
Look here, young feller," said the hoosier, it a loud and enthusiastic tone, 'look here, I'm darned if dad did'nt want to serve me 'zackly the same way. And he not only went in for increasing the store, but he snoke of adding another sto to it. I warn't again to loose my chance of a fight with the yaller skins though."

NEGRO LOGIC .- I tell you wat, Sam, I hab a monstrous 'spute wid massa dis mornin' down in the cabbage patch.' 'You don't see so! What you 'spute about.'

Why massa sed dar was only one person in Noah's Ark, and I sed dar was more; but I prove How, Casar? . Why, it is strictly set down in de Bible, dat

Noah came forth and of course dere must have been tree oders come out fore him; dat's it. I tell you I prove it, Honey!' Cmear, you is a mighty winteligent niggah --You is !"

LAWYER OUTWITTED -Several year ago (so tuns the story) a young gentlemen went to consult a certain afterney how he might carry off an heiress. You cannot do it with safety said the counsellor; but I'll tell you what you may do; let her mount a horse, and hold a bridle and a whip, do you then mount behindsher, and you are safe; for she runs away with you. The meellor, however, was sufficiently punished for his quibbling advice, when next day he found that it was his own daughter who had run away with his client.

An old, ragged, red-faced, fortorn looking Irish woman, accosted us with, Plaize sur, for the law or heaven, give me a fip to buy bread wid. I woman, and have two yourg twins to support. . Why, my good woman, we replied; 'you seem too old to have young twins of your own.' 'They are not mine, sur. I am only raisin' 'em.' 'How old are your twins?'One of 'em is seven weeks ould, and t'other is

A SWEET DRAUGHT .- A larly poetess,

(> What't the news, neight or ?' , not much in particular-they say bread stuffs are in a rapid decline."

That's no news-they've been in consumption T'Are you fond of tongue, sir!' I was always fond of tongue, madame, and I like it-still.

IT'An Indian was questioned: What is origin sin! He quickly replied-Laziness,

Sanford, the Ethiopian Vocalist, speaking of his pecuniary means, thus expresses himself :-· If steamboats were now selling at three shilling a piece, I could'nt buy an interest in a mud-scow. Comparisons are odious .- Weekly, Galeaxy.

Bomebody very wickedly says that two blooming young ladies got caught out in a show-er very recently, and when they got home the rain had washed the very color out of their caceks.

On English paper recently remarked of the United States: "It is a country we cannot understand; it fights one country and feeds another."

Medicines. M'ALLISTER'S

INSENSIBLE PERSPIRATION.

THE preceding figure is given to represent the Insensible Perspiration. It is the great EVACUATION for the impurities of the body. It will be notified that a thick cloudy mist issues from all points of the surface, which indicates that the perspiration flows uninterruptedly when we are in health, but ceases when we are sick. Life cannot be sustained without it. It is thrown off from the blood and other juices of the body, and di-poses by this means of nearly all the impurities within es. The language of the Scripture is, "In the blood is the Life." If it ever becomes impure it may be traced directly to the stoppage of Insensible Perspiration. Thus we see all that is necessary when the blood is stagmant or infected, is to open the pores, and it relieves itself from all impurity instantly. Its own heat and vitality are sufficient, without one particle of medicine, except to open the pores upon the surface. Thus we see the folly of taking so manyintertial remedies. All practitioners, however, direct their efforts to restore the misensible perspiration. The Thompsonian, for instance, steams; the Hydropathist shrouds us in we thankers; the Homepathist deals out infinctesmals; the Ailopathist bleeds and doses us with Pills; pills!!

To give some idea of the amount of the Insensible Perspiration, we will state that the learned Dr. Lewenhock ascertained that five-eighths of all we receive into the stomace passed off by this means. In other words, if we call and drink eight pounds per day, we evacuate five pounds of it by lusensible Perspiration.

This is one other than the used up particles of the blood, and other juices giving place to the new and firesh ones. To check this, therefore, is to retain in the system five eights of all the vitulent matter that nature demands should leave the body.

Let me ask, now, every candid mind, what course the means in the lanessible Perspiration. INSENSIBLE PERSPIRATION.

the world die from disease induced by a stoppage of the Insensible Perspiration.

Let me ask, now, every candid mind, what course seems the most reasonable to pursue to unstop the pores after they are closed? Would you give Physic to unstop the pores? Or would you apply something that would do this upon the surface, where the clogging actually is? And yet kknow of no physician who makes any external application to effect it. Under these circumstances I present to physicians, and all others.

M'ALLISTER'S ALL HEALING OINTMENT. OR, THE WORLDS' SALVE.

It has the power to restore perspiration on the feet, no the head, around old sores, upon the chest, in short, pon every part of the body, whether discussed slightly

means.

I have had physicians, learned in the profession, I have had physicians, learned in the profession, I have had ministers of the Gospel, Judges of the beach, Aldermen and Lawyers, gentlemen of the highest erudition, and multitudes of the poor use it in every variety of way, and there has been but one voice—saying. McAllister, your Ointment is good."

CONSUMPTION.

It can hardly be credited that a salve can have any effect upon the lungs, seated as they are within the system. But, if placed upon the chest, it penetrates directly to the lunes, seperates the poisonous particles that are, consuming them, and expels them from the enough now for five years.'

Against a year goes round, the dear, unsophisticated creature will find out that she is not half

thousand persons yearly.

HEADACHE. The salve has cured persons of the headache of 12 years standing, and who had it regularly every week so that vomiting often took place.

Denfness and Ex-actic are helped with like suc-

RHEUMATISM. It removes almost immediately the inflamation and swelling, when the pain ceases.

COLD FEET.

Consumption, liver complaint, pains in the chest or side, falling off of the hair, one or the other, aiway necompanies cold feet. It is a sure sign of disease in the system to have cold feet. The salve will cure ev-

In Scrofula, old sores, erysipelas, salt rheum, live. In Scrolula, old sores, eryspecias, sair lucial, iver complaint, sore eyes, quincy, sore-throat, bronchitis, broken or sore breast, piles, all chest diseases, such as asthma, oppression, pain—also, sere lips, chapped hands, tumors, custaneous eruptions, nervous diseases, and of the spine there is probably no medicine now known; so go SCALD HEAD.

We have cured cases that actually defied every thing known, as well as the ability of 15 or 20 doctors. One man to'd us he had spent \$500 on his children without any benefit, when a few boxes of the 'Ointment cured

> BURNS.

It is the best thing in the world for Burns. (Read the directions around the box.)

WORMS. WORMS.

If parents knew how fatal most medicines were to children taken inwardly, they would be slow to resort to them Especially 'mercurial lozenges,' and medicated lozenges,' are truths, no one can tell, invariably, when worms are present.

Now let me say to parents that this salve will always tell if a child has worms. It will drive every vestige of them away. [Read the directions around the box.]

There is probably no medicine on the face of the earth at once, so sure, and so safe in the expulsion of worms.

. CORNS. Occasional use of the Olntment will always keep corns from growing. People need never be troubled with them if they will use it.

JAMES MCALLISTER & Co., Sole Proprietors of the above medicine.

CAUTION.

As the All-heaving Ointment has been greatly counterfeited, we have given this caution to the public that no Ointment will be genuine unless the names of James McAllister, or James McAllister, or James McAllister & Co., are written with a per upof every label.

65 Price 25 cents per box. CLUMENS & PARVIN, Agents, Pottsville, Pa.ly Sept. 26, 1816.

DEAFNESS CURED.

Scarpa's Compound Kreesote Acoustic Oil FOR the cure of Deafness, pains and the discharge F of matter, from the ears; also all those disagreeable noless like the buzzing of insects, falling of water, whitzing of steam, &c., which are symptoms of appreaching deafness, and also generally attendant with the disease. he disease. HERE is something worth attending to coming as it loss from a man so extensively known as is Mr. Graeff

HERE is something worth attending to coming as it does from a man so extensively known as is Mr. Graeff both in city and country.

"I hereby verify that from the effects of a severe cold last whiter, I became partially deaf, attended with very disagreeab's noises like ringing of both in city and it will be use of one one, when I was induced to try Scarpa's Acoustic Oit, and am pow happy to say, that with the use of one bottle of the above medicine I can hear as well as ever, and all disagreeable noises have entirely disappeared. Any further information respecting myecase, will be glody given, by calling on ine at No. 454 North Fifth street near Race.

Philadelphia, Nov. 11, 1313.

For sale by Mr. B. B. Gumpert, No. 120 North S. street, Philadelphia, ; in Pottsville by JOHN G. BROWN: in Harrisburg by G. GROSS, and in Reading by Mr EARL, where those interested can obtain many interesting certificates of cures.

for \$63.50 they would receive \$5000 should be die in one year.

JANUARY 20, 1845.

THE Managers of this Company, at a meeting held on the 27th December ult., agreeably to the design referred in the original prospectus or circular of the Company, appropriated a Bonus or addition to all policies for the whole of life, remaining in force, that were issued prior to the 1st of January, 1842. Those of them therefore which were issued in the year 1826, will be entitled to 10 per cent upon the sum insured, making an addition of \$100 on every \$1000. That is \$1100, will be paid when the policy becomes a claim instead of the \$1000 originally insured. Those policies that were issued in 1837 will be entitled to \$2 per cent, or \$57.50 on every \$1000. And those issued in 1838, will be cruticled to 71 per cent, or \$57.50 an every 100, and in ratable propertions on all said policies issued prior to ist of January, 1842.

The Bonus will be credited to each polocy on the books endorsed on presentation at the Office.

It is the design of the Company, to continue to make addition or bonus to the policies for life at stated periods.

This institution, founded on the Muteal Safety and Joint Stock pured lee and embracing all the recenimprovements in the science of Life Insurance, after having experienced the most marked sucess in Europe, has established offices in British America and various parts of the United States, where its principles are withing equal layour and approval on the head, around our seasons wounds, to discharge their puriod matters, and then heals them.

It has power to cause all external sores, scrofulous humors, skin diseases, poisonous wounds, to discharge their puriod matters, and then heals them.

It is a remedy that forbids the necessity of so many, and deleterious drugs taken into the stomach.

It preserves and defends the surface from all defancement of lis functions. The surface is the outlet of five eighths of the bilo and used up matter within. It is preserved with millions of openings to relieve the intestines. Stop up those porces and Death knocks at your door. It is rightly termed All healing; for there is scarcely a disease, external or internal, that it will not benefit. I have used it for the last 14 years for all diseases of the clest, constamption, liver, involving the umost danger and responsibility, and I declare before fleaven and man, that not in one single case has it failed to benefit, when the patient was within the reach of morthineans.

Spring Garden Mutual Insurance

Spring Garden Mutual Insurance Company.

This Company having organized according to the provisions of its charter, is now prepared to make Insurances against loss by Five on the mutual principle, combined with the security of a joint stock capital.— The advantage of this system is, that efficient security is afforded at the lowest rates that the business can be done for, as the whole profits (less an interest not to exceed 6 per cent. per annum on the capital) will be returned for the members of the institution, without their becoming gesponsible for any of the engagements or illabilities of the Company, further than the premiums actually paid.

The great success which this system has met with wherever it has been introduced, induces the Directors to request the attention of the public to it, confident that it requires but to be undarstood to be appreciated. The act of Incorporation, and any explanation in regard to it, may be obtained by applying at the Office Norther Actorner of 6th and Nood iss., or of B. BANNAN, Pettsville.

Medicines.

AS A FURTHER EVIDENCE THAT the principle of curing disease by cleansing I and purifying the body, is strictly in accordance with the laws which govern the animal economy! and if properly carried out by the use of WRIGHT'S INDIAN VEGETABLE PILLS, Will certainly result in the complete abolition of disease; we offer the following testimonials, from persons of the highest respectibility in New York, who have recently been cured of the most obstinate complaints, solety by the use of Wright's Indian Vegetable Fills of the North American College of Health.

CERTIFICATES OF CURES.

From Jamaica, Long Island.

Doctor William Wright:—Dear Sir,—It is with great satisfaction that I inform you of my having been entirely cured of dyspepsin of five years' atunding, by the use of your Indian Vegetable Pills.

Previous to meeting with your celebrated medicine. I had been under the care of several physicians, and had tried various medicines, but all to no effect. After using one 25 cent box of your pills, however, I experienced so much benefit, that I resolved to persevere in the use of them, according to directions, which I am happy to state has resulted in a perfect cure. In gratitude to you for the great benefit I have received, and also in the hope that others similarly afflicted may be induced to make a trial of your extraordinary medicine, I send you this statement, with full liberty to publish the name if you think proper. Yours, &c.

From New York City.

Dr. Wm. Wright:—Dear bir:—At your recommendation, I some time since made trial of Wright's Indian Vegetable Pills, of the North American College of Health, and can conscientiously assert that for PURI-FYING THE BLOOD AND RENOVATING THE SYSTEM, I have received more benefit from their use that CERTIFICATES OF CURES.

TEM. I have received more benefit from their use that-from any other medicine it has, heretofore, been me good fortune to meet with.

from any other medicine it has, herctofore, been me good fortune to meet with.

1 am, dear sir, with many thanks, your obliged friend,
No. 60, Hammersley street, New York.

From Warwarsing, N. Y.

Dear Sir:—I have been afflicted for several years with inward weakness and general debility, accompanied at times with pain in the side, and other distressing complaints. After having tried various medicines without effect, I was persuaded by a friend to make trial of Dr. Wright's Indian Vegetuble Pills, which I am happy to state have relieved me in a most wonderful manner. I have used the medicine as yet but a short time, and have no doubt, by a perseverence in the use of the medicine according to directions, that I shall, in a short time, be perfectly restored:
I most willingly recommend said pills to all persons similarly afflicted, and in the full belief that the same beneficial results will follow their use.

I remain yours sincerely,

HENRY A. FOOTE.

Warwansing, Ulster Co., Arkansas.

WARWARSINO, Ulster Co., New York.

From Laurenceville, Monroe Co., Arkansas.
Dr. Wm Wright:—Dear Sir;—Having become acquainted with your most excellent pills, (viz. INDIAN VEGETABLE) by experience, I take the liberty to write you'on the present occasion by way of suggesting the propriety of being constituted agent for this state to dispose of them.

In 1811. I was prostrated with the congestive fever, in East Florida, and often have been ill with the first attack and a severe relapse, I was necessitated to repair to New York for the rehovery of my health, being much debilitated. I tried different physicians, and as many, medicines, but all to no purpose: I found my liver much affected, and dispepsia setting in with its worst form. I began to think my case was hopeless. I concluded to resort to travelling. Accordingly, I left the city of Albany; N. Y., for Cincinnati, Ohio. On my way through New York state I chanced to come across one of your agents at Newark, on the Eric Canal. I read one of your advertisements, purchased a box of pills, and to my utter astonishment f und myself partially recovered; on my arrival at Buffalo. I purchased some of your Agent there; at Cleveland, Ohio, visited your agent, the dry goods merchant—alked with him, and took several boxes: I soon found myself a well man, and concluded to return to my profession, namely, a Travelling Methodist Preacher.

Your obedient servant, W. B. BOUCK.
This is to certify that I found great relief in the use of one box of Wright's Indian Vegetable Pills, in the case of a severe pain in the band of a long standing.

Farmers' Department.

ROTATION OF CROPS.—There is living in Northampton county, Pennsylvania, on the banks of the Lehigh, a very aged man, whose succass in falling upon a system of rotation, by which he could obtain the greatest possible yield of wheat, in a given term of years, has caused it to be generally adopted in that fertile region. It is called Sheimer's system, after the discover, Jacob

Called Chemier a system, after the discover, Jacob Sheimer, whom I had the curiosity to visit at his most substantial homestead some years ago, and from whom I obtained the following account:

When a young man with a large family of children growing up around him, and dependent on him for support, he plainly perceived that under the rude practice then existing, he would not be able to maintain them. He had thought over his difficulties while following his plough, and at length he determined upon his plan, which followed up without faltering, has conducted him in the decline of life to case and raffluence.

When I saw him he had resigned the active duties of his farm to his, son, who was following in his footsteps; after having himself practised his system of rotation for thirty-five years, with a constant improvement in the quality of his land; which indeed had the unmistakable stamp of fer-

tility upon it. The farm contained one hundred acres, which was divided as nearly as possible into eight fields of 123 acres; each of which was carried through

1st year. Manured and limed; ploughed three times, in May, June, and August; harrowed and seeded one bushel and three pecks per acro of wheat, which was ploughed under.

2d. Clover seed sown on wheat in the spring,

harvest. 3d. Pastured clover in the spring, one bushel

nder second crop in August, and sowed wheat 6th. Wheat again, and tyo sowed on stubble. 7th. Sowed clover seed in the spring on rye.

ed corn; and next season recommenced. It will be observed that there were every year three fields in wheat, one with rye, one with corn, wo with clover, and one follow. The produce had one season reached as high as 1,400 bushels of wheat, 600 bushels of corn, and 400 bushels of

tye .- Morris Lonstreth's .1ddress. NANTUCKET-SHEEP SHEARING -To those who have not forgotten their geography and have ever learned any, it is known that Nantuckt is an island. Upon this island there are sheep which are not able to get off, because an island is

This fact is introductory to another, viz. that there are no fences in Nantucket, which naturally implies another fact, that the land in Nantucket is held in common. It is not much cultivated—for the reason perhaps that it is not worth it. The soil forms an integral unit of such infinitismal value, for agricultural purposes, as to be rather incapable of division and subdivision. Nevertheess it affords pasture for sheep; and as all the soil belongs to all the inhabitants so do all the sheep. No man can point to any particular sheep and say that is mine;" but as he contemplates the whole flock, working zealously for a livelihood in searching for grass, he rises to lofter ideas of proprietorship and recognizes his claim to an ded portion of all the sheep population of the

When the Summer Solstice approaches and the weather grows hot, a sudden pause occurs in the routine of affairs in Nantucket; an epoch is at hand; the people rise as one man and shear their sheep. The occasion forms a festive holiday. The people enjoy it very much while it lasts, and the

in Nantucket. The event gave rise to great enjoyment, which has set the younger portion of the community to calculating how long it will be before another shearing:

If the people of Nantucket do not make any

the sickle. An enterprising adventurous people, they have been sailors and fishermen for many generations. They shear sheep incidentally : primarily and characteristically they catch whales. GREAT IMPROVEMENT IN MAKING FENCE .- Mr. Mathias P. Coons, of Lansingburg, N. Y. is about to obtain letters patent for new description of fence, which promises to find favor all over the country. This invention consists mainly in the peculiar construction of a cast iron post and the manner in which the pannels of the fence are attached to the post, without the use of noils, pins or bolts, of any kind. The posts are inserted in blocks of wood or stone, to remain permanently; or the same posts and pannels may be used as a hurdle (portable) fence, and can be put down or taken up in less time than the bot-

1st. The durability of the cast iron post 2d. The cheapness and ease with which this fence may be constructed—as cheap as an ordinary post or board fence.

manent or hurdle fence, of all iron, for durability and ornamental, or of part wood and part iron, or all wood, and attached to the iron posts, on one and the same principle.

Phe Executive Committee of the New York State Agricultural Society, at a meeting last month, examined the model, and declare that the improvement of Mr. Coons is a valuable one, and deserving of encouragement. Contracts are already making with the patentes for fence of this description-and the Lansingburg Guzette says: ·From present appearances, and from all we can learn, it may be considered one of the greatest improvements of the age, and bids fair to cause a complete revolution in that branch of agricultural abor and expense; and we feel satisfied that the
