A life on the raging cannwi,
A home on its muddy deep,
Where through sunnyer, spring and fall,
The frogs their revels keep.
Like a fish in a hook't pine,
On this dull dundanging shore— Oh, give me the packet line, ... And the muddy canawi's dull roar !

Once more on the deck I stand, Of my own swift gliding craft— The horse trot off on the land, And the boat follows close about.

We shoot through the turbid foam,
Like a bull-froz in a squallAnd like the frogs, our home
We'll fight in the muddy canawi! The sun is no longer in view.
The clouds have begun to frown.
But with a bunper or two.
We'll say lot the storm come down?
And this song we'll sing, one and all,
While the storm around us pelts.
A life on the muddy can aw!,
Oh, we don't want "nothing else!"

Wit and humor!

A CAPITA I. ANECDOTE .- Professor Risley, who is now in Italy, says that recently, when he was in Venice, an American captain and an Englishman met at dinner.
'You are on American sir!' said the Englishman. Treckon I am,' returned the captain. 'You have the name of being good warriors!' 'Yes,' said the Yankee, 'we shoot pretty well.' But how is it you are so anxious to make peace with Mexico?--this does not appear much like spunk,'
'You are an Englishman?' interrogated the Yankee, 'Yes, replied the Englishman, 'Well,' said the Yankee; I don't know what our folks liave offered to do with Mexico; but stranger, I'll jest tell you one thing-I'll he if we ever offered to make peace with you! This home thrust at the Englishman, set the whole table in an uproar

A PROFITABLE BLUNDER .- When Isaish Thomas, printer of the Farmer's Almanac. was called upon by a printer's devil to know what he should put against the 13th July, Mr. T. replied, "Apything," upon which the boy set, "Rain, haif and snow," at which the country was amazed, but it so happened that it actually rained, hailed and snowed on that day, and proved a profitable storm to the proprietor of the Almanac for the future numbers.

ToMy dear, where is my Morning and Even ing Devotions," said Mr. Paul Parington; meaning a small book with that title, in which he was

"Hero it is," said Mrs. Parington, producing dark bottle from the closet; "here it is in the bottle." He looked intently in her face, to see if malice was actualing her, but all there was calm; and, rather than destroy how apparent satisfaction at obliging him, he refrained from explanation and

III In ridicule of the practice of duelling, Franklin used to tell the following story: One person said to another in a coffee house-"Sir, sit a little farther off, you smell offen

"Sir," answered the person addressed, "this is an affront, and you must fight me." "I will fight, if you insist upon it," rejoined the first : "but how will that end the matter ?-If you kill me, I shall smell too; and if I kill you you will smell worse than you do at present?

GENTILITY .- Debby, the door bell rings, and you must run light the match and touch the shavings, and let the burnt stick and brands get on fire in the fire place, or they will think we don't keep a fire in the sitting room, and that would not be genteel. "Yis'm,-there-it is all roaring, and the bell rings again-shall I go now ?"

"O, lordy marm, it was only a pedler" "A pedler, confound him-take the fire apart and get ready for another alarm."

GRAY,-The poet Gray was notoriously fearof fire, and kept a ladder of ropes in his bed bridge knowing this, roused him from below in the middle of a dark night, with the cry of fire The staircase they said was in flames. Up went his window, and down he came by his rope ladder as fast as he could into a tub of water, which they had placed to receive him.

or George Selwyn once affirmed in company that no woman ever wrote a letter without a postscript. My next letter shall refute you, said Lady G. Selwyn. Soon after he received a letter from her ladyship, when after her signa-ture, stood P. S.—Who is right now, you

"Tom, my covey, what are you doing with that 'ere dog?" "It's all in my line, d'ye seefor I've sot up bizziness, and drives it all the for I've sot up hizziness, and drives it all the time." "Then what is your line of hizziness?" order. The farm will be sold a bargain to any person in want of one. "For terms and other particulars apply to WILLIAM PATTON. gets the reward. This dog belongs to that gentleman in the chase yonder. When he sees the dog gone, he offers a reward in the newspaper,

THE DIFFERENCE .- " A little mage ani mation, my dear," whispered lady B. to the gentle Susan, who was walking languidly through a quadrille. "Do leave me to manage my own business, mamma," replied the provident ny mph. "I shall not dance my ringlets out of curl for a married man." " Of course not, my loves but I was not aware who your partner was.""

SERIOUS CONSIDERATION .- An un married lady on the wintry side of fifty, bearing of the marriage of a young lady, her friend observ ed with a deep and sentimental sigh, " Well, I suppose it's what we all must come to?"

What consummate tolly! Half a dozen brothers, four uncles, and a grey-headed father, trying to stop a young girl from getting married to the man she loves, just as though rope ladders were out of date, and all the horses in the world

were spayined!" "Tom, is there much water in that pail?"
"No, there is only a few." ". Well, bring them along, will you ?" "Yes, as soon as I can pour her out."

A loguacious blockhead, after habbling som time to Aristotle, observed, that he was fearful was intruding on his ear. No, no, replied Aristotle, I have not been listening.

Two well-dressed shoemakers being in the company of some gentlemen, were asked their profession: says one of them. I practice the heeling art, and I, says the other, labor for the good

"Sammy," said a tender-hearted mother to her little son, " what on earth did you throw that kitten in the well for ?" "O, coz I was cruzy !"

"Come to your ma, you little cherub." IF A man took off his coat to show a terrible wound he had received some years past. "O!" said he on not being able to find it, "I remembe

now; 'twas my brother Bill's arm.' "I loved my wife at first," said a wag, 'and for the first two months I felt as if I could eat-her up. Ever stace then I've been sorry I didn't!

Diel you ever sit down to tea where skim milk was on the table, without being asked, "Do you take cream, sir !"

The editor of the Ohio Cultivator is getting quite postical. Hear him:

"We never loved a charming critter," But some one else was sure to git her." India Rubber Goods.

Orwigsburg, July 21, 1847 Valuable Steam Mill &c; for Sale.

Naturable Steam Mill & C. for Sale, IN PORT CARBON.

The subscriber offers for sale his STEAM MILL, situated in the town of STEAM MILL, situated in the town of the subscriber offers for sale his STEAM MILL, situated in the town of STEAM MILL, situated in the town of the stories, high, with a one story stone engine house attached. There is also a frame building connected with the mill 32 by 50 feet extending across the river Schuylkill, for storing grain &c. The mill has three run of stones, and an excellent engine. Also a landing 95 feet front on the Schuylkill Canal, at the head of the Navigation, extending back to the Schuylkill Vailey Rail Road, on which is erected a large store house, stables, and a coofer shop. Alithe buildings including the mill &c., are in-excellent condition, and furnished in the best manner.

This groperty is situated at the head of Canal Navigation, and at the junction of the Mill Creek and Schuyl-kill Vailey Rail Roads, beyond of which to mention. This groperty is situated at the fiend of Canal Navigation, and at the junction of the Mill Creek and Schuylkill Valley Rail Roads, a branch of which runs within 20 feet of the door of the mill. Bodis by the Canal-run directly under the mill, and discharge their cargoes of graif &c., through hatchways into the mill above, or on the landing below.

All the flour and offals can be disposed of at the mill door at the highest market price as fast as manufactured, and, when taken into consideration that it is the only mill located in that portion of the Coal Basin, accessary both by Canal and Rail Road, and connecting with the Mill Creek and Schuylkill Vafley Rail Roads, so that grain can be received and the products disposed of at the door, without any transportation, it is, unquestionably, one of the most desirable mill properties ever offered for sale. The terms will be made casy to the purchaser. purchaser.

As the subscriber has made arrangements to engage in another business, if not sold in a reasonable time, it will be offered for rent.

For further particulars apply to, or address, post paid, L. F. WHITNEY, Port Carbon.

All of the above goods can be seen at the Clothing Store, of Messrs, LIPPINCOTT & TAYLOR, April 17, 1817; 16- Pottsville. POTTSVILLE HIGH SCHOOL THE Autumn term of this Institution will commence on the 6th of September next. The liberal patron age which has been bestowed on his school, and the are which has been bestowed on his school, and the considerable accession of pupils during the last year, has induced the Principal to procure two additional competent teachers; hoping that the character which will thus be given to the school wil increase the number of pupils still more; so as toenable him to meet the heavy expenses which will consequently be incurred and to carry out his design of establishing an Institution worthy of the most liberal support. The following will be the division of labor:

Mr. Elias Schneider, A. B., Principal and teacher of the Ancient languages and Mathematics.

The French and German languages have been assigned to Monsieur F. Perrin, a graduate of one of the principal Gymnasiums of Berne, Switzerland; and also a native of that country. Mr. Perrinhas had considerable experience in teaching before his connection with this Institution. He teaches the French and German, according to Ollendon'll's method, being able to speak both these languages with duency.

Mr. W. P. Koulz, a member of the Senior class of this institution. He teaches the French and German, according to Ollendorll's method, being able to speak both these languages with fluency.

Mr. W. P. Koutz, a member of the Senior class of Marshall College, will have charge of the department of Natural Science, History, and Elocution.

Mr. E. Sagendorf, who has been already a year connected with the school, leaches the English branches. The German is considered one of the most important branches of the school, and therefore, besides the usual recitations in this language, half an hour is spent every day with the German pupils in German dispirations, and discussions. The exercises are conducted by two leachers, who, by exchanging their ideas with each other in the presence of the pupils, lead them gradually to do the same, and thus enable them to speak the German soon! Persons from abroad, who may wish to send their sons to this Institution, will procure further information by writing to the Principal. Arrangements have been made to accommodate a certain number of persons in a respectable private boarding house, not fat from the school, and in a retired part of the town.

July 17, 1817

Notice Is hereby given that an application will be made to the next Legislature, for a Bank to be located in the borough of Minersville. Schuylkill County, to be called the Mechanics Bank of Schuylkill County, with a capital of Obe Hundred and Finy Thousand Dollars, and the privilege of increasing it to Two Hundred Thousand Dollars, Signed SAMUEL KAUFFMAN, MICHAEL WEAVER, ABRAHAM TROUT, SAMUEL HELLNER, JAMES B. PALLS, JONAS BAST, Minersville, July 3, 1847.

M'ALLISTER'S

14:11

ALL-HEALING OINTMENT,

INSENSIBLE PERSPIRATION.

INSENSIBLE PERSPIRATION.

THE preceding figure is given to represent the insensible Perspiration. It is the great EVACUATION for the impurities of the body. It will be noticed that a thick cloudy mist issues from all points of the surface, which indicates that the perspiration flows in the transpiration flows with the transpiration flows in the transpiration flows when we are sick. Life cannot be sustained without it. It is thrown off from the blood and other juices of the body, and disposes by this means of nearly all the impurities within us. The language of the Scriptule is, within us. The language of the Scriptule is, within the blood is the Lite. If it ever becomes impure it may be traced directly to the stoppage of Insensible Perspiration. Thus we see all that is necessary when the blood is stagnant or infected, is to open the pores, and it relieves itself from all impurity instantly. Its own heat and vitality are sufficient, without one particle of medicine, except to open the pores upon the surface. Thus we see the folly of taking so many internal remedies. All, practitioners, however, direct their efforts to restore the insensible perspiration. The Thompsonian, for instancé, steams; the Hydropathist shouds us in wet blankets; the Homespathist deals out infinetesmals; the Ailopathist Deeds and doses us with Pills; pills! Pills!!!!

Theans.

I have had physicians, learned in the profession, I have had physicians, learned in the profession, I have had pinisters of the Gospel, Judges of the bench, Aldermen and Lawyers, gentlemen of the highest crudition, and multitudes of the poor use it in every variety pof way, and there has been but one voice—saying r Ointment is good.'
CONSUMPTION.

It can hardly be credited that a salve can have any effect upon the lungs, seated us they are within the system. But, if placed upon the chest, it penetrates directly to the lungs, separates the poisonous particular that are consuming them, and expels them from the nystem.
Insed not say that it is curing persons of consumption continually, although we are told it is foolishness, care not what is said, so long as I can cure several housand, persons yearly;

HEADACHE.

The salve has cured persons of the headache of 12 years standing and who had it regularly every weeks that vomiting inten took place.

Deafness and Ear-ache are helped with like suc-RHEUMATISM.

it removes almost innicidiately the inflamation answelling, when the pain ceases.

COLD FEET. Consumption, liver complaint, pains in the chest or side, falling off of the hair, one or the other, always accompanies cold feet. It is a sure sign of diseasein the system to have cold feet. The salve will cure every case.
In Scrofula, old sores, crysipelas, salt theum, liver complaint, sore eye eyinings, sore-threat, broachitts, broken or sore freast piles; all chest diseases, such as exthma, oppression, pain—also, sore lips, chapped frands, tumors, custaneous cruptions, nervous diseases, and of the spine there is probably no medicine now known, so go

We have cored cases that actually defied every thing known, as well as the ability of 15 or 20 doctors. One high told us he had spent \$100 on his children without any benefit, when a few boxes of the Ohitment cured

BURNS It is the best thing in the world for Burns, (Read the directions around the box.) WÖRMS. If parents knew how first most medicines were to children taken inwardly, they would be slow to resort to them. Especially intercutial loganges, and medicated loganges, and medicated loganges, are mining pills, &c. The truths, no one can tell, invariably, when worms are present.—Now bet me say to parants that this salve will always tellifa child has worms. It will drive every vestige of them away. [Read the directions around the face of the carth at once so sure and so safe in the face of the carth at once so sure and so safe in the face of the carth at once so sure and so safe in the face of the carth.

CORNS. Occasional use of the Ontment will always keep corns-from growing. People need never be troubled with them if they will use it

JAMES McALLSTER & Co.,

Sole Proprietors of the above medicing:

CAUTION.

As the All-heating Outlinent has been greatly counterfeited, we have given this caution to the public that no Ointment will be genuine unless the names of James McAllister, or James McAllister & Co., are written with a pen upon every label.

57 Price, 25 cents per hox.

CLEMENS & PARVIN, Agents, Pottaville, Pa.ly DEAFNESS CURED.

DEAFNESS CURED.

Scurpa's Compound Kreosote Acoustic Oil
Folk the cure of Deafoess, pains and the discharge
of matter, from the ears; also all those disagreeable noises like the buzzing of insects, falling of water,
whitzing of steam, &c., which are symptoms of appreaching deafness, and also generally attendant with
the disease.

HERE is something worth attending to coming as it
does from a man so extensively known as is Mr. Graeff
bothin city and country.

"Thereby certify that from the effects of a severe
cold fast winted, Thecame partially deaf, attended with
very disagreeable noises like ringing of bells. Se, which
gradually increased, until completely lost the hearing
of one ear,—when I was induced to try Scarpa's Acoustic Oil, and am now happy to say, that with the use of
one hottle of the above, medicine I can hear as well as
ever, and all disagreeable noises have entirely disappeared. Any further information respecting my case,
will be gladig given, by calling on me at No. 45 North
Fifth street near Race.

Philadelphia, Nov. 11, 1813.

sting certificates of cures.
December 12, 1846 £ 50 .1 y SARAPARILLA & VEGETABLE BLOOD PILLS

In consequence of the increasing demand for Dr. Leidy's Blood Pills, and the encouragement by the

public in employing them, in preference to all others, the proprietor was obliged to have constructed a machipe, which would make them more rapidly and with test labor, consequently less expense than heretofore chipe, which would make them more rapidly and with less tabor, consequently less expense than heretofore. Having effected so desirabte an object, and that the public may share, the benefits of such great improvement in Pili nacking, his boxes will henceforth contain FORTY PILLS IN A BOX, and the price the same as heretofore, namely:—Twenty five cents a Box—five Boxes for One Dollar!

Dr. Lendy's Sarsaparilla and Vezetable Blood Pills have, during the past few years, been more successfully employed throughout the United States, Mexico and the West Indies, than any others, and the rapidly increasing demand for them is unparalleled.

They are, the only Pills if existence, known to contain Sarsaparilla in them, the proprinter only knowing how to combine the Sarsaparilla with other substances in form of pills.

in form of pills,

IF PILLS ARE NECESSARY or purging or cleansing the stomach and howels, for purifying the blood or fluids of the body, as an alternative for removing the causes of disease, and arreswill be found more effectual than any other.

YOUNG AND OLD, MALE OR FEMALE. will be found more effectual than any other.
YOUNG AND OLD, MALE OR FEMALE,
'may at all times take them without change of living, restraint from occupation, or fear of taking cold from exposure to all kinds of weather, for they contain no mercury or minerals, which are contained in other pills, and which make other pills so unsafe or dangerous to take, and uncertain in their effects.

PERSONS OF AIL CONSTITUTIONS whether feeble or dehilitated, or of robust and strong constitution, can take them without prostrating or debilitating the system; they operate so effsy and gentle, yet effectual, that little inconvenience is caused in taking them.

THEY ARE GOOD AT ALL-TIMES for all diseases of whatever nature or kind.
Caution is necessary. He sure at all times to ask for

THEY ARE GOOD AT ALL-TIMES
for all diseases of whetever nature or kind.
Caution is necessary! Be sure at all times to ask for
and take no others than Dr. Leidy's Blood Pills. All
others by names nearly similar, are spurious, and calculated to deceive; the proprietors of them thinking
to sell them on the reputation of the genuine, bona-fide
and only true Saisaparilla and Vegetable Blood Pills of
Dr. Leidy.

As Beware of such imposition, fraud and trickery.

Touch them not, much iess take them, for being manufactured to deceive the public of their money, they
will besides deceive the body and your system by their
effects. Remember ! 40 Pills in a Box for 25 cents—Five Boxthe box.)
To be had in Pottsville at JOHN S. C. MARTIN'S Drug Store. Also, at JOHN G. BROWN'S

Drug Store, May 23, 1816. VIEWS OF POTTSVILLE. A few Views of Potte-ville remain unsold at BANNAN'S Book store— This is acknowledged to be one of the most beautiful Lithographic views ever published. Five or six colored Farmers' Department

PROFITS OF FARMING .- Mr. James Gowan, in the Farmers' Cabinet, gives the following as the business and profit of a farm of 100'

Beres:. "I raised no less than one hundred and twenty tons of hay-say \$18 per ton is

S2.160 on. 400 bushels of wheat at \$1 00 400.00 300 do rye, 240 00 40 00 600 00 do corn, 500 do potatoes, 374 00 carrots, 350 00 ruta-baga, - 25 150 00 300 do sugar peas, 50 500 do turnips, 123 15 hogs slaughtered, weighing 45 600 340 00 C., at \$5 per C., 225 00 Cattle, calves and pigs sold. Actual sales of milk and butter, over 1,400 00-

ndependent of milk and butter, meat and regetables, poultry and fruit for family consumption. While producing this, I maintained upon the farm upwords of fifty head of cattle, seven borses, and some thirty head of swine, and the outlay iscurred for feed during the year 1845, was about three hundred dollars of ship stuff or middlings, which was principally fed to the horses with finely cut timothy hay; and part made into slop for the swine. The horses had no other fodderthey get neither corn nor oals, and the hogs when fattening had little else but imperfect cars of corn, little slop, and occasionally small potatoes cook-

ed for them. How can H. S. or any of his brother farmers of the old and easy going school make a better exhibit in proportion to their outlay, and the num-ber of acres they hold? If they can, I should be pleased to see it, and to be permitted an opportunity of examining into their practice the condition of their land, the character of their stock, &c., while I here invite him to visit Mount Airy, and judge for himself. The stock now consists of 52 head of cows, heifers and calves, principally: thorough bred Durhams; five brood sows, and twenty shoats, to be fed for next winter's slaugh.

GOOD FARMING .- Here is the secret of good farming. You cannot take from the land more than you restore to it, in some shape or other, without ruining it, and so destroying your capital. Different soils may require different modes of treatment and cropping, but in every variety of soil these are the golden rules to attend to :- Drain until you find that the water that falls from heaven does not stagnate in the soil; but sruns through it and off it freely. Turn up and till the land until your foot sinks into a loose powdery loam, that the sun and air readily pass through. Let no weed occupy the place where a useful plant could possibly grow. Collect every particle of manure that you can, whether liquid or solid. Let nothing on the farm go to waste. -Put in your crops in that course which experience has shown to lead to success in their growth, and to an enrichment and not impoverishment of the land. Give every plant room to spread its roots in the soil, and leaves in the air.

THE LONGEVITY OF TREES.-A writer in the Edinburgh Philosophical Journal, alluding to the longevity and size of trees, states that in Britain there are still extant and growing Oaks, and probably Elms, which were planted before the Conquest: i. e. more than eight bundred years ago. And there are Yew trees much older still. There are some at Fountain Abbey, near Ripon, in Yorkshire, which are believed to be more than 1200 years old; two in the church-yard of Crowhurst, in Surrey of 1,450 years; one in Braybourn churchyard in Kent, is said to have attained the age of 3,000 years, and another a Hedsor, Ducks county, which is full of vigor and measures twenty-seven feet in diameter, appears to be upward of 3,200 years old.

POISONOUS PROPERTIES OF BRINE. -It is a fact worthy of notice that the brine in which pork or bacon has been pickled is poisonous to pigs. Several cases are on record in which these animals have died in consequence of a small quantity of brine having been mingled that it would answer the same purpose and be equally as beneficial as in the admixture of small quantity of salt .- The Pig, by Youatt.

TO MAKE CORDIAL .- Cordial made by the following recipe received a premium at the last meeting of the Prince George's Agricultural Society of Maryland :- " Put a large jar of blackberries in a pot of water; boil till the juice leaves the berries-strain through a flannel bag; aid spices, sugar, cinnamon, and cloves to the trete. After adding these ingredients, put on again and boil ten or lifteen minutes, then skim it and let it get cold. To three quarts of the juice add que quart of the best French brandy."

AN IMPROVEMENT IN BREAD MAK-ING .- Persons who are so unfortunate as to be poorly provided with those agents of mastification, good teeth, will be glad to know that there is a method of baking bread which obviates the necessity of hard crust. The crust commonly attached to the load is not only troublesome to such persone, but it is often the cause of much waste? The way to be rid of it is as follows: When the loaves are moulded, before they are set down to "rise," take a small quantity of clean lard, warm it, and rub it lightly over the loaves. The result will be a crust beautifully soft and tender throughout. This is not guess work .- Prairie Farmer.

COAL ASHES .- These, in the proportion of 100 hushels to the acre, form an excellent, top dressing for meadows. Besides alumnia both soluble, they contain lime, magnesia, oxide of manganese and oxide and sulphuret of iron. We have applied them on stiff clays, in grass, with most excellent effect, and therefore, speak of their efficacy from our own personal experience .- Am. Farmer.

THE OAK .- The darability of oak may be known from the fact that the throne of Edward the Confessor is 800 years old; one of the oaken coronation chairs has been in its present situation Westminster Abbey about 540 years, and the oldest wooden bridge of which we have any account is of oak; it is that famous for its defence by Horatius Cocles, and which existed 400 years before Christ.

JUST SO .- Voltaire's saying, in answer to a stranger who was observing how tall his trees grew-" That they had nothing else to do"-was quaint mixture of wit and humor. FIRE IN A CHIMNEY .- Put a wet blan-

ket over the whole of the front of the fire-place, which will stop the current of air, and so extin-

An acre of ground, planted with potatoes, will support three times as many people as an acre planted with wheat.
