The trade remains without much change—the demand for Red Ash Coul for household purposes is on the increase, and the trade, since the reduction of Breadstuffs, wears a more favorable aspect. The only drawback at present, is a scarcity of vessels at Rich-

One of the Locomotives intended for the West Branch Rail Road, arrived at the Scales on Wednesday last. It was built for the Company by Baldwin, and is represented as being a beautiful specimen of workmanship. It weighs about 18 tons, and is labelled No. 1. We understand she is to use wood for fuel. If so, this is a great mistake. Wood is growing every year more scarce in the Coal Region, owing to the immense consumption for mining purposes, while Coal is in great abundance, and is used without any difficulty on the Beaver Mendow Road, which runs directly through it

A establishment are pronounced, by artists and scientific, men, unrivalled for depth of tone and softness of light, and shade, while they display all the artistic arrangement, of the highest effort of the panuter.

Citizens or strangers visiting the Gallery, can have their trinsitures of portrains taken in this unique style, and nearly set in Morocco cases, Gold lockets, or breastpins, &c., in a few mivitues. We copy the following from the Philadelphia Saturday Courier.

"American Superiously.—The public journals have, at different periods, a nnounced, as a remarkable proof of the skill and proficiency of American artists, that Dequerrectypes are now made in this city superior, in every respect; to those made in any of the European cities. This success of American artists was confirmed, in a very gratifying and conclusive manner, by Mr. Barnum's publicly stating, at the close of his Tom Thumb exhibition in this city, that Mr. Roothad made fifty-one kood pictures, with only a single faffore. In addition to which, Mr. R. has been furnished with the following conclusive certificate, signed, it will be perceived, by the conserved of Tom Thumb Mr. Barnum, his feater. conclusive certificate, signed, it will be perceived, by the parents of Tom Thumb, by Mr. Barnum, his teach-ers, and secretary, all of whom were with him in Eu-

**Philadelphia, June 4, 1847.*

The Daguerreotypes of Tom Thumb and his family, including his several teachere, footman, driver, equipage, &c., and his various costumes and characters, made by Mr. Mr. A. Root, (FIFTY-ONE in all,) present a degree of accuracy and truthfulness to nature, with a bold charm of outline, softness, expression, beauty, and delicacy of finish, and milform brillinner, that we have never seen equalled. They are, decidedly, superior to anything of the kind winessed by us either in this country or in London, Paris, or any of the cities of Europe which we have visited. We take pleasure in bearing testimony to the courtesy and skill so uniformly manifested by Mr. Root, the eminently successful Daguerre-typist. (Signed, E. STRATTON, (the Father.)

POTTSVILLE HIGH SCHOOL.

POTTSVILLE HIGH SCHOOL.

The Autumn term of this Institution will commence on the 6th of September next. The liberal patronage which has been bestowed on his school, and the considerable accession of pupils during the last year, has induced the Principal to procure two additional competent teachers; hoping that the character which will thus per year to the school will increase the number of pupils still more; so as to enable him to meet the heavy expenses which, will consequently be incurred and to carry out his design of establishing an Institution worthy of the most liberal support. The following will be the division of labor:

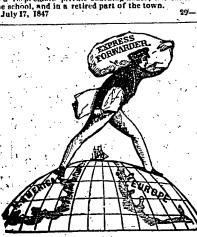

Mr. Elius Schneider, A. B.. Principal and teacher of the Ancient languages and Mathematics.

The Freach and German languages have been assigned to Mon. leur F. Perrin, a graduate of one of the principal Gymnasiums of Berne, Switzerland; and also a native of that yountry. Mr. Ferrin has had to isiderable experience in terching before his connection with this Institution. He teaches the French and German, according to Ollendorff's method, being able to speak both these languages with fluency

Mr. W. P. Koutz, a member of the Senior class of Marshall Ce-lege, will have charge of the department of Natural Science. History, and Elocution.

Mr E. Sagendorf, who has been already a year connected with the school, teaches the English branches.

The German is considered one of the most important branches of the school, and therefore, besides the annual recitations in this language, half an hour is spent every day with the German pupils in German disputations, and discussions. The exercises are conducted by two teachers, who, by exchanging the r ideas with each other in the presence of the pupils, lead them gradually to do the same, and thue enable them to speak the German soon. Persons from abroad, who may wish to send their sons to this Institution, will procure further information by writing to the principal. EX TERNAL REMEDY, CALLED

HUNT'S LINIMENT,

Is now universally acknowledged to be the infallible of the property of the Muscles, Fore Throat and Quiney, Issues, Old Ulcers, Pains in the Back and Chest, Ague in the Breast and Face, Tooth Ache, Sprains, Bruises, Salt Rheum, Burns, Croup, Frested Feet, and all Nervous Diseases.

The triumphant success which has attended the application of this most. WONDERFUL MEDICINE in curing the most severe cases of the different diseases above named; and the HIGH ENCOMIUMS that have been bestowed upon it wherever it has been introduced, gives me the right to call on the afflicted to resort at once to the only remedy that can be relied on.

A year has scarcely elapsed since I first introduced to the notice of the public, this WONDERFUL REMEDY, and in that short space of time, it has acquired a reputation that ronks it among. medicines as a great External Remedy the first ard best. It has acceived the approbation of the Medical Faculty and many citizens of influence and wealth have united and recommending it to the Public's use, as a medicine that can be safely resorted to for speedy relief. The high characteralready attained by this popular Medicine, has induced some base and evil minded persons to palm off a counterfeit as the genuine; and no doubt the country will be flooded with a spurious Hunt's Liniment. Be careful and examine well before you buy, and see you get

Thousands are now suffering the most intense agony, arising from maimed limbs, distortions of the frame, inveterate rheumatism; mmy of them, perhaps, have already given up in despair all attempts to obtair relief, after repeated and unsuccessful trials—but let 60 such feelings of despair be entertained—try HUNT'S LINI-MENT, it, has done wonders, as may be seen by reading the several cases reported in the pamphlets which are to be had of every Agent. Try it and despair not. But should you in carelessness, or incredulty neglect to seek for relief in its proper application, either for your-self orly our friends, then let the blaine be upon your-self only, for Providence has now placed within your reach a safe and certain remedy, which has already afforded relief to thousands, and whose healing properties are inconstible.

GREENFORT, July 10, 1846.

**Dr. Townsend: Dear Sir—It is with satisfaction that I say to you that I have recently witnessed, in several cases, the most beneficial results from your Extract of Sarsaparilla. Being engaged in the practice of medicine, I have prescribed it in several cases, and never without benefit. In the removal of diseases arising from a deranged state of the digestive organs, Jaundice, &c., it far exceeds anything of the kind ever before offered to the public. You will please send met two dozen.

Dn. TOWNSEND: Being afflicted with Dyspepsia, for a long time past, I have endravored frequently to eradicate it from the system by the use of Physic in various forms, but I found at last the more I used physic the weaker the organs of life became, rendering uncertain the prospect of affecting, a core. Recently this complaint developed itself fearfully, causing ulcerations about the throat and trachea, 'unpairing seriously the organs of life in their physical functions. In this state I was recommended to try your Barsaparilla Syrup; after using two bottles I find myself relieved from this complaint, and all its distressing symptoms. In my cake, by its life giving influence, it has its power to affect-a cure uncase of general functional derangement of the organs of life, impel me to recommend your Sarsaparilla to the afflicted.

MINERS' JOURNAL.

Saturday Morning, July 31, 1847. BY MAGNETIC TELEGRAPH! For the Mineral Journal Only.

Later from Mexico-Another B tile Fought-Com-missioners Appointed-Prospects of Peace. Philadelphia, 4 o'clock P. M. We learn via Richmond, Va., that the mail which arrived at New Orleans from Vera Cruz, on the 22d inst., brings the following important intelli-

gente: Gen. Pearce with 2500 men encountered, a large body of Mexicans at the National Bridge. A desperate battle ensued, the Mexicans however retained their ground, and Gen. Pearce was compelled to retire to Vera Cruz for reinforcoments. Another engagement took place at Huejuila, which resulted in lavor of the Americans, and 150 American prisoners, confined at that place, rere liberated.

The most important part of the news, is the apolintment of two Commissioners on the part of the Mexican authorities to negotiate with Mr. Trist, on the subject of Peace. The Peace party appears to be gaining ground in the Capitol, and it is stated that Santa Anna has been obliged to give into them. We sincerely hope that this part of the news may be confirmed.

STILL LATER BY TELEGRAPH! Philadelphia, & o'clock, P. M. The command under De Russey, who started o liberate the prisoners at Huejutla, and twice am-

buscaded, but they fought their way back to Tampice with a loss of 20 killed, 10 wounded and 2 nissing. The road between Vera Cruz and Puebla is inested with rancheros robbers, and assassing, and

several of the express riders have recently been murdered. General Taylor on the stump .- We learn that Gen. Taylor made a speech at Monterey or the 4th of July in reply to a complimentary toust

connecting his name with the Presidency. The markets is rather dull. New Pennsylvama Flour is selling at \$6. 5000 bls Western sold at \$5 624. Wheat is in demand at \$1 25 to \$1 30 per bushel. Yellow Corn 73 cents and Oats 55 cents per bushel. Provisions dull.

EIGHTEEN YEARS AGO - We accidentally met with a copy of the Philadelphia Daily. Gazette, a few days ago, dated February 8, 1830: The following item, which we clip from it, is in striking contrast with the present state of affairs in our burough:

BUILDING .- We learn that a great number of houses are framing in Philadelphia, for the purpose of being transported here on the opening of the canal. This is a novel way of proceeding, and it will be a curious item in a bill of ladingtaking out the freight for one house. We are pleased, nevertheless, to learn this fact, as it will tend to remedy the various inconveniences which new inhabitants now find for obtaining lodgings .-Miners' Journal. Iners Journal.

Ilere is another: "The following curious su-

perscription was observed on the back of a letter # few days since: To Mr. any where in the State of Pennsylvania or Mary-land; where there is Canal. Rail Road, or Bridge ouilding. The last time I saw him was in Cecil. county, hear the mouth of Conowingo Creek; Maryland, on the Susquelianna river.

THE SCHUYLKILL NAVIGATION .-Complaints reach us from every quarter, of the manner in which the affairs of the Sehtlylkill Navigation Company are conducted. There is a miversal dissatisfaction expressed, and this dissatisfaction has reached such a crisis as to break out in execrations of the fool-hardy course of the President of the Company, who seems to control it entirely, the managers,-like too many of our anking institutions - have surrendered up every thing to him. The obstructions to the business of the company, by a system of unequal and vexatious tolls, must eventually destroy the use-fulness of this great thoroughfare; and make it, what in fact it has already become, a mere tributary to the Railroad Company, which already manages its affairs as though their late powerful com-

etitor had no existence. We beg the managers to do their own managenent again, and put a stop, before it is too late, to he present system of experiments which must end in ruin.— Ger. Telegraph.

SNAKE STORY.—The story goes that the Clermont county folks have discovered a great sarpent in a mill pond near Batavia, Chio, It is lescribed as at least ten inches in diameter-with a head as large as a common sized horse's head, and at least twenty-five feet of the animal has been seen without discovering the fail. At the last accounts a large party of nieh, women and children were draining the pond. No Joubt the famous sea serpent has found a subterrencous carern, and made his debut there: 🋫

The New York Tribune relates the folowing chapter of accidents as having occurred in that city : "One day last week two oninibus horses fell down dead from the heat in the Bowery. nct far from Stanton street. A cart was procured to remove them; they were loaded on, but the cartman had too confier started his vehicle than its atle broke. The horses were then removed to it started and fell as dead as the two it was attempting to draw. Finally, two other carts succheded in remiving the three careasses.

They Samuel Bowmon, D. D., the estimate the Rector of St. James's Church Lancaster, Pa., Bas been unammentally elected Bishop of the Episcopal Diocese of Indiana.

A SWEDT ITEM.—Twenty-six thousand tons of sugar have been landed on the wharves of Philadelphia since the first of January. Little over six months.

A premium of \$1090 has been offered by the Loyal College of Chemistry, for a discovery

by means of which iron, when applied to ordinary purposes, may be rendered as little frable to rust as copper. NICE DISTINCTION -A Judge at Charlestown, Mese, discharged a prisoner last week from custody because the world slore was used

n the indictment of the Grand Jury instead of shop! SMALLER STILL .- The trustees of Saratoga village, N. Y., would not allow Tom Thumb to give his exhibitions without texing him \$25 per

lay as a license. If The wheat crop in the valley of the Susquehanna is very poor. The hay a fair crop ;
rye very good, oats excellent. Corn and potatoes ever looked better; the former is in blossom.-Fruit promises abundant yield.

We observe, with regret, the death of Mr. of Representatives, from Mauch Chunk, in Case, bon county.
