The quantity sent this week by Rail Road is 24 249 03 and by Canal; 7,366 14—total for the week, 41,615 17 tons—total by Rail Road, 813,779 05—do. by Canal, 121,956 14. There is an increase this week over last week on both Canal and Rail Boad.

The Managers of the Schaylkill Navigation Company

have given notice that all deductions from the present rates of toll will cease on the first of September, and that the rates of toll will be increased 10 cents per ton

on and after the first of October.

Motive power was introduced on the West Branch of Rail Road on Monday last, and on Wednesday 650 cars passed overthe scales, containing 3,007 14 tons of coal. This is the heaviest business ever done on this road in any one day. Six locomotives are now running, but these are inadequate to the trade and the requisite number required will be procured by the Company as speedily as possible. Mr. John B. Newell, an experienced Machinist of Philadelphia, has been appointed the Superintendent of Motive Power.

Very little variation has taken place in the price o freights since last week. We quote as follows:

The Great Preventive Medicine. THOUGH Wright's Indian Vegetuble Pills have achieved triumph upon triumph, in the cure of obstinate cases of disease, even after they had been entirely given up, and after all other remedies had failed, yet their power of prevention may be justly esteemed their CRO'NING GLORY!

"Storms," it is said, "purify the air," but storms do mischief also, and are so far an evil. Were it within human power to maintain the

ELECTRICAL EQUILIBRIUM
between the earth and air, their would be no occasion

ELECTRICAL EQUILIBRIUM
between the earth and air, there would be no occasion
for atorms, for the air would always be pure.
So of the human body. If kept free from morbid humors, the action is regular and healthy; but if those
humors are allowed to accumulate, a crisis, or, in other vords, a storm, will arise, which is always more or les dangerous.
WRIGHT'S INDIAN VEGETABLE PILLS

WRIGHT'S INDIAN VEGETABLE FILES are equally well calculated to present the storm, or to allay it when it comes. But PREVENTION IS BETTER THAN CURE, besides being cheaper and less troublesome. The delay of a day in the commencement of sickness has often proved fatal, and always renders the case more difficult to manage. Let the sickness be caused by CHANGES OF WEATHER, which living want of accreise flose confinement, func-

to manage. Let the sickness be caused by CHANGES OF WEATHER, high living, want of earcise, close confinement, functional derangement, or anything else the effect upon the body is much the same—is equally dangerous, and is removable by the same means.

HAVE YOU A COLD?

Let it not ripen into Consumption! Are you Dyspeptic? Beware of the hypochondria. Two pills taken every other night on an empty stomach, for a short time, will, in nine cases out of ten, cure the Dospepsia, and thereby drive away the legion of "devils blue." For Headache, no medicine is superior to Wright's Indian Vegetable Pills. Costiveness, that prolific mother of disease, is caused by a torpid state of the liver, which these pills effectually cures:—By striking at the root of disease, Wright's Indian Vegetable Pills prevent all and cure all. They can hardly ever be taken amiss, if used with common discretion; and we commend them to the use of those who have not yet tried ihem.

The Yellow Fever is on the increase at New

The Market remains paralyzed since the arrival of the steamer. Flour is held at \$6 without any sales. In New York Flour is active at \$5.50. Mixed Corn 73 cents, Baltimore Flour dull at \$6; Corn 70; White Wheat 127; Red 117. The report by yesterday's mail of Gen. Scott entering Mexico with a loss of 1100 men, is not confirmed.

We regret to notice in the last number of the Stimme dee Volks, a lack of gentlemanly breeding, on the part of the editors, that we were not quite prepared for. To charge us with felenhood because a mere typographical error occurred in the publication of the law, in which a few words were left out unintentionally, is, we think, charging more than the nature of the case required, and more, perhaps, than Mienheer Frailey would like to account for. It also shows a last mentable deficiency in argument, in commenting on the law. In April last, we expressly stated that it required the jail to be erected at the expense of the county, on the ground that a new jail is required and must be erected under thy circumstances. We, nor the friends of Removal have never attempted to conceal this feature of the Bill. The Grand Jury have frequently teported against the present structure,-it is understood by the friends and opponents of Removal that a new jail must be built, and if the opponents of Removal should carry this fall we have no hesitation in declaring that they will proceed at once to the erection of a jail, on a large scale, at the expense of the county, in the same manner that they enlarged the Court House. The only question, now is, whether it shall be built at Orwigsburg at heavy expense to the county, for the sake of barring the Removal Question in the future, or in Pottsville, where no such security

would be desirable or necessary.

It is our object to discuss this Removal business in a dispassionate and good humored spirit if Mienticer Frailey is disposed to reply to us in sbuse and slang only becoming blackguards, we may be compelled to notice him in a manner cast congenial to his taste.
