HANCE'S SARSAPARILLA,

HINTS TO FARMERS .--- 1. Tomators make excellent preserves. 2. Toads are the very best rotection of cabbage against lice. 3. Plants, when drooping, are revived by a few grains of camphor. 4. Pears generally improve by graft-ing on the mountain ash. 5. Sulphur is valuable in preserving grapes, &c., from insects. 6. Lard never spoils in warm weather, if it is cooked enough in frying out. 7. In feeding with corn 60 lbs. ground goes as far as 100 lbs. in the kernel. 8. Corn meal should never be ground very fine. It injures the richness of it. 9. Turnips of smill size have double the nutricious matter that large ones have. 10. Ruta Baga is the only root that increases in nutricious qualities as it increases in size. 11. Sweet olive oil is a certain cure for the bite of a rattlesnake. Apply it internally and externally. 12. Rats and other vermin are kept away from grain by sprinkling of garlic when packing the sheaves. 13. Modey skilfully expended in drying land by draining of otherise, will be returned with ample interest. 14. To cure, sgratches on a horse, wash the legs with warm soabsuds, and then with beef brine. Two applications will cure in the worst case. 15. Tim-

ber cut in the spring and exposed to the weather

with the bark on, decays much sooner than if cut

in the fall. 16. Experiments show apples to be

equal to potatoes to improve/hogs, and decidedly

preferable for feeding cattle. 17. Wild onions

may be destroyed by cultivating corn, ploughing and leaving the field in its ploughed state all

A LANCASTER COUNTY STEER. Mr.

Tobias Stehman, of Conestoga township, Lancas-

ter county, Pa., has now feeding a mammoth

steer, which he raised from a calf, and is said to

be the largest ever fed in that county, his weight being about 4,000 pounds. When twenty threes bours old he weighed 112 pounds, and is now in this seventh year. He is 9 feet 9 inches in length,

and measures around the body 9 feet 8 inches, and is 3 feet across the haunches. Mr. Stehman

has also another steer from the same mother, which,

though now three years younger, promises to overtop his mammoth brother. He is now as

high but not so heavy as the mammoth. When 28 hours old his calfship weighed 122 pounds .-

ANEW MODE OF PREPARING CREAM

FOR CHURNING .- When cream is being col-

lected for churning; as soon as the first skimming; is put into the vessel, add at the rate of half a-

pint of vinegar to each gallon of cream. Suppose you churn six gullons at a time, and collect only

one gallon per day, put eix half pints of vinegar.

in the vessel, at once, to the first day's cream;

and so in proportion to any other quantity. Let. all the vinegar for the whole churning be added

to the first collected cream. I had this from a

friend who supplies a large quantity of butter of

the best quality to one of the crack shops at the

west end. [Has anyhody ever tried this in the United States ?]-Gardeners' Chronicle.

PEACH PICKLES .- One of the most celi-

cious pickles ever tasted is made from ripe Cliag-stone Peaches. Take one gallon of good vinegar

and add to it four pounds brown sugar; Soil this for a few minutes and skin off any scum that may

rise; then take Cling-stone Peaches that are full

ripe, rub them with a flannel cloth to remove the

down upon them, and stick three or four cloves.

in each ; put them into a glass or earthern vessel.

and pour the liquor upon them boiling hot. Co-ver them up and let them stand in a cool place

for a week or ten days, then pour off the liquor:

and boil it as before; after which, return it boil-ing to the peaches, which should be carefully co-

HOW TO MAKE GOOD TEA.-Boil min

water and pour upon your tea, letting it steep-from one to two minutes if you wish to realize the 'true taste of the "plant divine." Well, river, or spring water, in many parts of the country, is

strongly impregnated with lime, which acts chemically upon the tea leaf, and greatly deteriorates,-

or destroys its fine aromatic flavor. In fact, wa-

ter, containing lime, or much vegetable matter in

solution, has more or less effect upon all kinds of

cookery. Besides it is highly injurious to the health of some persons .. - Am. Agriculturist.
